It is pointed out that this would place an exhorbitant levy on the agents, and would form a precedent which if adopted by other cities and towns would seriously handicap their business. They already pay a provincial tax, they reminded the council, and this new assessment would be superfluous.

The deputation was made up of members of the Life Underwriters' and Life Managers' Associations.

## PROGRESS SHOWN IN CANADA'S TRADE

### Past President of C.M.A. Gives Cheerful Survey of Conditions.

In the opinion of W. S. Fisher, of St. John, N.B., and past president of the Canadian Manufacturers' Association, who was in Toronto on November 2, after making a trip from coast to coast to study the situation in the Dominion, the general trade conditions throughout Canada are reflecting a healthy note. With the worst part of the depression over and business conditions on the upgrade the outlook is for a gradual and steady increase towards better times.

### Lumbering Hard Hit.

Dealing with trade conditions from coast to coast, Mr. Fisher touched upon the Maritimes, and pointed out that this part of Canada has suffered considerably in the past two or three years, owing to the falling off in the fishing and lumbering industry. This was due to the keener competition in the overseas markets, where nations, which were put out of the European markets during the war, have come back stronger than ever and are contesting keenly for the trade which Canada was able to win while the war was on. The Maritimes felt the contest and lost some of their markets for fish and lumber; but now he has hopes that they will be able to regain them gradually. So far as this season is concerned, Mr. Fisher was able to report that there is still a big market for the Maritimes apples, and since that is one of the big crops, it meant much to the provinces as a whole.

Speaking of the West, Mr. Fisher admitted that while the crop is a fine one, the big drawback is the low price for wheat. The farmers have felt that, and there is a certain amount of discouragement. The general result is that, owing to low prices and the open Fall, which has kept the farmers at their work in the farms, money has not yet begun to circulate freely through the western provinces. So Mr. Fisher felt that the real affects of the fine crop will not be noticed until the Winter or next Spring, when the farmers will begin to buy more freely. Still, on the whole, the fact that there are such large shipments of wheat is working out favorably, as it means greater employment in the cities, on the railways, at the grain elevators, and in all those lines where the effects of wheat shipments are felt.

### B.C. Apples Suffer.

Touching upon the situation in British Columbia, Mr. Fisher regretted that the Okanagan Valley, the big fruit centre of the province, is once more experiencing a period of anxiety. The difficulty is that it is hard to find markets, though the apple crop has been a remarkably good one. Ordinarily the Centre West is the market for British Columbia fruit, but now the fruit of Washington and Oregon has stepped in ahead of it, with just enough time to spare to get control of the Centre Western markets, and to make it extremely difficult for the Okanagan growers to find an adequate market. There is the further handicap of too great distance from the British markets: but Mr. Fisher felt that in time the Okanagan will be able to work out its own solution.

## NEW DISTRIBUTION LINE

The West Vancouver, B.C., municipality on November 1, passed a bylaw to take electric light and power service from the British Columbia Electric Railway company. The distribution line will be built immediately and will be in service by January 31. It is expected the cost will be $35,000.

## MEXICAN AGENCY

The Commercial Agency of the United States of Mexico has moved from Toronto to Montreal, where it is located at 99 St. James street, according to an announcement received on November 15 from L. F. Bustamante, commercial agent. The transfer was made on orders from the Secretary of Industry, Commerce and Labor, of Mexico. The agency will continue to furnish business addresses, statistics, transportation routes, etc., to Canadian and Mexican importers and exporters and will shortly organize a permanent exhibit of Mexican exports.

Mexico is at present importing machinery, hardware, drugs, explosives, dry-goods, shoes of all kinds, rubber articles, aluminum articles, and many other kinds of merchandise manufactured in Canada and scarcely known in the Mexican market.

## COAL PRODUCTION

For the last two years, says a return issued by the Bureau of Statistics, the province of Alberta has held the premier position among the coal producing provinces of Canada, with Nova Scotia, the former leader, a close second, and British Columbia third, with Saskatchewan and New Brunswick following in order.

## RAIL ORDER PLACED

Announcement was made on November 15, that the Grand Trunk Railway has ordered 25,000 tons of steel rails from the British Empire Steel Corporation, which will assure continuous operations in the company's Sydney works. This will provide the 3,000 employes of the plant with work for the coming Winter.

## REFUSING ORDERS

It was announced on November 15, that instructions have been given the representative of the Empire Cotton Mills, Welland, Ont., to refuse any further orders at present, as there are sufficient orders on hand to keep the industry, which has over 800 employes, busy until May next.

## SHOPS REOPENED

The passenger coach department of the C.P.R. Angus Shops which, with all the C.P.R. pasenger coach shops from coast to coast closed down a few weks ago were reopened on November 20. The stoppage threw 1,700 Montreal men out of work. Many have left the city for other centres of employment but those in the city will be taken on.

According to a statement from the company on November 17, other shops which closed down are to be opened up, and by the end of the month all the men, numbering approximately 3,000, will be absorbed.

## NEW RUBBER COMPANY

The Semi-Pneumatic Tire and Rubber Company has been incorporated at $750,000,000 under Dominion charter with factory at Sorel and head office at Montreal. Construction of the factory is expected to be completed by January, when machinery which is now being purchased will be in operation. Alfred Beauchemin is president of the company, A. S. Levine, vice-president and general manager, and Joseph Simard, secretary-treasurer. In addition to the semi-pneumatics, the company will manufacture rubber specialties.

## EXPORT TRADE COURSES ARRANGED

At the request of H. R. Poussette, director of the Commercial Intelligence Service, Department of Trade and Commerce, and in co-operation with the commercial intelligence department of the Canadian Manufacturers' Associaton, extension courses in export trade, providing the necessary support is forthcoming, will begin at Toronto University on January 15 and at McGill University on January 29.

## SHOE SECTION ORGANIZED

At a meeting held on November 8, at the Windsor Hotel, Montreal, the shoe manufacturers, jobbers and wholesalers, who are members of the Canadian Credit Men's Trust Association, Limited, Quebec division, organized a shoe trade section, one of the chief objects of which is the co-operation of each other in their credit departments.

A. A. Bradley, as secretary-treasurer of the J. & T. Bell Company, was chairman, and he outlined the needs of such an organization.

F. H. Pope, manager of the Quebec division of the Canadian Credit Men's Trust Association, Limited, was the speaker of the evening. He demonstrated a system through which a shoe section could be successfully operated.

The following officers were unanimously elected: — President, A. J. Gauthier, of the Kingsbury Footwear Co.; vice-president, Reginald Smardon, of the Smardon Shoe Co.; secretary, Fred H. Pope, manager of the Canadian Credit Men's Trust Association, Limited, Quebec division.

## MANUFACTURERS' MEETING

An executive meeting of the Quebec division of the Canadian Manufacturers' Association was held on November 10 at St. John's, Que. A special car attached to the regular train of the Canadian Pacific Railway accommodated members attending. The train left Montreal at noon and members returned at 6.50. A branch of the Association was recently formed at St. Johns. Lunch was served the members at the National Hotel, and a number of important matters were discussed including the sales tax and the bankruptcy law.

## CONDENSED ADVERTISEMENTS

### AGENCY WANTED

**Leading Insurance Man** can procure for a Progressive British Company the services of a reliable agent in Saskatchewan who has excellent connections and who has already transacted good volume of business for some years. Big volume of Hail guaranteed (also Fire income if desired.

Apply Box 463, Monetary Times, Toronto.

### INSURANCE OPENING

Partner retiring from firm of Insurance Brokers leaves opening for young man with knowledge of the business. Firm controls a General Agency, and has well established connections in Toronto. Apply Box 465, Monetary Times, Toronto. Advertiser's name on request.

## LUMBER TRADE IS GOOD

### Western Operators Find Market Conditions Good

According to A. Leitch, of Jaffray, B.C., who attended a meeting of the Rocky Mountain Lumbermen's Association at Calgary on November 20, the market conditions in the Dakotas, Eastern Canada and in Chicago and New York are exceptionally good at the present time.

A canvas of the orders now on hand showed that 80 per cent. of the business was from United States points, with the demand on the prairies as being practically nil. This was attributed to the unsatisfactory crops which had been harvested in the northern districts, while in the south where good crops were harvested, the farmers seemed content to take care of more pressing needs than extra construction work.

In Eastern Canada a small market was being found.

### Beneficial Factor

"The volume of lumber being exported from the British Columbia coast mills at the present time is helping us to a certain extent," Mr. Leitch declared, "in that it takes care of considerable lumber that would otherwise be shipped to the prairies.

"One of our serious drawbacks, so far as the American market is concerned, is the securing of cars by which to ship our product across the line. The railways are loath to allow their cars to cross and as a result our trade is held back considerably," he said.

### Price Adjustments

Asked if any reductions or increases in the price of lumber were contemplated, Mr. Leitch stated that certain adjustments had been made to meet competition in the United States, but it was all with regard to lower grades.

Mill owners who are members of the associaton contemplate a busy season in the woods this winter, and indications are that there will be a big cut of logs which will take care of considerable unemployment.

## PUT DUTY ON CEMENT

Information has been received by the Dominion Government from M. M. Mahoney, representative at Washington of the Department of External Affairs, of a decision by the United States Treasury Department to assess duty on cement imported from Canada at the rate of eight cents per 100 pounds. The weight of the package is to be included in the weight for duty.

Cement from the United States was provided free entry into Canada under the latest Canadian tariff, but provision was made for the imposition of an equal duty on cement entering Canada in the event of the United States placing a duty against Canadian cement. The rate of the Canadian tariff on imports from the United States, therefore, becomes eight cents per 100 pounds.

## BOUGHT DISTILLERY

Announcement was made on November 9, that Col. Marling, secretary of the B.C. Breweries, Ltd., and representing some new English capital, has bought the B. C. Distillery at New Westminster, from William Braid and associates for $1,000,000.

# Corporation Finance

**Dominion Glass Co.**—At a meeting of the directors on November 16 they placed the dividend on a 7 per cent basis with the current declaration of 1¾%, as compared with 1½ per cent., declared three months ago.

At the same time the regular quarterly 1¾ per cent was declared on the preferred stock, both for the quarter ended December 31, payable January 2 to record of December 15.

This will increase the annual distribution on the common from $255,000 to $297,500 on the 42,500 shares. The dividend was started in 1918 at the rate of 4 per cent., and was advanced to 6 per cent. two years ago.

**International Milling Co.**—According to the annual statement for the year ended August 31, the surplus has increased by $138,581, to $1,087,626. A common dividend of $210,000 was paid this year which was not paid last year, while preferred dividends continued at $77,357.

Cash on hand and in bank is $265,800, compared to $518,632 a year previous, accounts receivable are $535,450, compared to $492,632; inventories, $1,747,260 compared to $1,226,579, and property, etc., $4,058,531, compared to $3,978,282. Notes payable are reduced from $409,377 to $127,111 Accounts payable increased from $447,029 to $500,646. Reserves for maintenance and depreciation increased from $690,141 to $847,431, and contingent reserve for taxes remains at $150,000.

The profit and loss account compares as follows:—

| | 1922. | 1922 |
|---|---|---|
| Net profits ..........$ | 560,012 | $397,403 |
| Prev. surplus ........ | 849,845 | 566,197 |

| Bond interest ......... | 34,874 | 36,398 |
| Preferred dividend .... | 77,357 | 77,357 |
| Common dividend ...... | 210,000 | ...... |
| Net surplus ........ | $1,087,626 | $849,845 |

**Mexican Light & Power Co.**—The first statement sent out by the board of directors since 1913 is now to hand and covers a period to the end of December, 1921.

As is generally known the company defaulted its bonds and for some years the operations have been under the management of a receiver and a committee appointed to watch over and protect the bond holders' interests. During this regime, and more especially from 1917 onward, conditions gradually improved, and substantial sums were accumulated which were dealt with under a plan of reorganization, ratified in June, 1921.

The report points out that the amount provided under the reorganization arrangement was not sufficient to complete the capital expenditures required for new installations, so that it has been necessary to arrange for an advance of funds for the purpose. It is expected, however, that shortly after the year 1923 this advance will be repaid out of earnings, and thereafter substantial sums should be available for the accumulation of interest of the second mortgage bonds, and ultimately to the junior securities of the company.

The abnormal scarcity of rainfall in 1921 rendered the operation of steam auxiliary plants a necessity, and customers were required to reduce their consumption by 25 per cent. Earnings for the year, therefore, suffered, according to the report of Managing Director G. R. G. Conway, gross at $10,473,948 (pesos), compared with $11,073,931 (pesos) for 1920, a decrease of 5.42 per cent. Net earnings before depreciation were $4,917,325 (pesos) as compared with $7,316,571 (pesos), a decline of 33 per cent. Since January, 1921, an amount of $1,000.000 (pesos) per annum has been allowed for depreciation.

Commenting on the company's position Mr. Conway says in part: "During the year 1922 the company hopes to be able to maintain the same load as during 1920, but heavy expenditures in steam operation will still be necessary until the full value of a new Hydro-electric installation is available and steam operation no longer required. With the new plant in operation the company's prospects should be encouraging, as the improved political and economic conditions now prevailing will undoubtedly create an increasing demand for electric energy."

The company's assets are valued at $76,260,380. Capital account embracing properties, franchises, etc., reaches a total of $68,134,495. Floating assets at $4,885,057 compare with floating liabilities of $1,220,167. Accounts for supply of light and power due by the Mexican Governments totals $3,240,827. Accrued bond interest now stands at $5,676,923; depreciation reserve at $7,000,547, and profit and loss account $467,716.

**Teck-Hughes Gold Mines, Ltd.**—The annual report for the year ended August 31, shows that in spite of handling low grade ore and in spite of the greater part of the past winter having been occupied in carrying work into the lower levels, the company realized a net profit of $111,822, after meeting heavy expenses in reorganization, additions and alterations to plant, compared to $52,850 last year while the impairment account was lowered from $478,073 to 366,251. General expenditures were $389.585 compared to $291,956. Bullion production totalled $481,144 compared to $304,792.

Cash on hand and in deposit is $175,994 compared to $140,002, bullion on hand $35,795 compared to $11,636, properties $1,492,751 compared to $1,461,251 and equipment $144,177 compared to $68,619. Bonds payable are $339.100 compared to $500,000, bond interest accrued $3,966 compared to $32,083 and interest accrued on coupons at $11,835 is wiped out.

**B.C. Electric Railway Co.**—There was a slight contraction in earnings for the month of September, as compared with the same month last year, gross at $836,603, comparing with $845,185 and working expenses at $593,899, against $634,637. Net earnings total $242,704, compared with $210,548, an increase of $32,156.

Aggregate gross earnings from July 1, to September 30, amounted to $2,513,649, against $2,529,494, and net earnings $691,097, against $629,886, an increase of $61,211.

## AGREEMENT WAS INVALID

### Allowance of Interest in British Columbia Not Upheld By Courts—Application of English Law.

The British Columbia Court of Appeal has recently decided an interesting case with regard to the payment of interest under an invalid agreement. The case was that of McKinnon & McKillop v. Campbell River Lumber Co. McK. & McK. had loaned $65,000 to the company in 1914 under an agreement which upon an action for specific performance, the Court held was ultra vires the Company. The period of credit was four years, the money and interest at 6½% then to be repaid.

When the formal order for judgment in the action for specific performance was settled by the registrar, interest was provided for at the rate of 6½% from 1914 to 1922. This action was then brought to strike out the provision allowing interest.

The Court of Appeal held that interest could not be allowed as the agreement providing for interest had been held ultra vires the company. Thus McK. & McK. got only their bare loan of $65,000 to the company.

In the reasons for judgment the Court said that the law herein depends on the law of England as it was on November 19, 1858. The law is stated as follows:—"no interest was payable—because first, there was no sum certain, due 'by virtue of a written instrument at a certain time' under 3 & 4 William 4. c. 42 s. 28; secondly, no demand in writing for the amount with notice that interest would be claimed as required by the statute had been made; nor thirdly, could interest be given by way of damages in respect of the wrongful detention of the money."

"It is true there was a written instrument in the present case, but it cannot be looked at as it has been held to be invalid, i.e. ultra vires of the company."

"In this Province, (B.C.) there is no statute law of the Province, dealing with the matter of payment of interest in the absence of a valid written agreement providing therefor."

In the result then, the Company was not required to pay interest on the $65,000 loaned to it for eight years.

## NOTICE FOR COMPANY MEETING

### Meaning of "Seven Clear Days"—Ontario Supreme Court Grants Injunction

On a motion to the Ontario Supreme Court for an injunction restraining the holding of a company meeting on the ground of insufficient notice, Justice Middleton says in his written judgment:

"The by-laws of the company provide that notice of the time and place of the holding of the annual or general meeting of the company must be given at least ten days previous thereto by delivering the same by mail or otherwise duly addressed to each shareholder at least 15 days previous to the meeting.

"It is said that the directors passed an amending by-law substituting 7 days in place of 10 days and 15 days mentioned in this original by-law; this amending by-law was passed on the 25th November, 1921, and was sent to the provincial secretary by mail and received by him on the 9th December.

"Under the charter of the company it is expressly provided that the by-laws of the company or amendments thereto, from time to time, shall not be valid or acted upon until the same in duplicate, certified by the president and secretary, with the seal of the company, have been filed in the office of the provincial secretary.

"The notice in question is said to have been mailed to the shareholders on the 6th December and the meeting is called for the 13th December.

### Defects of By-Law

"The allegation is that this notice is not sufficient, and several grounds of attack are assigned. First, it is said that the amending by-law could not be acted upon at the time the notice was mailed, because it had not been filed with the provincial secretary; second, that, even assuming that the amending by-law is operative, the notice is yet inadequate as 'at least 7 days' means 7 clear days, and from the 6th to the 13th is obviously only 6 clear days: thirdly, upon the same assumption, the notice is inadequate because the by-law must be read in conjunction was sec. 143 of the Ontario Companies Act, which provides that a notice or other document served by post by a corporation on a shareholder or member shall be deemed to be served at the time when it would be delivered in the ordinary course of post. The by-law, it is said, does not provide that the notice shall be given by mailing at least 7 days previous to the meeting but by delivering the same at least 7 days previous to the meeting. The delivery by registered mail is justified by sec. 142 but the time of delivery is that indicated by sec. 143.

"After careful consideration, I have come to the conclusion that all these contentions are well-founded and that there is no course open to me but to grant the injunction asked.

"With reference to the second ground, that the expression 'at least' indicates that the days named must be clear days, I refer to what I regard as the leading case upon the subject, Reg. v. Shropshire, which decides that, where an act is required by statute to be done so many days 'at least' before a given event, the time must be reckoned excluding both the day of the act and that of the event."

## UNIFORM LEGISLATION

Introduction of a uniform law on insurance throughout Canada would be of immense benefit to the country and would justify the amount of work put into its preparation, H. J. Symington, K.C., told the Canadian Credit Men's Trust Association in Winnipeg on Nov. 16, speaking on the subject of "Uniformity in Legislation."

He pointed out that there were now uniform acts covering partnership, sale of goods, bulk sales and other subjects. Two of the most important subjects were uniform fire insurance and life insurance laws. A dozen other acts were in course of preparation. No act, he said, was finally adopted without three years' intensive criticism and study without being re-drafted three times by the commissioners. This work was done entirely without remuneration by leading men of the bar throughout Canada, and it merited the support of every commercial organization in the country.

# Electrification of Grand Trunk Branches

By ANDREW T. DRUMMOND

Now that over 20,500 miles of railway, ramifying through every province of the Dominion, and serving practically every town of importance in them, are the property of the Dominion Government, the people are under an obligation to give to this great system their hearty support, and to avoid favouring new competitive lines which would be detrimental to its traffic. The appeal made to them in Ontario, especially by the Hydro-Electric Commission, under which that province would be covered with "a network" of electric railways, was based in a considerable part on the supposed attractiveness of public ownership. The new conditions under which Canada, by the force of circumstances, has taken over three systems, which, with its own already constructed lines, form two transcontinental railways from Halifax to Vancouver and Prince Rupert—a very considerable portion of whose traffic is centered in Ontario—have detracted largely from this public ownership appeal. The people in the southwestern sections of that province have now numerous, long established railways of their own, connecting every city, town and village of importance with the central points for traffic and with the seaboard.

Although by reaching out to the established towns, the electric railway must, from the start, be the competitor of the steam road, the automobile and the auto-truck have in turn become the aggressive competitors of the electric roads, whilst the aeroplane, even in its initial stage, is already the carrier of the mails and small package freight, requiring fast delivery, and has certainties of more extensive use in the future. Each of these methods of transport will, however, find its own special sphere of action, in which, by meeting the conditions best suited to it, it can accomplish its most effective work.

The large capital expenditure involved in the construction of the proposed Hydro-Electric Commission's electric roads; the heavy burden of this capital to be borne by the municipalities; and the certain deficits in operating, wherever there would be competition with the steam roads,—all brought out by the Sutherland Commission and the evidence of the experts before it, as well as in the press—have dampened the ardor of large numbers who formerly favoured these new railways in Southwestern Ontario. It was clear that to secure a respectable traffic, these roads would have to pass through the larger towns and villages which have been built up by the steam roads, and that, whilst they could by cheaper fares and frequent stops, develop in the suburban districts around the larger cities, a special, small-profit traffic, all the heavy, long-distance and more profitable traffic would remain with the steam roads.

### Why Should The Government Not Develop Its Electric Roads, Instead of, By Sale, Stimulating Competition?

The question thus naturally arises whether in Southwestern Ontario, the Grand Trunk Railway, which here serves practically every city and town, would not find it a much more advisable course to organize a system under which the electric roads which have been taken over by the Government, should be connected with each other, and extended west of Guelph, their present terminal, instead of courting and stimulating competition by selling them. There is a large section of the country between Guelph and London, sixty-five miles in length, as yet unserved by east and west railways. To the north, it has the Guelph-Stratford line of the Grand Trunk Railway, and to the south, the Toronto-Galt-London line of the Canadian Pacific Railway, and whilst at Guelph it is about eleven miles wide, it expands gradually towards twenty-four miles at Stratford. It is crossed, more or less in northerly and southerly directions, by four Grand Trunk branches and one Canadian Pacific branch. In Ontario, much the largest traffic naturally follows the east and west lines, as being the most direct to Montreal and Toronto, the commercial centres. This midway country is closely under cultivation throughout its whole extent, and has villages, which with their fine surrounding country, would, with east and west transportation facilities, develop into fair sized towns. In the early days of Minnesota and Dakota, it was the accepted order standing among railway men, that a railway could not economically draw traffic beyond six miles on each side of the track, and whilst, for light weight produce, automobiles have somewhat modified distances, the urban and country people in this sixty-five miles between Preston and London, would for their grain and other heavy produce and supplies, find an electric railway a decided advantage. And another reason for the railway would apply. In this midway section, the rivers are all subsidiaries of the River Thames, and flow more or less in a southerly direction. In the course of long time, they have, in the deep clays here, carved for themselves courses which are from twenty-five to seventy-five feet in depth and of considerable width. In the absence of high-level bridges, these deep ravines present considerable difficulties in the way of the transportation of heavy loads.

### Electrify Grand Trunk Branches Instead of Building Competing Lines.

Most of the various electric roads projected in these sections by the Hydro-Electric Commission, have been cross country roads more or less paralleling the Grand Trunk branches, and the proposal here made is that, instead of the municipalities being deluded into incurring great present liabilities in constructing these more or less parallel electric lines, and, through competition, facing almost certain annual deficits thereafter, these Grand Trunk branch lines crossing the above suggested midway electric line to London, should themselves be electrified northward and south- and passenger traffic with Toronto and Lon- ward between suitable profitable points. Thus they would be directly connected in both freight don. The portions of branches which could be profitably electrified are suggestively, (1) Galt to Kitchener, Waterloo and Elmira; (2) Brantford and Paris to Stratford, and possibly, eventually, to Mitchell, Seaforth, Clinton and Goderich; and (3) Tilsonberg and Norwich to Woodstock and Stratford; whilst (4) the branch from Guelph to Preston could be electrified and made part of the main electric line from Toronto to London.

There is no doubt that the electric train tempts people to travel, and that the attraction of cars or trains each hour and a half, or hour, to all these leading Ontario cities would result in very much cross country traffic that does not now exist, as well as traffic to the terminal cities. All of these smaller cities, but especially some of them, have very important manufactories and wholesale houses, which supply the near country trade, and frequent, quick transport facilities would be a valuable aid to them. But the electrifying of these branch roads would have three further advantages. The people, who have hitherto clamoured for municipally owned electric roads, would be satisfied with the electrification of these branches; the Grand Trunk would be spared the competition of more or less parallel roads; and the municipalities, and the Government of Ontario itself, which, until recently, has most unwisely fostered these projected systems of competitive electric roads, and proposed entering into huge guarantee obligations in their favour, would be contented with the electrification of long established steam roads, and be glad to be spared the carrying of great debt burdens, which, probably all financiers and engineering experts believe, they would ultimately be called on to pay, in addition to annual deficits in operating. The expenditure for the electrifying of these already established branch roads would probably be less than one-tenth of the cost of some of the Hydro-Electric lines which both the Ontario Government and the municipalities had intended to have constructed.

### Will This Change be Profitable to The Grand Trunk Railway?

Were the operating receipts and expenses published by the Hydro-Electric Commission in connection with certain projected lines, to be taken as a guide, there would be no question that, with the relatively small capital cost on the Grand Trunk Railway's part, there should be a very favorable prospect. The Grand Trunk officials, with their large experience in operating, will however, have an opinion on this point. It must be remembered that electrifying a portion of a road, does not prevent the ordinary traffic of that road, from and to distant points, passing over the electrified part just as usual, and that whatever addition to the usual traffic is especially developed on the branches by electrifying them, is that much increase in business to the railway. Until further information has been gained by experience, it may be said generally that only those branches are suitable for electrifying that, starting in this electrification at a progressing town or city, have on it within a few miles distance from each other, fair sized towns possessing manufactories.

Another suggestive branch of the Grand Trunk Railway, which might eventually be given consideration, is the London, Huron and Bruce division from London, through Exeter and Clinton, to Goderich. When the ocean highway to Lake Superior is finally constructed, Goderich should take steps to have a large artificial haror, as it is the lake terminal for extensive sections of agricultural country, and of many towns. Lake Huron has no proper harbor on that coast north of Sarnia. On this branch are quite a number of small towns and villages, which, with the extensive stretches of fine country tributary to them on either side, for the entire length of the road, might be developed by fast and frequent train services.

---

## G. T. P. DEBENTURE HOLDERS

The committee of Grand Trunk Pacific Railway four per cent., debenture holders, headed by Sir Francis Harrison Smith, who are disputing the terms under which the Grand Trunk Pacific was taken over by the Canadian Government, have published a statement to the effect that the recent judgment of the Privy Council against the Grand Trunk Railway shareholders' appeal in the matter of the arbitrators' award had nothing to do with the debentures, in question. The Privy Council's decision, the debenture holders say, has nothing to do with the debentures, unless the saving of £37,000,000 to Canada should be regarded by the Dominion Government as a reason for generous treatment of the Grand Trunk Pacific debenture holders, whose total amount of security is only £7,000,000.

The statement proceeds to announce that the debenture holders recently interviewed Hon. W. S. Fielding, Canadian Minister of Finance, in London with reference to the matter. The details as to the outcome of this interview remain unpublished, they state, because Hon. Mr. Fielding had made it clear that he spoke entirely as a private citizen to the deputation. He promised, however, to place the case of the debenture holders fully before his colleagues at Ottawa.

## BANK OF MONTREAL MEETING

### Changes of Past Year Reviewed by President and General Manager

Sir Vincent Meredith, president of the Bank of Montreal, took a fairly optimistic view of the business situation in his remarks to the shareholders at their annual meeting on December 4. While not believing that trade will enter immediately into a period of expansion, Sir Vincent said that on the whole conditions are more satisfactory than they were a year ago. "The outlook, as I see it," he said, "is for reasonably profitable operations in most lines of business, though there can be no great trade boom without a further important expansion of foreign commerce, and this, unfortunately, is not yet in sight."

In referring to the absorption of the Merchants' Bank, Sir Vincent said:—

"Since your last annual meeting the Merchants' Bank has been absorbed by the Bank of Montreal. To the incidents connected with this transaction it is not necessary to refer, nor to the criticism it evoked, further than to say that, in my judgment, the prompt action of your directors, subsequently ratified by you, averted a situation that might otherwise have proved serious to the country at large, and secured the shareholders of that institution from losses greater than were suffered.

"It will interest you to know that the work of co-ordinating the staffs with a view to economies is proceeding with all possible celerity, and that the acquisition of the Merchants' Bank is reasonably realizing the expectations of your Board. Under our own organization and with the economies that have been effected, the future gives promise of increased earnings.

Sir Vincent also referred to the proposed revision of the Bank Act. In this connection he said:—

"The banking system of Canada is the product of long experience. It has operated to the advantage of the people, despite an occasional failure; from which, however, no country and no plan has been free. I can confidently claim that to venture on radical changes in the banking system is to incur grave dangers to the stability of trade and to imperil the credit structure of the country, and I know of nothing more certain to arrest the development and progress of Canada than rash experiments in the domain of banking and currency."

Dealing with the general outlook, following on the depression that has occurred, Sir Vincent, in conclusion, said:—

"In conclusion the crisis of 1920-1 has passed into history. The fact that the depression was world-wide makes it highly improbable that the return to normal will be other than slow.

"We have experienced a more sudden and acute depression of trade than our generation had ever known, and though conditions, including the agricultural results, are undoubtedly more favorable, prudent businessmen will not build up an unduly speculative position after the lessons of 1920.

"The outlook, as I see it, is for reasonably profitable operations in most lines of business, though there can be no great trade boom without a further important expansion of foreign commerce, and this unfortunately, is not yet in sight."

Sir Frederick Williams-Taylor, the general manager, in his annual address, dealt more especially with the affairs of the bank and conditions at home in Canada. Sir Frederick emphasized particularly the need for a readjustment of living costs in the country, when he referred to the economic position of the Dominion. In this connection Sir Frederick said:—

"Canada's economic position is not satisfactory. How could it be satisfactory, with the whole financial world out of joint? As everyone is aware, our troubles have been partly the result of this universal condition; partly the result of the war. It is well, however, to bear in mind that our problems are largely of our own creation.

"Readjustment will come in time, for this is a country of virility and untold resources; yet one thing stands out signally, in my opinion, namely, that Canada cannot go ahead again as she should while taxation and the cost of living are higher in this country than they are in the United States of America.

In conclusion, Sir Frederick stated that the manner in which Canadian banks generally had come through the agitating times since 1914, must be taken as evidence of the fundamental soundness of the Canadian banking system. There was reason to be thankful that no great commercial breakdown had occurred.

## *Business Conditions*

Lower temperatures have stimulated retail demand for seasonable merchandise throughout a large part of the Dominion of Canada, and the movement of heavy dry goods, clothing, footwear, and other staples is showing material improvement, according to dispatches to Dun's Review from branch offices of R. G. Dun & Co. in the principal cities. While replenishing orders continue quite satisfactory in number, and while confidence in the future is maintained by increasing industrial activity, wholesale business, as a whole, is beginning to show the customary quieting down of this period, when many houses are preparing for their annual inventories and travelling salesmen are commencing to return from the road for the holidays. Inquiries, however, for future requirements are very numerous, and considerable activity is expected to develop early in the year. Collections show only slight improvement.

Colder weather has increased retail sales of seasonable goods at Montreal, and, though there is some quieting down in wholesale trade, as is usual at this period, orders for dry goods, clothing, footwear, and other staples are in well maintained volume and continued activity prevails in most industrial lines. Collections show signs of improvement.

Although retail business at Quebec has been benefitted by weather conditions, cautious buying is the rule in most wholesale departments, and no great increase in activity is anticipated during the next few months. Collections still drag.

With a steady broadening in manufacturing activity, increased output by the coal mines, and satisfactory fishing results, business at Halifax and in the surrounding territory is improving, and the prevailing feeling among merchants generally is quite optimistic. Collections are about fair.

## *Exchange Quotations*

Closing rates in Toronto, Wednesday, compared with the preceding week, were as follows:—

| | Nov. 29 | Dec. 6 |
|---|---|---|
| London | 451.75 | 456.75 |
| France | 6.91 | 7.03 |
| British W. I. | .94 | .95⅛ |
| Jamaica | 4.53½ | 4.58½ |
| Belgium | 6.37 | 6.48 |
| Denmark | 20.44 | 20.55 |
| Germany | .01¼ | .01$\frac{3}{16}$ |
| Greece | 1.48 | 1.00 |
| Holland | 39.60 | 39.93 |
| Italy | 4.75 | 5.00 |
| New York | 1-64d | 1-64d |

## *Bank Clearings*

The following are the bank clearings for the week ended November 30, compared with the corresponding week of 1921:—

Eastern Bank Clearings

| | Wk. ending Nov. 30. | Increase over '21 |
|---|---|---|
| Toronto | $89,862,200 | x$12,665,754 |
| Montreal | 89,737,982 | x19,466,026 |
| Ottawa | 5,719,920 | x1,557,392 |
| Quebec | 5,516,443 | x80,055 |
| Hamilton | 5,154,943 | x273,220 |
| Halifax | 2,719,054 | x426,519 |
| Windsor | 2,635,026 | x425,385 |
| St. John | 2,301,926 | x514,394 |
| London | 2,515,800 | x587,903 |
| Moncton | 958,173 | 64,588 |
| Kitchener | 936,495 | 36,324 |
| Brantford | 923,158 | x274,630 |
| Peterboro' | 654,147 | x53,680 |
| Sherbrooke | 587,153 | x122,087 |
| Kingston | 524,358 | x181,362 |
| Total | $210,746,778 | x$36,527,495 |

Western Bank Clearings

| | Wk. ending Nov. 30. | Increase over '21 |
|---|---|---|
| Winnipeg | $82,895,162 | $4,144,659 |
| Vancouver | 14,091,954 | 971,103 |
| Calgary | 5,614,776 | x505,257 |
| Regina | 4,519,079 | 381,494 |
| Edmonton | 3,827,484 | x957,282 |
| Saskatoon | 1,846,111 | x151,913 |
| Victoria | 1,785,445 | x227,902 |
| Moose Jaw | 1,559,549 | 21,506 |
| Ft. William | 710,327 | 7,007 |
| Brandon | 697,451 | x4,197 |
| Lethbridge | 651,164 | x19,426 |
| New Westm'er. | 518,260 | x541 |
| Medicine Hat | 375,988 | x10,384 |
| Total | $119,092,750 | $3,648,167 |
| Eastern total | 210,746,778 | x36,527,495 |
| Grand total | $329,839,528 | x$32,879,328 |
| Prince Albert | 382,558 | ........ |

x—Decrease.

## *Canadian Failures*

The number of failures in the Dominion, as reported by R. G. Dun & Co. during the week ended December 1, in provinces, as compared with those of previous weeks, and corresponding week of last year, are as follows.—

| | Dec. 1. | Nov. 24. | Nov. 17. | Nov. 10. |
|---|---|---|---|---|
| Ontario | 25 | 26 | 24 | 14 |
| Quebec | 36 | 24 | 44 | 15 |
| Manitoba | 5 | 6 | 7 | 4 |
| Alberta | 5 | 4 | 6 | 4 |
| Sask. | 4 | 5 | 8 | 4 |
| B.C. | 5 | 3 | 1 | 7 |
| N.S. | 3 | 5 | 1 | 2 |
| N.B. | 0 | 0 | 1 | 0 |
| P.E.I. | 1 | 1 | 1 | 0 |
| Nfld. | 0 | 0 | 1 | 0 |
| Total | 84 | 74 | 94 | 50 |
| 1921. | 68 | 81 | 47 | 42 |

## IMMIGRATION

The following is a statement of immigration into Canada for the seven months ended October, compared with the same period last year:—

1921-22.

| | Br. | From U.S.A. | Other Countries | Tot. |
|---|---|---|---|---|
| April | 8,476 | 5,035 | 1,541 | 15,052 |
| May | 7,083 | 3,710 | 3,350 | 14,143 |
| June | 6,899 | 3,086 | 2,292 | 12,277 |
| July | 3,772 | 2,388 | 2,294 | 8,454 |
| August | 3,171 | 3,016 | 2,297 | 8,487 |
| September | 2,919 | 2,168 | 2,310 | 7,427 |
| October | 2,176 | 2,129 | 1,870 | 6,175 |
| Totals | 34,499 | 21,532 | 15,984 | 72,015 |

1922-23

| | Br. | From U.S.A. | Other Countries | Tot. |
|---|---|---|---|---|
| April | 2,048 | 3,268 | 1,282 | 6,598 |
| May | 5,972 | 2,866 | 2,361 | 11,199 |
| June | 3,675 | 2,291 | 1,329 | 7,295 |
| July | 4,305 | 2,024 | 1,428 | 7,757 |
| August | 2,833 | 2,559 | 1,236 | 6,625 |
| September | 3,508 | 2,032 | 1,314 | 6,854 |
| October | 3,212 | 1,741 | 1,367 | 6,320 |
| Totals | 25,553 | 16,781 | 10,317 | 52,651 |

# Railways Reduce Cost of Maintenance

## September Returns Show How Reductions in Rates Have Been Met—Both Canadian National and Grand Trunk Have Improved Positions Since Last Year—Postmaster-General Taking Lead in New Developments

(Special to The Monetary Times)

Ottawa, Dec. 6.—The September statement of operating expenses and revenues of Canadian Railways, issued by the Dominion Bureau of Statistics, is of more than ordinary interest, for it shows the effect of the Crow's Nest Pass grain rates on revenue and how the railways met the situation. Taking all the roads, the figures show that for the month there was an increase of $374,427,779 revenue ton miles, but a decrease of $713,008 in freight revenues. Passenger traffic and revenues also fell away, to the extent of over $1,400,000, and yet through a big reduction, almost entirely in maintenance expenditure, the roads made a better showing on net revenue than they did for the same month last year. The question arises whether or not too much is not being saved on maintenance?

The public is much interested in the showing made by the Canadian National so far this year. The returns to the end of September show that the net operating deficit was $9,447,464, a reduction of $7,571,765 as compared with the same period in 1921. The Grand Trunk during the same time has improved its position to the extent of $4,030,000.

### Greater Freight Traffic

The Canadian National Railways, had a net operating revenue of $602,709, an increase of $135,025 over that for September, 1921, as compared with an operating deficit of $829,847 during August. This was made possible through greater freight traffic, which increased from 863 million revenue ton miles to 1,161 millions or 34 per cent., and thus increased the revenues by $570,278. There was a decline in the revenue from other sources, but after this had been deducted there was an increase of $356,509 in the total revenue. The National also forced down its operating ratio to 94,86, or one per cent. below that for the same month last year.

The Canadian Pacific Railway, which apparently was most affected during the month by the lower grain rates, reduced its operating revenue to the remarkably low point of 75 per cent., or 2.17 per cent. below that for the same month in 1921. It did this through a display of extraordinary efficiency, for its revenue freight ton miles increased from 763 miles in August to 1,227 miles or over 67 per cent.; it was also an increase of 9 per cent. over September last year. The effect of the rate reductions is to be seen in the decline in revenues to the extent of $1,549,159 or 7,8 per cent.; but expenses were reduced by $1,91,388 or 10 per cent, which had the effect of increasing the net revenue by $42,229 per cent.

The showing made by the Grand Trunk bore out the statements of its officials that they would not be much affected by the Crow's Nest Pass rates, its average receipts per ton mile being 1,328 cents, as compared with 1,338 in September of last year. Freight traffic, however, showed a decrease of 4,6 per cent revenue ton miles, while freight revenues fell off to the extent of 5,3 per cent. Here again operating economies saved the situation, for while total revenues decreased by $209,838 expenses were reduced by $937,328; the operating ratio was 87,86 per cent as against 92,23 in the same month last year. The net operating revenue was $855,387, an increase of $727,490 over that for September, 1921.

### Post Office Department.

Hon. "Charlie" Murphy is making the Post Office Department step along lively, following up the recent conference of leading departmental officials with another of an international character between Canada and the United States, and attended by Postmaster General Work of the United States and a full staff. In making this gathering possible Mr. Murphy has manifested sound business acumen. He has realized the possibilities for the development of more business between the two countries and has taken some very obvious measures to make this possible.

In the past the Post Office Department has been singularly indifferent to business with the United States. As is well known, its volume is very great, and it has grown, not because our governments have fostered it, but because the public on both sides of the boundary line desire to do business and have found ways of doing it whether governments have assisted it or not. Postmaster General Murphy has realized that if the country is to get full value out of the Post Office; if it is to split even, to say nothing of earning a profit on reasonable charges for services, this must be done, not so much through economies, as through developing more business. He is now going after it in a quarter where it seems to be most likely. After all that is said about the desirability of trading within the Empire and of increasing the volume of mail between its various parts, things are running in the other direction, and nothing can stop them. So evidently Mr. Murphy has realized that the wise course to take is to get a share of what business is offering and not leave it all to other carriers.

The decision to dispense with the "advice" on money orders between the two countries is warranted. Canada also gets more revenue through the decision that it shall share in the parcel difference on the post revenue between the two on a 50-50 basis. The adoption of a common standard of special delivery charge on mail sent from one country to another is also wise. The decision to co-operate more closely in the preventing of frauds should be productive of good results, the use of the mails for get-rich-quick schemes being well known.

---

## EXPECT DROP IN EXCHANGE

### New York Bankers Do Not Think Canada Can Yet Resume Gold Payment.

(Special to The Monetary Times)

New York, Dec. 6.—Canadian bankers resident in the United States seem inclined to question the report widely circulated here that the Canadian government at the next session of Parliament plans to remove the Canadian embargo on gold. Such a move on the part of Canada they feel would be decidedly premature as they believe Canada is not yet in a position to permit the export of gold or to take a step which would be equivalent to placing the Canadian dollar back on a gold basis. The general opinion in foreign exchange circles seems to be that a marked reaction will occur in the Canadian exchange market during the next few weeks. With the close of navigation the demand for Canadian funds on the part of grain shippers will of course drop. In fact the support afforded the Canadian dollar in the United States from this source has already slackened in a most marked manner; it is only a matter of a week or so before the slackening will become even more marked.

### Borrowings Reduced.

Then, as it was pointed out to The Monetary Times, by a local Canadian exchange trader, within recent months Canadian borrowings in this country since the first of September have been small in volume. The Canadian dollar in this market is accordingly not getting the support from this source that it did during the earlier part of the year. In the face of this fact, Canadian imports from this country have been increasing month by month since June first. While, according to this banker, it is true that the monthly export totals, so far as Canada is concerned, have been markedly lower than the totals for the same months in 1921, the total for instance in September was much larger than the total in January. Apparently in spite of a heavy decrease in Canadian coal buying in this market, Cannadian buying as a whole in the United States is increasing. And as this banker pointed out, while the effect of this increase has been partly offset by an increase in imports of Canadian merchandise, the increase in Canadian buying in this market has been much more marked than the increase of American buying in Canada. The result has been of course that the monthly adverse trade balance standing against Canada in the United States was greater in September than it was in January.

### Buying More Heavily.

"The tendency seems to be toward heavier Canadian buying in the United States," The Monetary Times was told. "This tendency in face of the fact that Canadian exports to the United States cannot increase to any great extent unless American prices go so far above American prices as a whole that the new tariff will prove to no great obstacle to the sale of Canadian goods in this market. While this latter eventuality may come to pass in the long run, it will take time. In the meantime I believe conditions are set for a reaction in the Canadian exchange market."

'This banker told The Monetary Times that Canadian borrowings in the United States during the first eleven months of the year had totalled over two hundred million dollars.

---

## ASSOCIATION OF CASUALTY COMPANIES

### New Organization Expected to Take Over Work Formerly Divided.

For some time past a movement has been underway looking to the amalgamation of the various small associations that formulate rules and regulations governing the different casualty lines. This has now come to a head in the organization of what is known as the Canadian Casualty Underwriters' Association which was decided upon at a meeting held in Ottawa, November 30th. The associations that will be included in this larger organization are the Western Casualty, The Eastern Casualty, The Casualty Managers, The Plate Glass, The Guarantee, The Burglary and the Canadian Information Bureau. For the present, these associations will not cease to function altogether but gradually they will be merged into the larger body.

It has been felt for some time by a number of casualty managers that the business warranted a general association, as it is found very cumbersome to attend so many meetings to say nothing of the expense attached to the necessity of doing so.

The new organization will consist of a chairman and executive committee for each branch of the business, the chairmen of these committees to form the executive council of the general association. The officers will be elected at the annual meeting each year. While all companies have not yet signified their intention of joining, over thirty have thus far become members; this number includes all of the big companies.

The following officers have been elected for the ensuing year: president, C. W. I. Woodland of the Employers' Liability Assurance Corporation, Toronto; 1st. Vice-President A. Hurry of the Northern Assurance Co., Montreal; 2nd. Vice-President, E. Willans, Imperial Guarantee and Accident Co., Toronto; Secretary-Treasurer, H. G. Humphries.

---

## *Railroad Earnings*

The following are the approximate gross earnings of Canada's Transcontinental railways for the month of November:—

| | 1922 | 1921 |
|---|---|---|
| **Canadian Pacific Railway** | | |
| November 7th | $ 5,346,000 | $ 4,843,000 |
| November 14th | 5,232,000 | 4,726,000 |
| November 21st | 4,747,000 | 4,042,000 |
| November 30th | 5,807,000 | 4,896,000 |
| Totals | $21,132,000 | $18,507,000 |
| **Canadian National Railway** | | |
| November 7th | 3,101,373 | 2,995,791 |
| November 14th | 3,169,231 | 2,995,791 |
| November 21st | 2,989,935 | 2,995,731 |
| November 30th | 3,781,736 | 3,851,732 |
| Totals | $13,042,273 | $12,839,045 |
| **Grand Trunk Railway** | | |
| November 7th | 2,454,425 | 2,273,914 |
| November 14th | 2,380,294 | 1,988,955 |
| November 21st | 2,302,816 | 2,022,337 |
| November 30th | 2,947,175 | 2,569,162 |
| Totals | $10,084,710 | $ 8,854,368 |

# Business Taxes Levied by Municipalities

### Wide Variation in Methods of Assessment—Sometimes on Floor Space and Sometimes on Rental Value—Tendency is Away from Personal Property Tax—Movement to Have Business Tax Based on Net Profits or Gross Revenue

In the course of its study of Municipal Taxation in Canada, the Citizens' Research Institute has made a survey of Business Taxes, the result being published in a recent bulletin. The taxes are described by provinces.

In Ontario the Business Tax was established to replace the Personal Property Tax. In some other Provinces, municipalities may levy both Business Taxes and Personal Property Taxation. It will be necessary, therefore, in outlining Business Taxation in the Eastern and Western Provinces to make more or less reference to Personal Taxes.

The Institute, it is pointed out, has not been able to get complete returns from its questionnaires and must, therefore, proceed with the information now available. In addition to this, amendments to provincial legislation, concerning which the Institute has not complete information, may have been passed at recent sessions. The information, however, gives a fair picture of the chaotic nature of business taxation for municipal purposes.

#### British Columbia

In this province no provision has been made to empower municipalities to collect a Business Tax. The province collects taxes on some classes of personal property. Recently municipalities have been empowered to impose personal taxes. Just how much advantage has been taken of this power is not known to the Institute.

#### Alberta

The three general Acts governing municipalities in Alberta make provision for the assessment and taxation of business. It is left to the discretion of the municipalities whether or not they shall adopt the tax. A municipality may elect whether the basis of the tax shall be upon rental value of the premises occupied or according to the floor space occupied by business concerns

Six Alberta cities replied to the Institute's questionnaire. Five of these imposed the tax on the rental basis and the other on the floor space basis. Of these six cities, four received no revenue from taxes on personal property and two did. One of the latter specified automobiles, stock and equipment as among the kinds of personal property taxed.

#### Saskatchewan

The Saskatchewan City Act and the Town Act make provision for Business Tax as follows: "The Assessor shall fix a rate per square foot of floor space (irrespective of partitions, stairways, etc.) of each building or part thereof used for business purposes and shall, as far as practicable, classify the various businesses" While the Village Act and the Rural Municipalities Act do not provide for a Business Tax, they provide for certain taxation of the stock-in-trade of a merchant. All of these Acts except the City Act contain special provisions with regard to the taxation of grain elevators.

#### Manitoba

The Business Tax (a percentage of the rental value) in 1906 was made available for all incorporated towns and villages in Mantoba. Statutory provision was also made for the imposition of a special tax on owners of lumber yards and also the owners of horses, cattle and vehicles kept for business purposes. Provision is also made for the taxation of telephone, telegraph and electric light companies on the value of their personal property. The Municipal Assessment Act makes available to municipalities the taxation of stock-in-trade, but this seems to have become, in many cases, a dead letter. The Deputy Municipal Commissioner, in a brief synopsis of the law relating to the taxation and assessment of property in Manitoba, says with reference to personal property:—"Although the Assessment Act of the Province authorizes the imposition of a tax on personal property, it is to be noted that by reason of the exemption of this class of property owned in rural communities and the adoption of the principle set forth in the Business Tax Act in cities, and almost wholly in towns and villages, the provisions of the Assessment Act are largely ineffective, and of no avail whatsoever, except in those portions of rural municipalities where farming operations do not prevail." Returns on the questionnaires were received from two Manitoba cities. In one of these cities the Business Tax was at the time 6 2-3% of the rental value and in the other 12½% of the rental value. The return from one of these cities states that "driving horses or those not used in connection with a business are taxed. Stocks in stores, etc., are not assessed."

#### Quebec

The Institute's information from Quebec is not complete, but excellent returns have been received from 12 municipalities. Special charters for some cities in the province provide for Business Taxes. According to information supplied to the Institute for ten cities, the tax would seem to vary between 2% and 8½% of the annual rental value of the premises occupied. One states that it uses different bases for retailers and manufacturers, the first a rental basis and the other a small percentage of the assessed value of premises. Of the twelve municipalities from which replies were received, two received income from taxes on personal property.

#### Maritime Provinces

No mention seems to be made in the Rates and Taxes Acts of New Brunswick, the Assessment Act of Nova Scotia or the laws of Prince Edward Island with reference to a Municipal Business Tax. The taxation of personal property is provided for in the statutes of each of these provinces.

In Nova Scotia, however, under the authority of the Tax Act, the city of Halifax imposes a tax on business. The section under which this tax is authorized reads as follows:—

"371. (1) The Business Tax shall be a tax payable by every occupier of any real property for the purposes of any trade, profession or other calling carried on for the purposes of gain, except such as is exempt as is herein provided and shall be payable by the occupier whether as owner of such property for real property tax or not.

("2) Such tax shall be at the rate fixed as hereinafter provided on fifty per cent. of the value of the premises so occupied, except in the case of premises the value of which is less than two thousand dollars, and occupied solely for the purpose of selling merchandise by retail, in respect to which the tax shall be at the said rate on twenty-five per cent. of the value of the premises so occupied."

#### Summary

The following summary of the results is made:

"In view, first, of the many variations in matters of detail; second, of the number of municipalities with separate charters; and third, of the incompleteness of the information as yet available, it is, of course, impossible to give a summary not subject to many qualifications. In order, however, to give a general view of Municipal Business Taxation in Canada and some of its relations to Personal Property Taxation, as a preparation for the discussion at the annual convention, a very brief and general summary is presented herewith, subject to any amendments which may have been made since the material for the report was collected.

"British Columbia—No provision seems to have been made for a real municipal Business Tax.

"Alberta—Business Tax available to all classes of municipality, basis either on rental value or area of floor space. Some cities and all towns and villages may assess personal property.

"Saskatchewan—Cities and towns may impose Business Tax on basis of floor space. Villages and rural municipalities may tax personal property.

"Manitoba—Cities, towns and villages may tax business on rental value. Assessment Act makes available to municipalities taxation on stock-in-trade.

"Ontario—The Business Tax is on basis of varying percentages for various classes of business, on assessed value of lands and premises occupied. No personal property tax.

"Quebec—Cities and towns under separate charters impose Business Tax on basis of rental value. Wide statutory powers granted municipalities to tax personal property.

"Maritime Provinces—No Business Tax seems to be provided in general Acts in these provinces. Personal Property Tax is widely used. In at least one city a Business Tax is imposed on 50% of the value of premises. In this city there is no Personal Property Tax.

"At present the tendency seems to be away from the Personal Property Tax. The Business Tax, on some basis seems to be growing in favor, although there is considerable criticism of all forms now in use. In some quarters there is a strong move to put business taxes on the basis of a small fixed percentage of the net profits or a still smaller percentage of the gross revenues. The institute will be glad to receive from members of the Conference any ideas or information on the subject of Municipal Business Taxation."

---

## EXPECT TO INVEST HERE

### British Insurance Company Expects Recovery of Exchange Will Warrant Further Investments

(Staff Special.)

Winnipeg, Dec. 2.—H. J. Tapscott of London, Eng., has made an extended tour through Canada and the United States. Mr. Tapscott is general manager of the Friends Provident, and Century Life Assurance Company, also managing director of the Century Ins. Co., of Edinborough and London. In an interview with The Monetary Times recently in Vancouver, Mr. Tapscott stated that he left London on the 21st of September, and that he had travelled quite extensively throughout Canada since then, and intended to visit many parts of the United States before returning to England.

Mr. Tapscott has visited both Canada and the United States on previous occasions, and he noted considerable development had taken place since his last visit to the Dominion prior to the war. Mr. Tapscott was born in the province of Ontario, and has been greatly impressed with the sound conditions underlying the Canadian situation as evidenced, he stated, by the restoration of the Canadian dollar to parity with the United States dollar.

#### Company's Investments

During the depreciation of sterling, which has been in existence since the war, Mr. Tapscott stated that the Friends Provident group had maintained its investments in Canada, as these form part of its permanent policy. Now that it appears possible, and even likely that sterling may in the near future return to parity as compared with the Canadian dollar, they are looking forward to the possibility of adding materially to their investments in the Dominion.

"During my journey through Canada," said Mr. Tapscott, "I have met a large number of prominent men in various walks of life, and have been delighted with the extraordinarily friendly feelings displayed towards visitors from Britain. We feel strongly that Canada is merely at the commencement of its development, substantial though the progress already made has been.

"The Friends Provident" said Mr. Tapscott, "owns the entire share capital of the Century, and the Century again owns almost all of the capital of the Pacific Coast Fire. The aggregate income of the Friends Provident group is about $6,000,000 and the assets $27,000,000. Both the Friends Provident, and the Century have always maintained close relationship with Canada. The Friends Provident has large investments in Ontario, and the Century both in Ontario and British Columbia."

---

## TORONTO RAILWAY ARBITRATION

Those in touch with the proceedings of the arbitration to determine the price which the city will pay for the Toronto Railway Company's street car system and auxiliary properties now expect that the award will be made much sooner than anticipated.

The arbitrators are understood to be so far advanced with their assimilation of the evidence put in that they will be able to deliver a decision, possibly a majority and minority report, about the middle of December.

## THE RAILWAY PRESIDENT'S RETURN

If Sir Henry Thornton regarded his new position as similar to that of head of a private corporation he has probably been disillusioned by this time. His freedom in speech making has been assailed with equal freedom in the Canadian Press, while other papers have as promptly come to his support. The new general manager of the national lines may however be here a while before he realizes that a nationally owned corporation is neither a public enterprise nor a private one. There is only one shareholder, but that shareholder is so composite and so troubled by conflicting purposes that he is hard to please.

The criticisms voiced recently by Sir Arthur Meighen are not without foundation, however. What is required at the head of the system is not a speechmaker but a business executive. No better example could be taken by Sir Henry Thornton than that of the head of a great Canadian bank, who limits his public utterances, except on very rare occasions, to the address given at the annual meeting of his bank's shareholders. A good annual report will be the best utterance that Sir Henry can make.

## TOO MUCH CORPORATE POWER

The Quebec Legislature will do well to revise some of the clauses in the three bills submitted to incorporate the Quebec Power Company, the Quebec Gas Company and the Quebec Tramways Company to take the place of the Quebec Railway, Light, Heat and Power Company at present in operation. The directors' powers applied for and the powers asked by the corporation as against municipalities are too large. "Financial Service" of Montreal very justifiably pointed out recently some of the weak spots in the applications made. United States capital is extensively interested in the corporation and it is probable that in attempting to make its position attractive the usual position of corporations under the provincial law has been overlooked.

A combined capital of $40,000,000 is applied for, in place of the present figure of $20,000,000, which itself is much greater than the actual assets behind the stock, judging by its market value. Power to build railways, telephone lines, etc., in any part of the province except that served by the Montreal Public service Corporation are also asked. Among other things, municipal consent to expropriations would not be required.

## FUEL INDEPENDENCE NOT FEASIBLE

The Calgary "Herald" in discussing the present coal question and the suggestion of Welsh coal imports on a large scale, claims that the possibilities of the Alberta product are being overlooked, and that Nova Scotia coal is something of which Easterners "may have heard." It is not important however whether or not the consumer in Ontario and Quebec has knowledge of Alberta and Nova Scotia coal, or have considered their qualities. What he is concerned with is getting suitable coal at the lowest price. It was because Pennsylvania coal was best and cheapest that it has become so well known. There is no reason to suppose that its use will be supplanted altogether or to any great extent. Other coals are being used during the shortage, but they are recognized as and called "substitutes."

The "Herald" has no practical suggestion for placing coal in Ontario and Quebec on a competitive basis. It mentions the national railways and the government marine as transportation agencies, but acknowledges that the business would be a losing one. Alberta coal will have a large and growing market in Manitoba, but Ontario and Quebec will not pay the price. In times of stress this country can be independent in respect of fuel, but when foreign supplies are available we should buy in the cheapest market.

## THE BELL TELEPHONE ISSUE

The Bell Telephone Company is pursuing sound practice in offering its present issue of $5,000,000 to the shareholders. At par, in fact, the stock is almost too cheap but as it is shareholders who are given the opportunity to benefit they have no reason to complain. Earlier this year a similar amount was sold at the market price through a syndicate, and the result was a considerable increase in the number of shareholders, from 4,572 in February to 7,194 at the present time. The methods adopted in the present issue are more desirable, though price might well have been higher.

Regarding the timeliness of the offering, president McFarlane's view that the stock is primarily an investment one is sound. A direct offering to existing shareholders will not be affected by dull conditions as would a public offering.

## WAR DEBTS

The United States requires Britain's obligations on war account to be paid and the British government takes the view that in justice to itself it cannot forego its claims on France, Italy and the other allies. The continental countries, being debtors only, want all debts waived. In Britain, financiers believe that even Britain's portion of the German war indemnity may have to be waived. But the United States government seeing billions of paper credits on its books, is not willing to take the political responsibility of wiping them off. It knows that Britain will never repudiate its debts even though payment may be extremely difficult, on account of the scarcity of dollar credits. The people of Britain are carrying a burden of taxation heavier than the people in either France or Germany or the United States, and Premier Law's logical mind protests at the cancellation of all debts save the one Britain owes to the United States.

The attitude of the Law Government is not finally settled, however, because war debts and reparations must continue to be the chief subject of European consideration for years. It will be a quarter of a century, probably, before the finances of Continental Europe can be rehabilitated to a stable and satisfactory condition. There is no prospect of any war debt payment from continental nations, and not a good prospect of further large indemnity payments from Germany. If the British Government could be sure that waiving of continental debts to Britain would pull the continental nations out of the mire, and set British industry on its feet, it might make the step suggested by Mr. Asquith. But there is no proof, yet, of such a result, while the certainty of the American claim remains.

## MEASURING HIGH

Canadians may be surprised at the high industrial rank accorded this country under a recent decision of the Council of the League of Nations. This decision was rendered under the authority of article 32 of the treaties of peace which declared that eight out of the twelve Government seats on the governing body of the International Labor Office should be held by the countries of "the chief industrial importance" and that any question arising as which were the countries of the chief industrial importance should be decided by the League of Nations Council. A special commission was appointed to consider the criteria to be adopted in this matter, and it was agreed that the seven characteristics following should be utilized, namely:

(1) Industrial population (including mines and transport).

(2) Relation of industrial population to total population.

(3) Length of railway track.

(4) Relation of railway track to area.

(5) Horsepower used in industry.

(6) Relation of horsepower to total population.

(7) Size of mercantile marine.

Statistical information on these points was obtained from the various countries comprising the League of Nations, and calculations were made therefrom on two different bases. On one of these calculations Canada ranked as the fourth state of "chief industrial importance" and on the other calculation as sixth. Under the first calculation the first eight countries were, in order of importance:

Great Britain, Germany, France. Canada, Italy Belgium, Japan and India. On the second the eight states of "chief industrial importance" were:— Great Britain, France, Germany, Italy, Japan, Canada, Belgium and Sweden.

The report of the commission of inquiry was considered by the Council of the League of Nations and hearings were also accorded to representatives of certain countries which desired to submit special representations. The resolution adopted by the Council of the League of Nations was that eight countries, members of the international labor organization which are of the "chief industrial importance" are at present in the alphabetical order of the names in French, as follows:

Germany, Belgium, Canada, France, Great Britain, India, Italy, and Japan. The United States is not at present a member of the League of Nations or of the International labor organization connected with the League.

### GRAIN EXPORTING

Much has been said this year about the strides Vancouver is making as a grain handling port. The whole subject is of outstanding interest this year because of the extent of the exportable surplus to be handled. That Montreal is far in the lead in this respect is sometimes overlooked, for Montreal as a city is not inclined to self-advertising. The latest issue of the Royal Bank circular points out, however, that the dominant position held by the Port of Montreal, among the grain shipping ports of the North American continent, has been illustrated this year to an even more striking degree than was the case in 1921. Last year the quantity of grain shipped from the Port of Montreal was in excess of the amount shipped from any other Atlantic port by a substantial margin, as indicated by the table which follows:—

| | Bushels |
|---|---|
| Montreal | 138,453,980 |
| Galveston | 94,173,049 |
| New York | 84,698,581 |
| New Orleans | 73,689,399 |
| Baltimore | 55,314,808 |

The opinion was held that the quantity of grain which passed through the Fort of Montreal last year was abnormally large, and that its route was determined largely by the fact that the discount on Canadian funds made it advantageous for American wheat to take the St. Lawrence route. The amount of grain handled up to the 20th of November this year, however, was 150,337,566 bushels—an amount exceeding last year's grand total by more than 8 per cent. The number of grain vessels which cleared from Montreal this year up to the 20th of November was almost 25 per cent. in excess of the total for the entire season of 1921.

## *Personal*

C. W. I. WOODLAND, manager for Canada and Newfoundland of the Employers' Liability Assurance Corporation, has been elected president of the Canadian Casualty Underwriters' Association, which was organized last week.

---

C. R. DRAYTON, manager for Canada, Union of Canton and British Traders Insurance Companies has returned from a visit to his head office in the British Crown Colony of Hong Kong.

CHAS. E. HENDRY, general manager of the London and Lancashire Insurance Company is visiting Canada and has been in Montreal and Toronto.

H. HULATT has resigned as manager of Telegraphs, Grand Trunk Railway System and has been appointed to an executive position with the Alexander Hamilton Institute of New York and will leave shortly after January 1st, for London, England.

### THE CANADIAN BANK MERGER

(Wall Street Journal, Nov. 29).

Montreal Merger of Merchants' Bank with Bank of Montreal, which produced such a sensation in Canada last December owing to the huge losses sustained by the former, has proved a successful venture for the Bank of Montreal. While savings deposits have declined all over Canada, the Bank of Montreal's present savings deposits (as at the end of October, close of its fiscal year) shows an increase in combined total from $407,343,000 to $440,870,000, while commercial deposits are up from $131,084,000 to $164,747,000.

The Bank of Montreal, following out its traditional policy of discouraging call loans in Canada, while keeping its money on call in New York, reduced the former from $8,791,000 to $7,470,000, and increased the latter from $100,530,000 to $127,221,000.

There are evidences in all directions of drastic "house cleaning" of the Merchants' commercial loans. The net earnings were 17.4% of the capital stock. Assets were up from $517,403,162 to $713,569,566.

## *Obituary*

GEORGE DURNFORD, head of the firm of G. Durnford and Co. Ltd., chartered accountants, Montreal, died at his home in Montreal on December 6th. The late Mr. Durnford was born in Toronto in 1838. In 1844 he was taken to Montreal and educated in public schools in that city. In 1854 he went to Quebec and entered the establishment of Loomis & Swell, where he remained for two years. He then returned to Montreal and entered the service of the Upper Canada Bank. Later, he became associated with the Bank of British North America, being appointed manager of its branch at Kingston, Ont. in 1874. He filled that position until 1880, when he was appointed secretary-treasurer of the Canada Co-operative Assoication, which post he held for six years. In 1886 Mr. Durnford established himself in business as a chartered accountant in Montreal, and in this line he became widely known.

---

M. W. WILSON, the new senior assistant general manager of The Royal Bank of Canada, has had very extended banking experience. He entered The Royal Bank at Lunenburg, N.S., in 1897, and was subsequently stationed at Halifax, N.S., Charlottetown, P.E.I., and Monreal. His first important appointment was that of assistant manager at Truro, N.S. This was followed by his appointment as manager at Vancouver, the centre of the bank's branch system in British Columbia. Mr. Wilson went to Montreal as chief inspector in 1916 and was appointed superintendent of branches in 1917.

SIDNEY G. DOBSON, who becomes assistant general manager of The Royal Bank of Canada, with supervision over Canadian business, has occupied the office of general inspector in charge of Canadian business, for the past few years. Mr. Dobson is another of the many bankers who had their earlier training in the martitime provinces, having joined the Merchants Bank of Halifax as junior in 1900. Later on he served as manager of The Royal Bank at Sydney, as assistant manager in Montreal, manager at Vancouver, and acting supervisor at Winnipeg. He went to Montreal in 1919 as general inspector.

S. R. NOBLE, one of the new assistant general managers of The Royal Bank of Canada, has been acting as chief inspector in charge of foreign business. He began his banking career with The Royal Bank at Fredericton, N.B., in 1903, and went to the head office in 1907. He has travelled extensively in the West Indies, Cuba and Central and South America, studying the bank's foreign business and was appointed general inspector of foreign branches in 1917.

GEO. W. MacKIMMIE, one of the new assistant general managers of The Royal Bank of Canada, receives his promotion from the office of general inspector, in charge of staff, bank premises, etc. He has been engaged in banking work during his entire career, having joined the Merchants Bank of Halifax, as junior clerk, in 1899. He served as chief accounant, head office, Royal Bank, in 1907-1910, and was appointed general inspector in 1918.

## Investment Guide—December

The "Investment Guide" serves a useful purpose to both buyers and sellers, because it reflects accurately the trend of the Canadian bond market at the present time. It contains the current prices of, and interest yields upon, the leading government, municipal and corporation bonds.

## Who Looks After Your Investments?

The brokers will tell you that it is almost impossible for a layman to properly look after his own investments. Their selection and care call for a degree of skill and expert knowledge which can only come with specialization. This is one of the reasons why so many turn to Great-West Life Insurance Policies for safe investment, as well as sure protection. It is profitable, safe, free of expense and involves no study of the Investment lists; it never depreciates in value, it does not have to be paid for straight away, and it is an investment which the beneficiaries of the Investor's estate can realize upon without delay.

A Great-West Life Insurance Policy is an investment that you do not have to look after. Write us and we will send further particulars.

**The Great West Life Assurance Co.**
Dept. "E" Head Office Winnipeg, Man.

# The Permanency of Estates

By DANIEL WEBSTER LANG
Union Trust Company, Toronto

(An Address Before the Life Underwriters' Association, Toronto, November 24.)

In discussing the subject, the permanency of estates, the question naturally arises, what proportion of our population leave an estate at their death? As a matter of fact the proportion is very small. We have no statistics to verify this but it can be easily checked up in a general way in any community. An investigation of this sort was recently made by a Trust Company in one of the middle Western States. What they discovered came somewhat as a surprise to them. In a very prosperous County in that State they found that only one in four left any estate at all and out of every fifteen who did leave an estate only one of the fifteen left an estate over five thousand dollars. When I read that statement I said to myself, it must be a splendid field for an insurance agent—as likely our own County of York is. I am convinced of this, at any rate, that in the great majority of cases insurance must provide for dependents.

Ordinarily, the word permanency is not applicable to a great proportion of estates First of all, there is the small estate that must necessarily be divided up immediately—estates so small that they will not yield an income sufficient to support dependents. Next, there is the estate that should have been made permanent by the establishment of a trust fund, but there was no will. I am convinced that if wills were more generally made it would be a step towards permanency, for the reason that if a man decides to make a will he must take stock of his assets and come to some conclusion as to the plan of distribution. He will try to work out his will so that his family will be assured of support as long as it may be necessary. Certainly by neglecting to make your will you are not contributing to the permanence of your estate. The steady campaign by the Trust Companies urging the making of wills is undoubtedly doing much to lessen the percentage of intestacies.

### Trust Estates

Let us look at what may be conveniently called the trust estates. By that I mean the estate which is set up by will as a trust fund for a period, either short or long, within the limits provided by the law. If the fund is to do the work it should do, there must be no depreciation in assets beyond what is contemplated and presumably, therefore, provided for. It is essential, therefore, that every safeguard possible be provided against unnecessary loss.

It is almost unnecessary to draw attention to the losses which have resulted through incompetence, negligence or default on the part of individual Executors and Trustees because such cases in every community are more or less common. To mention an outstanding example in a very large estate, in 1919 the Executors of the late Jay Gould were removed for incompetence and there is litigation still on foot in that connection. There is, too, the famous case of the estate of the late Samuel Tilden of New York City. He died in 1886 leaving an estate of $16,000,000. It is said now to be less than one half that figure and the litigation still proceeds.

In these cases individuals were executors in the first instance. In the case of the Gould Estate, at any rate, a Trust Company is now in charge. No statistics are available on the question of depreciation due to losses made by individual executors through speculation, neglect, etc., but that such losses are common is well known. The best evidence is through the records of Estates which come from time to time to the Trust Companies, by virtue of the retirement of an individual executor, either voluntarily or otherwise. Far too often these records show serious depreciation in assets. Frequently, too, a great deal of work and time has to be expended in putting the accounts into proper shape. The intermingling of estate and private funds is a very common occurrence.

Of course, no man can foresee what litigation may develop but he can eliminate the Executor risk by appointing a reliable Trust Company. By so doing, he will likely go a long way, too, towards saving his estate from the ravages of litigation.

### Deductions Often Overlooked

One of the reasons why an estate does not produce, over a period of years, as much the testator expected, is that he did not take into consideration all of the necessary factors. Smith says to himself "I am worth $100,000. That is about $6,000 a year. I'll make my Will on that basis". The figure of $100,000 is likely based on the face value of his holdings and almost always he overlooks deductions for debts. Succession Duty, etc. Between the date of Smith's death and the date on which the trust fund he has provided for is actually set up and going there is a shrinkage he has not counted on. Once the trust fund is set up, and granted the assets comprising it are sound, then the estate, to the extent of the trust fund, may be regarded as permanent.

The items of shrinkage which are plain, unavoidable and capable of at least approximate calculation are, debts. Succession Duty, Surrogate Court and solicitors' fees, Executors' fees and depreciation in value of assets. This last item, depreciation in value of assets, is usually not as great in actual practice as it would be from the testator's standpoint. And for this reason. Smith considers his house is worth $15,000. It is inventoried in his estate at $13,000 and it eventually sells for, say $14,000. In other words, from the testator's standpoint there is a shrinkage of $1,000 but from the standpoint of the Estate there is a capital increase of $1,000.

As you know, unless the Will so authorizes, assets which are not Trustee Investments must not be retained by the Executor. If he converts the proceeds into Trustee Investments he is protected, provided in every respect he brings himself within the provisions of the Trustee Act. But often a testator, for his own reasons, directs certain of his assets to be held or it may be that the beneficiaries, all being sui juris, make a similar request, and in the end there may be a loss. Then, too, there may be a loss on one item and an offsetting gain on another. So that depreciation in value of assets might be said to be ordinarily beyond the realm of accurate calculation.

### Provision For Debts.

Let us look then at the known, or rather the calculable items, debts, Succession Duty, etc. Experience goes to show that men of substantial means have a relatively small amount of debts, unless it be in the way of their trade. Succession Duty is a large item. One scarcely can conceive that the Schedules now in force in this Province will be raised. They have kept pace with most countries and have considerably outdistanced some. It might be argued that any further substantial increases wuold react upon the Province in the way of discouragement to the permanent investment of outside capital. It should be noted, too, that in one estate, duty may be payable in several jurisdictions as indeed is frequently the case. For these reasons an estimate of Succession Duty should be liberal

Surrogate Court fees and solicitors' fees are covered by tariff. Executors' remuneration is fixed by the Court and depends upon the character of the assets and the amount of care and management necessarily given to the Estate. Five per cent. might be regarded as the absolute maximum. In small estates this figure could be used as an estimate. In large estates it can be safely considerably decreased.

The relation that these various items bear to the whole Estate is best shown by actual facts. I have taken, more or less at random, from the records of the Trust Company with which I am connected, six estates, the smallest $20,000 and the largest $300,000. The approximate percentages are as follows: Debts 1%, Succession Duty 6½%, Surrogate Court and solicitors' fees ½ of 1%, Executors' fees 2%, Depreciation nil, net corpus 90%.

The figures covered the period from the death of the Testator up to the point where the permanent trust was established, as to which I have already made reference. It so happened that one of the estates provided for large charitable bequests which considerably affected the question of Succession Duty. Had it not been for that circumstance, the percentage of Succession Duty would have been somewhat higher. Where very large estates are being considered the percentage of duty will mount very rapidly.

### Shrinkage of Ten Per Cent.

In addition to the items enumerated, there is usually a certain amount of out-of-pocket expenses which are not included in this calculation so that the total shrinkage might be considered as something more than ten per cent., depending on the facts. Where the executor is an individual it might be pointed out that there are usually heavy disbursements for real estate commissions. For instance, if the assets were entirely real estate there would have to be deducted an additional three and one-half per cent. But in the case of a Trust Company executor, it usually effects the sales itself in which case it cannot charge any real estate commission. It may, of course, let an outside real estate agent sell the properties, pay him his commission and charge it as a disbursement but this is the exception rather than the rule.

These percentages are necessarily only a general guide. Given the facts regarding a man's affairs it is not difficult to make a close estimate of the shrinkage but if the facts are not available and the estate is not unusually large or likely to be divided in such a way as to run into the large percentages of duty, the above should be a fair guide.

There is, therefore, an element of shrinkage that is unavoidable, and that should be reckoned in the disposition of an estate. The other causes such as incompetence or default of executors and litigation are unknown quantities but they can best be guarded against by care in the selection of the Executor and Trustee and as to this there seens no doubt that the Trust Company is the logical solution.

---

## DEPOSITS ON JOINT ACCOUNT

### Ontario Supreme Court Held That Widow Inherits on Death of Husband

On an originating motion before the Ontario Supreme Court to determine questions arising under a will with regard to a joint bank account, Justice Middleton says: "The question is as to the right of the widow to $1,100 on deposit at the time of the death of the testator on the 23rd June, 1920.

"On the 2nd January, 1914, the testator drew from the bank money standing to his credit and deposited it under the terms of a memorandum addressed to the bank: 'Please open a deposit account in the name of George L. Hodgson and Christie A. Hodgson or either of them. We authorize you to pay and charge against this account all sums evidenced by cheques drawn on your branch or other vouchers signed by George L. Hodgson or C. A. Hodgson or either of them.'

"This memorandum was signed by both husband and wife and the account was opened in the names of both.

"Some time after this on the 20th January, 1917, the testator made his will. He gave all his property (which from the context means real and personal property) to his wife for life. He also gave to his wife: 'All moneys in the bank or cash on hand subject to the payment by her out of the same of all my just debts, funeral and testamentary expenses.'

"On the death of the wife the 'estate' is to be sold and divided among his brothers and sisters and their children. The provision for the wife is in lieu of dower. The wife claims that the money to the joint credit passed to her by virtue of her right of survivorship.

"The law upon the question is most satisfactorily dealt with in the notes to Dyer v. Dyer. Where real or personal property is voluntarily placed in the name of the owner and another there will be a resulting trust in favor of the transferor if the other is a stranger, but this presumption is changed where the other is the wife or child. It is then presumed that the intention was to create a joint tenancy and that the survivor would take beneficially, this being the ordinary incident of the joint interest created. The affection presumed takes the place of a money consideration."

In effect his Lordship's decision is that the opening of a bank account and the placing of money to the credit of husband and wife is a voluntary bestowment in joint tenancy and on the death of the husband the widow is entitled thereto.

# For Foreign Business

This Bank affords world-wide financial service for those seeking to promote foreign trade. With an efficient and progressive British and Foreign Department here, and affiliations with strong banking institutions abroad, we are enabled to offer unusual facilities for the transaction of foreign business.

EDWARD C. PRATT, General Manager.

## Foreign Banking Service in Canada's Commercial Capital

The Union Bank of Canada placed the headquarters of its Foreign Department in Montreal, because at this point it is best able to serve Canadian business men in foreign trade.

This location and private wire connections between branches in New York, Montreal, Toronto, Winnipeg, and connections with Vancouver, enable us to keep closely in touch with conditions in Canada and abroad.

Through continual operations in the exchange markets of Canada, the United States, Great Britain, and world centres, we are able at all times to handle international exchange at closest possible rates.

## NOVEMBER FIRE LOSSES

### Total Nearly Three Million — Losses at Two Educational Institutions Were Heaviest

Fire losses in Canada in November are estimated by the Monetary Times as follows:—

| | |
|---|---|
| Large fires reported | $2,324,000 |
| Small fires reported | 130,400 |
| Estimate of unreported fires | 500,000 |
| | $2,954,400 |

This makes a total of $37,390,455 for the eleven months of the year compared with $30,932,110 or the whole of 1921.

### Comparison by Months

The Monetary Times' record for the past two years shows the following monthly losses:—

| Month | 1921 | 1922 |
|---|---|---|
| January | $2,237,900 | $3,597,500 |
| February | 2,735,500 | 4,062,400 |
| March | 2,112,200 | 4,331,750 |
| April | 2,510,700 | 2,532,100 |
| May | 3,811,350 | 2,956,450 |
| June | 2,303,400 | 2,162,550 |
| July | 2,880,250 | 3,652,000 |
| August | 3,041,860 | 1,926,355 |
| September | 2,410,300 | 3,127,000 |
| October | 2,199,700 | 5,627,950 |
| November | 1,818,750 | 2,954,400 |
| December | 2,897,200 | |
| Totals | $30,932,110 | $37,390,455 |

### Large Fires

The following are the November fires with a loss of $10,000 and over:—

**Limellu, Que.** Nov. 1st. Sawmill and plant. $100,000.

**Little River, N.S.** Nov. 6th. Plant. $100,000.

**London, Ont.** Nov. 1st. Dancing pavilion. $10,000.

**Port Credit, Ont.** Nov. 1st. Residence, $18,000.

**Auburn, N.S.** Nov. 7th. Warehouse, $10,000.

**Foam Lake, Sask.** Nov. 9th. Barn. $11,000.

**Gravelbourg, Sask.** Nov. 8th. Garage, $25,000.

**Hamilton, Ont.** Nov. 7th. Barn, $10,000.

**Indian River, Ont.** Nov. 14th. Garage, $10,000.

**Montreal, Que.** Nov. 7th. University, $300,000.

**Mount Dennis, Ont.** Nov. 13th. Building and plant, $100,000.

**Sydney, N.S.** Nov. 10th. Fortune Block, $20,000.

**Todmorden, Ont.** Nov. 12th. Producer house, $10,000.

**Toronto, Ont.** Nov. 13th. Warehouse, $10,000.

**Beauport, Que.** Nov. 17th. Asylum, $15,000.

**Brantford, Ont.** Nov. 18th. Residence, $15,000.

**Clairmont, Alta.** Nov. 12th. Business block, $35,000.

**London, Ont.** Nov. 17th. Buildings, $30,000.

**Parkbeg, Sask.** Nov. 16th. Farm buildings, $35,000.

**Riviere a Pierre, Que.** Nov. 14th. Workshop, $25,000.

**Regersville, N.B.** Nov. 22nd. Mill, $25,000

**St. John, N.B.** Nov. 19th. Store, $40,000.

**Woodrow, Sask.** Nov. 15th. Stores, $40,000.

**Bellevue, Alta.** Nov. 22nd. Hospital, $50,000.

**Dundas, Ont.** Nov. 23rd. Inter-switch station, $200,000.

**Essex, Ont.** Nov. 25th. Buildings, $15,000.

**Fredericton, N.B.** Nov. 23rd. Buildings, $100,000.

**Grimsby, Ont.** Nov. 22nd. Creamery, $15,000.

**Hamilton, Ont.** Nov. 24th. Ice House, $20,000.

**Harrow, Ont.** Nov. 27th. Mill, $30,00.

**Loretteville, Que.** Nov. 27th. Residence, $15,000.

**Louisburg, N.S.** Nov. 19th. Coal conveyor, $10,000.

**Odessa, Ont.** Nov. 23rd. Store and pool room, $25,000.

**St. Boniface, Man.** Nov. 25th. College, $600,000.

**Sudbury, Ont.** Nov. 18th. Plant, $20,000.

**Sydney, N.S.** Nov. 22nd. Crowell block, $200,000.

**Toronto, Ont.** Nov. 28. Building, $30,000.

### Buildings Damaged

The following are the classes of structures destroyed or damaged: Residences, 28; barns, 25; buildings, 19; stores, 13; outbuildings, 10; business blocks, 8; garages, 7; mills, 5; plants, 4; warehouses, 2; stations, 2; hotels, 2; poolrooms, 2; dance pavilion, 1; rink, 1; factory, 1; inn, 1; school, 1; billiard parlor, 1; university, 1; bank, 1; asylum, 1; apartment house, 1; workshop, 1; hospital, 1; restaurant, 1; creamery, 1; college, 1.

The following are the causes reported:—Overheated stove pipe, overheated chimney, incendiarism, cigarette stub, matches, spark from chimney, defective flue, prairie fire, lamp upsetting, spontaneous combustion and overheated stove.

### Deaths from Fire

The record of deaths from fires has been as follows:—

| Month | 1919 | 1920 | 1921 | 1922 |
|---|---|---|---|---|
| January | 13 | 22 | 17 | 25 |
| February | 26 | 30 | 18 | 21 |
| March | 9 | 35 | 11 | 16 |
| April | 27 | 8 | 7 | 10 |
| May | 15 | 13 | 13 | 14 |
| June | 28 | 15 | 10 | 18 |
| July | 11 | 15 | 10 | 15 |
| August | 24 | 14 | 11 | 24 |
| September | 23 | 13 | 4 | 25 |
| October | 16 | 15 | 20 | 13 |
| November | 14 | 31 | 20 | 25 |
| December | 19 | 18 | 18 | |
| Total | 225 | 227 | 162 | 206 |

During the month there were twenty-five fatilities:—

| | |
|---|---|
| London, Ont. Nov. 2nd. Died from burns | 1 |
| Moncton, N.B. Nov. 3rd. Died fromburns | 1 |
| Innisfial, Alta. Nov. 6th. Explosion | 1 |
| Amherst, N.S. Nov. 6th. Explosion | 1 |
| St. Eleanors, P.E.I. Nov. 8th. Burnt in building | 1 |
| Brockville, Ont. Nov. 9th. Died from burns | 1 |
| Charlottetown, P.E.I. Nov. 10th. Burnt in building | 1 |
| Bury, Que. Nov. 12th. Clothing caught fire | 1 |
| Port Rowan, Ont. Nov. 13th. Clothing caught fire | 1 |
| Guelph, Ont. Nov.13th. Clothing caught fire | 1 |
| Campbellton, N.B. Nov. 17th. Burnt in building | 1 |
| Bedford, Que. Nov. 21st. Playing with matches | 1 |
| Guelph, Ont. Nov. 21st. Explosion | 1 |
| Galt, Ont. Nov. 2nd. Carriage caught fire | 1 |
| Montreal, Que. Nov. 24th. | |
| St. Boniface, Man. Nov. 28th. Burnt in building | 10 |
| London, Ont. Nov. 28th. Burnt in car | 1 |
| | 25 |

## UPHOLD PART TIME AGENT

### Life Companies in B.C. Take Stand—Vancouver Wants to Retain Taxing Power.

(Special to The Monetary Times)

Vancouver, Dec. 2.—Head offices of life insurance companies doing business in B.C., have been strenuously protesting to the government against a clause in the proposed Insurance Agents' Licensing Act whereby "part time" agents would be shut out of the life insurance business in cities of more than 10.000 population. The companies say this clause is wholly monopolistic in its intentions and against the interests of the insurance business and of the public. On the other hand the life agents in the larger cities of British Columbia, who sponsored this clause, refute this statement. They claim that the elimination of "part time" life agents in the larger cities will better the business and mean more efficient service for the public because of the better qualifications of the "full time" men.

The City of Vancouver is maintaining an active "lobby" at the legislature in Victoria in an effort to prevent the elimination of Vancouver's taxing powers over insurance companies. The attorney general however, has announced his intention of opening the city charter, which will give the companies the necessary opportunity of putting forward amendments. The companies did not wish to re-open the charter, claiming that the taxation could be removed by amendments to the insurance acts, just as effectively and at less expense.

### New Westminister.

The New Westminister Board of Trade has started a strong movement to oppose the demolition of certain buildings in that city, condemned by Fire Marshall J. A. Thomas, as fire hazards. The order to raze the old opera house has crystallized the opposition. It is the only building in the centre of the city capable of holding a large gathering. Fire Marshall Thomas says it is not only a fire hazard but is in an unsafe condition. A long debate has arisen in the Provincial legislature over the proposed amendment to the Fire Marshall's Act, which seeks to have Mr. Thomas' powers extended to municipalities without fire departments. Opposition of the municipalities led to the bill being held over.

The Municipality of Burnaby, near Vancouver will submit bylaws for raising $100,000 for extension of fire fighting facilities and opening up of roads.

### A Fire Protection Relic.

What is claimed to be the first fire engine manufactured on the Pacific Coast and also the pioneer engine on the mainland of British Columbia, is stored away in a warehouse at Kelowna, B.C. This engine is said to have been built at Worthington in San Francisco in 1850. It is as staunch as ever and needs but little repairing. It is known as the "Broderick" engine and hears the name of its maker and the number, "One" on a brass plate. At different times this old "manual type" engine was the proud possession of successive generations of citizens of San Francisco, New Westminister, Yale, Vernon and Kelowna. The old machine was last in service 18 years ago when it did just as valuable work as it rendered in the big San Francisco fire of 1852. To operate it required upwards of forty men and boys, working with might and main.

### Loss Well Divided.

George Haddon, managing secretary of the Vancouver General Hospital, was put to an unusual amount of labor last week when he signed his name 270 times to "Proofs of Loss" in connection with the Hospital's claim for insurance under the fire which occurred on October 15 in the children's ward.

The total amount of the claim was $71.50 for loss of bed, bedding, chairs, etc. The total insurance on the hospital schedule is $550,000 divided amongst 100 companies and covered under 135 separate policies, in amounts ranging from $2,000 to $17,000. Secretary Haddon is now receiving checks from the various companies, ranging in amounts from twenty-six cents to $2.22, according to the pro rata liability of each company.

## *Bank Branch Notes*

The Branch of the Dominion Bank at Dauphin, Man., will be closed on November 25th, and collections held by them will be handed to the Canadian Bank of Commerce at that point.

The Bank of Montreal has opened a branch at Danforth East, Toronto.

The Banque Nationale de Quebec has opened a branch at Edmunston, N.B., and six sub-agencies in the principal French-Canadian parishes of New Brunswick.

The Canadian Bank of Commerce has opened a temporary branch in the Coliseum Building, Toronto, to provide banking facilities for the Royal Agricultural Winter Fair.

J. Hanna has been appointed manager of the Bank of Montreal at Allenford, Ont.

S. R. Noble has been appointed assistant General Manager of the Royal Bank of Canada.

The Dominion Bank has opened a branch at St. John, N.B., with Mr. W. A. Fisher as manager.

The Canadian Bank of Commerce has purchased the southeast corner of Jane and Annette streets, Toronto, for the purpose of opening a branch.

George Stewart, manager of the Royal Bank of Canada at Springfield, Ont., for the past 15 years, is retiring.

The Dominion Bank of Canada is to open a branch at St. John, N.B.

The branch of the Union Bank at Rodney, Ont., will be closed on December 15th.

The Canadian Bank of Commerce has purchased the south-east corner of Jane and Annette Streets. Toronto, where a branch office will be opened.

# Be A Modern Columbus — Go After Foreign Business

Columbus stands out in history as a man who dared to go abroad for business. India with its fabulous riches and enormous population was the inspiration of his expedition. Columbus found a new market and forgot all about India. To-day India is still India, still fabulously rich, still undeveloped, so far as Canadian trade is concerned. There is need for modern discoverers—Commercial Columbuses—who will carry the banners of Canadian trade to the ends of the World—to near and far parts of the Empire—to discover new commercial worlds—to win for Canada her rightful share of the world's business.

There is room for you and your ability in the business of Exporting from Canada.

# Political Economy and Life Insurance

By A. B. CLARK, M.A., F.S.S.
*Professor of Political Economy, University of Manitoba*

(From an address before the Life Underwriters' Congress, Winnipeg.)

The bearing of economic history and theory on Life Insurance will be seen if we consider briefly some leading economic principles.

(1). One of the best established conclusions of economic theory is that labour is efficient in proportion as you call forth the spur of self-interest, and that in turn is in proportion as there is industrial freedom. This also is the verdict of economic history, as given in the development from slavery through serfdom to free labour, or, generally stated, from status to contract. The more accurately the reward has been adjusted to the work done, in even greater proportion has efficiency of labour increased. Self-interest has ever been the mainspring of industry, and thus of economic progress.

It follows that any interference on the part of the State,, whether by legislation or administration, which lessens the incentives to individual exertion, will tend to deaden the springs of industry.

(2). Another accepted economic principle is that capital, which is necessary to aid labour in production of wealth, is the result of saving, involving in most cases the subordination of present gratification for the sake of future benefit—that is forebearance, prudence, forethought, thrift.

Again, it follows that any action on the part of the State which tends to lessen the inducements to thrift will be economically, as well as morally, injurious to society.

### Poor Relief Increases Pauperism

In particular, consideration of these two economic principles alone leads one to conclude, and economic history supports the conclusion, that a lavish system of poor-relief tends to be accompanied by increasing pauperism.

We do not in this country like the word "pauperism." It too rudely jars our tender sensibilities. But, strangely enough, while shuddering at the name, we seem to take quite kindly to the thing itself. If, however, "a rose by any other name would smell as sweet," it is equally true that a fine sounding name will not avail to conceal the socially disagreeable character of pauperism. Now dependence on the community for maintenance is pauperism, an unpleasant social fact, call it by whatever euphemistic name you will. To disguise relief of pauperism as Mothers' Allowances, Organized Charity, Public Welfare work, etc., is not to alter its essential character.

**And any public policy that tends to make pauperism attractive so far tends to diminish the inducements to industry and enterprise, forethought and thrift. In particular, it lessons, in the case of many individuals, the incentives to provide for old age, and for wife and family, by means of life insurance.**

This, I am convinced, is the tendency of the Mothers' Allowance Act in its practical operation. When the State, assuming the mantle of Providence, volunteers to stand in loco parentis, what need has the individual to exercise either effort or abstinence in order to make provision for the welfare of his family in the event of his decease?

Philanthropy, at the expense of others, and in particular at the expense of the tax-payers, has become one of the most popular, as it is surely for the individual the easiest and cheapest of professions. But; from the standpoint of the public interest, the advocates of "social uplift," or social reform in a hurry, bid fair to become a serious danger.

They are too apt to concentrate their own attention, and that of others, exclusively on the direct and immediate effect of the policy they advocate, to the utter neglect of its hidden and far-reaching indirect effects, which in many cases are much the more important.

### State Relief a Demoralizing Influence

What they see, for example, is the immediate beneficial effect of relief to the widow and family. What they do not so readily see, and perhaps are occasionally unwilling to see, is the demoralising effect of reliance on relief—the diminished inducements to industry, thrift, self-reliance, forethought, on the part of those whose families are thus provided for, and the discouragement of those who are taxed to furnish the means of relief.

Legislation of this sort is apt to involve the double detriment of encouraging the indolent and thriftless, and discouraging the industrious and thrifty. It puts a premium on idleness and a tax on industry; and thus, while deadening the springs of energy and enterprise, it at the same time inculcates that blind eleemosynary spirit which, once bred in the bone, is ill to get out of the flesh.

The policy of paternal legislation has been carried to an extreme, and the time is ripe for a return to the older doctrine which laid less stress on the duty of the State to the individual, and more on the individual's duty to himself, his family, and the community to which he belongs.

### Makes for Independence

Now this reasoning affords the strongest possible economic justification of the system of Life Insurance. It is help towards doing without help, and that by the method of voluntary cooperation.

Its object is to distribute amongst the members of the cooperating group—the insured persons—the burden of a loss, which, borne by the individual's family alone, might prove overwhelming. The group consists of individuals each subject to a risk capable of actuarial calculation. The risks of the individuals are assumed and distributed over the group, the losses of the few being met out of the premiums contributed by all.

Insurance it should here be noted differs radically from gambling. Both involve the assumption of risks. But in gambling there is an artificial creation of risks, whereas the risks assumed by the insuring company is an already existing risk. There is, moreover, an actual gain in utility through insurance, for when a man insures his life the small annual payments are made out of money which has comparatively small utility to him, whereas the payment to his family at his death may represent necessaries of life and thus have high utility to them. There is here an increase in time utility.

Moreover, not only does the system of Life Insurance give to existing wealth increased utility; it may even be said to indirectly increase production of wealth.

### Encourage Thrift

In the first place, it clearly encourages thrift, and thus promotes the growth of capital. It has indeed a compelling force on the will to save, hardly equalled by other forms of investment. Saving in other forms may suffer from occasional weakness of will. But the Life Insurance contract once entered on, the need of regularly paying up the premium has just that touch of the imperative our human frailty requires.

In the second place, Life Insurance, by collecting the small individual savings of great numbers of people into one large fund, provides a great part of the capital necessary to assist production whenever there is good security, and a reasonable prospect of profit.

In both these ways, therefore, Life Insurance may be said to assist production and thus to promote the growth of wealth.

But not only does it increase the production of wealth; by encouraging thrift it is a powerful weapon in the conflict with waste, and its sister, poverty; and thus it tends to render less unequal the distribution of wealth.

### Life Insurance a Certainty

Life Insurance furnishes the most effective method whereby the individual can make certain of providing for his family responsibilities, for it enables him to capitalize the value of his earning capacity throughout life, on the basis of the law of average, and to make it available in the event of his death. It thus offers a certainty which no other form of saving can supply.

And not only does life insurance provide the necessary protection to a man's family, it tends also to increase the average man's productive efficiency, and even his expectation of life, by lifting from his shoulders the burden of care and financial worry that kills more surely than hard work.

Again, it should be noted that Life Insurance by strengthening the tendency to thrift is more likely to stimulate than to check other forms of saving; and a more general realisation of the economic and social importance of saving, as against spending, is one of the crying needs of the time.

---

## LARGE INCREASE IN NEW BUSINESS

### Three Million Increase in October Total Over Last Year—Death Claims Lower

With the exception of one, all representative Canadian companies issuing new life business during the month of October show an increase over the same month last year, according to reports received by "The Monetary Times," the increase amounting to over three million dollars.

**New Business**

| | Oct. 1921 | Oct. 1922 |
|---|---|---|
| Company A | $4,135,407 | $5,532,528 |
| Company B | 2,913,777 | 4,175,709 |
| Company C | 3,836,220 | 4,282,746 |
| Company D | 957,000 | 790,410 |
| Company E | 714,000 | 722,570 |
| Company F | 544,660 | 679,400 |
| | $13,101,064 | $16,183,363 |

Death claims paid during the month of October show a slight reduction of five thousand from last year's total. Details of the October statement are given herewith:—

**Death Claims**

| | Oct. 1921 | Oct. 1922 |
|---|---|---|
| Comapny A | $262,822 | $234,571 |
| Company B | 33,194 | 30,465 |
| Company C | 89,099 | 117,867 |
| Company D | 20.500 | 15,300 |
| Company E | ........ | ........ |
| Company F | 3,000 | 5,000 |
| | $408,015 | $403,203 |

---

## NON-MEDICAL LIFE INSURANCE

### Helps Agents in Sparsely Settled Districts where Doctors are Scarce

W. A. Spencer of the Retail Credit Company of Atlanta recently spent two months in Toronto, where he had an opportunity to study the system that some of the companies have of passing on risks without a medical examination, says the "Insurance Press." He found that a large percentage of Canadian companies now accept business on the non-medical business on amounts above $1,000, while others are accepting risks up to $2,000. This later increase in limitations, with some companies, is a result of a satisfactory mortality experience. Limitation as to amount and age differs with the individual company, but the maximum amount issued by any one company is $2,000, between the age limit of 15 and 45. All applicants falling within the limits imposed by the companies must apply without being medically examined.

### Some Advantages

"There are many favorable features to the plan; chief among these is the stimulus it gives to the writing of insurance in sparsely settled territories," Mr. Spencer said, "Formerly, the agent would not go to the trouble of taking a man 25 or 30 miles to a doctor, nor could he always secure a doctor to take to the applicant. The present plan permits him to write the business when he has convinced the prospect. The companies indicate that they are getting an increased volume of business from rural districts. There is also a saving in medical fees, which permits of an extra mortality.

"As this plan is still in its infancy on this continent, it is too early, as yet, for the companies to possess any definite idea of its full value. The general impression, from experience thus far, is that the selection of risks is just as favorable. In no company has the business in the non-medical section produced a heavier mortality than the business medically examined and of a like duration. The present trend, as a result of the experience now being gained, is that probably more companies will do a non-medical business. It is also thought that even larger amounts than $2,000 will be freely accepted."

# Bank of Montreal 105th Annual Meeting

### Sir Vincent Meredith, President, Reviews Outstanding Developments of Past Year—General Outlook in Canada.

### Sir Frederick Williams-Taylor, General Manager, deals with Canada's Economic Position and Progress of Bank.

The annual meeting of the Bank of Montreal was marked by especially interesting announcements by both Sir Vincent Meredith. Bart., the President, and Sir Frederick Williams-Taylor, the General Manager.

Sir Vincent in his address referred particularly to the conditions that prevailed throughout the world. The President also made special reference to the revision of the Bank Act, and to the absorption of the Merchants Bank. Before beginning his annual address, Sir Vincent also took occasion to pay special tribute to the memory of the late R. B. Angus, who had served for over 40 years as a director of the Bank and who also for some years had acted as General Manager.

Sir Frederick Williams-Taylor, the General Manager, dealt more particularly with the affairs of the Bank, but laid special emphasis on the economic position of Canada. Sir Frederick also referred to the exchange problem and reviewed the general features of the annual statement of the Bank.

The 105th Annual General Meeting of the Shareholders of the Bank of Montreal was held in the Board Room at the Bank's Headquarters.

On motion of Lord Shaughnessy, Sir Vincent Meredith, Bart, was requested to take the chair.

### The President's Address

Sir Vincent Meredith, President, in submitting the adoption of the Annual Report, said:

The recent death of our greatly esteemed director, Mr. R. B. Angus, must cast a shadow over our meeting to-day.

As a director of the Bank for thirty-one years and its President for three years, he rarely, if ever, was absent from a meeting of the Board except on occasions when he was abroad. His wise counsel and mature judgment were at all times at the Bank's service.

He will be greatly missed, not only by his confreres in the Bank and other large corporations with which he was closely identified, but by the public in general, by whom he was held in high esteem.

Before beginning the few remarks that it is customary for me to make at this time, I wish to state that your Directors authorized a donation of $50,000 in May last to enable the Hospitals to continue their commendable work without curtailment, and I am confident this has your sanction.

The banking year just closed has required constant vigilance and I am glad to be in a position to inform you that, while our profits on the basis of capital employed have not been as large as those of the immediately preceding years, as was to be expected with lessened activity in business generally, coupled with increased taxation, we have been fortunate in escaping serious losses, and the liquid position and great strength of the Bank remain unimpaired.

Since your last anual meeting, the Merchants Bank has been absorbed by the Bank of Montreal. To the incidents connected with this transaction it is not necessary to refer, nor to the criticism it evoked, further than to say that, in my judgment, the prompt action of your directors, subsequently ratified by you, averted a situation that might otherwise have proved serious to the country at large, and secured the shareholders of that institution from losses greater than were suffered.

It will interest you to know that the work of co-ordinating the staffs with a view to economics is proceeding with all possible celerity, and that the acquisition of the Merchants Bank is reasonably realizing the expectation of your Board. Under our own organization and with the economies that have been effected, the future gives promise of increased earnings.

### Canada's Trade

The foreign trade of Canada is again expanding, having reached a value of $921,700,000 in the seven months ending October 31st, being an increase of $67,748,000 over the corresponding period last year. If the comparison is carried back two years, the considerable decrease of $575,000,000, or nearly 40 per cent., is shown; but having regard to the fall in prices, it is probable that the quantity movement is now little less than in 1920, when the peak was reached.

A satisfactory feature of the figures is the large export of agricultural produce, amounting in the seven months to $270,084,000, an increase of $27,000,000 over the seven months of last year—a substantial addition to the income of our farmers.

The improvement in the lumber, pulp and paper industries which set in during the summer is reflected in an increase of $26,780,000 in the value of exports of these commodities since April 1st. Imports, after a sharp decline following the general reaction in trade towards the close of 1920, have latterly expanded, increasing upwards of $7,000,000 in October, but in the seven months period, the total value of goods brought in is slightly less than last year. The balance of trade has turned in favor of Canada, having been the considerable sum of $60,000,000 in the April-October period, as compared with an adverse balance of $22,700,000 in 1921, and of $140,600,000 in 1920. Within two years, therefore, there has been a betterment of no less than $200,000,000 in our foreign trade, a factor contributing in a considerable degree towards the restoration of the Canadian dollar to par. Taken altogether, the foreign trade figures afford encouragement.

The net debt of Canada on the 31st of October amounted to $2,369,000,000, an increase of $40,000,000 during the year. The deficit of the National Railways during the same period will probably amount to upwards of $50,000,000.

### Conditions in Great Britain

In Great Britain the past year has witnessed an improvement in general business conditions, but it has been a very gradual one. The outlook, however, is for a continuance of this movement. Deflation is still taking place, as evidenced by the reduced amount of Treasury Bills, the fewer currency notes outstanding and the reduction in bank deposits. The floating debt is over £388,000,000 lower than a year ago, mainly represented by a reduction in Treasury Bills outstanding.

The first payment by England on account of interest on her debt to the United States is an earnest of her willingness and ability to discharge all liabilities, even those contracted for the benefit of Allies and in the common cause.

### Conditions in the United States

From what one can learn, fundamental conditions in the United States underlying the forward movement of business which began some months ago are sound, as evidenced by the prompt resumption of progress in various industries as soon as the retarding influence of the strike situation were removed.

The United States can, for a time, remain self-contained, but a year or two of business activity will doubtless convince the most skeptical that that country cannot remain aloof and live unto itself. For a time the home market can absorb a very large proportion of the country's production, but after the saturation point has been reached, economic conditions demand that an outlet must be found for the surplus products, including both wheat and cotton, failing which, depression in business generally, with lower prices, will be the natural result. In the meantime, the present business activity is expected to continue for a year or two longer.

The least satisfactory phase of the country's business is in the foreign trade field. With continued unsettlement of many of the foreign exchanges, the volume of exports has shown restricted demand, monthly figures running uniformly below those of the previous year. The recent tariff enactment does not tend to stimulate imports, so that mutual foreign trade is just now at a low ebb.

The growing scarcity of labor shows unemployment has decreased 40 per cent. since October, 1921, and the new immigration laws, as is also the case in Canada, bar a remedy.

### Immigration

As you are aware, the tide of immigration into Canada has not flowed freely in recent years, and while reasons more or less convincing are given for the failure to attract larger population, the fact remains that the situation in this respect is unsatisfactory.

The return of the census taken last year revealed that if we had held the immigration of the decade as well as the excess of births over deaths, our population should have been some two millions greater than computed by the official figures. Obviously, if our confidence in Canada is to be justified, a radical change in the immigration policy becomes necessary.

It seems to me there are two ways only to check and reduce the mounting debt with which this country is now burdened; one is by the creation of fresh wealth through having more people on the land and the other by strict economies in Government expenditures.

Our country's natural resources exist in abundance; we have an exhilarating climate, fertile soil, immense forests, rich deposits of minerals both base and precious, providing opportunities for livelihood that should attract the surplus populaton of the Old World. Doubling population will halve our debt, solve our railway problems, expand our trade and enhance the general prosperity. It is gratifying, therefore, to learn that the Dominion Government, in co-operating with the Provincial Governments and private organizations, is to embark upon an energetic immigration policy, of which the first fruits, we may hope, will appear next year.

### Farmer's Business

Statements have been made in the public press by uninformed people that debtors, especially in the West, are being subjected to undue pressure by the Banks, Loan Companies and other creditors. So far as this Bank is concerned, every consideration and great latitude have been given to debtors who, through bad harvests or other mischance, have been unable to meet their obligations. This is and at all times has been the policy of this Bank, and never has that policy been more forcibly impressed upon our Managers than during recent critical years.

Banks are business, not benevolent institutions. They are expected to pay their shareholders a reasonable return on their investment, which includes the Rest Account—the accumulation of many years—as well as the capital of the Bank. The rate of dividend is not disproportionate to that investment and certainly has not proved so lavish as to encourage capital to seek the banking field. As a matter of fact, the distribution to shareholders in Canadian Banks is substantially less than that made by banking institutions in Great Britain or the United States.

### Revision of the Bank Act

The Bank Charters expire on July 1st, 1923, and unless the Government deems proper to extend them for another year, a revision of the Bank Act will occur at the approaching session of Parliament.

The subject is already engaging attention in the press and elsewhere. Some suggested changes are so radical that alarm might well be caused but for the conviction that caution, the lessons of the past and the sound sense of Parliament will interpose against their acceptance. I have yet to learn of any parliamentary or other enactment that will wholly provide against the errors or misjudgments of those who conduct affairs in any business.

The banking system of Canada is the product of long experience. It has operated to the advantage of the people, despite an occasional failure, from which, however, no country and no plan has been free. I can confidently claim that to venture upon radical changes in the Banking system as to incur grave danger to the stability of trade and to imperil the credit structure of the country, and I know of nothing more certain to arrest the development and progress of Canada than rash experiments in the domain of banking and currency.

### Labor and Costs

The labor problem and its near-relation, the cost of living, are still with us. Certain classes of labor have accepted a lower wage, but there has not been a pronounced general movement in this direction, nor has the tendency been wholly downward. It may be, indeed, that for a time diminished production cost will have to be sought in improved machinery and equipment, in efficiency and economy and in a larger output per man and machine rather than in cheaper labor.

Transportation rates are frequently complained of as keeping prices high. As a matter of fact, rates are lower in Canada than they are for similar services in other countries. It is obvious, therefore, that there can be no amelioration unless there be a reduction in operating costs, represented chiefly by labor, a process experience is proving to be slow, difficult and uncertain

### General Conditions

The condition of business in Canada is, upon the whole, more satisfactory than a year ago. The opinion I then ventured to express, that trade would not yet enter a period of pronounced expansion, although a spurt might be made in some departments, has been borne out by events. Price recessions seem to have been checked somewhat generally, the cost of living indices compiled by many statisticians not having been materially reduced within the year, while some important commodities move more freely at higher prices. Lumber, pulp and paper manufacturers, sugar, all show improvement. The textile industry has been well employed and the boot and shoe industry is apparently emerging from the slough. The building trade has been decidedly better the country over, to the gain of artisans as well as of dealers in builders' supplies.

For several months past the army of the unemployed has been diminishing until it can almost be said that unemployment is not greatly in excess of the normal. On the other hand, farmers have had to contend with a further fall in prices, which have practically receded to pre-war figures. Dollar wheat gives the grower a slim margin of profit.

Agricultural products have been deflated in price, as respects the producer, to a greater degree than other commodities, and the former relation of foodstuff prices to other articles has still to be restored.

Fortunately, farmers have reaped a bountiful harvest, more bountiful as a whole than in any year since the phenomental crop of 1915, so that the excess in quantity will in some measure compensate for the drop in prices. Transportation interests, moreover, will benefit materially from the increased traffic arising from the splendid harvest, and the transportation interests are probably the largest employers of labor in Canada.

The live stock trade has been hard hit by the high tariff of the United States, particularly in the case of cattle breeders in the West. Whether the removal of the British embargo will realize all the expectations of Canadian breeders may be a moot question, but it is very satisfactory to learn that this long-imposed embargo is at last to be lifted and the hope may be indulged that an impetus to Canadian exports of cattle to Great Britain will be given thereby.

### The European Situation

The financial condition of Europe still gives cause for uneasiness. No progress has been made towards stabilizing the currencies or balancing the budgets of such countries as France, Germany, Italy and Austria, although in the case of Austria, the League of Nations has evolved a plan which may stay the downward course of the crown. The German mark has dropped to the vanishing point and seriously affects the international relations of that country. Great Britain alone in Europe has retained its credit and protected its currency by courageously imposing taxation in face of domestic difficulties.

Financial conferences have met, deliberated and concluded nothing. Debt cancellations, sometimes proposed, are delayed by the unwillingness of creditor nations to be the first to begin and a natural reluctance to extinguish credits while retaining debts. The United States offers time, but refuses to accept less than a hundred cents in the dollar, and so the financial distress of Europe remains unrelieved.

The present situation cannot continue indefinitely, since, prolific though the printing press be in production of paper tokens, the day will come when these will have no greater purchasing power at home than they now have abroad. It may be, indeed, that we are unduly impatient of delay, realizing perhaps inadequately that the destruction wrought by four years of devastating war can only be repaired by long and laborious work and thrift.

This much is certain, unless new principles of economics are set up, the European nations staggering under heavy burdens of debt and taxation can reach solvency only by steadily increasing their production and creating credits by sales abroad; even loans and extensions will merely alleviate, not remove, their difficulties.

### Concluding Remarks

In conclusion, the crisis of 1920-1 has passed into history. The fact that the depression was world-wide makes it highly improbable that the return to normal will be other than slow.

We have experienced a more sudden and acute depression of trade than our generation had ever known, and though conditions, including the agricultural results, are undoubtedly more favorable, prudent business men will not build up an unduly speculative position after the lessons of 1920.

The outlook, as I see it, is for reasonably profitable operations in most lines of business, though there can be no great trade boom wthout a further important expansion of foreign commerce, and this, unfortunately, is not yet in sight.

### The General Manager's Address

Mr. Chairman and Gentlemen:

The one hundred and fifth annual balance sheet of the Bank, which I have pleasure in presenting for your approval, shows many changes as compared with a year ago.

These changes are the result in part of incidental variations in what might be termed our natural position and, in a larger measure, of the absorption of the Merchants Bank of Canada, which, I am gratified to say, has been effected with scarcely a ripple on the surface of our affairs.

Speaking in general terms, the increase in our liailities to our shareholders and depositors is balanced by a corresponding increase in our assets while our liquid position remains as strong as ever and the status of the Bank is enhanced through the acquisition of many branches, as well as in other ways, from all of which we shall presently derive the benefit in increased earning power.

It is trite, yet undeniable, to remark that in Canada, as elsewhere, trade generally has not been good. Bankers, more distinctly than others, perceive the detailed results of this condition, which in large measure is brought home to them through losses and diminished profits.

In the case of our own Bank, if losses are moderate, as they have been, it must of necessity be the result of prudence in granting credits and of accurate perception of the inexorable working of economic laws, for there is little that can be described to luck in such matters.

Criticism of bankers is never lacking in Canada, but I trust it is recognized that the best interests of our shareholders and of that much larger section of the community, our depositors, continue to be fully protected, while we have at the same time met the proper requirements of all borrowing customers.

Naturally, we have less control over our profits; yet you will observe that we have earned our dividend for the past year and are fortunately able to pay a two per cent. bonus as well. We enter upon a new year with confidence born of strength and experience.

Before going into a detailed explanation of the various items in our balance sheet and the factors that affect our well-being, it is customary for your General Manager to touch upon the general trade and financial situation and outlook.

Your President has covered the matter amply. My views can be expressed in very few words indeed.

Canada's economic position is not satisfactory. How could it be satisfactory, with the whole financial world out of joint? As everyone is aware, our troubles are partly the result of this universal condition; partly the result of the war. It is well, however, to bear in mind that our problems are largely of our own creation.

Readjustment will come in time, for this is a country of virility and manifold resources; yet one thing stands out signally, in my opinion, namely, that Canada cannot go ahead again as she should while taxation and the cost of living are higher in this country than they are in the United States of America.

Canada is one of the best countries in the world to live in, to work in, to play in—in point of stability, security and comfort it is an earthly paradise as compared with Europe—but we must not stand still, and in order to progress the cost of living and taxation must be diminished; otherwise, we will fail to attract immigration; and improved conditions are largely dependent upon increased population.

As to ways and means, they are obvious to all who reflect, and the necessity thereof is now being brought home to the heedless by that pitiless but unerring teacher, necessity.

To revert to our balance sheet, you will note that our bank premises account has been nearly doubled, but I am able to inform you that important sales have already been made and further realizations are in prospect, so that we look forward to a steady reduction in this none too satisfactory form of asset.

Merchants Realty Company bonds to the extent of $2,837,000 also are outstanding, and these are noted on our monthly return to the Government, for we think the public is entitled to such information. The amount, however, is not shown as a liability, because the equivalent value of real estate securing the bonds is not included in our assets.

As you know, an ample volume of deposits is essential to the prosperity of any Bank, and I feel sure you share our gratification that this department of our business has been well maintained during the deflation period. Our total deposits are $605,600,000, divided as follows:

| | 31st October, 1922 |
|---|---|
| Current in Canada | $189,000,000 |
| Time Deposits in Canada | 276,700,000 |
| Deposits outside | 139,900,000 |

I should add that both in Canada and outside, we had at 31st October special large sums on temporary deposit, which have since been in part withdrawn.

Our total loans are now $409,000,000. Of this amount $240,000,000 represent commercial loans in Canada, which are less after taking Merchants Bank figures into account, by $27,000,000 than a year ago, and therein, and in the lower rates of interest at our other reserve centres, London and New York, lies the explanation of our somewhat smaller percentage of earnings to capital.

I need hardly tell you of the daily problems which come to us in dealing with this great volume of commercial loans or of the lively interest maintained through this intermediary in every phase of Canada's trade and in the economic welfare of the country generally.

Current loans in Canada for all the Banks, including advances to Provincial Governments, Municipalities, etcetera, are $130,000,000 less than a year ago, reflecting a period of deflation in trade and lessened demand upon the Banks. It is the case also that during the year so-called "frozen credits," to an appreciable extent, have been liquidated. The same period has recorded business failures in Canada and Newfoundland numbering 3,571, with liabilities of $73,500,000. The number is larger than in any year since 1915.

The free movement of gold into this country enabled the Bank to strengthen its metallic reserves in Canada, as indicated in our balance sheet.

The past half year has witnessed many fluctuations in the Foreign Exchanges. The most important for us is the rapid decline in the value of New York funds, which have fallen from the high point of 19 per cent. premium in December, 1920, to a slight discount at this date. The decline would have been greater but for Canada's imports of gold from the United States of America.

We may congratulate ourselves on this state of affairs; yet we must not lose sight of the fact that it is brought about not so much by the improvement in our trade balance, although that is considerable, but more through the sending of special large sums into Canada and by heavy borrowings in New York on the part of Federal and Provincial Governments, Municipalities and Industrial Corporations, borrowings which have been extraordinarily easy, owing to a plethora of funds in the New York market.

We cannot, therefore, look upon our present position as permanent, and should be prepared for the possible return of the premium on New York funds.

In London, existing conditions, particularly in regard to exchange, have made business with countries overseas increasingly difficult, but the services of our branches in London and Paris continue to be most useful, not only in handling transactions, but in keeping the Bank's executive in intimate touch with financial and other developments abroad.

The improved value of the pound sterling in terms of the Canadian dollar inspires us to look forward to the time when Canada may again issue loans in London, where a warm welcome would be accorded to so popular a borrower. Rates for money in London steadily declined throughout the year, but the fall had been anticipated, with the result that our resources in London have been continuously employed to the best advantage practicable and without sacrificing liquidity.

There is evidence of increasing interest by Canadian producers and manufacturers in the English market, and vice versa, and we have every reason to believe that the services our London Office is rendering in conjunction with our Foreign Department in Head Office, in furnishing information as well as other assistance, are fostering this movement to the benefit of Empire trade and to the direct advantage of the Bank's customers.

The new office of our Paris subsidiary was opened in February of this year, and we have received many compliments on its dignified appearance. The Place Vendome, where it is situated, is, I need hardly say, one of the best known and most central spots in Paris, and large numbers of Canadians and other visitors have made use of the facilities offered.

The high tariff measures adopted by the United States has restricted the export from Canada of many of our farm products, for which we must now seek markets elsewhere. Yet it is noteworthy that the trade figures of a recent month showed Canada as first of all countries as a consumer of United States' goods, and first also as a provider of the United States' importing needs.

Canada borrowed in New York $240,000,000 out of an estimated total of $700,000,000 raised in that centre by foreign countries during the nine months ended 30th September. Our borrowings were chiefly new money, and $100,000,000 of the amount was raised by the Dominion Government on conspicuously favorable terms to Canada.

It may be of interest at this point to state that Canada's debt abroad, according to a close analysis, is now about $3,600,000,000, divisible as follows:

| | |
|---|---|
| Dominion Government.. | $546,000,000 |
| Provincial and Municipal Governments ...... | 720,000,000 |
| Railways ........... | 1,600,000,000 |

Public Utilities, Industrials, etcetera, accounting for the balance.

Canada's obligation in interest on this great sum is estimated at about $500,000 per day.

In conclusion, I think we can claim that the manner in which our Banks generally have come through the agitating times since 1914 is evidence of the fundamental soundness of our Canadian banking system. We must be thankful that no great commercial breakdown has occurred.

The Report was unanimously adopted.

### Thanks to Officers

Senator G. G. Foster then moved, seconded by Mr. W. R. Miller, that the thanks of the Meeting are hereby tendered to the President, the Vice-President and Directors for their attention to the interests of the Bank.

In speaking to this resolution Senator Foster said:

"I am quite certain that every shareholder of the Bank of Montreal, who has read the splendid statement presented to them, will concur in a Resolution expressing their appreciation of the services rendered by its Directors.

"There are people who imagine that when they pay one or two hundred dollars a share for Bank Stock, that their money goes in a till somewhere and earns for them twice or three times as much as they could make it earn for themselves, but those of us who know the eternal vigilance that is necessary in order that a Bank may be successful, can easily appreciate the anxiety and labor which has come to the Directors of this Bank during the trying year of 1922. The conditions which have faced Canada for the last eight years have required broad vision and hard work on the part of all men who sought to conserve the assets which they had, or to make a success of their business, and no Corporation has required greater care and greater skill than that which fell to the lot of the Directors of every Bank, not only on this Continent, but throughout the World.

"And so, Sir, I desire to express to your Board, to your President and your General Manager, a kindly word of appreciation from your shareholders, and at the same time a word of congratulation from all citizens of the country who, while not directly connected with the Bank, either as shareholders or officials, appreciate the great bulwark which your institution furnishes in assisting in the maintenance of national credit for this Dominion.

"There are those who look with a jealous eye upon prosperity which comes to others, whether it is from Banks, other Corporations, or from their more successful neighbors, but there is no man in Canada interested in its future who is not unwise if he utters one word or does any act which tends to render more difficult the burden which will fall upon Banks and their management during years of development such as the years which I hope lie before us in Canada.

"We are approaching a year when the law of the land demands, wisely, or otherwise, that the provisions which govern Banks shall be submitted to the scrutiny of Parliament, and, while certain changes may be made, and may be desirable in the interests of everybody, it behooves those who are interested in Banks to be reasonable and prudent in their demands just as it is the duty of those who criticize to remember that every unfair blow that is struck at the stability and strength of any Bank, is a blow aimed at the very existence of all financial affairs in our country.

"No man who knows the history of this Bank can fail to experience a sense of sorrow and regret at the absence, to-day, of that distinguished member of your Board whose loss has been lamented by every class in this community, and as one of those who for a quarter of a century have received consideration and encouragement from that great citizen, it is not out of place for me, while not seeking to add to the eulogies which have been spoken and written concerning him, to note the fact that your shareholders sincerely and thoroughly regret the loss we have suffered in the death of that simple, kindly, distinguished gentleman, Mr. R. B. Angus."

The President: "Senator Foster and Gentlemen, on behalf of my colleagues and myself, I am deeply touched by the kind words uttered and this proof of your confidence in us and the Administration of the Bank over which we have the honor to preside."

The resolution was unanimously adopted.

General Sir Arthur Currie, G.C.M.G., K.C.B., LL.D., then moved, seconded by Mr. G. B. Fraser, that the thanks of the Meeting be tendered to the General Manager, the Assistant General Manager, the Superintendents, the Managers and other Officers of the Bank, for their services during the past year.

In speaking to this Resolution, General Sir Arthur Currie said:

"This resolution, perhaps, needs no further comment of mine. But may I be permitted to say that seldom, if indeed ever, has there been a period in the history of Canada, or the world for that matter, when steadiness, caution and goodwill were so much required in our commercial and industrial life. And in providing these requirements in a transient period of unrest our financial institutions have a most difficult undertaking as well as a great responsibility. The Bank of Montreal is proud of its long and unbroken record of distinguished service. That record is based on the loyalty of its staffs from Managers to Messengers. The resolution I have moved seeks to express in some small degree our deep gratitude to our officers for their sincerity, their judgment, their fair dealing, their courtesy and their prudence—these qualities which have given to the Bank of Montreal its remarkable position and its honorable name." (Applause.)

### General Manager's Reply

In replying to this the General Manager, Sir Frederick Williams-Taylor, said:

"I have to thank you, Sir Arthur Currie, and Mr. Fraser, on behalf of my colleagues and the officials of the Bank generally for the appreciative terms in which you have referred to our work during the past year.

"The responsibilities are great and steadily increasing. The taking over of the Merchants Bank necessitated and received the loyal cooperation of the entire staffs of both institutions. Of the effort of these dual staffs, now happily united, I can in justice speak in terms of highest praise.

"We have a highly efficient aggregation of men and women, deeply interested in their work, filled with a staunch devotion to one institution, and your resolution to-day and your remarks will prove a fresh and splendid incentive." (Applause.)

The resolution was then unanimously adopted with applause.

The ballot for the appointment of Auditors and the election of Directors for the ensuing year was then proceeded with.

The Scrutineers appointed for the purpose reported that Messrs. James Hutchison, C.A., and J. Maxtone Graham, C.A., were duly appointed Auditors, and the following gentlemen duly elected Directors: D. Forbes Angus, J. H. Ashdown, E. W. Beatty, K.C., H. W. Beauclerk, his Honor Henry Cockshutt, General Sir Arthur Currie, G.C.M.G., K.C.B., LL.D.; H. R. Drummond, G. B. Fraser, Sir Charles Gordon, G.B.E.; Sir Lomer Gouin, K.C.M.G.; C. R. Hosmer, Harold Kennedy, William McMaster, Sir Vincent Meredith, Bart.; Lieut.-Col. Herbert Molson, C.M.G., M.C.; the Right Hon. Lord Shaughnessy, K.C.V.O.; James Stewart.

The meeting then terminated.

At a subsequent meeting of Directors, Sir Vincent Meredith, Bart., was re-elected President, and Sir Charles Gordan, G.B.E., was re-elected Vice-President.

---

## INSURANCE LAW

Lyman Lee, solicitor for a number of fraternal insurance societies, was the speaker at a meeting of the Hamilton Scientific society on November 20, on Life Insurance Law. As a preface to his address, he gave figures of life insurance companies and societies in Canada and North America. The amount of insurance carried in Canada, by Canadian British and United States companies, at the end of 1921, according to the report of the federal insurance department, was $1,860,226,952. He then gave an outline of the history of the federal insurance laws, and dealt at length with the Ontario statutes in regard to life insurance and insurance beneficaries. While in his opinion the Ontario insurance law was not perfect, it is better than that of all the other provinces in the Dominion. He explained in detail many legal definitions, including those of legal heirs, preferred and ordinary beneficiaries, and presumption of death after seven years' absence.

Following his explanations of the statutes, he told of some interesting insurance suits and attempts to defraud insurance organizations.

## EXCHANGE ON RAILWAY RATES

The rate of exchange in connection with shipments of freight between points in Canada and the United States from Dec. 1 to Dec. 14, inclusive, will be one-thirty-second of one per cent. No surcharge will be collected on international freight or passenger business.

## POST OFFICE SAVINGS BANK

A further reduction in total deposits is shown in the September statement of the Post Office Savings Bank, deposits being lower by four thousand from the previous month. September's total is forty-four thousand lower than that of September last year.

Total withdrawals are again on the increase being up by forty-four thousand from August, but considerably lower than September last year when withdrawals totalled $633,696.

The following is the statement for the month of September.

| | |
|---|---|
| Balance in hands of Minister of Finance on 31st Aug. 1922 .... | $23,021,217 |
| Deposits in Post Office Savings Bank during the month ...... | 203,533 |
| Deposits transferred from the Post Office Savings Bank of the United Kingdom to the Post Office Savings Bank of Canada... | 6,786 |
| Interest allowed to depositors on accounts closed during month . | 4,366 |
| | 23,235,872 |
| Withdrawals during the month .. | 511,001 |
| Balance at the credit of depositors' accounts on 30th Sept., 1922 ..................... | 22,724,871 |
| | $23,235,872 |

## DIVIDE ACCIDENT INSURANCE

The Hull city council at its meeting on November 13 distributed between three agents, the $35,000 accident insurance to be carried on all civic construction jobs now under way. The successful tenderers were: A. Gauthier, H. Belanger and J. E. Laflamme all of Hull city The tenders for the insurance, when read by the city clerk, Mr. H. Boulay, were as follows: Gauthier, $4.51 per hundred dollars insurance, with no limit to the amount which might be paid on any one accident; Belanger, $3 per hundred, with a limit of $10,000, and Laflamme $3.25 per hundred, with no limit.

While it was considered that Mr. Laflamme's rate was the lowest, it was pointed out that the city would probably never have to pay a claim over $10,000 and it might be as well to take advantage of Mr. Belanger's low offer and allow the limiting clause.

Alderman Valin, however, proposed an amendment to the effect that the $35,000 be divided equally between the three agents. In this way equity could be arrived at and if a big claim was put in there would be no trouble in the settling of it. He pointed out that Mr. Gauthier's rate was not as high as it seemed, as it provided for a rebate of 7½ per cent. The three agents, who were all present at the meeting, agreed in consideration of the division of the policy, to meet Mr. Belanger's terms; $3 per hundred with a limit of $10,000 on any single accident. The insurance protects all the employes of the city of Hull in case of an accident occurring to them while at work on a civic job.

## FLOUR SHIPMENTS HEAVY

According to the latest reports of exports from Canada the popularity of Canadian flour is more in evidence than ever. Flour is following almost the same curve as grain in its upward tendency and up to the end of October 2,737,589 sacks of Canadian flour had been shipped out from the port of Montreal to Europe, an increase over last year of over half a million sacks.

The monthly output is also significant, 560,753 sacks being shipped out during October while in the same time in 1921, 375,994 sacks were shipped. This class of export has been very beneficial to the liners in port, their demand for package freight being very keen.

It is estimated by Montreal Board of Trade officials that the export for the month November will much increase the total for the season and bring the year's export far in excess of the total of the 1921 shipping season which aggregated 2,934,000 sacks. Apart from the European demand, Newfoundland has also been a heavy buyer of the Canadian product.

## FINANCIAL RISK NOT ACCCEPTED

The Canadian Manufacturers' Association has issued an official statement of its policy towards exhibitions at home or abroad, following misconceptions as to its attitude towards the British Industries Fair, said to have been created by cables from London, England, published in Montreal and Toronto daily newspapers on November 21.

### Policy

The policy of the Association, it is stated, is to place information before its individual members and to ask them to exhibit if interested but the Association does not accept financial responsibility. The Association on November 7 received a cable from the Chamber of Commerce, London, England, asking the Associaton to accept part financial responsibility of organizing a Canadian section of the Fair. A reply setting forth the C.M.A. policy in the matter of exhibitions and stating it could not undertake any financial responsibility, was sent. The Fair is being held in Birmingham, England, from February 19 to March 2, 1923.

### No Obligations

It is pointed out that the British Empire Exhibition will be held in London, England, in 1924 and will last six months. With regard to this exhibition, the C.M.A. urged the Canadian Government some months ago to erect a Canadian building and to take space in the exhibition promising co-operation if this was done, but the Association has not assumed any financial obligation though the enterprise is much bigger than the British Industries Fair.

It is denied that the C.M.A. is giving financial support to the sample rooms recently established by the Canadian Government in Shanghai, China.

## UNFILLED ORDERS LARGER

The British Empire Steel Corporation has 23,000 men on full time, with unfilled orders much larger than a year ago. It is said shipments of iron ore by the corporation to Germany may run into several millions of tons.

NEW ISSUE

**$850,000**

**Great Northern Power Company**
Limited

**First Mortgage 7% Sinking Fund Gold Bonds**

Dated November 1st, 1922 Due November 1st, 1937

Interest payable semi-annually May 1st and November 1st at the Standard Bank of Canada in the Cities of Montreal and Toronto, or at the holder's option, at the Importers and Traders National Bank of New York. Denominations $1,000, $500, $100. Callable as a whole or in part at 105 and accrued interest on any interest date after November 1, 1927.

**Trustee: Montreal Trust Co.**

**Amount outstanding limited to $2,000,000** **Present Issue $850,000**

The Company has two water powers capable of developing 12,500 h.p. Construction of the first development is under way and it is expected that the first unit of 2,150 h.p. will be installed and in operation early in 1923.

These bonds are secured by a first mortgage on all the property of the Company now owned, or hereafter acquired.

This issue provides funds to develop 6,500 h.p., the annual earnings from which are estimated at $275,000.

The sinking fund is sufficient to retire the entire issue by maturity.

*Full information will be furnished on request*

Price 95 and accrued interest to yield about 7½%
With a bonus of 50% Common Stock

Shaw) Quebec, $100,000; Montreal Furniture Manufacturing, Ltd. (Celestin G. St. Jean) Montreal, $49,000; Eastern Milling Co. Ltd. (John L. Bourque) Montreal, $15,000.

## NEW FREIGHT SHED

On November 21 ground was broken by the Quebec Harbor Commission in preparation for the construction of a gigantic shed along the front of the St. Charles Basin. This shed, which will cost in the neighborhood of $200,000, and will extend over a considerable porton of the basin front, will be used in connection with the loading and unloading of the Canadian Pacific liners next season.

Work will be prosecuted vigorously on the construction of the shed, and it is understood that in consequence of this decision a large number of the harbor employees will be assured of employment. The shed now under construction will be one of the largest and most modern on the continent.

## JAPAN WANTS CANADIAN GOODS

The Canadian trade commissioner at Yokohama has advised the Vancouver Board of Trade that Japanese firms have orders to place for goods which British Columbia firms might be able to export.

One buyer wants three tons of apricot jam monthly. Another wants to buy two million box shooks, or six million feet; photographic supplies and apparatus are sought by another inquirer, while there is a buyer in the market for hard candles in glass jars or five-pound tins. Condensed milk, shipped in fifty-pound tins, is wanted in Japan for re-condensing and packing in 14-ounce tins. This buyer wants 500 fifty-pound tins of the milk monthly, and can take the unfinished product. American firms are competing for the business and have already submitted prices.

## CANADIAN EXPORTS

### October Salmon Exports Cut in Half—Newsprint Shows Slight Increase

Canada's exports of canned salmon during the month of October showed almost 50 per cent. decrease as compared with the shipments of October, 1921, according to figures of the Dominion Bureau of Statistics. The exports last month were 58,062 cwt., valued at $711,994, as against 107,108 cwt., valued at $1,491,634, in October of last year. September, 1922, exports were over 20,000 cwts. higher than September, 1921, the figures for September, 1922, being 78,249 cwts. valued at $1,073,965, against 55,709 cwts., valued at $1,074,253 in September of last year.

Newsprint paper exports during October were valued at $5,811,954, and for September $5,632,508, as against $5,510,604 and $5,503,368 in October and September respectively of last year.

Cheese exported during October last was valued at $3,554,430, as compared with $3,128,435 in October, 1921, and in September, 1922, exports amounted to $3,164,142, as compared with $4,448,415 in September of last year.

Products of the Canadian fisheries exported during October, 1922 were valued at $2,622,625, of which $1,013,811 went to the United States and $407.055 went to the United Kingdom.

Canadian refined sugar exported during October, 1922, reached a total of 20,786,190 pounds, valued at $1,422,298. Of this amount the United Kingdom purchased $953,512; United States, $2,412; Germany, $7,335, and Norway, $381,517.

## DECREASE IN BOND SALES

### Twenty-Two Million Decrease During November —Total is Also Lower Than November Last Year.

During the month of November new financing issued by Canadian municipalities and corporations showed a decided decline from that of the previous month, sales totalling slightly over sixteen million in comparison with thirty-nine million during October. Sales during November, 1921 totalled $26,197,607.

As the market was considerably unsettled during the month it was generally anticipated that sales would not be very heavy, although the total was strengthened by the eight million city of Montreal three month notes, and the three million province of Ontario hydro-electric bonds, which were sold when the "clean up" agreement was passed.

With the exception of the Montreal issue municipal financing during November was very light, being slightly over one million and a half, as compared with eight and a half million during the previous month.

The following is a comparison of bond sales during October and November:

| | Nov. 1922 | Oct. 1922 |
|---|---|---|
| Provincial ......... | $3,375,000 | $25,000,000 |
| Municipal ......... | 9,607,652 | 8,500,937 |
| Corporation ....... | 3,200,000 | 5,400,000 |
| Total ........... | $16,182,652 | $38,900,937 |

## NEW ACCOUNTANTS' ASSOCIATION

At a meeting of Saskatoon accountants held recently, "The Saskatchewan Association of Accountants" was organized. The new organization is made up of 27 chartered members, all of Saskatoon. Officers and directors were elected as follows: President, H. T. Pizzey; vice-president, G. Barling; sec.-treas., W. Edwards, and directors: F. W. Stremes, T. H. Newell, D. Hogben and C. Ayton.

It is the intention of the association to promote branches in the various cities of the province. A local reference library will be established and books will be loaned to out of town members and the association hopes to set up a syllabus of study to be followed by the members to improve their knowledge, and arrangements are being made for a series of lectures on various accounting subjects.

The aims and objects of the association will be: 1. Co-operation with kindred organizations for mutual benefit. 2. To promote higher efficiency in accounting. 3. To arrange courses of lectures on pertinent subjects. 4. To affiliate, if deemed advisable with any other organization or corporation issuing a certificate or degree denoting efficiency and having the same or similar objects. 5. To secure fair and equitable conditions for the holding of examinations in acountancy. 6. And other such aims and objects having to do with the subject of accountancy, as may be decided upon by any general meeting of the members.

## NEW TRUST BUSINESS IN OCTOBER

### Several Large Corporation Issues—Indifidual Estates Fairly Heavy.

For the $1,500,000 bond issue of the Belgo Paper Co. Ltd., the National Trust Company was appointed trustee.

The Royal Trust Company was appointed trustee for the $500,000 perpetual debenture issue of the Montreal Tramways Company.

The London and Western Trusts Company was appointed the trustee for the $250,000 bond issue of Silverwoods, Ltd.

### Individual Estates.

Under the terms of the will of J. A. Sutherland, London, Ont., the London and Western Trusts Company was appointed executor. The estate is valued at $72,321.

The Canadian Guaranty Trust Company has been granted administration of the following estates: Thomas Beare, Cornwalls, Man., who left an estate of $33,431; George Neuhaus, Pipestone, Man., who left an estate of $10,000; and George McFarlane, Silverton, Man., who left an estate of $21,579.

Under the terms of the will of Elizabeth Hancock, of Oshawa, Ont., the Trusts and Guarantee Company, has been granted administration. The estate is valued at $25,000.

The Royal Trust Company has been granted administration of the estate of Charles P. Grogan, who died in Los Angeles, leaving $770,640 in real and personal estate. The Ontario estate is valued at $1,855.

The Mercantile Trust Company has been granted administration of the will of Lyman E. McClunny, of Watervilet, N.Y., who left an estate of $873.

The Royal Trust Company has been appointed executor of the will of Mrs. Louise R. Powell, of Ottawa, whose estate is vlaued at $227,844.

Under the terms of the will of Dr. Amos F. Rogers, of Ottawa, the Toronto General Trusts Corporation have been appointed executors. The estate is valued at $342,899.

The Saskatchewan General Trusts Corporation has been granted probate of the will of Mrs. Agnes H. Mowat, Regina, who left an estate of $104,411.

The National Trust Company has been granted probate of the will of Robert S. Harmer, of Toronto, who died leaving an estate of $638,481.

The Trustee Company of Canada has been granted administration of the estate of A. Andre, La Rose du Lac, whose estate is valued at $60,000.

National Trust Company Limited has accepted Trusteeship under the following Bond Issues since August:

Mathews Steamship Company Limited, "S.S. Mathewson" and "Berryton." First Mortgage Seven Per Cent., Gold Bonds. Authorized Issue—$400,000.

Pacific-Burt Company Limited, First Mortgage 6½% Fifteen Year Sinking Fund Bonds. Authorized Issue—$500,000.

A. Martin Limited, First Mortgage Fifteen Year Sinking Fund Bonds. Authorized Issue —$1,250,000.

Federal Building Corporation Limited, First Mortgage 7% Sinking Fund Gold Bonds. Authorized Issue—$550,000.

## DOMINION LIFE

The Montreal branch of the Dominion Life led all the other agencies in Canada for the amount of business written for the month of October.

## STEEL TRADE OUTLOOK IMPROVES

Over 700,000 tons of iron ore will have been shipped to Germany by the end of the season by the British Empire Steel Corporation, and Roy Wolvin president, believes that they have established the use of their product in Germany. Mr. Wolvin says: "We are operating two blast furnaces ,and as soon as the St. Lawrence season closes we will blow in a third furnace.

"There is a moderate amount of export steel business, in addition to an improved domestic trade, and we have contracts for some rail business to be placed. An acute car shortage is developing, and the Canadian railways need freight cars, which should result in good business for our carbuilding plant. The entire situation is much better and costs of production are getting back to normal.

"The first half of this years' operations have been unsatisfactory, due to conditions in the steel industry, but the general situation is now very much better. The company's labor difficulties have been cleaned up, and our coal miners are now working under an agreement which runs until January 1, 1924."

## CANADIAN STEEL CORPORATION

### Between Five and Six Millions Have Been Spent on Ojibway Development

Reference was made in these columns recently to the development work of the Canadian Steel Corporation at Ojibway, Ont. It is not certain just when the work will be completed, but a great deal of money has already been expended. The Border Cities Chamber of Commerce gives the following summary:—

About six years ago, the Canadian Steel Corporation — a subsidiary of the U.S. Steel Corporation—purchased about two thousand acres some four and a half miles down river from the centre of Windsor. Upon this property considerable work of more or less preliminary character has been done, such as the laying out of the townsite, the putting down of several miles of street paving, and the building of large docks, extending about half-a-mile inland. Two big buildings have also been partially constructed, and are now nearly completion; while some progress has been made in the construction of blast furnaces. In all, it is estimated that, up to date, between five and six million dollars have been expended on such development.

Undoubtedly, the outbreak of war and the conditions since prevailing have been responsible for the slow progress of work at Ojibway. However, just when the project will be rushed to completion no one knows. The present population of Ojibway is practically restricted to the executive employees of the Canadian Steel Corporation and numbers about 20 persons. No lots or other realty within the townsite of Ojibway have been offered or sold. However, it is estimated that surrounding the townsite of Ojibway and stretching quite a long way out, probably one hundred thousand building lots have been sub-divided and placed on the market.

## GAULT'S LTD.

In an article in our issue of November 24th., regarding the re-organization of Gault's, Limited, two errors were made in the names of two of the directors. Instead of T. E. Howland, it should be T. E. Howard and instead of E. M. Kennedy, it should read E. N. Kennedy.

# *Municipal Finance*

**Regina.**—The city commissioners in a report for the ten months ended October 31, 1922, show that the city came through the ten month period with a surplus of $46,858 out of an estimated surplus of $988 for the same period, and an estimated surplus of $1,185 for the entire year.

Expenditures for the period amounted to $807,335, which with a total of $124,103 for provision for arrears of taxes, making a total of $931,439. The estimated expenditure for the ten months were $929,088, and for the entire year were $1,114,906. The revenue account shows $878,605 from tax levy, $87,489 from liabilities surplus, and $12,201 from the surplus carried forward from 1921, making a total of $978,297, out of an estimated total of $930,076 for the ten months, and an estimate of $1,116,091 for the entire year.

With the exception of the street railway, all the public utilities came through the period with a surplus, the electric light and power department having a surplus of $118,874, and the waterworks department also having a surplus of $5,552. The street railway had a deficit of $22,131 for the ten months.

The amount of outstanding debentures at the end of 1921 was $11,434,877, and during the ten months of 1922 $556,450 was issued making a total of $11,991,327. During the same period, however, there was redeemed $38,171 debentures, and sinking fund repayments took care of $27,000, thus making the bonded debt as at October 31, 1922, at $11,926 156, to which should be added approximately $1,300,000 of school debenture debt. This compares with a gross debt of $12,676,000 for the same period last year, although this total includes $1,300,000, of school debenture debt. The sinking fund of the city now amounts to $2,750,000. The par value of the investments in the sinking fund totals $2,698,712, and the book value of the same is $2,680,954.

The net assessments for 1922 are as follows: lands, $29,753,650; improvements, $8,366,230; business, $4,671,140; and income, $1,056 496, making a total of $43,847,516. The tax rate during the year was 41 mills on the dollar for public schools, and 44.3 mills for separate schools.

The borrowing power of the city is limited to 20 per cent., of the taxable assessment, and at the end of December last year the assessment was $43,922,073, which made the borrowing power of the city $8,784,414. To this amount was added $11,434,877 for gross debenture debt, consolidated stock, and coupon bonds, but an amount of $5,399,751 was deducted from local improvement debt, sinking fund, collegiate institute debt, and street railway debt, making a balance of $2,749,289 in the borrowing power of the city.

**Edmonton, Alta.**—Substantial progress has been made in the financial condition of the city, the debt being reduced, city utilities on a paying basis, city securities established in the Canadian markets for the first time, and reduction in the tax levy and assessment. Such are the outstanding features of the annual report of the city commissioners, C. J. Yorath and Mayor D. M. Duggan.

Land assessment has been lowered by $17,783,680, while the tax levy was cut to $1,217,241 under what it was in 1920, says the report. There has been an improvement of thirty-one per cent in tax collections, the controllable expenditures were $236,847 less than 1920, while the city's debt was reduced by $182,128 through the refunding bond issues.

Dealing with utilities the report shows that the surplus for the first ten monhs of 1922 amounted to $278,521, compared to $174,743 last year and a loss of $117,482 in 1920.

It was recommended, in the special report on assessment and taxation, issued in August 1921, that the assessed value of land should be further reduced by an amount not exceeding $20,000,000.

The assessed value of land has been reduced from $188,539,110, in 1913, to $43,344,130, in 1922, or a total reduction of $144,694,980. Even now the assessed value of vacant land in some districts is too high.

The council decided in 1921 that the assessed value on land had to be reduced. This year the assessment on land has been reduced by $17,783 680, or a loss in estimated revenue, with the same rate as in 1921, of $709,541.

At the same time that it was found necessary to reduce the assessed value of land, it was of course also recognized that the tax rate could not be increased, otherwise the advantage of a reduced assessment would be lost. With the same tax rate in 1922 as in 1921, 39.90 mills, and with a reduction in the assessed value of land of $17,783,680, the loss in estimated revenue from this source was $709,541. In order therefore to keep the tax rate down it was necessary to reduce the tax levy on property.

In adjusting the tax levy it was considered advisable to discontinue the system of granting ten per cent. discount on the prompt payment of taxes for the reason that it was creating a hardship upon those who were unable to pay their taxes promptly. In order to give a discount $221,500 had to be included in the 1921 tax levy, which was equivalent to an increase of approximately four mills in the rate. In place of giving a discount, 5 per cent. interest was charged on all taxes not paid before the 15th June, or, in other words, those who were unable to pay their taxes before this date had to pay interest on the money which the city is compelled to loan from the bank. There was considerable doubt expressed as to the advisability of making this change, and it was argued that there would be a considerable falling off in revenue.

The object of all these changes, including the reduction in the assessment, redistribution of the tax levy, etc., was to bring the city's revenue as near as possible to a cash basis.

**Walkerville, Ont.**—The annual statement for the year ended December 1st, 1922 shows that the total assessed value of the property is $12,315,785, which with exemptions of $939,038, brings the assessable property to $11,376,747, this being an increase of $331,567 over 1921.

The total tax roll for 1922 is placed at $454,148, of which $50,052 was outstanding at November 22.

With the exception of two, all committee and commissions report a substantial balance in their appropriations for the year.

**Calgary, Alta.**—For the period from January 1 to November 17 tax collections have totalled $3,246,274.

**Hamilton, Ont.**—Tax collection for the period ended November 27 totalled $4,612,338, leaving approximately $200,000 in outstanding taxes. The estimated revenue for the year is placed at $4,800,000.

## CARELESSNESS IN KEEPING RECORDS

### Provincial Auditor Finds Cash Discrepancies in Cobourg's Affairs

G. A. Peters, provincial auditor, in a report of the financial condition of the town of Cobourg. Ont., stated that the assessment rolls were not properly extended or recapitulated. The report, which is a very extensive one, covers a period from January 1, 1919, to June 30, 1922.

The report states that certain taxes for 1914 and each year after still remain unpaid. It is further alleged that some post-dated cheques were received during the period 1918 to 1920 and 1921 and were returned to the treasurer with the roll.

### Apparent Carelessness

The apparent carelessness in keeping the records, it is claimed, has, seemingly, resulted in alleged cash discrepancies in the town's financial affairs. Disbursements have been made, it is stated, which were not ordered in minutes of the council.

Vouchers in many cases are missing, and the report alleges that payments have been made to a firm of which a councillor is a member.

Expenditures for 1919-1820 exceeded the income. The outstanding amounts on the tax roll are: 1914, $533; 1915, $162; 1916, $884; 1917, $1,406; 1918, $272; 1919, $479; 1920, $861.

Court of Revision minutes, it is stated, do not record all the tax abatements made. The tax arrears were not recorded in a tax arrears book, as should be done each year after the roll is returned by the collector, it is stated.

There was failure to comply with the statutes in regard to the park pavilion and vouchers for transactions at the pavilion in 1919 and 1920 are missing, according to Mr. Peters.

### Lack of Co-operation

He refers to a lack of co-operation between town officials and the town council, and says in his report that such a condition of affairs is detrimental to a town as the ratepayers are not receiving by it the service they are entitled to expect. He states also in his report that, with the exception of the savings bank passbook, there were no complete records of the sinking fund transactions, and no local improvement register was kept.

### Necessary Improvements

In concluding his report, Mr. Peters draws attention to a number of necessary improvements to the town's system of conducting business, such as, for the collector, a carbon copy receipt book, numbered by the printer, and a daily record of tax receipts. For the clerk, a loose-leaf by-law book, insurance register and local improvement register. For the treasurer, carbon copy receipt book numbered by the printer, tax arrears register, monthly trial balance of ledger in comparative form, showing actual expenditure and annual estimates, etc.

## QUEBEC'S SURPLUS FIVE MILLIONS

### Estimates for Present Show Anticipated Surplus of Five Hundred Thousand

A surplus of $5,033,419 for the fiscal year ending June 30, 1922, and an estimated surplus of $557,908, for the year ending June 30, 1923, were announced by Hon. Jacob Nicol, the Quebec Provincial Treasurer, when he delivered his budget speech at the meeting of the Provincial Legislative Assembly on November 14. The financial situation in the Province of Quebec, said the Provincial Treasurer, was unique in the annals of the province and nothing like it had ever been equalled in any other province in the Dominion. At a time when all other provinces were issuing new bonds, when even the nations of the world were forced to mortgage what was left to them to meet their obligations, Quebec was not only not obliged to issue any new debentures, but was even able to redeem bonds and stocks to the amount of $249,687.

The Province of Quebec, said the Provincial Treasurer, was the least taxed and the least indebted of any of the provinces in the Dominion.

The ordinary revenue for the fiscal year 1921-22 amounted to $8,598,652 over the estimates and the expenditure was $3,769,188 over the estimates. The ordinary revenue amounted to $18,291,346 and the ordinary and extraordinary expenditure represented $17,733,437, leaving an estimated surplus of $557,908.

The total profits from the operations of the liquor law had amounted to $4,000,000, said the Treasurer. The trading profits represented $2,860,010, to which must be added the revenue from mines, duties, permits, etc., bringing up the total to the estimated figure of $4,000,000. Hon. Mr. Nicol, dealing with the revenue from the liquor law, said that that not only had the law been a good revenue producer, but it had also been most satisfactory from a moral point of view.

## POSTAL ARRANGEMENT

Arrangements have been made between the Canadian Post Office Department and the Chinese Postal Administration for a direct exchange of money orders between Canada and China. The convention or agreement under which money orders are to be exchanged has been signed by the Chinese Director of Posts and by Hon. Charles Murphy, the Canadian postmaster general, and will go into effect on the 1st of January next.

Hitherto money orders payable in China have had to be issued on the British Postal Agencies at Honk Kong and Shanghai and some agencies of the Japanese postal administration, but under the new arrangement all orders issued in Canada payable in China will be reported on the Chinese exchange office at Shanghai. The amount of each order will be converted into Chinese currency and a Chinese money order for the amount will be forwarded to the payee.

### SALES INCREASED

The James Smart plant of Canada Foundries and Forgings, Limited, Brockville, report that during the past two months there has been a considerable increase in their sales of builders' hardware, lumbering tools and furnaces. They have added a small number of employes and increased working hours, giving an additional output of about 25 per cent. They feel that to a certain extent, the present demand is seasonable, but look for a continuance of the demand in urban centres throughout the winter, with an especially good trade in 1923.

### UNITED GRAIN GROWERS

For the first time in the history of the United Grain Growers', Ltd., the net results of the past year's operations is a loss, and the company was unable to declare a dividend at the annual meeting in Calgary, Nov. 23. According to a letter issued to the shareholders by E. J. Fream, secretary, the losses are attributed to conditions which were such, it is stated, that a successful year could scarcely be expected, and satisfactory results from the operation of the company this year are anticipated.

Speaking of the loss, Mr. Fream states:

"This is due to the fact that many of the company's elevators, as well as its shareholders, are located in districts where the crops were especially poor last year, which meant a reduced volume of grain to handle and consequently smaller earnings from both country and terminal elevators.

"In addition, substantial losses took place in the machinery and supplies department of the company, which, as the shareholders will recall, was taken up some years ago with a view of reducing the cost of these necessary articles to western farmers. In this respect our experience has been the same as practically every business on the continent, and, as well, the experiences of a great many individual farmers. In the face of conditions a successful year could scarcely be expected."

### NEW FACTORY

The Standard Steel Construction Company of Welland, Ont., has bought a piece of land in Quebec, on the line of the C.N.R., for the purpose of erecting a factory for the manufacture of steel for bridges and of ornamental iron works. The company will be known as "La Compagnie de Construction de Quebec." It is expected that from forty to fifty men wil be employed at the outset.

### B.C. BOARDS OF TRADE

According to an announcement made on November 10 by President W. L. Mackin, the next annual convention of the Boards of Trade of British Columbia will be held in Vancouver early next February.

One of the questions to be brought up at that conference will be in connection with the need for a more universal knowledge of the larger affairs of the province, so that a minimum of the attention of the provincial bodies will be taken up in the consideration of innumerable small petitions. In connection with a freight bill checking service, the announcement was made that a service would be offered shippers as soon as fees can be arranged.

# ernment and Municipal Bonds

esent dull condition of the Canadian arket is not likely to last for any length ie, if events during the past week can be ed upon.

Probably the most important event of the week was the announcement that the province of Ontario was in the market for a loan of five million. This action of the province points to a betterment in the market ,for if conditions were unsatisfactory the province would postpone the loan, or else borrow the money from the bank, or the other alternative, issue treasury notes.

Another feature of the week was the noticeable increase in sales, not by the total amount, but by the number of municipalities selling their bonds. Competition among the dealers for the bonds was keener than it has been for some time and with this healthy sign in view there is every indication that the bond market is set for an active session.

Although it cannot be prophesied to any extent just how the trend of the bond market will be during the next two weeks or so, it is the general opinion among the principal bond dealers around town that the price which Ontario receives for the five million issue will be instrumental in setting the pace of the market from that date onward.

### Tenders Invited

The following is a list of debentures offered for sale, particulars of which are given in this or previous issues:

| Borrower | Amount | Tenders close |
|---|---|---|
| Ontario | $5,000,000 | Dec. 13 |
| Wellington, Ont. | 120,000 | Dec. 15 |
| St. Tite, Que. | 90,000 | Dec. 16 |
| Scarborough Twp. Ont. | 80,995 | Dec. 11 |
| Rimouski, Que. | 56,000 | Dec. 11 |
| Shawinigan Falls, Que | 28,300 | Dec. 19 |
| Aurora, Ont. | 19,900 | Dec. 15 |

**Ontario**—Tenders are invited up to 12 o'clock noon December 13, 1922, for the purchase of $5,000,000, 5½ per cent., 20-year debentures payable at Toronto and Montreal at the holder's option. Hon. P. Smith, provincial treasurer. See official advertisement in this issue.

**St. Tite, Que.**—Tenders will be received up to 9 p.m. December 16, 1922, for the purchase of $90,000, 6 per cent., 10-year debentures. Bonds are dated September 1, 1922. J. B. Moussette, secretary-treasurer.

**Wellington, Ont.**—Tenders will be received up to 8 p.m. December 15, 1922, for the purchase of $120,000, 5½ per cent., 30-year consolidated school debentures. E. A. Titus, clerk.

**Shawinigan Falls, Que.**—The school commission will receive tenders up to 5 p.m. December 19, 1922, for the purchase of $28,300, 5½ per cent. debentures redeemable from 1922 to 1936. Bonds are in denominations of $100, $500 and $1,000, and are payable May 1 and November 1 at Shawinigan Falls or at Montreal. C. H. Flamand, secretary-treasurer.

**Aurora, Ont.**—Tenders will be received up to noon December 15, 1922, for the purchse of $19,900, 5½ per cent., 20-year local improvement debentures. C. A. Petch, clerk.

### Coming Issues

**Magog, Que.**—Two by-laws authorizing the expenditure of approximately 100,000 for local improvements were passed by the ratepayers on October 30.

**Ottawa, Ont.**—At a meeting of the board of control on November 7 it was decided to recommend to the city council that a by-law to raise $50,000 by debentures for playgrounds be again submitted to the ratepayers. This bylaw was defeated last January.

**Victoria, B.C.**—The Intermunicipal Board of Cemetery Commissioners have authorized the sale of $20,000 debentures. These will be offered for sale within a short time.

**Brockville, Ont.**—The town council has passed a by-law authorizing the issuing of $35,002 debentures for water mains.

### Bond Sales

**Manitoba**—It was announced on November 29 that two issues of treasury bills, totalling $550,000 were made. The first issue for $200,000 was dated November 30 to mature March 15, 1923, at 5½ per cent., for installation of telephones at Fort Rouge and St. Johns. The other issue for $350,000 was dated December 1, 1922, to mature February 1, 1923, at 6 per cent. interest. The purpose of this issue is to cover the unpaid portion of the seed grain loans which fell due November 30.

**Riverside, Ont.**—An issue of $50,000, 6 per cent., 20-instalment housing debentures has been sold to St. Louis, Jones & Falconer at a price of 100.28, the money costing the town approximately 5.97 per cent. A bid of 100.28 was received from Wood, Gundy & Co.

**Stamford Township, Ont.**—C. H. Burgess & Co. were awarded $60,000, 5½ per cent., 20-instalment high school debentures at a price of 97.81, the money costing the township about 5.77 per cent. Tenders were as follows:—

| | |
|---|---|
| C. H. Burgess & Co. | 97.81 |
| Canada Bond Corp. | 97.764 |
| R. C. Matthews & Co. | 97.76 |
| Gairdner, Clarke & Co. | 97.61 |
| W. L. McKinnon & Co. | 97.53 |

| A. E. Ames & Co. | 97.09 |
| A. Jarvis & Co. | 96.81 |
| Mackay-Mackay | 96.25 |

**Cumberland Township, Ont.**—An issue of $2,670, 6 per cent., 3 and 5-annual instalment debentures has been sold to S. A. Lough, of Ottawa, at a price of 100. Tenders were as follows: S. A. Lough, 100; Gairdner, Clarke & Co. 98.01; C. H. Burgess & Co., 96.17; Mackay-Mackay, 96.15.

## LIFE INSURANCE OFFICERS

### Oppose Provincial Taxes on Life Insurance—Film Prepared to Advertise Life Insurance

At the annual meeting of the Canadian Life Insurance Officers' Association, held in Toronto on November 17th, A. B. Wood, F.I.A., actuary of the Sun Life Assurance Co. of Canada, was elected president in succession to J. F. Weston, managing director of the Imperial Life Assurance Co. D. E. Kilgour, M.A., A.I.A., F.A.S., actuary of the North American Life Assurance Co., was elected vice-president, and John Appleton was re-appointed secretary and treasurer.

At the morning session the question of provincial legislation was discussed. Some of the provinces have shown a tendency to increase the tax on life insurance premiums. As this is a direct tax on thrift and on trust funds it is regarded as unjustifiable. The subject of investments of life funds was also discussed. It was shown that the life companies in investing moneys in Government bonds, farm loans, transportation and other projects, had performed a great service for Canada.

### Joint Advertising

Following the morning session members of the association met with the department heads of the companies, numbering in all some two hundred persons, for luncheon. The meeting was given over to the institutional Advertising Committee. Winslow Russell, vice-president of the Phoenix Mutual of Hartford, was present as the guest of the organization and the chief speaker of the occasion. He paid tribute to the work of the committee and showed especial interest in the life insurance photodrama. Following his remarks, the first moving picture drama was presented. The reproduction is the work of "Filmcraft, Limited," a Toronto concern. Following this the American film was shown. Although not prepared along the same lines it showed the possibilities of this medium for advertising purposes. This second film was under the direction of the Life Agency Officers' Association. The institutional advertising committee had prepared lantern slides which were then shown.

At the close of the display, the Life Officers' Association went into discussion as to plans for the coming year. The membership of the Life Officers' Association comprises the chief executive officers of the life insurance companies operating in Canada, practically all of whom were present at the meeting.

## COBALT ORE SHIPMENTS

The only shipment of ore from Cobalt station for the week ended November 24th., was McKinley-Darragh Savage Mines, 84,382

The following are the shipments of ore from Cobalt Station for the week ended December 1st:—O'Brien Mine, 63,964; la Rose Mines, 76,410; Dominion Reduction Co., 60,000; total, 200,374. The total since January 1st is 17,587,932 pounds or 8,793.9 tons.

## TELEPHONE INSURANCE

There is a possibility that the Canadian independent telephone companies will form an insurance organization among themselves to insure their interests against loss from storms and forest tires. This question was bought to the fore in the address of Dr. F. W. Routley, President of the Canadian Independent Telephone Association, at the seventeenth annual convention of that body in Toronto on Nov. 29.

It was pointed out by President Routley that every severe storm results in a loss of thousands of dollars to the telephone companies through damages to wires, especially sleet storms, and that in the recent fire in Northern Ontario the losses incurred were tremendous, the telephone exchange at Haileybury being completely put out of commission. In view of the fact that the companies have found it impossible to insure their lines against such loss, the alternative of forming an insurance organization of their own was suggested by the president as the only logical course to pursue, and a committee is to be appointed to report on the question.

WE shall be pleased to quote you for the purchase or sale of Government and Municipal Bonds and high grade Corporation Securities.

## VAST FIELDS FOR TRADE IN ORIENT

### Manufactured Products of Canada Will Be Placed on Display At Shanghai

Speaking before the Victoria Chamber of Commerce on November 20, Dr. J. W. Ross, Canadian trade commissoner to China, stated that many eastern Canadian manufacturing establishments will locate branch factories or move their whole works to the Pacific Coast in increasing numbers during the next few years in order to take advantage of the vast possibilities of trade with the Far East.

### Export Fields

"If Canadians wish to regard their country as an agricultural country for all time and ignore the manufacturing opportunities, well and good, but if Canada is seeking greatness as a manufacturing nation she has a tremendous field in the Orient and in Siberia," said Dr. Ross. "Your logical markets are over there across the Pacific, and they should be cultivated if you would make the most of your natural advantages. The long rail haul is a serious handicap to Eastern manufacturers who are trying to reach out for business in China and Japan, and it is a factor that will lead to important industrial advances in British Columbia."

The exportable manufactured products of British Columbia and other provinces of Canada will be placed on display in Shanghai with a view to interesting Chinese buyers in business with this country, said Dr. Ross.

### Exhibit of Value

"I think this idea of a Canadian manufacturers' exhibit at Shanghai will be of tremendous value to this country," said Dr. Ross. "In the past travelers for Canadian manufacturers have gone out to China with their sample cases, but they are not able to give a practical demonstration and their work counts for little so far as permanent trade development is concerned.

"The impression is deeply founded in China that Canada is merely an agricultural country, and the exhibiton will dispel that illusion. We have to rent suitable space in a centrally located building convenient to buyers, and stalls will be sub-let to Canadian concerns wishing to avail themselves of this opportunity of getting their goods before the Chinese market.

"I have interested seventy-five Eastern Canadian manufacturers in this exhibition and three or four in Vancouver. Victoria will also be represented. We have secured an excellent salesman, and the whole project should be a real success. It is an entirely new idea, so far as government trade agencies are concerned."

British firms, which were dominant among the foreign establishments in the Orient, were anxious to handle Canadian goods, Dr. Ross stated.

---

## CAR SHORTAGE BEING REDUCED

According to C. P. Riddell, secretary of the Railway Association of Canada the shortage of box cars in Canada, owing to the large number of Canadian cars operating on United States lines, is still acute but the situation is gradually being relieved following instructions issued by the American Railway Federation, which has ordered the release of Canadian cars and equipment. Empty box cars are now being moved to Canadian lines.

**Bonds at Attractive Prices!**

*This list will be gladly mailed upon request.*

*Write for it today.*

We are now able to offer a wide selection of high grade bonds at prices ranging as high as 6% in the case of sound municipal bonds and 6.55% in the case of good industrial bonds.

Our new list describes an excellent variety of such bonds which we recommend to those planning to invest now or in the near future.

# *Stock Markets*

The past week on the Canadian security markets was featured by a considerable strengthening in the undertone, and with one or two exceptions on the list, the price trend was upward. The most important movements on the market were confined to individual securities rather than to groups.

Practically the only pronounced weak spot of the week was the action of the Toronto Railway stock which was subject to a rather severe pressure losing four points in one day Further reactionary movements in this security were in evidence during the week, bringing the price down to a low of 83. This downward movement was checked, however, and towards the latter part of the week there was a considerable strengthening in the price. These downward movements were more or less due to the uncertainty as to when the agreement between the city of Toronto and the company will be signed. From present indications it would appear as though the litigation will be long drawn out entailing expenses to both the company and the city.

Probably the most active securities, as a group, were the public utilities in which Mackay, Barcelona, Brazilian, etc., participated to some extent. The movement of Barcelona was of a pronounced character more particularly on the Toronto exchange where buying was very heavy, the turnover on several days, equalling one third of the day's trading. On December 5 the stock moved up from 8 to 9⅛ at the close of the day's trading, making a net gain of 1⅛ points. This is the highest point which the stock has sold in the market since January, 1920. The greater bulk of the trading originated from orders received principally in London and Belgium, where a certain class of investor is purchasing the stock in anticipation that there will be a pronounced increase in the price.

The paper group was also active although the net gains in these securities, in the majority of cases, were only fractional. The general industrial list was also fairly active with the gains slightly exceeding the losses.

### Dominion Iron Bonds

Offering is being made of $4,645,000, 5 per cent, consolidated mortgage bonds of the Dominion Iron and Steel Co. Ltd., by Hayden Stone, and Co., of New York at a price of 85 and interest to yield 6.46 per cent.

The bonds are dated June 1, 1909 and are due September 1, 1939, with principal and interest guaranteed by the Dominion Steel Corporation, Ltd. Interest is payable March 1 and September 1 at the Bank of Montreal. New York or in Montreal, or in Sterling in London. Bonds are in denominations of $1,000, fully registerable, and are redeemable at 105 and interest on any interst date.

The capitalization of the company is as follows: $5,741,000, 5 per cent., first closed mortgage bonds; $4,645,000, 5 per cent., consolidated closed mortgage bonds, this issue; $7,094,140, 5 per cent., consolidated, closed mortgage bonds; $3,500,000, 6 per cent., income bonds; $5,000,000, 7 per cent., cumulative preferred stock; and $37,000,000 of common stock .

The Dominion Iron & Steel was incorporated in 1899 and owns the largest iron and steel works in Canada, which are located at Sydney, N.S.

## BOARD OF TRADE BONDS

At a special meeting of the Montreal Board of Trade on November 24 a by-law was ratified covering the creation of a loan of $350,000 to redeem maturing bonds. The terms are six and a half per cent. interest, the sale price being 97½. The loan is repayable in 20 consecutive annual payments of $5,000 and the balance on maturity, January 1, 1944. The Sun Life Assurance Company was the purchaser.

## BENSON & HEDGES (CANADA)

Benson & Hedges (Canada), Limited, which is affiliated with the British firm of Benson & Hedges, Limited, reports sales for the month of September at $101,250, and aggregate sales for the six months beginning with April last, $578,645. The company has an authorized capitalization of $1,500,000 of which $255,300 in 7 per cent. preference shares and $300,000 in common shares have been issued.

## CANADIAN BANK SHARES

"The shares of Canadian Banks are apparently selling considerably below their real value," says Stobie, Forlong & Co., in a current market letter. "A comparison of present statistics with those of fifteen years ago indicates prices for shares far in excess of the present ones. The investment standing of bank stocks has always been high and with very few exception this has been amply justified. To obtain an income return of approximately 7 per cent. from securities having so high a degree of safety, is sufficiently unusual at this time as to make us regard bank shares in the light of decided bargains.

"It is characteristic of a rising market that certain groups of securities are very slow in joining the general upward movement and without apparent reason are for a time neglected. This condition often changes very quickly and strong buying carries the price level of the group to its relative place. The foregoing is offered as an explanation of the present low prices of Canadian bank shares and is, indeed, the only one apparent.

"The last fifteen years have been important ones in the business life of Canada and the banks which are so intimately connected with it have shared in the remarkable progress recorded. Taking the figures of six representative institutions as an average we find:—

1. Average reserves have increased 163%.
2. Average dividends have increased 30%.
3. Average capitals have increased 105%.
4. Average number of branches have increased 314%.

"For every share of stock there is an average of over $114 in reserve funds while total 'book value' equals $219 per share. It is hardly necessary to point out that the assets of a bank are probably more readily realizable than those of any other corporation. Fifteen years ago, the average income return was about 4%. Today it is about 7%. Taking the prices of fifteen years ago as a basis and considering increases in dividends the average price af the six banks under review should be 303; it is, however, 184.

"We believe that the future holds nothing for Canadian banks but increasing prosperity. Business is yearly becoming larger while the number of banks is actually less than some years ago. Increased business means in creased profit and increased dividends."

# *Unlisted Securities*

In their report on the unlisted market, A. J. Pattison Jr. & Co. say that the market was slightly more active with a stronger appearance than during the previous two weeks. Prices for the most part firmed up slightly and as a general rule there were many buyers for every offering near the market. Imperial Oil gained 3½ points to 113.50-115.50, and at the close was decidedly stronger with buyers coming into the market to buy back the stock sold at and around the recent high point. Famous Players Preferred was in demand at 59 with no offerings obtainable. Eastern Theatres Preferred gained 1½ points to 55 bid, while the common closed unchanged at 5-7. A few small buying orders cleaned the market in Brompton Pulp & Paper 8's at recent quotations, and moved them to 103¾ bid, none offered. Durant Motors were inactive at unchanged figures of 9½-10½. Whalen Debentures lost a point to 62½-64½ on offerings of fair sized blocks which were not absorbed. The preferred was offered at 22 without finding buyers. The revival of interst in the brick stocks has brought these issues again into prominence, and is due, no doubt, to the improved conditions in the building trade. Milton Pressed-Brick was generally 35 bid, while Toronto Brick remains unchanged at 72 bid. The market for International Milling Preferred continues to move slowly upward, gaining a point during the past week to 88 bid, without attracting sellers. Alberta Pacific Grain Common at 100-110, and the preferred at 85-90, remain unchanged. King Edward 7's eased slightly to 82½-84½ without changing hands. A limited demand for Dunlop Tire Preferred in a market bare of stock, moved this issue to 79 bid, offered at 81¾.

## APPOINTED LIQUIDATOR

G. T. Clarkson has been appointed permanent liquidator of the Nipigon Fibre & Paper Mills, by an order made by J. A. C. Cameron, K.C., of the Ontario Courts. A statement of liabilities is placed at $516,467.40, including possible liabilities for which no claim has yet been filed, amounting to $137,750.

## NEW GRAIN BOOKLET

A booklet "Western Canada Grain Grades" recently published by the Dawson Richardson Publications, Limited, Winnipeg, contains all information about the grain grades, various charges in connection with elevator and storage, and specific rules and conditions applicable in connection with the terminal and commodity rates.

## JUDGMENT AGAINST ESTATE.

Judgment for Mrs. Emma Reid Bishop for approximately $1,785 was handed down on October 25 by Justice Bigelow of the Saskatchewan Court of King's Bench. Mrs. Bishop's case was brought against the Western Trust Company, administrators of a portion of the estate of the late Major W. G. V. Bishop. Mrs. Bishop was his sister-in-law.

In May, 1917, Mrs. Bishop loaned W. G. V. Bishop $1,500. She accepted as security a mortgage on certain land owned by Bishop in Minneapolis. Later, this land was sold, and she released her claim on it, accepting in lieu of the mortgage she had held the assignment of an agreement for sale of other land owned by Bishop, which he was turning over to Merrill Fraser. She did not know at the time she accepted the assignment that the trust company had a claim against the property in the form of an unregistered mortgage.

The company put forth the argument that they had a prior claim to the amount asked by Mrs. Bishop, but Justice Bigelow's judgment entitles her to a declaration that she had the priority claim. Merrill Fraser is ordered by the judgment to pay into court the amount claimed by Mrs. Bishop, within the next three months. In default, he will face foreclosure on his property. The amount of Fraser's indebtedness under the agreement for sale will be ascertained through reference to the local registrar.

# Help burned Ontario over the Winter!

MEN and women of Ontario—it is time that we should all realize the terrible completeness of the fire calamity that devastated Northern Ontario in the early days of October. Fires and calamities we have had before, but never such complete destruction as this

Over 1,200 square miles laid desolate, town after town nothing but a bleak expanse of ruins, hundreds of farms swept bare, thousands of your fellow citizens "cleaned out" and thrown abruptly back into man's primeval struggle against nature and her grim forces: fire, hunger, ice and the stark northern cold.

## Give 1,800 families a fighting chance to get on their feet. Temporary relief must go on. We must not fail the North.

### Winter—the Relentless Foe

Coming as this terrible fire did, in the autumn, with the harvests in, with the townspeople already preparing for the rigors of winter—the complete destruction wrought is the harder to overcome.

Thousands of people at first had literally no place to lay their head, little to wear and nothing to eat. They had to be taken care of at first, somehow, and then, desperately as the days went by, and the cold grew more intense, rough but serviceable standard shacks, 16′ x 20′, have been replacing tents, old street cars, packing boxes and sheet iron—a regular food supply has been established, and rough clothing is being distributed.

**What can a man do with his house a blackened hole in the ground, his barn a charred heap, his work shop a twisted pile of rubbish—and a northern blizzard raging over all?**

### Temporary Relief Until Spring

In the name of humanity we must see these fellow citizens through until Spring opens up the land and general business activities are resumed. Money must be forthcoming from the citizens of Ontario, from municipalities, industries, societies, public bodies, lodges, churches, etc.—not for rehabilitation or re-establishment, but for the supply of bare necessities, "temporary relief" in fact, to the stricken North.

### The Brighter Side of the Picture

Everywhere throughout the fire swept district one hears only a strong, manly note of confidence, of resolution to go forward, to "stick to the country" if body and soul can be held together, to make good once more, to restore the hundreds of burned farms, to rebuild the eight or ten destroyed towns—and it will be done if the stream of temporary relief from Old Ontario does not dry up!

### All for One—One for All

Here is a portion of our Province in ruins, and for the sake of the whole Province as well as for its own sake, this section must be restored to prosperity and happiness. We need the North, we need its vigorous, pioneering spirit, so one and all, let's "give a hand into the saddle"—and do it NOW.

**Money is needed. The relief Committee can buy in large quantities, get big discounts, and often free gifts of merchandise from the many manufacturers who are generously co-operating with the Committee. The exact needs are now known.**

### The Northern Ontario Fire Relief Committee

has been enlarged and now is thoroughly representative of the Province of Ontario. The Provincial Government is co-operating to the fullest extent and is doing everything that a Government can properly do to assist in temporarily relieving the fire sufferers.

**To give immediate relief the Committee must secure actual cash without delay. If each municipality or county would devise some means of raising an amount equal to one-half mill on the total assessment the relief can be continued. The raising of relief funds could be undertaken by public-spirited citizens, clubs, churches or councils, and provides a most deserving cause for Christmas giving. Now it is up to every community in Ontario to help a neighbouring district in its hour of trial. Make cheques payable to—**

## HEAVY EXPORTS OF NEWSPRINT

Newsprint paper to the value of $5,811,954, was exported from Canada during the month of October last. Exports to the United States amounting to $5,510,897, constituted the major portion of the total. During October, 1921, exports of newsprint to the value of $5,510,604, were sent from Canada, of which $5,233,258, went to the United States. For the seven months of the fiscal year, ending October 31st, newsprint to the value of $38,702,094, was exported from Canada, as compared with $36,788,367, for a similar period in 1921.

The total exports of wood pulp during October, 1922, were 1,540,194 cwts. valued at $3,936,467, as against 1,183,432 cwts. valued at $3,087,506, in October, 1921. A comparison of the seven-month period shows that in the one just concluded exports of wood pulp totalled 9,947,186 cwts., valued at $24,109,669, as against 5,900,123 cwts valued at $18,891,665, in 1921. The total value of paper, wood pulp, and pulp wood exported during October last was $11,398,367, while for the seven-month period of the present year it was $72,868,141.

## APPLE CROP

The Okanagan, B.C., apple crop this year, it is expected, will exceed last year's crop by about ten per cent. The yield will be about 3,600 cars.

## GUARANTEES SIGNED

The British Treasury has signed a guarantee for a $10,000,000 recommendation of the Trade Facilities Commission for the establishment of pulp and paper mills at Humber, Newfoundland.

The Newfoundland Government has guaranteed the contractors, Armstrong, Whitworth Company, a similar amount. The initial work already has begun.

## WILL MAKE IRON ORE SURVEYS

The sum of $50,000 will be spent by the province of British Columbia on a survey of iron ore resources of the province under the provisions of a bill introduced in the Legislature on November 15 by the Minister of Mines, to ratify the agreement between the province and the Dominion to carry on jointly this work.

For the purposes of the act, the Minister of Mines may enter upon and occupy any mineral claim or mining property without the consent of the owner and carry on operations to demonstrate the value of the lands, and can apportion the cost against the respective properties on which work had been done and the properties benefited.

## GRAIN MOVEMENT

The enormous quantity of 27,000,000 bushels of grain has been moved by the Canadian Pacific in Alberta from the commencement of the crop season up to November 15. Approximately 25,000,000 of this has been wheat. This shows a considerable advance compared with last season. The total figure up to the end of November last year was twenty and a half million bushels.

## NEW POWER COMPANY

A new hydro-electric power company, known as the Great Northern Power Co., Ltd., has been organized to furnish the Northern Ontario gold mining district with power and also to assist in the development of that territory.

The company is now building the initial unit of a plant on the Montreal River at Indian Chutes, in the midst of the gold mining district. It is so situated that transmission lines can reach and serve all the best-known developments. The dam is now under construction, and it is expected to be completed by the end of this year, and the first power unit of 2,150 horse power ready for distribution early in 1923.

The ultimate capacity of the Indian Chutes plant is 6,500 horse power. At Big Bend Falls, a point twenty miles further up the river, another site is available where 6,000 horse power may be developed. Engineers declare that there is no danger of a scarcity of water to turn the wheels, as rights have been given the company for the conservation of sufficient water for its requirements in Mistinigon Lake at moderate cost.

## OPERATING ON PROFITABLE BASIS

The Mattagami Pulp and Paper Company is operating now on a profitable basis. The company's plant is at Smooth Rock Falls, Ont. Here it turns out sulphite pulp, the market for which has shown definite improvement this year. The company is in receivership, and is being operated for the creditors, bondholders and shareholders by the receiver. The future is still indefinite, but the satisfactory improvement in the sulphite market, and the present profit on operations make the outlook seem very hopeful.

## NEW ELEVATOR

At a committee meeting of the Owen Sound, Ont., Council on November 24, the members agreed to submit a by-law to the ratepayers in January to sanction the giving of the Sun Cement property to the Owen Sound Elevator Company as a site for the proposed elevator, and to give the company fixed assessment of $15,000 for 10 years.

# DEBENTURES FOR SALE

## $5,000,000.00
## PROVINCE OF ONTARIO
### 20 Year 5½% Bonds

The Government of the Province of Ontario will receive tenders up to 12 o'clock noon on Wednesday the 13th day of December, 1922, for $5,000,000.00 Province of Ontario, 5½% bonds, dated the 1st day of December, 1922, due 1st day of December, 1942, bearing interest at the rate of 5½% per annum, payable half yearly on the 1st of December and 1st of June, principal and interest payable in gold coin or lawful money of Canada, at the office of the Treasurer of Ontario, Toronto, or at the Bank of Montreal, Montreal, Canada, at the holder's option.

Bonds to be in the denomination of $1,000.00 each with coupons attached and may be registered as to principal only. Payment for bonds and delivery thereof to be made at the Office of the Treasurer of Ontario in the City of Toronto, on or before the 20th day of December, 1922, less the amount of the deposit. Interim debenture will be issued on payment of the money, to be exchanged for definitive bonds on completion by the engravers.

Sealed tenders endorsed, "Tenders for Province of Ontario Debentures" should be addressed to the Hon. P. Smith, Treasurer of Ontario, Parliament Buildings, Toronto.

Tenders must be for the whole amount offered and must be accompanied by a marked cheque for $50.000.00 to be applied in the case of the successful tenderer as part payment for bonds.

The above bonds will be issued under the authority of 12-13 Geo. V. (Ontario) Chap. 8.

The highest or any tender not necessarily accepted.

P. SMITH,
Treasurer of Ontario.
Toronto, December 6th, 1922.

This connection is a valuable one and a satisfactory volume of business is assured.

Correspondence invited which will be treated strictly confidential.

Write Box 467, Monetary Times,
Toronto.

# *Corporation Finance*

**Mexican Tramways Co.**—Although the company encountered many obstacles in the way of political troubles, government control and labor troubles, the company was able to re-establish itself on a sounder footing and the outlook is brighter. This is a brief outline of the company's affairs as contained in the statement as at the end of December, 1921.

In his report G.R.G. Conway, managing director, points out that earnings for the year 1921 amounted to $13,075,291 (pesos), an increase over the year 1920 of $2,069,160 (pesos) or 18.8 per cent. The net earnings after allowing for taxes and depreciation were $2,335,436 (pesos), an increase of $681,844 (pesos) or 41.23 per cent. over the previous year. It is pointed out that the rundown condition in which the property was returned to the company has considerably affected the net earnings during the past three years, and will continue to do so for a year or two longer until the whole of the reconstruction work has been completed. The gross earnings are the largest in the history of the company, and in spite of "jitney" competition a substantial increase is noted each year since the properties were returned to the company. Mr. Conway points out in speaking of labor conditions that wages have been increased all round, nearly 100 per cent., since the properities were returned and the number of employees from 3,960 to 4,980.

"Conditions, generally speaking, improved greatly during the year," Mr. Conway added, "and under the Presidency of General Obregon, it is believed they will continue to materially improve from now onward. Since the return of the property, the company has received from President Obregon and all the Government authorities unfailing courtesy and consideration, and they have duly appreciated the difficulties under which the company has been operating."

The consolidated balance sheet shows assets to a total value of $55,961,961. Capital account made up of properties, rights and investments stands at $48,468,887. Floating assets at $3,719,916 compare with floating liabilities of $699,874. The amount due from the Mexican Government stands at $1,708,379, and from the Mexican Light and Power Company in the form of bond interest unpaid $1,846,416. Capital stock issued totals $20,177,000 par value. The funded debt totals $22,065,246, and the accrued bond interest $6,929,070. General reserve for depreciation, etc., stands at $5,500,000, and profit and loss account at $372,409.

**Canadian Western Lumber Co.**—The total amount of lumber manufactured during September amounted to 12,150,100 feet, against 8,892,291 feet in September, 1921; lumber sold, 11,433,000 feet, compared with 7,750,971 feet, and price realized $292,522 compared with $175,268.

Aggregate lumber manufactured from January 1 to September 30, totalled 85,580,696 feet, against 71,258,205; aggregate lumber sold 92,610,749, against 69,234,036, and aggregate price realized $2,188,293, compared with $1,833,061, an increase of $355,232.

**Canada Iron Foundries Ltd.**—Due to the business depression during the latter part of 1921 and the first part of 1922 the sales of the company during the year ended September 30, 1922 were below those of the previous year and the company sustained a deficit of $104,437, which was partly met by $50,000 from the reserve funds, while the profit and loss surplus was down to slightly over $1,000. Although this is the second year of loss, the company has maintained a sound financial position.

Earnings declined by more than 50 per cent. to $115,349, compared with $300,824 last year. Profits from interest and exchange were $57,622 as compared with $43,628, this making total profits $172,972 as compared with $344,452. The company pursued the policy of making the usual allowance of $195,000 for depreciation, leaving a debit balance of $22.088. Interest and sinking fund provision amounting to $69,716, together with $12,634 for maintenance of non-operating plants, brings the total deficit to $104,437, as compared with a credit balance of $65,780 the previous year. The transfer of $50,000 from the reserve fund to the profit and loss balance, leaving a balance at credit of profit and loss of $1,084, as compared with $55,522 the previous year. No dividends were paid.

An improvement is shown in the working capital position of the company, mainly through an increase of nearly $100,000 in investments (shown at cost), which appear at $804,355; a substantial increase in inventories (taken at cost below market value); the absence of any item representing dividends payable, which was shown at $85,992. The reserve fund is reduced from $700,000 to $650,000. Cash holdings are lower by about $75,000 at $105,647.

The working capital is $1,212,304 compared to $1,080,011. A sum of $65,239.05 was spent on additions to plants, making a total of $994,886.42 spent on improvements in the last five years. This is exclusive of the ordinary expenditure on maintenance.

**Canadian Western Natural Gas, L.H. & P. Co.**—September earnings total $35,541, as compared with $42,745 for the month of September, 1921. Aggregate earnings from October 1, 1921, to September 30, last, total $891,560, as compared with $780,669.

**Canadian Pacific Railway Co.**—All previous records as to monthly earnings have been broken by the report for the month of October, net earnings amounting to $7,802,745. The nearest approach to this total was that of October, 1920, when net earnings amounted to $7,700,822.

Gross earnings for the month, however, rank second greatest in the history of the company, being shown at $23,061,547, or about $1,700,000 less than the record showing of October, 1920. This notable display results largely, it may be assumed, from the movement of Canada's bumper grain crop, and probably reflects also revival in certain lines of industry and commerce. The increase in net over October last year amounted to $1,091,258.

Figures for the ten months ended October show the position of the company as to net earnings only $1,501,064 behind the corresponding period of 1921, when the net profits for the ten months' period amounted to $28,612,158.

These results have been accomplished largely through the enforcement of operating economies, operating expenses having been brought down for the ten months by $9,087,869, as compared with a shrinkage of gross earnings for that period of $10,588,933. Gross earnings for the ten months ending with October last amounted to $147,833,319.

**Wm. Davies Co.**—A substantial improvement in the company's business is shown in the annual report for the year ended September 30 last, when profits amounted to $358,720 as compared with a loss of $829,427 for the previous year.

The sum of $300,000 has been set aside for depreciation, $190,309 has been applied on account of interest on borrowed money, and $51,723 as interest on bonds, leaving net profits of $5,651 compared with a net loss for the previous year of $1,235,673. The profit and loss accounts compare as follows:

| | 1922. | 1921. |
|---|---|---|
| Profits | $358,720 | x$829,427 |
| Miscellaneous earnings | 88,965 | 142,950 |
| | $447,685 | x$686,447 |
| Depreciation | 200,000 | ........ |
| Interest on borowed money | 190,309 | 496,536 |
| Interest on bonds | 51,723 | 52,660 |
| Net profits | $5,651 | x$1,235,673 |

xLoss.

The balance sheet shows properties valued at $6,641,239, as against $7,776,076; current assets at $4,685,212, compared with $5,866,928 for the preceding year and current liabilities of $3,162,244, as against $5,001,301. Included in this account are bank loans, to the amount of $2,166,022.

E. C. Fox, president, in his report to shareholders states that the packing industry has turned the corner. "It is now convalescent," he adds, "and it is agreed by students of industrial conditions that the fundamental economic and financial situation is on a firmer foundation than at any time within the last three years. These general conditions apply to the packing business. It is almost impossible to turn around from a year of heavy losses into satisfactory profits—the conditions that would cause such a result would be too sudden and violent for continuous stability. We hope and expect that conditions for the coming year will again show a material improvement and approach nearly to normal in operations and in earning power."

Shareholders are being asked to ratify a bond issue (authorized $4,000,000, of which $2,500,000 will now be issued) against the fixed properties of the company and its subsidiaries. The proceeds of the issue are to retire the present outstanding balances of bond issue which mature in three and a half years, and to liquidate current liabilities to the bank.

"With the proceeds of the bond issue in Land, your directors are in a position to consider resumption of dividends as soon as normal earning power has been established for a reasonable period of time," says the annual statement.

**International Nickel Co.**—The six months' report for the period ending September 30, shows that the company had a deficit of $106,828, after expenses, taxes and depreciation, etc., as compared with a deficit of $428,810 for the same period last year. The earnings for the period totalled $417,379 as compared with $24,396 for the same period of 1921, and $3,729,675 in 1920. Other income brought the total revenue to $465,093. After expenses, tax reserve and a liberal allowance for depreciation to the extent of $381,093, there was a deficit of $106,828. After preferred dividends the debit balance was further reduced to $374,206.

Property is valued at $50,661,027, as compared with $48,441,302 in 1921. Investments are down to $560,000, and inventories to $7,345,461 compared with $11,611,401. The company still has plenty of cash for business purposes, for loans outstanding now total more than $1,000,000. In addition the company purchased during the first six months $100,000 of Government securities. Cash on hand now stands at $1,260,505, compared with $906,052. Accounts payable have been materially reduced from $1,232,802 to $596,864. Profit and loss surplus at $9,641,634 compares with $11,189,990. The company's working capital exceeds $10,000,000.

**Brazilian Traction, L. & P. Co.**—The report for the month of October shows that net earnings were the highest of the year to date, totalling 11,900,000 milreis. The increase for the month, as compared with those of a year ago, was 2,739,000 milreis, the largest since April last. At 18,231,000 milreis, gross earnings exceeded by a considerable margin any previous record this year, and showed an increase over last year of 3,215,000 milreis.

Aggregate net earnings for the ten months ending October 31 were 101,863,000 milreis, an increase over the corresponding period a year ago of 24,932,000 milreis. Economies practised by the company are reflected in the fact that the increase in net earnings was greater than the increase in gross earnings by more than 3,500,000 milreis.

**Imperial Tobacco Co.**—The annual report for the year ended September 30 last, shows that the company experienced the best year in its history, net profits being $3,630,976, as compared with $3,336,783 in 1921 and $3,386,-150 in 1920.

After meeting all charges and paying the dividend on common, the company shows a surplus of $1,305,305, which, after deduction of the final dividend and giving effect to the previous surplus, leaves $5,050,166 at credit of profit and loss. Net profits of $3,630,976, compared with $3,336,783 in 1921 and $3,386,150 in 1920.

The working capital position of the company is well maintained. One of the outstanding features of the balance sheet is an increase of nearly 2¾ million in investments. Another is the complete elimination of an item of $3,000,000, which appeared in the 1921 balance sheet representing bills payable. The value of the plant at $2,334,786 has increased by nearly $400,000. Inventories at $11,632,227 are lower by more than a million and a quarter. Cash at $2,979,382 is less by more than $600,000, while accounts payable, shown at $2,280,336, are less by about $300,000.

**Cockshutt Plow Co.**—Only routine matters were taken up at the annual meeting of the company, on November 28. The statement, made public some time ago, was formally presented and adopted.

Officers were re-elected as follows: president, Lieutenant-Governor Col. Harry Cockshutt; vice-president and general manager, E. A. Mott; second vice-president and general manager, G. K. Wedlake; secretary, E. Sweet.

# National Railway Policy Discussed

### Political Interference Will Not Be Permitted, Says Sir Henry Thornton—Principle of Public Ownership Unsound, Say W. M. Birks and Sir Joseph Flavelle — E. W. Beatty on the Relations of the Two Roads

Views on the outstanding railway problem in Canada, the national lines, were well represented at a meeting held in Montreal on December 5 under the auspices of the Board of Trade. The meeting was called together to welcome Sir Henry Thornton, the new general manager of the Canadian National Railways, and about 600 prominent Montrealers were present. Besides Sir Henry Thornton, who set forth his policy in some detail, the speakers included W. M. Birks, president of the Board of Trade, E. W. Beatty, president of the Canadian Pacific, and Sir Joseph Flavelle, former chairman of the Grand Trunk Board. A feature of the meeting was the frank opposition to public ownership expressed by Mr. Birks. Some extracts from the addresses are given below:—

#### Opposed to Public Ownership

W. M. Birks:—

"Every Canadian is vitally interested in our guest of tonight, not only as an important factor in our transportation but in our most serious problem of national finance.

"The Board of Trade desires to give him a genuine and hearty welcome and wishes him to know that under all circumstances, he has the cordial support of the business men of Montreal and this, not as Montrealers but as Canadians—in favor neither of this nor any other section of the community, but of Canada as a whole.

"Let me frankly admit that this Board has never favored the policy of public ownership, notwithstanding, and in a sense, because of this, we are the more anxious to stand behind him.

"We, therefore pledge him our backing and hearty co-operation.

"Those of you who have been reading the letters of that great American the late Ambassador Page, appreciate how much it would do for all good Americans and, for that matter, many Canadians too, to spend a decade at the heart of the Empire.

"Gentlemen, I was in London in 1914, on my annual visit when Mr. Henry Thornton arrived there, unfairly heralded as 'an American brought over to show Old England how to do things'—naturally every newspaper and every Englishman was against him. How quickly he won out, and leaves, respected and beloved by all under or associated with him, a British general and knighted by the King!

"For us whose loyalty and affections, in other words, whose traditions are British, but whose conditions are American—how uniquely he should suit this environment and the Montreal Board of Trade wishes to compliment the Government on his appointment.

"Many of our members have just returned from a Trans-Canada Tour, in a sense an inspection of Sir Henry's line from the Pacific Coast, and, therefore, speaking from quite recent experience, it is a pleasure to bear testimony to the service and attention we enjoyed—one or two meant it as the highest tribute when they said—'as good as the C.P.R.' "

#### The Grand Trunk

Sir Joseph Flavelle:—

"I greatly appreciate the courtesy of the Montreal Board of Trade in permitting me to share in the welcome extended to the distinguished guest of this evening. May I assure you, Sir Henry, that by common consent you have the good will of the country, and we unreservedly wish you good luck in the discharge of your duties as president of the National Railway System of Canada. May I say, too, that the officers and men of the Grand Trunk will give you cheerful and loyal support. I venture to speak for them because I have personal knowledge of their attitude. You will, I know, have the same assurance from the officers and men of the present National system.

"I hold the conviction that governments should confine their conduct and direction of business to the limits of department adminstration. Political machinery and traditions are not adapted to the conduct of business, and for the good of the country, governments should not undertake it.

"Notwithstanding this conviction, which I judge will carry general support in the Montreal Board of Trade, the very circumstances of this evening's gathering indicate we share in the responsibility for Government ownership and operation of railways upon so great a scale, that it represents the largest single business enterprise in Canada. The occasion for this condition was the breakdown of the scheme of railway construction and operation authorized and supported by Parliament, and carried out under private ownership. Confronted with a choice of undesirable alternatives, Parliament decided that the country should take over the Railway properties in default. Whether it should have made some other decision does not affect the present situation The country is in possession of these railways. It cannot dispose of them, cannot abandon or cease to operate them. We must therefore accept the consequences, whether in paying losses from operation, or from fixed charges or for capital expenditures. We can remember that responsibility for these conditions is chargeable to successive parliaments under the control of the Conservative as well as the Liberal party, and that the country approved their actions at the polls.

#### New Capital Required.

"It will be the duty of Parliament to provide further sums needed for necessary capital expenditures whereby this National system of railways will be established as a solvent enterprise. This done, the country will have a saleable asset, and can then dispose of it, if it so desires. Meantime, it is not only sensible, but necessary to stand by the men who manage the properties. Happily, we seem to have passed the first milestone. There will be no operating loss during the current year. The combined revenues of the National and Grand Trunk systems will meet the combined operating charges, and will leave a substantial surplus to be applied towards the fixed charges.

"The penalties from over mileage of railways will be remedied chiefly through increased population, which will result in increased tonnage of commodities for movement by the railways, and increased passenger, express and other revenues. To secure increased population, which will occupy and till the unoccupied lands in the various provinces, is an imperative duty of Government. It will not do to perform the duty in a half-hearted manner, or to be deterred from it by sectional or class interests. The work should be carried on with well-balanced judgment, but with resolute courage and should be entrusted to the best available men for the purpose. There should be no stint in the resources placed at the command of those who are in charge of the work.

"The Hon. Mr. Kennedy, the Minister of Railways, had this to say in Parliament during its last session, in reference to the responsibility and authority to be vested in the Board administering the affairs of the National Railway System. I quote his words:

" 'We will place them in the hands of men who as regards the component parts of the system, will administer them without fear or favor, without thought of politics, and in the general interest.

#### The Canadian Pacific

E. W. Beatty:—

"When your president was good enough to suggest for me the honor of proposing the health of Sir Henry Thornton, I not unnaturally concluded that this pleasure was being afforded me because, as representing probably the largest taxpayers in Canada, I represented the largest stockholders in the system over which Sir Henry will preside. Large stockholders have a special interest in the successful administration of their property and in the personality of its executive head. I presume it is not only customary but necessary to propose the health of the guest of honor, but it does seem to savor of irony to suggest health to Sir Henry after one fleeting glance at his robust physique.

"It is equally customary when addressing a toast to the guest of the evening, to inform you of his outstanding characteristics and indulge in flattering references, usually untrue or at at least inaccurate. It would be presumptuous for me to tell you of Sir Henry and his achievements. I felt, and still feel, that with what Mr. Birks did not know of him and the free and full information he would give you in consequence of his ignorance, and what Sir Henry himself would not tell you, though well equipped to do so, you would probably receive all the mis-information you were entitled to obtain in one evening.

"In confining what I have to say to general observations pertaining to Sir Henry's work without confusing it with opinions or theories in respect of policies, I feel that I will not be in danger of detracting from the sociability and complete amity of this occasion, an occasion which is intended to express on behalf of the Board of Trade its utmost good-will towards Sir Henry himself, its belief in the principles of private ownership of railways and its profound, if latent, conviction that the City of Montreal offers advantages for head or other offices not enjoyed by any other city in Canada. I must admit that the stubbornness of the members of the Board of Trade on the question of public ownership and their confidence in the future of their own city as a railway centre might lend an atmosphere of discourtesy and self interest to this dinner were it not for the fact that both their convictions and their ambitions are overshadowed by their desire to induce Sir Henry to appreciate that he is a very welcome citizen of Canada whose work, if successfully accomplished, will be of lasting advantage to the country, and for whose success the citizens of Montreal and the members of the Montreal Board of Trade, no matter what their political, transportation or other religions may be, cannot but desire in every meaning of that word. The reason why we may suppress all other considerations is that the prosperity of the National Railways must inevitably mean that Canada itself is prosperous Some years ago when I was younger and therefore more prone to make mistakes, or rather, prone to make more mistakes, I rashly stated that anything that was good for Canada was good for the Canadian Pacific Railway Company inasmuch as their fortunes were inextricably linked together. It did not take long for enterprising gentlemen who had not the same appreciation of either the bona fides or the value of the Canadian Pacific Railway to distort this phrase into: 'What is good for the C.P.R. is good for Canada.' Both expressions are equally true, however, if you eliminate the subtle suggestion of selfish interest first, contained in the latter. But it is undeniably true that if Canada is not prosperous, the National Railways cannot prosper, and if Canada is prosperous the National Railways' position must, of necessity, be substantially improved."

#### President's Statement.

Sir Henry Thornton:—

"I am not concerned with the events and circumstances which led the Government of Canada to take over the National Railways System. We are confronted by a condition, not a theory, and I must accept things as I find them. Whatever the reasons may have been, the people of Canada have embarked upon an adventure which has not been conspicuously successful elsewhere; but I emphatically deny that this forms any reason for failure here, providing certain basic principles are unalterably maintained.

"There is a distinction, if not a difference, between the Government Railways of Canada and the government owned and operated railways elsewhere. In Canada, as I understand the position, the Government is the only shareholder in these various properties, or at least sufficiently controls the voting power to appear as the single shareholder; and the Government has elected to administer the National Railways in substantially the same way as though they were privately owned. The only difference between our railways and the private railways is that, so far as we are concerned, there is substantially but one shareholder to deal with, namely, the Government, and on private railways there are perhaps several thousands of shareholders. Experiments in government owned railways elsewhere have taken the form of directly operating the railways and men who were actually the servants of the government, rather than the servants of the railway. Now this distinction is obviously important, as well as vital, and it certainly tends to make the elimination of undesirable influences from the administration of our railways easier than might otherwise be the case.

"Much has been said about the dangers of political interference with our railways, and this is at least one subject upon which I can speak with emphasis and authority. The existence of politicians seems to be the price which is paid for a democratic form of government; and generally speaking, there are two things in every country which, in the minds of at least fifty per cent. of the population, afford reasonable grounds for complaint; one is the weather and the other is the government. But in a democracy, the people get the kind of government they elect to office; and if the weather is disagreeable, the Dominion of Canada provides a great variety of climates, any one of which may easily be reached by those who avail themselves of the services of the Canadian National Railways. Perhaps I should be generous and inform you that the Canadian Pacific Railway has also a passenger service. Politicians are much maligned, in earlier days they were designated as statesmen, just as fifteen or twenty years ago anyone who acquired a fortune was considered a captain of industry, while today opulence is generally looked down upon as an indication of profiteering. However all this may be, it is well recognised that politicians do exist, and presumably because they exist, they are essential in our scheme of government.

"But let it be emphatically understood, now and for once and for all, there is to be no political interference direct or indirect, in the administration and working of the Canadian National Railways. I cannot put it any more forcefully without transgressing the rules of polite speech and if I knew of any words which would make this point more clear, I would unhesitatingly employ them. The Prime Minister has solemnly assured me that there is to be no political interference and it was with this distinct understanding that I accepted the post which the Government has done me the honor to offer. This assurance is the only assurance that any government, irrespective of political complexion, would be compelled to make under similar circumstances.

"It is vital to the success of our railways and any other procedure spells inevitable disaster. From time to time the din of battle and the clash of political arms lead one at least to suspect that there are political disturbances going on in the land and I have reason to believe that something of the kind is going on at the moment, or has taken place, during the last few days. With these periodical political upheavals, neither I nor any other officer of the Canadian National Railways have nor should have, any concern, other than the interest which every patriotic citizen should take in what is going on about him. Our job is to devote ourselves entirely and with tranquillity to rendering to the people of Canada an honest and efficient railway service."

### DOMINION BANK REVIEW

To commemorate its fiftieth anniversary, the Dominion Bank has published a volume entitled "Fifty Years of Banking Service." A full list of shareholders is included, and undoubtedly the volume will be highly prized by all who receive it.

The volume is enriched by numerous illustrations, which include reproductions of the first head office at 40 King Street east, the present head office, branch offices and head executives of the bank from the time of its inception. The descriptions of the earlier days of Canadian banking particularly in the Province of Ontario, and the information regarding the founding of the Dominion Bank and its progress have been carefully compiled. The book is printed on fine text paper, which lends itself to artistic effects. The paper used, however, presented technical difficulties, as it is not intended for halftone reproductions. To overcome this the illustrated pages were plate marked, which not only served to accentuate the beauty of the reproductions, but softened the tone in pleasing manner. The frontispiece, which illustrates the present head office, and several other views are etchings of beautiful workmanship. These and illustrations of the first bank buildings and several interior effects, which are pencil drawings, make the volume unique in Canadian bookmaking.

The short narrative of the bank's history was written by Dr. Skelton, of Queen's University, in co-operation with a small committee of the bank's officials. "The Dominion Bank obtained its charter in 1869 and opened its doors on the first day of February, 1871. Its beginnings thus go back to the first years of the Dominion from which it took its name.

## Bank Clearings

The following are the bank clearings for the week ended December 7, compared with the corresponding week of 1921:—

### Eastern Bank Clearings.

### OTTAWA LIFE UNDERWRITERS

The monthly dinner of the Life Underwriters' Association of Ottawa was held on Dec. 4. E. S. Martin, the president was in the chair, and introduced the speaker of the evening, A. G. Cameron, of the Juvenile Court of Ottawa, who spoke on the relation of Life Insurance to Community service.

The motion of John R. Reid and D. E. Grant that a Life Insurance Educational Congress be held in the City of Ottawa next January was discussed and it was unanimously decided by vote of the meeting to hold the same. Committees to organize and plan a program will be appointed, and further announcement as to the nature of the Congress will be made.

## Exchange Quotations

Closing rates in Toronto, Wednesday, compared with the preceding week, were as follows:—

| **Grand Trunk Railway** | | |
| December 7th ....... | 2,161,921 | 1,816,052 |

# Outflowing Tide of Canadian Wheat

### Responsible for High Exports in November—International Railway Body Proposed — Grand Trunk Earnings Reveal Strength —Financial Affairs Await Return of Hon. W. S. Fielding

(Special to The Monetary Times)

Ottawa, December 13.—The total November exports, amounting to nearly $132,000,000 should not only make Canadians, but the people of other countries, sit up. They are largest since December, 1920, when with wheat selling at over $2 per bushel, they shot up to $150,000,000. But with wheat now selling at less than half that price, the total exports last month came within about $18,000,000 of this very high figure. How notable is this achievement is evident from the fact that only five times within the last five years have these figures been exceeded. This is another demonstration of what a bumper wheat crop means to the country.

It will lead to a clearer idea of what $132,000,000 of exports mean to say that it is equal to one-third of the value of the total exports of the United Kingdom during October. In comparison with those of the United States for that month, the showing is even better, for their exports were only $340,000,000, and they have done a great deal of crowing over it. When a total of $102,000,000 was announced for October, this was thought to be large for Canada, but November has placed another $30,000,000 on top of that.

#### Trade Agreements

During the approaching session trade matters will receive a very great deal of attention; for there will be the trade treaties with France and Australia to ratify. It is quite evident that with France Mr. Fielding has done very well, Canada having been placed on the same footing as that enjoyed by the United States, and having additional special concessions in pulp, agricultural implements and asbestos. Pulp and paper are fine commodities to bargain with. If Canada had not such an abundance of them her trade with the United States today would be much smaller than it is.

The visit of Hon. George P. Graham to Washington respecting the creating of an international railway board is another step in the improvement of trade relations with the Republic. It is in the interest of Canada that such a body should be created, for the number of matters growing out of railway business in which the two countries are equally interested is increasing so rapidly that some other method of doing business than at present exists is very desirable. As Canada has now but two railway corporations, or at least will have but two in a few months, it is comparatively easy for American railway corporations to do business with Canada; for in addition to this merging of interests, much of the business of the Canadian roads is done through the Canadian Railway Association. On the other side of the line, however, the railways are divided among a very large number of corporations.

It is also thought that an international body would enable Canada to get back from the United States a larger number of cars than she is able to get at present. While it may be true that the slowness with which these cars are returned is due partially to perverseness, still it is also true that the difference in the general nature of the freight passing south, as compared with that coming north, also makes the exchange of cars difficult. Canada sends south large shipments of lumber, pulp and paper that bulks large; while the United States sends north a much higher percentage of higher class freight, which obviously requires fewer cars.

#### National Railways

Sir Joseph Flavelle's statement recently in Montreal that the Government roads, including the Canadian National and Grand Trunk, would do a little better than pay operating expenses this years has attracted much interest. It is assumed that he knows better than those on the outside, what the Government system can do, aud that he has good reasons for his statement. The latest official returns, those for September, however, while they show a marked improvement over the returns for 1921, do not hold out much hope that the whole operating deficit will be wiped out and something paid on fixed charges, as Sir Joseph intimated. At the end of September the Grand Trunk and the Canadian National combined had to improve their showing by over $6,000,000 before the operating loss would be entirely wiped out. To do this within three months would be going some. It may be done, but if it is there will be some surprising cuts in expenses.

Such a development would mean a saving of $16,000,000 in operating, but it would be a mistake to conclude that this would necessarily represent the net gain to the public. The increase in the fixed charges must also be taken into account. What they will be it is impossible to say, but the loans authorized to the system at last session of Parliament amounted to over $80,000,000. The net saving to the public will be the saving in operating, minus the amount of the increase in fixed charges. The Grand Trunk is now making much the better showing in the Government system, and the general improvement seems to depend upon the extent to which it can increase net earnings.

#### Government Financing

The return of Mr. Fielding from Europe is awaited with much interest, it being expected that he will have announcements of importance to make. It is also quite possible that soon after his return there may be some intimation respecting new financing. The Treasury is undoubtedly better off for money than he probably expected it might be, and thus quite a load has been lifted from his shoulders. The indications are that he will be confronted by a strong demand for economy during the session, much stronger, indeed, than that of a year ago. It will, however, be rather hard to pare expenditure, for certain expenditures on public works have been delayed so long that further delay seems to be out of the question.

Anything that has been saved by the Government railways this year will probably be required for new equipment and extensions next year,.it being understood that prices have been asked on $10,000,000 of the former, while it will be hard to head off the demand for the completion of certain branch mileage.

---

## "BLUE RUIN" TALK UNWARRANTED

### Real Farmers Are In Good Position, While Others Should Profit by Present Difficulties.

(Staff Special)

Winnipeg, Dec. 11.—Winter has set in, in real earnest in Winnipeg, and business generally is showing some improvement. Retailers who have been stocked up with winter goods report trade steadily improving, and seasonable lines are going out rapidly. The money situation has been extremely hard to figure out, but collections the last week are said to be slightly improved. A good many farmers of the west are holding their crops, and waiting for a higher market. and a good many others who have held for some time, are selling and taking advantage of the increase in price over what it was two or three months ago.

Throughout the western provinces the problem of old debts is a very serious one, and the trouble with many farmers is that the financial interests are really endeavoring to collect more in one year than the 1922 crop could stand.

In discussing this matter William Smith, president and managing director of the Western Empire Life Assurance Company, who has been in western Canada for over thirty-five years, said:—

"We hear a great deal in these times about deplorable conditions in the West. To hear the average man talk one would think that complete ruin faced us, that the most of our farmers were ready to leave the country, that they were abandoning their farms and holdings right and left and fleeing to the towns and cities for imaginery protection, and it is true that there are elements in the situation of a somewhat alarming character, but in my opinion the farming community upon the average is sound. It is true that many farmers are in debt and that the crops produced during the past two years have not left any great margin over and above expenses. But the main cause of all the grumbling and talk of hard times on the part of the farmers is as the result of their having in a great many cases during the period of high prices and inflated values, made investments quite apart from the business of the farm.

#### Lessons Being Learned

"The farmers who have concentrated upon the business of farming and who have sought to consolidate themselves are in splendid condition. Others will in course of time attain solvency and the hard times through which they are now passing will not prove to be an unmixed evil. Valuable lessons will be learned therefrom."

---

## EXCHANGE RATE STIMULATES BUYING

### Recovery in Imports From United States—The Canadian Embargo on Pulpwood Shipments

(Special to The Monetary Times.)

New York, Dec. 13.—A report is being circulated here in newsprint manufacturing circles that Canada plans to tighten up the embargo on the shipment of pulpwood to the United States and extend the present provincial prohibition on the export of pulpwood cut from Crown lands to pulpwood cut on private lands. The report is being taken with a grain of salt by most of the better informed maunfacturers and some even see in it an attempt by those who agree with Representative Rogers of Massachusetts to create anti-Canadian feeling.

American exports to Canada during the month of October were approximately $13,000,000 greater than they were during the same month in the previous year. They totalled over $58,000,000 as against some $55,000,000 in September.

#### Canada Buying More.

Canadian buying in the United States, in spite of an almost sixty per cent., decrease in the amount of coal imported from this country by the Dominion, has increased steadily since the beginning of the year. This is believed by local Canadian bankers to have been largely the result of the return of the Canadian dollar to par in the United States and to the improvement which has occurred during the past six months in the general business situation in Canada.

#### Effects of New Tariff.

While no import statistics have yet been made available by the Department of Trade and Commerce, these being unnduly delayed by the difficulties the Department is experiencing in handling the new tariff regulations, it is believed that Canadian imports will compare favorably wth the total shown in September. In spite of the Emergency Tariff Canadian imports have been increasing since the beginning of the year and it is not thought that the imposition of the new tariff schedules will unduly affect the upward trend of the import statistics. Privately it is understood that the Department of Commerce has been investigating the reports received here that the new tariff was affecting Canadian trade with the United States most seriously and according to information furnished the Monetary Times by a local Canadian banker the investigators the Department has sent to Canada have reported that these reports are incorrect. So far as they have been able to find out, they report, that the United States tariff has had little effect on the volume of Canadian trade with this country.

It is not generally known in Canada that the Hon. Pierce Butler, the nominee for the Supreme Court of the United States, whose nomination the Senate refused to confirm, is fairly well known in certain circles in Toronto and Ottawa as a highly talented corporation lawyer. Mr. Butler is now acting as a legal advisor of the Toronto Railway Company in connection with its negotiations with the City of Toronto and was a representative of the Grand Trunk Railway when the now famous Grand Trunk case was argued before the Privy Council in London.

---

## AUTOMOBILE UNDERWRITERS

Officers elected at the annual meeting of the Canadian Automobile Underwriters' Association held the last week of November in Ottawa, were as follows:—

President, E. T. Hussey, Travelers' Insurance Company, Montreal; 1st vice-president, E. Willans Imperial Guarantee and Accident, Toronto; 2nd vice-president, H. F. Roden, Canada Accident and Fire, Montreal; secretary, J. H. King, Toronto. The governing council has not yet been elected.

## LOANS IN ONTARIO REDUCED

### Withdrawal of Credit Foncier Funds an Important Item, According to Government Report.

The 25th annual report of the Ontario Registrar of Loan Corporations shows a decrease of $645,000 in total mortgage investments.

The explanation is that the Credit Foncier (Franco-Canadien) withdrew from its mortgage investment in Canada for the purpose of redeeming debentures payable in France the very substantial sum of $2,394,000. When this special item is eliminated the result is to show a substantial increase in the mortgage investments in other bonds, debentures and debenture stocks. The debentures of the Credit Foncier payable in France were not cancelled but are held as assets of the company available for resale on some future occasion.

### Decrease in Investments

The decrease in the investment of loan corporation in the Dominion of Canada bonds amounts to the substantial sum of $580,000. This is not surprising and represents probably a general tendency which will be continued as the price of these securities advances. Municipal and school district and rural telephone debentures also show a decrease for the previous year due to similar circumstances. In so far as this represents a general trend of return to the main function of these companies of mortgage investments, the indication is entirely normal and healthy.

There was an increase in the total amount of debentures issued by the corporations payable in Canada of nearly $1,000,000, and a decrease in the total amount of those payable abroad of more than $1,500,000. The increase in currency debentures was normal: the decrease in sterling debentures was abnormal and due to the policy of some companies of taking advantage of favorable rates of sterling exchange for the redemption of maturing obligations. The sterling exchange rates continued to prevent the importing of new moneys from Great Britain and other countries.

### Total Deposits Increased.

The total deposits held by the companies increased by approximately $360,000 during the year. This was not unsatisfactory in view of the general shrinkage of deposits in all financial institutions due to the period of deflation through which the country is passing.

In the case of trust companies the year of 1921 was chiefly notable for a substantial decrease in the amount of guaranteed funds available for investment and to a corresponding shrinkage in the amount of trustee investments held by the companies. This amounted to about $1,750,000.

There was a large increase in the total of estates, trusts and agency funds committed to the administration of the registered trust companies. At the end of 1921, this reached a total of more than $654,000,000, an increase in that year of nearly $80,000,000. This is much the greatest increase recorded.

### Currency Debentures.

There has been a substantial improvement in the condition of the debenture business in Ontario. These securities have now regained their place as competitors with other high class investment securities. This change, of course, is due to the rising price of government and municipal debentures which has brought the interest yield rate back to approximately 5½ per cent. Loan corporation debentures have continued firm at this rate and the prospect now is that there will be a substantial market available for these offerings.

### Mortgages in Ontario.

During the year 1922, mortgage lending by loan corporations has continued very freely, particularly in urban districts. The demand for farm mortgage loans is, of course, not substantial and most of the moneys of loan corporations now go into city and town properties. In Toronto particularly the loan corporations have been freely meeting the demand for mortgage moneys for building purposes and during the whole of the Spring and Summer, building loans have been freely made. The rate of interest has continued firm at 7 per cent. to 7½ per cent. per annum and there seems to be no immediate prospect of reduction in this rate notwithstanding the increasing moneys available. The demand for money comes chiefly from the housing requirements. Authorities consulted generally agree that the demand for houses has not yet been fully satisfied although there is a tendency in some quarters to believe that a conservative policy must be adopted to meet probable reductions in sale prices. Construction and re-construction costs are steadily and moderately declining. In the case of retail store building there is a general feeling that the requirements of the situation have been fully met and that further investments of this character should not be encouraged at the present time.

## LATE FOREST FIRE

Fire was reported on November 30 as having broken out near Harlach, Northern Alberta, a little coal mining town between Rocky Mountain House and Nordegg, where there had been no snow to date. The blaze burned over two square miles of timber, most of it low and brush, little of it being valuable merchantable timber. The fire was reported to be almost under control.

## LIGNITE CONFERENCE

To report on and discuss the future developments in the lignite briquetting work being carried on at the Bienfait, Sask., plant by the federal, Manitoba and Saskatchewan Governments, representatives will hold a conference shortly. Where the conference will be held has not been decided, but it is expected that it will be convened in the West. Members of the utilization board will also attend the conference.

## LIABILITY OF WIFE AS SURETY

The case of Robinson v. Mills, which came before the Alberta Supreme Court recently, was an action on a promissory note signed by the husband and the plaintiff Robinson as partners. The Court in substance held, that where a wife joins with her husband in giving a promissory note in connection with the termination of a business partnership by him, the wife being a well educated woman who has had experience in business, there is no presumption of undue influence on the part of the husband in obtaining her signature and where no deception has been practised on her, she cannot escape liability on the note.

## TO INVESTIGATE RURAL CREDITS

Prof. W. T. Jackman, of the department of political science, University of Toronto, and Francis J. Collyer, a member of board of trustees of the Provincial Savings' bank, were appointed on November 27, to investigate the rural credits branch of the Manitoba government, Hon. F. M. Black, provincial treasurer, announced.

## ONTARIO LOAN AND DEBENTURE

The Ontario Loan and Debenture Company of London, Ont., in addition to the regular dividend of 2½ per cent., for the final quarter of the year, announced a bonus of 1 per cent., making a total distribution for 1922 of 11 per cent. Both payments will be made January 2nd to shareholders of record December 15th.

From 1914 to 1919, both years inclusive the company paid 9 per cent. In 1920 a bonus of 1 per cent., was added and in 1921 the stock was placed on a permanent 10 per cent. basis. If placed on a permanent 10 per cent. basis.

## BRITISH INDUSTRIES FAIR

That the Canadian Chamber of Commerce in London has decided definitely to take space at the ninth annual British Industries Fair, to be held in London and Birmingham from February 19 to March 2, is the information received by cable by F. W. Field, British Government Trade Commissioner at Toronto. The Chamber of Commerce will organize sections of the Canadian manufactures, both at London and Birmingham, and desires the co-operation of Canadian manufacturers in order to make their representation as comprehensive as possible. Applications for space should be sent to the British Government Trade Commissioner.

## PROTECTION OF TRADEMARK

On a motion before Justice Duclos a preliminary injunction was granted to the Centaur Co. ordering the American Druggists Syndicate to refrain from using the word "Castoria" in the sale of a certain pharmaceutical preparation. On appeal the Court of Appeal confirmed Mr. Justice Duclos. The plaintiff company then brought action before the Quebec Superior Court which held that the word "Castoria" in connection with the manufacture and sale of a senna laxative for infants and children is not the generic name of a medicinal preparation but an arbitrary designation and as such may be the subject of a valid trademark which, being registered in Canada, protects the right to the sole use of the word in Canada, during the life of the trademark, although the patent rights to the preparation and sole right to the use of the word in the United States have expired and the product has not been protected by a patent in Canada.

## WHOLESALE PRICES

The index number of wholesale prices, compiled by Professor H. Michell, of McMaster University, stood at 168.3 for the month of November, thus registering an advance of 1.3 per cent. over the previous figure of 166.2 for October. This compares with 146.9 for November, 1921; 225.4 for November, 1920; and 118.4 for November, 1914.

The index number for the 20 foodstuffs included stood at 178.0, thus registering an advance of 1.2 per cent., over the previous figure of 175.9 for October. This compares with 178.1 for November, 1921; 254.6 for November, 1920; and 134.5 for November, 1914. Butter, cheese, sugar, flour, tapioca and currants advanced, while beef, pork, lard and potatoes declined. The index number for 20 manufacturers' goods advanced from 156.5 to 158.6, thus registering an advance of 1.3 per cent. This compares with 151.8 for November, 1921; 196.2 for November, 1920; and 102.4 for November, 1914. Wool, cotton, hides, tin, coal oil and rubber advanced and silver and copper declined.

There is now no reasonable doubt, says Prof. Michell, that we are definitely on the upward trend, and we may anticipate a steady appreciation of prices for at least the next six months, and possibly longer.

## BRYANT, ISARD CREDITORS

At a meeting of the Toronto creditors of Bryant, Isard & Co., called by Mr. Bryant, and held in the office of Bryant Brothers, at Toronto, recently, John L. Thorne, the trustee, and Ward Wright, an inspector of the estate, attended, and requested an opportunity to place facts before the creditors. After some delay Mr. Thorne's request was granted. After hearing Mr. Thorne, a resolution of confidence in him as trustee, was passed with only one dissenting.

## T. & N. O. RAILWAY.

Following a conference with Chairman Lee of the T. and N. O., Railway Commission, Premier Drury on November 28th announced that plans had been approved for extending the Government railway to Hudson Bay, but that the matter of electrification of the line had not been dealt with. Mr. Drury said that, in his opinion, the new area to be tapped would be one of the best for producing revenue. Surveys will begin in the spring, and construction follow completion of the work now under way.

## ZENITH COMPANIES, INC.

At a meeting of shareholders of Zenith Companies, Inc., held at the office of the Merchants' Casualty Company in Winnipeg on November 22, a nominating committee was appointed which recommended five names from which two are to be elected to the board of directors at the next annual meeting in January. This will give five Canadian and five American directors, with Hon. S. D. Works as chairman.

# The Monetary Times

Trade Review and Insurance Chronicle

OF CANADA

The Monetary Times was established in 1867, the year of Confederation. It absorbed in 1869 The Intercolonial Journal of Commerce, of Montreal; in 1870 The Trade Review, of Montreal; and the Toronto Journal of Commerce.

**ADVERTISING RATES ON REQUEST**

TORONTO, FRIDAY, DECEMBER 15, 1922.

## WHY PUBLICLY OWNED?

How is a publicly owned railway to be run without political interference? It might be equally appropriate to ask how a company could be run without interference from the shareholders.

The National Railways are now a public system, to be run for service rather than profit; if this is not so they could be better administered by private hands. But for the time being they are publicly owned and a board of directors has been appointed to administer them in the national interest. Is this board of directors to be entirely ignored by the new general manager?

It was easy for Sir Henry Thornton to take a non-interference stand before a Montreal audience. He may not be able to carry it out. If the general manager is to be the judge of the results as well as the administrator of the system he will truly be a magnate in the first degree. Shareholders of a private company make the general manager's duty clear—they want profits. Are not the directors of the National lines appointed to lay down what the public wants from the system?

In a recent address in Montreal, E. M. MacDonald, M.P. for Pictou, N.S., made the following statement:—"The question of politics cannot be ignored when dealing with the Canadian National Railways. I do not know if the gentleman who stated that he would keep the national railways out of politics realized what he was saying. The public, through taxation, is all the time paying for the upkeep of this railway system, and we have to vote the moneys to be used for running the road, and are therefore to some measure responsible for the expenditures. This must be always a question of politics."

If the Canadian National is to be run exactly as a private company, there is no object whatever in its being publicly owned; it might better be turned over to the C.P.R.

## OUR BANKING SYSTEM.

In the consideration of our banking system, the topic of foremost financial interest at the present time, regard must be had for the developments which have taken place during the past decade. One of the outstanding developments has been the invasion of the banking field by the provincial governments, first by the establishment of rural credit societies, and later of savings offices. While only two provinces have done much in this direction, the tendency is unmistakeable. The credit handled in this way is a slightly different kind of credit from that handled by the banks; the latter is commercial credit, intended to be liquidated in about three months time. The former is rural credit, intended to extend over the farmer's period of production, which is a year, and like commercial credit, capable of being extended over a longer period in individual cases.

The chartered banks still lead in the banking field. Instead of being weaker they are much stronger than they were ten years ago. They are fewer in number. They are the backbone of all short term credit in Canada, including the provincial institutions and the trust and loan companies. The tendency is for their work to be supplemented in the field, but their reduced number and increased strength renders the establishment of any bank of rediscount or government bank quite unnecessary.

## JUGGLING TRADE BARRIERS

Two more loop-holes are being made in the tariff wall which has been erected around Canada. Hon J. A. Robb, Canadian Minister of Trade and Commerce, has, it is reported, successfully completed preliminary negotiations with the Commonwealth Tariff Board for a reciprocal customs arrangement between Australia and Canada.

Hon. W. S. Fielding has also negotiated a new agreement with France, according to a Reuter's despatch, giving this country all the commercial advantages enjoyed by the United States, with additional benefits in connection with the export of pulp, farm implements and asbestos. The new treaty between France and Canada is calculated to remedy a discrimination which has arisen out of the decree issued by France in March, 1921, increasing nearly all the rates of the French general tariff. Although this decrease was aimed at countries with depreciated currency, it had the effect of placing Canadian goods in an unfavorable position as compared with those of the United States. The decree in question materially affected all Canadian products not granted the minimum tariff under the modus vivendi arranged by Sir Geo. E. Foster, former Canadian Minister of Trade and Commerce, in January 1921. The decree on the other hand, was held by the French authorities not to be applicable to imports from the United States. The modus vivendi, which secured for Canada what was practically a continuance of the French minimum tariff on all Canadian goods included in the Franco-Canadian trade agreement of 1907-9, was merely a temporary measure. The new treaty will take its place. The whole effect of the new convention, it is expected, will be to increase trade between the two countries, which, of late, has been falling off.

## WHEN WILL THEY DECLINE?

Fire losses for the eleven months ended November were $37,390,455. For the week ended December 8, they were $2,827,500, and for the week ended December 15, $1,027,850. The strain upon the fire insurance companies can scarcely fail to make 1922 an unfavorable year for them. And the curious part is that these heavy losses come after several years of fire preventive educational work, coupled with attempts to develop carefulness and honesty through such civil and criminal laws as bear upon the matter.

Heavy losses of the past few weeks have been due in large degree to fires in religious and educational institutions. The suggestion of incendiarism is unfounded. Several losses at about the same time is a co-incidence, but many of these buildings are a standing hazard. As such, specially high rates are justified, and the failure of some owners to carry adequate insurance in the face of these high rates is near sighted economy.

The University of Montreal has twice received a fiery visitation, receiving damage of three-quarters of a million dollars. The historic St. Boniface College at Winnipeg has burned with the loss of ten lives and three or four hundred thousand dollars. The fire that razed many houses in Terrebonne, Quebec, came from the explosion of a boiler. There is no mystery about that.

In the Winnipeg fire no proof of incendiarism has been forthcoming. One curious fact is that a girl watched the flames for two hours from her bedroom window, but did not think the outburst serious enough to warrant sounding the alarm. In the last fire at the University of Montreal, the flames appear to have originated in the student's cloak room. This would be a place where clandestine smoking of cigarettes would be liable. A certain percentage among all students are addicted to the habit. The smouldering butt of one could easily ignite waste paper, and this, in turn, would gradually kindle the woodwork.

In these two fires—at Winnipeg and Terrebonne—wooden buildings or structures with much woodwork were preyed upon. The proneness of this sort of erection to easy ignition is worth notice by framers of building ordinances. It is upon these men, after all, that much of the responsibility rests in fire disasters. In many cities the regulations are not abreast of the times. Owing to the heaviness of losses by conflagration the insurance rates are higher than the normal charges for protection ought to be. Consequently they constitute a heavy tax on the community. Insurance men have been advocating proper safeguards in fire prevention for many years, but in many places their pleadings have had but little or no general influence.

## RAILWAY RATES ON FARM PRODUCTS

All is not so dark with the western farmer as sometimes reported, and in one respect at least he has a decided advantage over his neighbor across the line. Whether the Canadian railroads are operating under lower labor costs; whether they have a less onerous heritage from the war period, when the American morale, at least, weakened under costly experimentation and rate schedules suffered arbitrary adjustments; whether Canadian taxes are less burdensome; whether the shippers of classes of products other than agricultural are carrying a heavier proportion of the rates than in this country; or whether losses incurred in operation are absorbed by subsidies to an extent that would bridge the gap; the fact remains that it costs less to ship grain to market in Canada than in the United States. Moose Jaw, Saskatchewan, and Hysham, Montana, are situated at the same distance from terminal points, the one from Fort William, and the other from Duluth, yet the Canadian freight rate on wheat for the haul is 20 cents. per cwt., and the American rate is 37.5 cents. The rate on flax from Swift Current, Saskatchewan, to Fort William is 23.5 cents; on flax from Misko, Montana, to Duluth, exactly the same distance, the rate is 47 cents, or 100 per cent. greater than the Canadian rate. Wheat can be hauled from Brandon, Manitoba, to Fort William, a distance of

552 miles, for 16 cents per cwt., while it costs the same amount to haul wheat from Crookston, Minnesota, to Minneapolis, a distance of 280 miles. Calgary, Alberta, is 1,243 miles from Fort William, and New Salem, North Dakota, is 469 miles from Minneapolis, yet the rate for wheat for both routings is the same, 26 cents per cwt. It is said that the cost of shipping wheat to their respective terminals from two country elevators seven miles distant from each other, but separated by the International boundary, and at practically the same distance from Port Arthur and Duluth, is 20 cents more on the American than on the Canadian side. This is a considerable difference; yet because of offsetting factors, it is doubtful whether or not the American shipper would gain by shipping from the Canadian side.

## SUCCESSION DUTIES ON LIFE INSURANCE

Life Insurance Underwriters are engaged in an ill-advised effort to secure exemption of life insurance proceeds from succession duties, and the provincial governments will be still more ill-advised if they make this concession. With the life underwriters it is a case of trying to sell more life insurance but the point which the governments must bear in mind is that equitable principles of taxation must not be departed from. All the provinces provide exemptions from succession duties of small amounts, and lower duties for those closely related to the deceased, but to exempt large legacies merely because they may be the proceeds of life insurance would not be in accord with the principle on which the tax is levied—that funds changing hands in this way should contribute to the public purse.

The effect of such an exemption would be to create an artificial demand for life insurance like the demand which has arisen for tax exempt Dominion government bonds. This feature of the war loan bonds, adopted at a time of stress when the government needed the money so urgently, has been many times deplored, and the Ontario government has for years been engaged in an effort to redeem certain issues made by it a long time ago with exemption from succession duties. To create an exemption for life insurance would establish another loop-hole for men of wealth who desired to escape taxation.

The public revenues would moreover suffer and the provinces in their efforts to replace the taxes, forgone by such an exemption, would be inclined to turn again to corporations. Perhaps the life insurance companies would be still more heavily taxed but if not it would be hardly equitable for the holder of bonds or mortgages, or the bank depositor, to pay for the privileges of the life insurance policyholder.

Life insurance requires no special privileges to make it sell. Such a club in the hands of the underwriter would be a club against other forms of saving and investment which are equally beneficial to the individual and to the country as a whole.

---

The first step towards a sound revision of our banking law is accurate knowledge of the present system. The pamphlet just issued by the Canadian Council of Agriculture gives a good description of it, and will carry weight with those who are most anxious for a radical change. It would be helpful to have another pamphlet describing our banking requirements.

---

The Border Cities Chamber of Commerce is authority for the statement that probably 100,000 building lots surrounding the townsite of Ojibway have been subdivided and placed on the market. The townsite itself is owned by the Canadian Steel Corporation, and has been laid out, but none of it has been offered or sold. The population consists only of the executive employees of the corporation. This is a case of speculative development for which the Canadian West probably has no parallel.

# *Personal*

P. A. BLACKBURN, of Sarnia, has been appointed to the position of treasurer of the town of Oshawa.

VICTOR M. DRURY, has been elected to the Board of Directors of Brandram-Henderson, Limited, to fill the vacancy caused by the death of C. H. Potts.

R. W. DALTON, former British Trade Commissioner in New Zealand, has been appointed to succeed G. T. Milne, as his Majesty's senior Trade Commissioner in Canada and Newfoundland, with offices in Montreal.

A. B. TEN EYCK, fire chief of Hamilton, Ont., has retired. Mr. Ten Eyck has been active in the Dominion Association of Fire Chiefs and has taken a prominent part in the development of fire fighting methods generally.

JAMES STEWART, President of the Maple Leaf Milling Co., has been appointed to fill the vacancy on the board of the Bank of Montreal caused by the death of R. B. Angus.

R. FRASER ARMSTRONG, town manager of Woodstock, N.B., has tendered his resignation, to become effective March 1. Mr. Armstrong has been engaged by the Citizens' Research Institute of Canada, of Toronto, to carry on work along municipal lines.

EDWARD C. GILLIAT, credit manager of the North Star Oil Company has been appointed manager of the Manitoba branch of the Canadian Credit Men's Trust Association, succeeding Edward Barry, who has resigned.

LIEUT.-COL. R. W. LEONARD, of St Catharines, has been elected to the Board of Directors of the Canadian Locomotive Company, succeeding the late J. L. Whiting.

W. R. C. DACOSTA, has been elected a member of the Toronto Stock Exchange, having purchased the seat held by Stuart Macfarlane, of Messrs. Fletcher, Macfarlane and Company.

ROBERT JOHN FLEMING, eighteen years manager of the Toronto Railway Company, Toronto, has resigned his position. Mr. Fleming is a candidate for the Toronto Mayoralty this year.

J. H. GILLARD, has been appointed chief inspector of the Bank of Montreal with headquarters in Montreal.

MR. MORRIS, F.F.A., has been appointed actuary of the Travellers Life of Canada. Mr. Earle becomes president and general manager of the company.

ROBT. S. TODD, of Montreal, has been appointed chief accountant of the Quebec province treasurer's department.

## CASUALTY ADJUSTMENTS

### Casualty Claims Association Hears Managers at Third Meeting.

The third meeting of the season was held on Wednesday, by the Casualty Claims Men's Association. This is a new Toronto organization, the two meetings previously held having been devoted to discussions on "Automobile Ignition" and "What is Evidence." At the third meeting a number of managers were invited to express their views on 'Uniform Adjustments," the principal address being given by E. Willans, managing director of the Imperial Guarantee and Accident Company.

Mr. Willans first recited the old motto "Fight the Big Ones and Pay the Small Ones" as an undesirable principle which was gradually being discarded. The object now, he said, is to adjust claims on an equitable basis. Following the adoption of uniformity in classification, rates, etc., he pointed to adjustments as the next logical step, the object being to give a common interpretation to the policies issued. Adjusting, he defined as "the application of the terms of the policy to the event against which we have insured."

### Suggested Methods.

Uniformity, said Mr. Willans, would increase public confidence in the business and he suggested three cases in which it might be applied. The first was in the application of the pro rata clause in personal accident insurance; sometimes this has been over used but it must be applied however, where there is a distinct change of hazard. The second was in the case of over insurance, where a man was insured for more than the money value of his time; here it should be decided whether his claims should be pro-rated. The third was the case of the limited health policy where, as in the case of the influenza epidemic, the disease against which insurance was taken, was complicated with other diseases; here the point might be decided whether the indemnity should cover the whole period of illness.

### Undesirable Competition.

Col. A. E. Kirkpatrick of the United States Fidelity and Guarantee Company, expressed the view that the company manager or the claims adjuster should avoid answering the hypothetical question "if such a thing happened what would your company do" as this was often used as a club on other companies. Such questions might be referred to the superintendent of insurance.

C. W. I. Woodland of the Employers' Liability Assurance Corporation suggested that, where an adjuster finds his company is not the only one on a risk he should get in touch with the other companies affected so that one company's method of settlement should not compete with another. Moreover, the adjuster should not say to an agent, regarding another company's methods, that "If we had had that risk we would have done so and so." Mr. Woodland also suggested that the association should include non-tariff companies' adjusters in its membership.

W. H. Hall, of the Canadian Surety Company referred to the former attitude of the adjuster approaching a claim with a view to avoiding it rather than settling it, as one which had been discarded.

### Control of Adjustments.

Geo. Weir of the London Guarantee and Accident Company pointed out that uniformity in adjusting claims might be difficult unless there was uniformity in executive control of adjustments; some companies, he pointed out, do it through their own officers while with others the adjusting is done by general agents. "There is a long history behind us of competitive features, which have led to undesirable results" said Mr. Weir. Adjusting used to be regarded as a battle of wits but this is no longer the case.

Alexander MacLean of the London and Lancashire Guarantee and Accident suggested bymonthly meetings of a small committee to consider detailed points.

M. W. Helwig, secretary of the association stated that arrangements had been made for a course of instruction in the automobile.

## 63 Good Investments Listed in This Month's Guide

No matter how small or how large the amount you have to invest, you will find among the sixty-three securities listed in this "Guide" the precise investment you need to meet your requirements as to safety, interest, maturity and marketability.

There is also a very good selection of Bonds in Odd Amounts from $100 upwards.

Write for a copy.

## A Difficult Duty

Prudent parents often open a Saving Bank Account for their children's benefit and seek in this way to discharge the always difficult duty of making provision for the future needs of their little ones. The drawback to complete success is usually found in the absence of a definite obligation to save, coupled with the readiness with which Savings could be withdrawn from the bank.

The Great-West Life issues Endowment Policies of Insurance specially devised to assist parents in providing for the education of their children or in glvng them a start in life. The natural desire to meet the premium as it falls due from time to time offers a steady inducement to save, and the profits on such a policy make it a most desirable investment. Consult any Great-West Life Agent for particulars or write to

# The Canadian Banking System

BY JOHN W. WARD

(From a Pamphlet Issued by the Canadian Council of Agriculture, Winnipeg)

An efficient banking system is one of the vital necessities of our modern business life, and without banks in which the people have confidence and which have resources sufficient to meet the business requirements of the country, trade and commerce, as we understand it today, would be impossible.

In different countries different systems of banking have developed, but the functions performed by the banks everywhere are very similar. The chief business of a bank is to collect the savings of those who have surplus funds and to make them available for the use of those who need money and can employ it profitably in their business enterprises and undertakings. A banker, in other words, is a dealer in credit. He purchases credit from his depositors at a low rate of interest and sells it to his borrowing customers at a higher rate, paying his expenses and making his profits out of the difference.

Banks, also by permitting the use of cheques and by the issue of drafts, provide an easy and convenient method for the transfer of money from one individual to another, whether those individuals live in the same town or in different towns, countries and continents. Banks in some cases collect accounts for their customers and in many other ways assist in the carrying on of business.

In addition, in many countries, including Canada, banks by the issue of notes provide a portion of the currency in use by the public.

### The Bank Act

Among the chief provisions of the Canadian Bank Act which governs all the commercial bodies of the country are the following:—

New Banks may be established only by a special act of parliament.

The subscribed capital must not be less than $500,000, of which $250,000 must be paid up.

Banks may open branches, agencies and offices.

Banks may receive deposits and pay any rate of interest thereon, lend money, discount notes, deal in bills of exchange and buy gold and silver coin and bullion, but may not engage in business other than banking.

Banks may not lend money directly upon real property, but may take real property as additional security for loans already made.

Banks may issue notes to circulate as money with certain restrictions as to the amount.

Under the Bank Act banks are required to redeem their notes in gold or Dominion notes, but the operation of this section is suspended by the Finance Act of 1914, which authorizes the banks to make payments in their own notes instead of in gold or Dominion notes.

In case of the insolvency of a bank the redemption of its notes is the first charge upon the assets. Amounts due to the Dominion of Canada are the second charge and the claims of the Provincial Governments come third.

Each bank is required to have on deposit with the Minister of Finance an amount equal to 5% of the average note circulation for the previous year. The fund thus created is known as the Bank Circulation Redemption Fund and is held by the Minister for the sole purpose of redeeming the notes of any bank in case of failure.

Banks must make a monthly return to the government showing their assets and liabilities and other prescribed particulars. This return is published in the "Canada Gazette" and the financial papers. The Minister of Finance may also call for special returns from any bank whenever in his judgment they are necessary to afford full and complete knowledge of its condition. There is, however, no government inspection or audit of banks.

An auditor or auditors must be appointed by the shareholders at the annual meeting of the bank and must make a report to the shareholders at the next annual meeting.

In the event of the failure of a bank each shareholders is liable for the deficiency to an amount equal to the par value of the shares held by him in addition to any amount not paid up on such shares. This is known as the double liability clause.

### The Branch System

The Canadian banking system is one of a few strong banks with a large number of branches, and the tendency is towards still fewer banks and still more branches. In 1900 there were 36 chartered banks in Canada with 700 branches, in 1912 there were 26 banks with 2,790 branches in this country, while in 1922 there are only 17 banks with approximately 4,300 branches.

The largest Canadian bank, the Bank of Montreal, with paid-up capital and reserves amounting to $54,500,000, has 640 branches in Canada and Newfoundland, while the smallest, the Weyburn Security Bank, with a paid-up capital and reserves of $749,560, has 25 branches, all of which are in the Province of Saskatchewan.

One advantage claimed for the Canadian system as compared with that of the United States. which has 30,000 independent or local banks, is that it enables the surplus funds of one district to be made available for use in another part of the country. It thus facilitates the transfer of funds from one section of the country to another according to seasonal demands and permits the deposits of old-established, slow-going communities, where there is little demand for loans, being made available in newer and more enterprising localities where the demand for loans exceeds the deposits.

In the United States a similar result is accomplished by the re-discounting of notes for local banks through the Federal Reserve System and the War Finance Corporation and by arrangements with the larger banks.

The branch system, it is claimed, also makes possible the establishment of branches in new districts which could not of themselves provide the capital and deposits necessary to establish a bank.

The Canadian system, on the other hand, has its disadvantages, one of which is the inexperience of the managers frequently placed in charge of small branches, their lack of knowledge of local needs and conditions and their lack of authority to deal upon their own responsibility with any but minor or routine matters.

The branch system as we have it in Canada is also criticized on the ground that it concentrates practically all the money power of the country in the hands of a few individuals. There are at present only 17 chartered banks in Canada and the officers of those banks have under their control assets aggregating over two and one-half billion dollars. Of this total, three banks alone, the Bank of Montreal, the Canadian Bank of Commerce and the Royal Bank, have together assets exceeding one and one-half billion dollars. The bank statement of September 30, 1922, shows that the three banks named controlled on that date over 57% of the banking assets of the country.

### Bank Notes

An important feature of the Canadian banking system is the privilege of note issue enjoyed by the chartered banks. Under the Bank Act the banks may issue notes intended for circulation up to the amount of their unimpaired paid-up capital, plus the amount of gold and Dominion notes which they have on deposit in the Central Gold Reserves. In addition, during the crop moving season, from September to February inclusive, they may issue their notes up to 15% of their combined paid-up capital and reserve, but on notes so issued they must pay interest to the Dominion government at a rate not exceeding 5% per annum.

The Central Gold Reserves were established in 1913 for the purpose of extending the banks' circulation facilities, which had become inadequate to meet the business requirements of the country. The reserves are in the custody of four trustees, three of whom are appointed by the Canadian Bankers' Association and one by the Minister of Finance. Deposits either of gold coin or Dominion notes may be placed in the Central Gold Reserves by the banks, which may then issue their own notes to an equal amount without paying either interest or taxes. This convenience is made use of to a very considerable extent by the banks and on September 30, 1922, 12 of the 17 chartered banks had deposits in the Central Gold Reserves amounting to $47,702,533. Of this amount, $10,002,533 was in gold coin and $37,700,000 in Dominion notes. Without making any deposits in the Central Gold Reserves, however, the banks, as already stated, may issue notes up to the amount of their unimpaired paid-up capital and it is therefore incorrect to suppose that the whole of the bank notes in circulation are backed by deposits of gold.

Banks may not issue notes for less than $5.00 and the larger notes must be in multiples of $5.00.

The power to issue notes is the most valuable privilege enjoyed by the banks. It virtually amounts to a free loan by the people of Canada equal to the capital of the banks, which at present amounts to just over $125,000,000. This may perhaps be made clear by an example:—

Take a bank with a paid-up capital of $1,000,000. When it opens for business it has its own $1,000,000 (less $5,000 deposited with the Minister of Finance), part of which will be invested in buildings and office furniture, while the balance may be held in its vaults, used in loans or employed in any other way. In addition, the bank has $1,000,000 of its notes, which are a promise to pay so many dollars to the bearer on demand, and these it may loan to the public at the prevailing rate of interest, or use in the payment of salaries to its staff or for any other purpose. The funds at the disposal of the bank are thus doubled the moment it is ready to commence business. On the notes issued against their capital the banks are required to pay a tax to the Dominion government of 1% per annum.

This, however, is not the only value of the note issue privilege to the banks. A bank must always have a considerable amount of cash on hand to meet the demands of its depositors, and since it is impossible to know where or when an unusual demand for cash will arise, it is necessary to hold in every branch much more cash than is needed to meet the ordinary requirements of business. Without the power to issue their own notes the banks would consequently find it necessary to hold large amounts of gold or Dominion notes in every one of their branches, thus having a considerable amount of money lying idle. As it is, the banks can hold an unlimited supply of their own notes in every branch. While in possession of the bank these notes are only printed pieces of paper. They do not represent money or count as notes in circulation until they have been passed over the counter and gone into the hands of the public. Thus the Canadian banks are able always to have large supplies of cash available without keeping a corresponding amount of money idle.

The amount of cash reserves which a bank must hold is not fixed by law and is at the discretion of the banks. The Bank Act requires, however, that of whatever cash reserves a bank does hold, not less than 40% must be in Dominion notes. On September 30, 1922, the bank's holdings of coin and Dominion notes in Canada amounted to just under 11% of their deposits.

Sir Edmund Walker, President of the Canadian Bank of Commerce, in giving evidence before the banking committee of the House of Commons in 1913, stated that is was the profits from the note issue that enabled the banks to open a large number of their Western branches two or three years before they could become self-supporting.

### Security for Bank Notes

The notes issued by the Canadian banks are not backed by the deposit of gold and are not redeemable in gold. They are, however, amply secured, being a first charge upon all the assets of the bank by which they are issued, reinforced by the double liability of the shareholders. In addition, there is the Bank Circulation Redemption Fund held by the Minister of Finance in which each bank is required to maintain a deposit equal to 5% of its average note circulation for the previous year. This fund is held solely for the purpose of redeeming the notes of the banks in case of suspension. By this device all the banks guarantee the notes of each individual bank. It is now more than 40 years since a Canadian bank failed to redeem its notes in full and no such event has occurred since the establishment of the circulation fund.

Deposits by the banks in the circulation fund are made by cheque and no actual money either

## $10,000,000

# Vertientes Sugar Company

(Compania Azucarera Vertientes)

## First Mortgage Sinking Fund 7% Gold Bonds

Dated December 1, 1922 Authorized issue $12,000,000 Due December 1, 1942

Interest payable June 1 and December 1. Coupon Bonds in denominations of $1,000 and $500, registerable as to principal only. Redeemable in whole or in part at 105 on any interest day on thirty days' notice. Interest payable without deduction for normal Federal Income tax up to 2%. Both principal and interest payable free of present or future Cuban taxes.

**Four mills tax in Pennsylvania and in Connecticut refundable upon proper application.**
**Application will be made to list these Bonds on the New York Stock Exchange**

Both principal and interest payable in New York in United States gold coin at
THE NATIONAL CITY BANK OF NEW YORK, Trustee
or in Montreal in Canadian currency at the
BANK OF MONTREAL

*Mr. George H. Houston, President of the Company, summarizes his letter to us as follows:*

> The Company owns two thoroughly modern mills in the Province of Camaguey, Cuba, and owns or controls superior cane-growing lands aggregating 345,000 acres, of which 124.000 are owned. The mills, which are modern and economically operated, have a present capacity of 600,000 bags a season, and the company's development program calls for a capacity of 1,000,000 bags for the 1924-25 season.
>
> A recent appraisal gives a value of over $17,000,000 for the lands, buildings, machinery, railroads, rolling stock, dock and other equipment of the company now owned.
>
> The bonds will be secured, in the opinion of counsel, by a direct first mortgage on all the company's mortgagable property, and will constitute its only funded debt. The mortgage will provide for sinking funds which, it is expected, will retire the entire issue by maturity. It permits the issuance of the remaining two million dollars of bonds of this issue only under advantageous conditions.
>
> Owing to the quality of its lands and the design and location of its mills, this property is potentially one of the three or four most valuable sugar properties in Cuba.

A circular descriptive of this issue and giving important information regarding the position of the company will be sent upon request.

*Bonds are offered, if, as, and when issued and received by us subject to approval of all legal matters by counsel. It is expected that delivery of temporary bonds or interim certificates will be made on or about December 19, 1922.*

**Price 97½ and interest, to yield about 7.25%**

*The above information is based on official statements and statistics on which we have relied in the purchase of these Bonds. We do not guarantee but believe it to be correct.*

in coin or in notes is held by the government on this account, the amount of the fund being a general liability of the government. The banks receive interest at 3% per annum on the amount standing to their credit in the circulation fund.

### Dominion Notes

The one and two dollar bills used in Canada are issued by the Dominion government, which also issues notes in larger denominations which are almost entirely used by the banks as reserves and for the settlement of balances between themselves. The issue of Dominion notes is provided for by the Dominion Notes Act of 1914. Under this Act the Finance Minister is required to hold security in gold to the extent of 25% of the first $50,000,000 of Dominion notes issued and dollar for dollar in gold for notes issued in excess of that amount. Under the Finance Act of 1914, however, the Minister of Finance is authorized to make advances to the banks by the issue of Dominion notes upon the pledge of approved securities and against the notes so issued the Minister, instead of gold, is only required to hold the securities pledged by the banks.

This was the method adopted by the government to provide the additional currency made necessary by the emergency of war. It amounts in effect to the establishment of a bank of rediscount by the government, enabling a bank which needs additional funds to deposit securities and obtain a supply of Dominion notes. In November, 1920, when inflation was at its height, the Dominion notes outstanding against securities amounted to $173,689,025. On September 30, 1922, the amount of notes outstanding under this provision was $112,015,745. These notes, however, do not pass into the hands of the public to any great extent. A portion of them are deposited by the banks in the Central Gold Reserves, bank notes then being issued to a corresponding amount, while the balance are held by the banks in their own vaults as part of their cash reserves.

The amount of Dominion notes in circulation on September 30, 1922, was $234,719,768, against which the Minister held $91,427,409 in gold. The amount of Dominion notes outstanding against deposits of approved securities at the same date was $112,015,745, leaving $31,276,614 of notes, which were a charge against the general assets of the Dominion and not backed by any specific security. Of the $234,719,768 of Dominion notes outstanding, only $27,604,443 was actually in public circulation, $169,415,325 being in the posession of the Canadian chartered banks in Canada and elsewhere, and $37,700,000 being on deposit in the Central Gold Reserves.

### How Banks Get Their Money

The funds at the disposal of the Canadian chartered banks and with which they do business come chiefly from three sources:—

1—Capital and Reserve.
2—The Bank Note Issue, and
3—Deposits by the public.

Taking these items singly, reference to the bank statement for September 3, 1922, shows that the paid-up capital of the 17 chartered banks of Canada on that date was $125,004,717, while the reserve funds of the banks stood at $130,225,995. The paid-up capital has all been provided by the shareholders, while the reserve fund consists partly of premiums paid by shareholders through the purchase of new stock at a price above par and partly of accumulated profits.

The bank notes in circulation on September 30, 1922, amounted to $176,918,869. This was upwards of four million dollars more than the paid-up capital of the banks plus the amount on deposit in the Central Gold Reserves, showing that the excess circulation permitted during the crop moving season had begun to appear. The detailed figures of the bank statement show that 11 banks were issuing excess circulation on September 30, 1922, the total of this class of notes amounting to $5,587,027. The circulation of the other six banks was below their free limit.

Deposits by the public provide the great bulk of the funds at the disposal of the banks. These are divided into three classes:—

1—Deposits payable on demand, known as current accounts, on which no interest is allowed except in very special cases.

2—Savings deposits, which are subject to from 10 to 15 days' notice of withdrawal and on which interest is allowed at 3% per annum, and

3—Time deposits, which are repayable on a fixed date and on which 3% interest is also allowed.

As a matter of practice the banks do not insist on notice being given of the withdrawal of savings deposits, in fact most of the banks permit savings depositors to use cheques to a limited extent. On September 30, 1922, total deposits in Canada amounted to $1,648,647,585, of which $490,185,205 was payable on demand and $1,158,462,380 was payable after notice or on a fixed day. The banks on the same date also had deposits abroad amounting to $336,746,970.

Total liabilities of the Canadian chartered banks on September 30, 1922, excluding capital, amounted to $2,342,980,663.

### The Banks' Investments

Inquiring next as to how these funds are utlizied by the banks ,we find in the same bank statement the following figures:—

| | |
|---|---|
| Bank Premises .... .... .... | $ 71,595,202 |
| Coin in Canada .... .... .... | 60,500,435 |
| Dominion Notes in Canada .... .... | 169,399,366 |
| Deposits with the Minister of Finance for the Security of Note Circulation .... .... .... | 6,441,430 |
| Deposits in Central Gold Reserves | 47,702,533 |
| Government Municipal Railway and other Stocks and Securities .... | 322,009,343 |
| Call and Short Loans in Canada .... | 106,982,838 |
| Current Loans and Discounts in Canada .... .... .... | 1,114,678,735 |
| Call and Short Loans elsewhere than in Canada .... .... | 172,037,983 |
| Current Loans and Discounts elsewhere than in Canada .... | 145,609,779 |
| Loans to Provincial Governments.... | 12,076,070 |
| Loans to Municipalities and School Districts .... .... .... | 77,280,415 |
| Overdue Debts .... .... .... | 7,789,347 |
| Total Assets .... .... .... | 2,619,444,694 |

By far the largest item in the banks' investments, it will be seen, is current loans and discounts in Canada, these amounting to over one billion dollars. Through these loans the banks render their chief service to the community and also make the largest portion of their profits. Advances are made in a number of different ways. A considerable amount of money is loaned to finance the sale of commodities such as wheat, the bank taking the bill of lading or warehouse receipt as security. These advances permit elevator companies and other grain dealers to pay cash for the grain which they purchase and to make advances to farmers on grain shipped to be sold at a later date.

Current loans and discounts also include loans made on the security of the borrowers' note.

Probably the largest part of the advances of the banks, however, are made by the discounting of commercial paper. A wholesale merchant, for example, sells goods to a retailer on which he allows 30, 60 or 90 days' credit, drawing a draft or receiving a promissory note instead of securing payment in cash The wholesaler, however, does not find it convenient to wait for his money so he takes the draft or note to his banker, who advances the amount due minus a small amount which constitutes the banker's profit. The banker keeps the draft or note until it is due and then collects the amount from the debtor. These transactions are called discounting and form a large part of the business of the banks.

Generally speaking, the volume of current loans of the banks in Canada corresponds approximately to the savings deposits. Deposits on current account, being constantly drawn upon by depositors for use in their business, cannot be safely employed in loans for an extended period and consequently are partly held in reserve and partly loaned on "call," that is, subject to immediate repayment when demanded by the bank. Call loans are usually made on the security of stocks and bonds and are utilized largely by speculators on the stock exchanges. The larger banks make call and short loans in New York as well as in Canada.

The course of savings deposits and current loans in Canada and also the note circulation during 1920, 1921, and the first nine months of 1922 are shown in the table below. The figures given under the heading note circulation represent the total of bank and Dominion notes issued, less the amount of Dominion notes on deposit in the Central Gold Reserves.

| Month | Savings Deposits | Current Loans In Canada | Note Circulation |
|---|---|---|---|
| 1920 | | | |
| January .. .. .... | $1,163,297,037 | $1,226,962,963 | $427,670,194 |

| December .. .. ... | 1,240,807.268 | 1,174,053,434 | 407,591,273 |
| 1922 | | | |
| January .. .. ...... | 1,233,208,401 | 1,138,151,455 | 389,909,778 |
| February .. .. .... | 1,231,349,001 | 1,143.538,489 | 372,049,626 |
| March .. .. ...... | 1,230,628,840 | 1,149,187,869 | 356,262,793 |
| April .. .. ....... | 1,218,195,262 | 1,162,975,332 | 356,641,019 |
| May .. .. ........ | 1,197,789,747 | 1,140,425,500 | 342,050,555 |
| June .. .. ........ | 1,181,404,188 | 1,117,844,707 | 354,584,249 |
| July .. .. ......... | 1,175,781,711 | 1,104,122,176 | 350,426,833 |
| August .. .. ...... | 1,164,069,400 | 1,102,446,692 | 343,825,524 |
| September .. .. .. | 1,158,462.380 | 1.114,678,735 | 373,938,637 |

It will be observed that throughout 1920, which was a period of high prices and great business activity, current loans in Canada exceeded savings deposits. In 1921, however, a year of depression and falling prices, particularly for farm products, the banks did not lend so freely, and current loans and discounts were below savings deposits throughout the year. This condition has continued until the present time. It will also be noted that since the fall of 1920 there has been a gradual decline in all the figures shown above. In the last two years bank loans have been reduced by over $300,000,000.

(To be Continued)

---

## *Bank Branch Notes*

The Sterling Bank announcse the following:—A. L. McLachlan, who has been attached to head office staff, has been appointed manager of St. Catharines branch and supervisor of that district; C. O. French, who has been attached to the Credit Department, head office, has been appointed acting manager of Sebringville branch; S. C. McCrackin has been appointed acting manager of Straffordville branch; K. M. Starke, recently manager of the Profits Department, head office, has been appointed acting manager of Wellandport branch; W. W. Love, who has been manager at Palmerston, Ont., has been appointed manager of Port Dover branch and supervisor of Lake Erie district; R. R. Gilbert has been appointed acting manager of the Church street, Toronto branch.

During the month of November the following thirteen branches of Canadian banks were opened:—Ancienne Lorette, Que. Nationale; Baker Broosk, N.B. Nationale; Chateauguay Basin, Que. Hochelaga; Green River Station, N.B. Nationale; Maddington Falls, Que. Hochelaga; Naemine, Alta. Montreal; Quebec, Que. Boulevard Langelier, Montreal; St. Eleuthere, Que Hochelaga; St. Francois de Madawaska, N.B. Nationale; St. Jacques, N.B. Nationale; St. John, N.B. Dominion; Toronto, Ont. Danforth East, Montreal; Vera Cruz, Mexico, Montreal.

The following twenty-six branches were closed:—Beaumont, Alta. Hochelaga; Charlton, Ont. Union, Dauphin, Man Dominion: Desbarats, Ont., Montreal; Edmonton, Alt. Stock Yards, Dominion: Fannystelle, Man. Montreal; Frankville, Ont. Montreal; Hatley, Que. Commerce; Holmfield, Man. Toronto; London, Ont. City Hall, Commerce, Lousdale, Ont. Standard; Lumby, B.C. Royal; Marysville, Ont. Standard; Melrose, Ont. Standard; Moore Park, Man. Montreal; Nedelec, Que. Hochelaga; Plainfield, Ont. Standard; Poplar Point, Man. Imperial; Rednesville, Ont. Standard; St. Charles de Caplan, Que. Nationale; St. Mary's Ont. Queen branch, Montreal; St. Placide, Que. Hochelaga; Sacre Coeur de Marie, Que. Hochelaga; Three Rivers, Que. St. Maurice, Commerce; Toronto, Ont. Parkdale, Montreal; Virgil, Ont. Imperial.

The branches opened were distributed among the banks as follows:—Nationale, 5; Montreal, 4; Hochelaga, 3; Dominion, 1.

Safe Investment

This Bank not only gives you a comprehensive banking service, but, with our own Bond Department constantly dealing in strongly protected securities, we are in a position to advise and assist clients in procuring safe and profitable investment.

Why a Lawyer Should Draw Your Will

There is nothing very formidable about drawing a will. But it needs experience, knowledge of the legal requirements, and exact use of language. Many people who attempt to draw their own wills fail in one or more of these respects. The wills they make, written throughout by themselves or with the doubtful aid of a printed form, are subject to dispute or delay in interpretation and in danger of being disallowed by the Court as not being wills at all. So these suffer to whom the will-maker intended the estate to pass.

Everyone should make a will. Make yours, but have your lawyer draw it up.

A will implies an executor. We act as executor.

Foreign Banking Service in Canada's "Queen City"

The Union Bank of Canada placed a branch of its Foreign Department in Toronto, because of the importance of the "Queen City" in national and international commerce.

This location and private wire connections between branches in New York, Montreal, Toronto, Winnipeg, and connections with Vancouver, enable us to keep closely in touch with conditions in Canada and abroad.

Through continual operations in the exchange markets of Canada, the United States, Great Britain, and world centres, we are able at all times to handle international exchange at closest possible rates.

# Business Building, Not Business Getting

By J. G. STEPHENSON, LONDON LIFE INSURANCE Co.

Proceedings of the Association of Life Agency Officers, Chicago, November 10 and 11

The making of a real counselor starts in the home office. The attitude of every head-office man, from the president down to the shipping clerk who sends out the supplies, has to be taken into account. No man in the field can be made a counselor if the home office assume a proprietary attitude toward the premiums flowing into the collection department. The policy of the company, the style of its officials, the business ethics of those in charge, have all to be taken into account. They must conform with the ideals that you wish to be uppermost in the agents' mind.

### Commission Scales a Factor

The mode of paying for service rendered must come into line, commission scales adapted to the idea. No company can expect a man to be a counselor if it has a pet plan it is pushing and on which it pays a higher commission than on other kinds of contracts; that is, that this commission be out of proportion or alignment with the regular scale. Also, a very low rate on non-participating will inevitably warp the judgment of the agent in favor of the higher commissioned participating lines. Further commissions should be so constructed that second and subsequent years will bear a more equitable relation to first year commissions. This will give the agent an interest in selling the plan a client will like more and more as the years go by.

Literature of the company should be worded in terms of business building and not business getting. Systems of recognition should be based on paid-for and ratio of conservation. Production clubs should be founded on persistency of business rather than yearly writings.

### Make It Easy For the Counselor

These are only a few suggestions. The whole viewpoint of those directing affairs will have to be in conformity with the counselor ideal. Make it easy for the agent to be a counselor and hard to be an opportunist.

Promote to managers or general agents only those who represent the home office viewpoint. Heavy producers, as such, are not necessarily the wisest choice, if counselors are to be made of the raw material placed in their hands. The coming great manager is going to be a great teacher. The day of the jollier and the bluffer is past, if counselors are in the making. First impressions are the most lasting. The new agent gets his first impressions of the business as well as of the company by the character, attitude, and methods of the manager.

### Selling the Idea to the Field

If you wish to sell the idea of being a counselor, you must educate the agent. A sales course handled by the field service department in charge of a real man will work wonders in crystallizing the new agent's ideas and will go a long way in altering an old servants' attitude. Fear is the greatest deterrent to one who would like to become a counselor. Eliminate fear and the greatest barrier is down.

The case method of teaching in all agency meetings should be resorted to. The man that can analyze set situations with ease and celerity, one after the other, will be able to analyze a client's case with the same facility.

### Contests and Conferences

Hold contests throughout the field force for the best solutions of a certain number of stated cases. Give prizes and special mention of these through the house organ. Send head-office groups across the territory, hold meetings at which the men in the field can talk freely, face to face, with those that have to make decisions so that the same attitude toward the agent can be assumed and demonstrated that the company wishes to have the agent assume toward his client.

### Broader General Knowledge a Need

Can a man give good advice unless he is able to enter into the life of a client, see the situation even more clearly than the one approached? The agent should know something of political economy, considerable law and be schooled well in business practice if he is to be prepared to give wise counsel that will stand the buffeting of time and changing circumstance. He should know something of medicine, or at least anatomy and pathology if he wishes to talk intelligently to a sub-standard risk. He should know the laws of the mind if he hopes to become efficent in changing men's mental attitude with a fair degree of success. In fact, it is only the professional "life underwriter" that can hope to obtain the degree of life insurance counselor.

## LIFE POLICY ON GERMAN CITIZEN

A representative of the Northwestern Life Assurance Company of Winnipeg, while returning recently from a trip to Europe met, on the boat, a gentleman named Augustus Boerter, a subject of the German Republic who is now living in Shantung province in China and is a general export merchant.

An application for a large policy was obtained from Mr. Boerter while on the Atlantic liner and a medical examination was made by Dr. Korry in New York upon arrival there. Appointment was made for a second examination by the Company's chief medical officer at Winnipeg and during a two hour stop-over the second examination was completed.

As the case was a large one, reinsurance was arranged by wire and upon his arrival at Calgary, Mr. Boerter received advice from the company stating that he was now covered for the insurance.

Mr. Boerter is a native of Dusseldorf, Germany.

## LIFE POLICIES GRATIS

Decision to take out $5,000 life insurance, under the Returned Soldiers' Insurance Act, on the lives of 200 married ex-service men to whom regular grants are being made, was taken at a special meeting of the advisory committee of the Canadian Patriotic Fund, held in Toronto November 25. It was stated by Philip Morris, general secretary of the Canadian Patriotic Fund, that over 1,200 families are being assisted with regular monthly allowances, 200 of whom are the families of disabled men. It is the intention of the Fund, adds Mr. Morris, to place $5,000 insurance on each of these men under the Returned Soldiers' Insurance Act. The Patriotic Fund will pay the premium, thus providing for the families in the event of the men's death. The cost to the fund in this respect will be $25,000 per annum.

## WILL ARBITRATE FIRE LOSS

Following the inability of the Chicoutimi Pulp Company, of Port Alfred, near Ha-Ha Bay, to come to a settlement with some thirty-two insurance companies regarding payment of a fire claim on a quantity of pulp destroyed along with the company's sheds and warehouses on July 8 last, a board of arbitration has been named which will hear evidence in the matter and present a report. The members of the board are: Hon. C. J. Doherty, K.C.; Hon. A. W. Atwater, K.C., and A. F. C. Ross, C.A.

The claim is based on a valuation of $1,020,000, representing some 28,000, tons at $37 per ton.

Mr. Ross represents the claimant company, with which are associated Becker and Company, of London, Eng., and the Molson's Bank, while Mr. Atwater was the choice of the insurance companies. The two above named then appointed Hon. Mr. Doherty as chairman.

## TRUST DEPOSITS HIGHER

National Trust Company reports that since the Ontario legislation regarding trust company deposits in the spring of 1921 the number of its trust deposit accounts has increased 95.09 per cent., to November 22nd, 1922, and that during the same period the funds on deposit increased 118.05 per cent.

## PERIODICAL MEDICAL EXAMINATION

The Ontario Equitable Life & Accident Insurance Company of Waterloo, Ont., has completed an arrangement with the Life Extension Institute of New York, whereby its policyholders will have the privilege of periodical medical examinations without charge.

The Ontario Equitable is the first Canadian Company to offer this service to its policyholders through the Life Extension Institute.

## SUN LIFE BUYS LONDON PREMISES

The residence and estate office of the late John Jacob Astor, multi-millionaire, in London, Eng.,—a building claimed to have the most elaborate interior of any building in England—has been purchased by the Sun Life Assurance Company of Canada for 87,500 pounds sterling. The building will be used to house the administrative, financial and clerical staffs of the Sun Life departments in Great Britain and be its headquarters for the British Isles.

The purchase, which includes the freehold property, the building and all its fixtures, is claimed to be one of the best real estate bargains of modern times in England. It is estimated that the cost of the lot and of the building when it was erected was around 300,000 pounds sterling. The fixtures and interior of the building will be left exactly as at present, and offices which were formerly used by the Astor estate will be occupied as far as possible, by the London executives of the company. The first floor of the building has been used as business premises for the Astor Estate.

## SETTLE INSURANCE CLAIM

A private settlement out of court has been made by six insurance companies against whom various claims for fire insurance were taken in the Supreme Court of Ontario by John Dover and Sons, Ottawa. All of the actions were taken in connection with a fire which occurred at Mr. Dover's premises on February 14th, 1922, which resulted in a loss, claimed by Mr. Dover of $51,129. The terms of settlement of the actions were not announced. The companies sued were: The Globe and Rutgers Fire Insurance Company, New York, for $10,000; the London Guarantee and Accident Company, for $5,000; Guardian Assurance Company, for $6,000; the Home Insurance Company, for $11,500; Royal Exchange Assurance Company, for $7,000, and the North British and Mercantile Insurance Company, for $11,500, making claims amounting to $50,000 in all.

The actions taken by John Dover and Sons were all in connection with the destruction of part of the stocks and the building in the fire. The claim of the plaintiff was that the insurance should be paid. Another point mentioned in the pleadings was that through the ordinary course of business the firm had given the Bank of Montreal the insurance policies as security. The Bank of Montreal was made a co-defendant in all of the actions.

## DOMINION SAVINGS LIQUIDATION

It was authoritatively stated on November 27 that the process of liquidating the Dominion Savings and Investment Society, with which the Huron and Erie Mortgage Corporation has been cooperating for some months, is proceeding in a manner that indicates an early justification of the optimism of the Dominion's president, T. H. Purdon, K.C. Mr. Purdon claimed at the time of the proceedings to wind up his company that all public liabilities would be met and that the shareholders would receive dollar for dollar. It is stated now that the liabilities to both depositors and bondholders have been fully met, and the belief is held that the liquidation will be so well advanced within six weeks that it will be possible to ascertain just what will be paid to the shareholders. Present indications are that they will lose little or nothing.

## PORCUPINE MAP ISSUED

Popham & Co., investment bankers, Montreal, are distributing to their clients a map showing the position of the various mining sites in the Porcupine gold mining area. The names and numbers of claims are noted, railways marked and topography indicated.

**Windsor, Ont.** Dec. 10th. McGregor Block on Pitt street west. Loss $75,000.

**Winnipeg, Man.** Dec. 10th. Home of J. Conroy, 837 McDermott avenue. Loss $4,500, insurance $2,000.

---

# Additional Information Concerning Fires

**Fredericton, N.B.**—On November 23rd the building occupied by the Y.M.C.A., J. B. Griffiths, J. M. Wiley and L. Acker wâs destroyed by fire. The loss is estimated at $22,000 with insurance of $10,000 carried by the Y.M.C.A., in the Ocean, Royal, Sun, Yorkshire and Hartford.

**London, Ont.**—By the fire which occurred on Nov. 15th, on the premises of Casselman Bros. the following companies are interested: Queen $4,750; Commercial Union $1,350; Atlas $2500; North America $2,000; Nova Scotia $2,000; Phoenix of London $2,000; London and Lan. $2,000; Guardian $1,500; Springfield $2,000; Liv. & Lon. & Globe $2,000; North Brit. and Mer. $2,000; Norwich Union $2,000; Wellington Mut. $3,000; Union $2,000. Total $31,100. Loss about 30 per cent.

**Mount Pleasant, N.B.**—By the fire which destroyed the mill and lumber owned by Stetson, Cutler & Co. Ltd., on Nov. 1st. Insurance as follows: On lumber, Ohio Millers $6,000; Vermont Mutual $2,500; North River $20,000; Knickkerbocker $12,000; Occidental $5,000; Allied Underwriters $5,000; Globe Und. $2,500; Norwich Union $2,500; Penn. Lumber Mutual $2,000; Mansfield $2,000; Central Lumber Mutual $2,000; Fitchburg Mutual $5,000; Fidelity Mutual $3,500; Mansfield $2,500; Mer. and Mfrs. Mutual $2,550; National Mutual $2,500; Indiana Mutual $2,000; Berkshire Mutual $2,500; Pawtucket Mutual $2,500; Penn. Lumber Mutual $3,000; Boston Mutual $5,000. Total $100,000. Loss about $55,000. On mill: North River $7,500; Richmond $7,500; Knickerhocker $10,000; Allied Und. $2,500; Occidental $1,000; Brit. Colonial $1,000; Gale and Stone, 20 companies $2,500. Total $32,000. Loss total. On barn: North River $750. On shingles: Hanover $2,000. Total $2,750. Loss total.

**Odessa, Ont.**—Nov. 23rd. The general store occupied by E. O. Frink was destroyed by fire. The loss was $15,000 with insurance of $9,500 in the Mount Royal and Merchants Insurance Companies.

**St. Boniface, Man.**—On Nov. 25th a fire destroyed the St. Boniface College, a spacious four-storey building with all modern improvements covering a large area. It is reported that ten lives were lost in the fire, while several students were injured. Insurance as follows: on building, Union of London $8,000; Royal $20,000; Quebec $11,500; Home $7,500; North America $10,000; Hartford $15,000; Caledonian $7,500; Atlas $12,500; Guardian $20,000; Commercial Union $15,000; Calumet $5,000. Total $132,000. Loss total. On contents: Commercial Union $5,000; Northwestern National $5,000. Total $10,000. Grand total $142,000. Loss total. The property loss is said to exceed $400,000, which makes it apparent that property was considerably under insured.

## ASSOCIATION OF LIFE PRESIDENTS

### Some Canadian Companies Represented—Justice Riddell Among Speakers.

Among Canadians present at the annual convention of the Association of Life Insurance Presidents, in New York, December 7-8, were the following:—

John Appleton, Secy., Canadian Life Officers' Assn., Toronto, Canada; James Tower Boyd, Gen. Mgr. of Agencies, Confederation Life Association, Toronto, Canada; C. M. Bowman, Chairman of the Executive, The Mutual Life Ins. Co. of Canada, Waterloo, Ontario; Herbert C. Cox, President, Canada Life Insurance Co., Toronto, Canada; G. D. Finlayson, Superintendent of Insurance of Dominion of Canada, Ottawa, Canada; L. Goldman, President and Managing Director, North American Life Assurance Co., Toronto, Ontario; J. H. Castle Graham, Gen. Secy. and Treasurer, Life Underwriters' Association of Canada, Toronto, Canada; V. Evan Gray, Supt. of Insurance, Toronto, Canada; H. R. S. McCabe, Managing Director, Northwestern Life Assurance Company, Winnipeg, Canada; J. O. McCarthy, Vice President and General Manager, The Security Life Insurance Company of Canada, Toronto, Canada; T. G. McConkey, General Superintendent, Canada Life Assurance Company, Toronto, Canada; F. McPhillips, Editor, Insurance & Financial Review, Toronto, Canada; Charles D. Macdonald, General Manager, Conferation Life Association, Toronto, Canada; Charles Priestman, Editor, Economist, Toronto, Canada; John G. Richter, Vice President, London Life Insurance Co., London, Canada; William Renwick Riddell, Justice of Supreme Court of Ontario, Toronto, Canada; J. A. Roberts, Medical Director, The Security Life Ins. Co. of Canada, Toronto, Canada; Chas. Ruby, General Manager, The Mutual Life Assurance Company of Canada, Waterloo, Ont.; E. M. Saunders, Treasurer, The Canada Life Assurance Company, Toronto, Canada; C. W. Strathy, Treasurer, North American Life Assurance Company, Toronto, Canada; J. F. Weston, Managing Director, Imperial Life Assurance Co. of Canada, Toronto, Canada; Geo. B. Woods, President and Managing Director. The Continental Life Insurance Company, Toronto, Canada; C. S. V. Branch, Assistant Secretary, Sun Life Assurance Co. of Canada, Montreal, Canada.

Justice Wm. R. Riddell of Toronto, addressed the convention on "The Present Position of Canada," reviewing some of its history, especially as regards relations with the United States.

### Trade With Canada

Thomas C. Powell, president of the Erie Chamber of Commerce and vice president of the Erie Railroad, spoke on "The Railroads—Common Carriers of National Prosperity" in which he made some references to this country. Referring to coal, he said:—

"The movement of coal to Canada is not, properly speaking, in the sense of developing the country's export trade. There is no return from that. Canada buys coal from the United States because it cannot get coal anywhere else, but they will buy English coal if they can get English coal cheaper than American coal."

Again, referring to coal, he said:—

"Government statistics show export grain, without stating, except after analysis, that a large amount of export grain moving through the ports of the Atlantic seaboard is Canadian grain and not American grain. The money goes to Canada and not to the United States farmer. There is an immense movement across the United States into Canada. Take such a thing as Sicilian lemons. They prefer them to California lemons, and so the imported Sicilian lemons are exported again into Canada."

## WHEAT ACREAGE INCREASED

### Areas Sown to Most Other Grains in 1922 Were Lower, According to Government Returns

The Dominion Bureau of Statistics issued on Nov. 29, a bulletin giving (1) the final estimate for the year 1922 of the areas sown to the principal field crops of Canada; (2) the provisional estimate of the yield of field crops; and (3) the area sown to fall wheat and the proportion of fall ploughing completed on land intended for next year's crops. The areas sown to field crops are estimated from schedules collected from individual farmers in June last under the system which has been in joint operation by the Dominion and Provincial Departments since 1918.

### Areas Under Field Crops

The total acreage estimated as sown to the principal field crops in Canada for 1922 are, as follows, the areas finally reported for 1921 are given within brackets: Wheat 22,422,693 (23,261,224); oats 14,541,229 (16,949,029); barley 2,599,520 (2,795,665); rye 2,105,367 (1,842,498); peas 189,890 (192,749); beans 79,899 (62,479); buckwheat 430,982 (360,758); flaxseed 565,479 (533,147); mixed grains 779,800 (861,136); corn for (701,912); turnips 221,746 (227,675); hay and clover 10,001,667 (10,614,951); alfalfa 305,933 husking 318.397 (296,866); potatoes 683,594 (263,892); fodder corn 654,624 (585,395); sugar beets 20,725 (28,367). The area sown to oats was larger by over 1 million acres; but it is estimated that about 40 p.c. of the area sown in Alberta will not have produced grain and the area given above represents therefore the grain producing acreage.

### Yield of Principal Field Crops

According to calculations jointly accepted by the Dominion and Provincial Governments, the total yields of the principal field crops are provisionally estimated in bushels as follows; last year's final estimates are added within brackets: Wheat 391,425,000 (300,858,100); oats 513,033,000 (126,232,900); barley 73,237,400 (59,709,100); rye 35,730,000 (21,455,260); peas 3,674,600 (2,769,981); beans 1,454,700 (1,089,900); buckwheat 10,424,000 (8,230,100); mixed grains 27,513,900 (22,271,500); corn for husking 17,382,000 (14,904,000); potatoes 99,675,000 (107,346,000); turnips, etc., 88,088,000 (79,150,300); tons: hay and clover 14,547,400 (11,366,100); alfalfa 728,400 (662,200); fodder corn 7,882,100 (6,361,600); sugar beetse 173,000 (268,000); flaxseed 5,685,200 (4,111,800).

As reported by crop correspondents, the average yields per acre, as compared with those of 1921 given within brackets, are, in bushels, as follows: Wheat 17½ (13); oats 35¼ (25¼); barley 28¼ (21¼); rye 17 (11¾); peas 19¼ (14¼); beans 18¼ (17½); buckwheat 19 (22¾); flaxseed 10 (7¾); mixed grains 35¼ (25¾); corn for husking 54½ (50¼); potatoes 145¾ (152¾); turnips, etc., 397¼ (347¾). Tons: hay and clover 1.45 (1.07); alfalfa 2.40 (2.50); fodder corn 11¼ (10¾); sugar beets 8.35 (9.45).

For 1922 the total production of wheat as now estimated, is the highest of any yield since 1915, when the yield from the smaller acreage of 15,109,415 was slightly higher, viz., 393,542,000 bushels. The yield per acre this year, viz., 17½ bushels, is also higher than in any year since 1915 when the acreage was 26 bushels. The total yield of oats for 1922, viz., 513,033,000 bushels, has only once been exceeded, viz., in 1920 when the record was 530,709,700 bushels. The average yield per acre for 1922 of oats is greater than in any year since 1916, 37.30 bushels. The yield of hay and clover, viz., 1.45 ton, is greatly superior to that of last year when owing to drought barely over one ton per acre was gathered.

### Grain Yields of Prairie Provinces

The following is the provisional estimate in bushels of the total grain yields for the three Prairie Provinces, as compared with the final returns of last year given within brackets: Wheat 366,437,000 (280,098,000); oats 308,770,000 (284,147,500); barley 54,679,000 (44,681,600); rye 32,259,000 (19,109,700); flaxseed 5,562,200 (3,945,700). By provinces, the estimated yields are: Manitoba, Wheat 64,074,000 (39,054,000); oats 76,379,000 (49,442,500); barley 30,517,000 (19,681,600); rye 8,432,000 (3,564,700); flaxseed 817,000 (514,700). Saskatchewan, wheat 240,480,000 (188,000,000); oats 200,101,000 (170,513,000); barley 18,775,000 (13,343,000); rye 18,244,000 (13,546,000); flaxseed 4,662,000 (3,230,000). Alberta, wheat 61,883,000 (53,044,000); oats 32,290,000 (64,192,000); barley 5,387,000 (11,657,000); rye 5,583,000 (1,999,000); flaxseed 83,200 (171,000).

### Potato Harvest of 1922

Upon an acreage of 683,594, as compared with 701,912 last year, the total yield is estimated at 99,675,000 bushels as against 107,346,000 bushels last year and 133,831,000 bushels, the record yield of 1920. The average yield per acre this year for Canada is 145¾ bushels as against 152¾ bushels last year, 170½ bushels in 1920 and 152 bushels, the ten-year average. By provinces, the average yield per acre for 1922 is highest in British Columbia, 200 bushels, as against 176 bushels last year and 196¼ bushels, the decennial average. The provinces next in order, with the averages of last year and of the ten year period 1912-21 in brackets, are as follows: Manitoba 181 (153; 142¾); New Brunswick 164¼ (216½; 185½); Nova Scotia 161¾ (163¾; 189¼); Ontario 152 (93¾; 118¼); Quebec 137¼ (162½; 155¾); Prince Edward Island 124½ (162; 172¾); Saskatchewan 120¼ (176½; 151¾); Alberta 109½ (158½; 153).

### Fall Wheat and Ploughing for 1923

The total area estimated on October 31, 1922, as sown to fall wheat in Canada for the season of 1923 is 862,300 acres, representing a decrease of 42,200 acres, or 5 p.c., as compared with the area sown last year, and of 30,269 acres, or 3½ p.c., as compared with the area harvested this year. In Ontario the area sown is estimated at 773,200 acres, as compared with 813,904 acres sown in 1921, a decrease of 40,700 acres, or 5 p.c. In Alberta the area sown in 1921, viz., 75,900 acres, has this year decreased to 74,400 acres, the difference being 1,500 acres, or 2 p.c. In British Columbia the area sown this year, viz., 14,700 acres, is the same as last year. The condition of the crop on October 31 in percentage of the decennial average is, for Canada, as follows, last year's condition being given within brackets, 99 (102); By provinces the figures are: Ontario 99 (102); Alberta 93 (87); British Columbia 102 (91).

Owing in some cases to a protracted threshing season due to abundant yields of cereals, but also in many cases because of the ground being too dry, the amount of fall ploughing accomplished by the end of October is considerably smaller than usual. For the whole of Canada the percentage is 48 as against 67 last year, and by provinces the percentages are as follows, last year's percentages being given within brackets: Prince Edward Island 85 (85); Nova Scotia 49 (56); New Brunswick 70 (81); Quebec 50 (69); Ontario 55 (77); Manitoba 73 (83); Saskatchewan 24 (32); Alberta 25 41); British Columbia 48 (54).

## BANK OF MONTREAL APPOINTMENTS

The Bank of Montreal announces the appointment of J. H. Gillard as chief inspector, with headquarters at Montreal; J. W. Spears as superintendent of subsidiary branches, Montreal, and James Anderson as assistant superintendent of Ontario branches, with headquarters at Toronto.

Mr. Gillard has had some twelve years' experience in the work of inspection, and for some time previous to his present appointment had been inspector of Ontario branches, with headquarters at Montreal.

Mr. Spears has had varied experience in the bank's branches in Ontario and elsewhere. For some time prior to March of this year he was assistant superintendent of Ontario branches. Since that time he has been attached to the head office in Montreal.

Mr. Anderson was formerly superintendent of branches for the Bank of British North America, and since the absorption of the bank has been at the head office of the Bank of Montreal.

Other appointments announced by the bank include those of A. S. Minnion and G. S. Hensley as inspectors in charge of the foreign department, head office.

## MANITOBA RURAL CREDITS

Removal of the department of Rural Credits entirely from the interference of the Manitoba provincial government and an increase in the amount of funds available for loaning will be asked by the recently formed Rural Credits' Societies Federation, it is learned. Funds available at the present amount to $3,000,000, and an increase of $1,000,000 will be asked.

## TAX CONFERENCE

Representatives of the Canadian Manufacturers' Association, the Retail Merchants' Association and delegates from various wholesalers held a conference recently in Toronto. Resolutions will, it is expected, be submitted to the respective organizations with the idea of framing a common policy, after which a deputation will proceed to Ottawa to make presentations to the Government. For some time past there has been a growing feeling of dissatisfaction with the new taxes, because of the inconveniences caused by them. The tax on cheques has come in for considerable adverse comment, and the receipts tax, which is due to come into operation in the New Year, is arousing opposition.

Although no statement was issued, it is understood that the various bodies were pretty well unanimous in their opposition to the incidence of the taxation indicated. It is suggested in some quarters that, as revenue must be raised, the better way would be to increase the sales tax and do away entirely with the the more petty taxes, which cause considerable delay in the operation of business.

No decision was arrived at as to the recommendations which they will pass on to the Federal Government with regard to taxation. Some resolutions were presented, but they will have to go back to the various organizations before they can be passed upon. This means another meeting of the parties interested, which will probably be held in Ottawa shortly after Christmas.

## MONTHLY BANK CLEARINGS

The following are the bank clearings for the month of November compared with the same month last year:—

| | Nov. 1922. | Nov. 1921. |
|---|---|---|
| Montreal | 467,425,324 | 506,188,587 |
| Toronto | 435,041,252 | 484,870,224 |
| Winnipeg | 370,423,361 | 321,081,483 |
| Vancouver | 60,180,601 | 59,423,687 |
| Ottawa | 35,425,283 | 40,060,940 |
| Calgary | 26,323,481 | 29,053,282 |
| Hamilton | 24,865,518 | 25,409,422 |
| Quebec | 28,443,440 | 25,476,998 |
| Edmonton | 29,988,523 | 25,018,310 |
| Halifax | 12,984,458 | 18,061,518 |
| London | 12,535,238 | 13,924,009 |
| Regina | 22,459,118 | 20,323,111 |
| St. John | 11,582,988 | 13,466,948 |
| Victoria | 8,350,640 | 9,416,088 |
| Saskatoon | 9,296,668 | 10,250,949 |
| Moose Jaw | 7,837,013 | 7,722,677 |
| Brantford | 5,225,752 | 5,587,192 |
| Brandon | 3,651,010 | 3,830,300 |
| Moncton | 4,843,474 | 4,587,731 |
| Fort William | 4,125,104 | 4,080,614 |
| Kingston | 2,943.384 | 3,425,799 |
| Lethbridge | 3,331,767 | 3,003,727 |

| Windsor | 13,695,614 | 14,090,468 |
| Prince Albert | 1,738,198 | 1,834,059 |
| Total | 1,618,528,531 | 1,666,849,649 |

## NEWFOUNDLAND PROJECT

Sir Richard Squires, Prime Minister of Newfoundland, announced on Dec. 7 that a plan will be laid before the Government of that country early in the year for the construction of a mammoth newsprint plant capable of producing approximately 400 tons of newsprint daily in perpetuity, which will cost about $18,000,000. Should this scheme be adopted, declared Sir Richard, it will revolutionize the industrial life of Newfoundland.

## SEIZURE ABANDONED

Announcement that he had been instructed by the Government to abandon the seizure of about $200,000 worth of equipment belonging to Thomas Kelly & Sons was made before Justice Galt on December 7 by John Allen, K.C., deputy attorney-general of the province. The seizure was ordered in pursuance of the provincial Government's efforts to realize on a judgment obtained against Kelly, following argument in a civil suit regarding the "Parliament buildings scandal" some years ago.

# Get This Extra Business

SHIP SCENE IN MONTREAL HARBOR

*The World has its Eyes on Canada*

This Canadian harbor is the second largest in the North American continent, being surpassed only by New York, and is the great gateway for merchandise exported by Canadian manufacturers.

*What does this mean to you?*

# Exporting From Canada

IS THE LINK IN THE CHAIN THAT WILL TIE YOUR CONCERN TO THE WORLD'S MARKETS

Export Business is a vital sinew of Canada's prosperity. We produce more than we can consume. We must sell the surplus abroad, and to do this successfully we must have a large number of men trained in the business of "Exporting from Canada." Canada stands fourth in the list of exporting countries. Our export trade is growing very rapidly. We are developing great banking, terminal and transportation facilities, but the great need, the vital need, is MEN—trained export men.

**WE TEACH**

Exporting from Canada
Higher Accounting
Chartered Accountancy

## BUYING CHEAP INSURANCE

### School Boards Placing Risks With Sub-Standard Companies, Says B.C. Member

(Special to The Monetary Times)

Vancouver, Dec. 8.—Fire protection service for Granville Island is one of the features of an agreement under consideration between Vancouver City Council and the Board of Harbor Commissioners. Granville Island is owned by the Harbor Board and occupied by numerous industries, most of the buildings being of frame construction. It is in the heart of the industrial section of the city in the reclaimed False Creek area. The board proposes to pay the city $1200 per year for fire and police protection.

Some school boards, particularly those in the lower Fraser Valley, are not placing the fire insurance they carry on public schools in the safest possible companies, according to R. H. Pooley, M.L.A. who told the legislature that he had examined the condition of some of these companies and found them to be in the "substandard" class. He suggested that the Minister of Education investigate this insurance on schools, otherwise fire losses might have to be borne by the ratepayers.

The first of this season's meetings of the Vancouver Insurance Institute was held Nov. 30, when Fred A. Burgess, branch manager of the Caledonian Fire Insurance Co. gave an address on the co-insurance clause.

### Agents' Licensing

The Insurance Agents' Licensing Act now before the British Columbia Legislature is threatened with defeat because of objection to section 6 whereby licenses are not to be granted to life insurance agents in cities of 10,000 or over, unless they devote their full time to life insurance or are licensed under the act to write other classes of insurance. This clause was inserted at the special request of Vancouver life insurance agents.

There have been several misleading items in the daily press, conveying the impression that the act is of a monopolistic nature. The reverse is the case according to President C. A. Macmorran, of the Vancouver Fire Insurance Agents' Association, who states that the granting of licenses will be placed in the hands of the superintendent of insurance who will also fix the standard of qualifications of an agent. The main purpose of the act, Mr. Macmorran says, is to ensure that only responsible and qualified persons would be entitled to act as agents, thus safeguarding the public.

### Rating Credits

The B.C. Underwriters Association has arranged to grant additional credits of fire insurance rates for protection in the case of risks using the inspection and supervisory service of a newly organized private company. This service undertakes to maintain in efficient condition, all fire protection apparatus, such as chemical extinguishers, casks and pails, standpipes and hose. The amount of credits will vary according to the degree of protection in individual risks.

## DOMINION GOVERNMENT SAVINGS BANKS

An increase of one thousand dollars in deposits is the only outstanding feature of the October statement of the Dominion Government Savings Bank. Withdrawals on the other hand have increased over the previous month.

There was an increase of six thousand dollars in withdrawals, the total during October being $176,037 as against $170,116 in the previous month. Deposits are up from $71,593 to $72,886.

The following is a comparison of balances as at the end of September and October:—

| | Oct. 31 | Sept. 30 |
|---|---|---|
| Victoria .......... | $1,009,207 | $1,024,528 |
| Charlottetown .... | 1,647,192 | 1,659,298 |
| St. John .......... | 4,101,814 | 4,142,977 |
| Barrington ....... | 58,312 | 61,137 |
| Halifax .......... | 2,154,448 | 2,179,947 |
| Kentville ........ | 216,513 | 221,941 |
| Sherbrooke ...... | 53,847 | 54,176 |
| | $9,240,836 | $9,344,007 |

## NEW TRUSTEE

John Douglas Lester, accountant, Toronto, has been appointed an authorized trustee under the Bankruptcy Act.

## ROYAL BANK LOSES CLAIM IN BANKRUPTCY

### Assets Comprising Security for Lien to be Applied Otherwise, Says Court.

In the appeal of the Royal Bank to the Supreme Court of Ontario from the refusal of the trustee in bankruptcy of the estate of Guaranteed Batteries Limited to pay over certain moneys realised from book-accounts of which the bank had an assignment, the bank moved for an order directing the trustee forthwith to pay over to the bank the amount of moneys in his hands without deduction for wages and trustee's expenses, including remuneration for personal services.

Justice Fisher in a written judgment said that the debtor company, carrying on business in Ontario, made an assignment to George P. Hamilton, authorized trustee. The company did its banking business with the Royal Bank. No objection was raised to the validity of the lien or of the assignment.

### Trustee's Notification.

Immediately after the assignment the trustee notified the manager of the bank of the assignment personally, and that he intended to proceed and realise on the assets. From that time on, the manager had full knowledge of what the trustee was doing with all the assets, including those subject to the bank's lien. There was no evidence of any objection or protest by the bank. The trustee from time to time consulted with the manager and with the bank's solicitors as to the realisation of the assets.

On the 26th October 1921, the bank filed with the trustee the usual declaration valuing its security on certain assets under sec. 46 of the Bankruptcy Act, at $3,500. The trustee acknowledged the receipt of the declaration on the same day. The trustee not having elected within the statutory period, the bank could have taken possession. Under section 46 the bank had absolute power to realize and deal with its security as if the Bankruptcy Act had not been passed.

### Sale of Assets

It turned out that there were not sufficient moneys apart from those realised from assets subject to the bank's secured claim, to pay the preferred claims for wages, the expenses of the liquidation and remuneration for the trustee's services. The bank demanded from the trustee all the moneys realised from such of the assets as were subject to its lien and assignment. In response, the trustee notified the bank that he would pay over the moneys he had in hand less the amount of the wages and expenses mentioned. The trustee not having elected, the bank asked the trustee to elect whether he could or would not exercise his power of redeeming the security or whether he would require it to be released. The trustee, without electing in writing, notified the bank that he accepted its valuation of $3,500. Shortly after this the trustee sold for $4,200 the goods upon which the bank held a lien. The trustees realised from all sources on assets subject to the bank's lien and assignment $7,210 and from other assets $473.

### Court's Finding.

Under sec. 88 (7) of the Bank Act salaries of employees are privileged to the extent of 3 months provided the bank takes possession of such security as is mentioned in the enactment. If the bank had taken possession in pursuance of section 88 (7) of the Bank Act, it would have been obliged to pay the preferred claim for wages. Again if the bank had taken possession of its own secured assets, it would have been obliged to pay certain expenses in connection with the realisation thereof. The evidence justified a finding that the trustee's possession was to all intents and purposes the bank's possession.

All moneys in the hands of the trustee realised from sources other than those subject to the bank's lien and assignment should be applied upon the claims aforesaid and the balance of those claims should be paid out of the moneys realised from assets subject to the bank's lien. As soon as the amount has been ascertained, the trustee should pay the balance remaining to the bank with the bank's costs of this appeal.

## BRYANT BROS.

Announcement has been made by Bryant Bros. stock brokers, that E. H. Merrill, had been appointed to take charge of their affairs.

## BRITISH CROWN CONTINUES DEFENCE.

### Company Maintains Policyholder Made Exaggerated Claim of Loss

On November 23rd action respecting fire insurance was heard by Justice McDonald of the B. C. Supreme Court in which one Sutro Bancroft sued British Crown Assurance Co. to recover amounts due under three fire insurance policies, namely, $4,000 on Burnside Inn building, $2,000 on furniture, linen, plate etc., and $500 on the garage of the inn. The buildings had been burned in December, 1921 and the company refused to indemnify Bancroft, who sued.

The company pleaded in its statement of defence that the plaintiff had presented a fraudulent and exaggerated claim of loss; and had been guilty of suppressing material facts when applying for the policy, in that he had failed to mention that the building encroached on the road allowance at Burnside and Wilkinson Roads.

The plaintiff testified that the place was a wreck when he bought it for $1,500. He spent between $5,000 and $6,000 in rebuilding and equipping it. He admitted that he still owed $500 on the purchase price of the place; and that he had not told Mr. Samuel D. Weldon, the agent of the company, that the building was encroaching on the highway. But he had been to see the municipal authorities as soon as he discovered that fact, he swore; and had been assured that he would not be disturbed, the road being little used at that place. Also, he said, the company's agent had been out to see the place for himself: and so far as the insurance being placed as a result of any anxiety of the plaintiff, the fact was that Mr. Weldon had kept after him day after day for weeks until the policies were finally written.

### Defence Criticized

"On the face of it this is a very poor defence," said His Lordship. "The defendant company took the premiums. It was not hurt at all by the encroachment of the building upon the road allowance. I do not like the look of such flimsy defence as this. It is possible, of course, that the law may compel me to give effect to some grounds of defence but as I view it at present, it is a mean defence."

His Lordship advised the Counsel to settle matters peaceably and later the Counsel stated that a settlement had been reached subject to approval of head office of the insurance company.

On the following day the Counsel stated to the Court that the insurance company would not confirm the settlement they had made, as new evidence had since become available and the company desired to continue the trial.

His Lordship then said that in view of the statement of the Counsel, he could do no less than proceed with the trial and further proceedings were set down.

## CIVIL SERVICE LOAN SOCIETY

The reports presented at the annual meeting of the Civil Service and Loan Society Ottawa recently showed that the year ended Oct. 31, 1922, was the most successful in the society's history. The volume of business and number of members showed marked increases over the previous year's records. Additions were made to the two reserve funds, the usual dividend was declared and a substantial balance carried forward. The Society is now considering a lower rate of interest to borrowers.

The work of H. P. Hill, M.L.A., in promoting the passage of the bill providing for the incorporation of the mutual credit societies was commended. However the act has not been proclaimed as yet and so is not in operation.

The Civil Service Savings and Loan Society re-elected S. Rettie, audit office, president ;L. J. Beausoliel, naval service, is now vice-president and F. S. James, audit office, is still secretary. W. C. Ronson, finance, A. W. Grant, interior, and H. Pratt, public works, compose the board of supervision, while the board of administration consists of A. H. Brown, uadit; P. Marchand, interior; H. LeB. Ross, railways and canals, and A. D. Watson, insurance. There is also an advisory council of credit that controls the society's loaning business and has members in nearly all the government departments.

# *For Fifty-Five Years*

## "—AS OTHERS SEE US"

"I have to acknowledge receipt of the 'Monetary Times Annual' of 1922, which appears to be compiled in its usual attractive style, and to include a fund of interesting and useful information."

SIR FREDERICK WILLIAMS-TAYLOR,
General Manager, the Bank of Montreal

---

"Many thanks for the 'Monetary Times Annual' for 1922. It is full of interesting information and will be placed upon our fyles for reference."

H. C. COX,
President and General Manager,
The Canada Life Assurance Company.

---

"Your 'Annual,' as usual, is a wonderful summary of the year's work and of Canadian progress, and I am preserving my copy for reference as occasion may arise."

SIR JAMES W. WOODS,
President, Gordon, MacKay & Co., Ltd., Toronto.

---

"We congratulate you upon the typography and general make-up of the number, but more particularly upon the accumulation of data and authoritative information. We will find it a valuable text book on Canadian matters."

P. H. WILLMOTT,
Secretary, The Agricultural Insurance Co., Watertown, N.Y.

---

"It is a pleasure to peruse your publication at any time, but the 'Annual' I find a splendid text book, useful during the whole year, and beyond."

ARTHUR HEWITT,
General Manager,
The Consumers' Gas Co. of Toronto.

**the energies of this organization have been devoted to the gathering and publishing of unbiassed, dispassionate, reliable information concerning financial and commercial activities in the Dominion.**

**Confidence in the integrity of this journal has been built up as a result of the high sense of journalistic responsibilty that the publishers have always maintained. It has inevitably followed that the columns of the "Monetary Times" have been kept free from false or misleading statements. The reputation of this journal has made "Reliable" synonymous with its name.**

**In the preparation of the forthcoming "Annual Statistical Review and Outlook" number, great care has been taken to retain the high standard set by previous numbers. It will contain articles by well known authorities on almost all phases of Banking, Insurance, Investments and Industry, many of which will be graphically illustrated, as well as comprehensive tables and records of all kinds. Like its predecessors, the "1923 Annual" will be found of great interest for current reading and exceptionally valuable for reference purposes.**

**The "Annual" will be read by business executives not only throughout Canada but throughout the world and will form a basis of estimate for future activities for thousands.**

**More than 130 representative Banking, Insurance, Investment and Industrial concerns, Provinces and Cities have reserved advertising space. Is your's amongst them? If not, you are overlooking an opportunity to get in touch with the biggest buying class in Canada and to place the merits of your services or products before them under favorable auspices. Remember that the "Annual" is read frequently throughout the year, that every reader is an executive and that we will guarantee to place your advertisement on a right hand page facing solid reading matter.**

## COMMERCIAL INVESTMENT CO.

The Commercial Investment Company Winnipeg, has secured a Manitoba charter with authorized capital of $150,000. The stock will be absorbed privately, states W. J. Lindal, one of the provisional directors.

## ACTION AGAINST CLARK BROS.

The Nova Scotia Supreme Court on Nov. 30, Judge Russell presiding, commenced proceedings in the case of Charles H. Jones and Company of New York, brokers, plaintiffs, and Clark Brothers, Limited, pulp manufacturers, Bear River, N. S., defendants, involving a total claim of $126,000. The defendants include A. G. McIntyre, President of Clark Brothers, Limited, a firm of solicitors in Toronto, and a firm of Toronto brokers. Action aose over a bond in 1921 for $2,000,000 secured by mortgage to the Montreal Trust Company. In which issue the plaintiff invested $76,000 in cash. It is claimed the New York firm bought under inducements contained in a certified copy of a trust deed in which no mention was made of previous issue of bonds. Plaintiffs claim also that a legal opinion delivered them made no reference to the previous issue, and that a balance sheet did not show such issue.

Another charge is that a mill at Port Joli had been described as part of defendant's property, though the mill had been burned down during the previous summer. The claim is made up of two amounts, the $76,000 invested and $50,000 damages.

## GRANBY CONSOLIDATED

A judgment affecting British Columbia companies whose register of shareholders is kept outside the province has been rendered by Justice Murphy. The Granby Consolidated Mining, Smelting & Power Co., Ltd., is required, by His Lordship's decision, to keep its share register in British Columbia and not in New York. The test case which decided the point was argued several months ago.

## IMPORT AND EXPORT PRICES

Considerable advances in the prices of wheat, flour and oatmeal have caused the Canadian Bank of Commerce monthly index number of the wholesale priecs of exports to rise from 144.71 in mid-October to 145.82 in mid-November, in spite of a continued fall in cattle and beef. Wool and hides have also risen, Silver has fallen.

Import prices, on the other hand, record a fall, from 166.46 to 162.44 and this is accounted for by the deflation in the prices of iron, steel and coke, as the result of a return to more normal industrial conditions in the United States. This fall coincides with and, as far as the Canadian Bank of Commerce number is concerned, overbalances the rise in corn, sugar, cotton, rubber and oil.

The number for imports and exports combined has fallen from 155.58 to 154.13.

## A BANKRUPTCY SUPERINTENDENT.

A recommendation that a Superintendent of Bankruptcy be appointed, to whom all complaints regarding the administration of the Bankruptcy Act would be made, will be submitted to the Minister of Justice by the Canadian Credit Men's Trust Association, it was announced in Winnipeg on December 6. The Legislative Committee of the association also has under consideration several amendments to the present Bankruptcy Act, with a view to its more efficient administration.

## OCTOBER FISH CATCH

Despite unfavorable weather conditions which prevailed at the Atlantic coast during October, landings of sea fish in Canada during the month were 679,697 cwts., as compared with 490,206 cwts. in October last year. The value of the catch to the fishermen last month was $1,498,365 as against $1,467,324 in October, 1921.

## TIMBER CONCESSIONS SOLD

Five more timber concessions, all of them small and rather unimportant berths, were disposed of by the Ontario Department of Lands and Forests. The largest of them covers a little more than one lot and the timber is said to be of inferior quality, as a result of which prices dropped below previous high standards.

# Twelve Months' Trade Figures

## Twelve Months' Total Lower by $360,000,000 from Last Year — Imports from Great Britain Only Ten Million Below 1921 — Exports to United Kingdom Increase

Canada's trade for the twelve months ended September 30, 1922, again shows a decline in comparison with the same period during the previous years. The monetary value of the decline was approximately three hundred and sixty million dollars.

### SUMMARY OF THE TRADE OF CANADA

1.—Imports and Exports of Canada by Main Groups.

| Main Groups | Twelve Months ended September 1920 $ | 1921 $ | 1922 $ |
|---|---|---|---|
| IMPORTS FOR CONSUMPTION— | | | |
| Agricultural and Vegetable Products | 291,866,105 | 204,329,721 | 159,416,099 |
| Animal Products | 89,881,606 | 45,568,513 | 46,261,034 |
| Fibres and Textiles | 346,385,970 | 140,348,352 | 154,291,907 |
| Wood and Paper | 53,586,507 | 45,294,989 | 34,865,005 |
| Iron and its Products | 237,541,838 | 165,439,295 | 119,297,888 |
| Non-Ferrous Metals | 61,576,621 | 38,503,581 | 32,928,851 |
| Non-Metallic Minerals | 160,939,459 | 180,966,847 | 113,557,029 |
| Chemical Products | 40,477,081 | 27,095,610 | 25,807,232 |
| Miscellaneous | 73,824,704 | 58,414,994 | 46,479,773 |
| Total Imports | 1,325,779,894 | 905,961,941 | 732,904,818 |
| Dutiable Goods | 873,717,,524 | 626,917,547 | 490,056,185 |
| Free Goods | 452,062,370 | 279,044,394 | 242,848,633 |
| Duty Collected | 211,426,269 | 133,083,887 | 127,941,689 |
| EXPORTS (CANADIAN)— | | | |
| Agricultural and Vegetable Products | 374,057,364 | 449,243,724 | 333,821,142 |
| Animal Products | 263,618,107 | 160,834,713 | 135,403,949 |
| Fibres and Textiles | 32,156,794 | 10,402,086 | 6,155,568 |

### COMPROMISE EFFECTED

It was stated on November 30 that a compromise on the question of wage reductions between the Grand Trunk Railway and seven thousand of its employees, including clerks, freight handlers, stationmen and other grades of workers covered by the Canadian Brotherhood of Railway Employes and the International Brotherhood of Railway and Steamship Clerks. Cuts put into force range from three to five cents an hour and it was announced by A. R. Mosher, president of the C.B.R.E., that a compromise on the aggregate amount of reduction has been arranged. Further details will not be announced until the board of conciliation, which is still sitting in connection with the dispute between the company and the men, renders its report.

# *Municipal Finance*

**Montreal, Que.**—At a meeting of the Metropolitan Commision on November 25 it was agreed by a resolution passed that municipalities receiving assistance from the commission are not entitled to have surplusses. Any surplus of revenue over the amount of the budget passed by the commission must be handed over to the commission to offset moneys advanced to the municipality.

**Goderich, Ont.**—Total tax collections for the period ended October 31 were $79,880.

**Moosomin, Sask.**—At the annual meeting of the ratepayers held on November 27 it was stated that the debenture debt of the town is now slightly over $50,000.

**Elgin Co., Ont.**—Under an amended schedule the assessments of the townships are as follows: Aldborough, $3,887,759, and increase of $62,744; Dunwich, $4,340,052, a decrease of $191,433; Southwold, $5,157,514, a decrease of $91,719; Yarmouth, $319,162, an increase of $85,860; Malahide, $3,751,283, an increase of $60,561; Bayham, $22,426,864, an increase of $50,168; South Dorchester, $2,406,201, an increase of $38,824.

Aldborough's percentage of the total assessment is 12.54 under the revised schedule instead of 12.30; Dunwich, 14 per cent. in place of 14.58; Southwold, 16.64 in place of 16.90; Yarmouth, 17.16 per cent. in place of 16.83; Malahide, 12.10 in place of 11.87; Bayham, 7.81 in place of 7.67, and South Dorchester, 7.76 in place of 7.61.

The assessments of the urban municipalities are as follows: Aylmer, $1,259,216; Dutton, $495,509; Port Stanley, $826,353; Springfield, $246,578; Vienna, $171,755; Rodney, $362,931; West Lorne, $349,197.

**Hamilton, Ont.**—The adjustment of exchange between Canada and the United States which took place during 1922 has meant a big saving to the city, according to figures produced by R. J. Menary, city accountant.

In 1921, the city expended $17,481.88 on exchange, but this year the total has only reached $2,650.

**Sherbrooke, Que.**—According to the assessment roll there is an increase of 485 people in the city's population. The total valuation of the city property is placed at $33,418,765, representing an increase of $364,175 over 1921. Taxable property is valued at $25,742,715, an increase of $320,425 over 1921, and non-taxable property is valued at $7,676,050, an increase of $43,750 over the previous year.

**Port Dover, Ont.**—The tax rate for this year has been struck at 38 mills, an increase of three mills over last year. The increase is due to hydro-electric debentures.

**Saskatoon, Sask.**—The report of Commissioner Leslie which was submitted at the annual meeting of ratepayers held on November 27 last, indicates that considerable progress has been made by the city in many respects during the first ten months of this year.

Taking the three utilities together the net profit for the first ten months of this year amounted to $69,140.31 as compared to $44,350.11 made during the same period in 1921.

Estimated net profit for the whole year of 1922 is $105,000.00 as against $88,136.15 made in 1921.

The general revenue 'and expenditure statement of the city shows a surplus of $28,414.47 for the ten months which compares with a surplus of $13,905.47 for the same period of 1921. The estimated surplus at the end of December is $60,000.00.

One of the features of the report is the large reduction in the City's Bank Loan. At October 31st, 1921, this amounted to $583,800.00 while on the same date this year it stood at $339,600.00, and by the end of December this will be further reduced, it is estimated to $250,000.00. The creation of reserves, better tax payments, as well as under-expenditure of appropriations, account for about half of the reduction while the balance is due funding operations.

A total of $969,967.02 taxes were collected during the period covered by the report, which is $39,000.00 of an increase on collections for the first ten months of 1921. Arrears were considerably better paid, the sum of $264,741.00 being received as against $192,293.00 for the same period last year.

**Moose Jaw, Sask.**—A substantial improvement in the city's finances is shown in the months' report for the period ended October 31, 1922, when the city ended the period with a surplus of $208,341 out of an estimated surplus of $103,000 for the entire year.

The taxable assessment for 1922 shows an increase of approximately half a million dollars over the previous year, the total being $23,016,435, as compared with $22,538,522 in 1921. The total value of land and improvements exempt from taxation is $5,942,070, of which $786,595 is the value of land acquired by the city at tax sales. Exemptions from taxation in 1921 totalled $5,546,330.

Expenditures for the ten months amounted to $591,977, as compared with $649,279 for the same period in 1921. Revenue, exclusive of taxation totalled $180,103, as against $172,470, making the net expenditure of $411,874, as compared with $476,809 in 1921. Including the surplus of $208,341 for 1922 the total tax levy amounted to $620,215 as against $614,722 during the previous year.

The tax levy for 1922 was as follows: municipal, $717,236; schools, $365,386; public library, $22,714; provincial government taxes, $27,202, making a total of $1,132,540, as against $1,116,043. The tax rate for 1922 for public school supporters was 46 mills on the dollar, the same as in 1921, and for separate school supporters the rate was 54.85 mills, as against 52 mills in 1921.

During the ten months tax arrears paid amounted to $513,290; as against $547,840 previously, making a total of $638,257 in 1922 and a total of $642,707 in 1921. The net total of tax arrears is now $647,453 as compared with $936,113 in 1921.

Bank loans on current accounts are lower than last year, being down from $589,600 to $412,000 in 1922. The total bank loans as at December 31, 1921 were $620,000.

**Montreal, Que.**—Unpaid taxes on the 1920 roll of the city amounted to $938,340.

The public works department has underspent its allocation for 1922 by $170,000.

**Ford City, Ont.**—At a meeting of the council on December 6, it was decided that the plan to merge Walkerville and Ford into a single municipality was unacceptable, and the question will therefore not be placed on the ballot paper at the approaching municipal elections.

**Winnipeg, Man.**—Creation of a reserve fund of $200,000 to take care of uncollectable taxes will be an accomplished fact for the city by February 1, 1923, the sinking fund trustees reported at a meeting of the civic finance committee on December 8. Simultaneously a debenture debt of $1,215,673 covering water works and local improvement debentures, will be wiped off the city's books. By February 1, the sinking fund will provide sufficient funds to liquidate the debt, war conditions resulting in falling bond prices and the discount in sterling having enabled the sinking fund trustees to make a profit on stock issues by British houses under different city bylaws authorizing borrowing of money for the amount required.

**Hamilton, Ont.**—For the period ended November 30, the works department had spent $545,762 out of a total appropriation of $605,538 for the year.

**Selkirk, Man.**—It is reported that the ratepayers have requested the provincial government to appoint an administration for the town.

Selkirk has a heavy indebtedness and taxes have not been coming in well since 1915. During November taxes dropped $2,000 behind the amount collected during the same period last year.

**Fort William, Ont.**—A 60 page report on the Fort William Electric Railway, owned by the city, has been prepared by Geo. L. Guy, electrical engineer of Winnipeg, and presented to the city council. Mr. Guy was engaged as managing expert for a brief period in October. In presenting his report he said:—

"The report is developed on the understanding that the city wishes to economize on operating expenses as much as the service will possibly stand, in order to have the railway department put on a more nearly self-sustaining basis. It therefore follows, that as far as the service is concerned, the standard must be somewhat lowered as far as the frequency of cars is concerned. With the introduction of the one man car, the reorganization of the railway department, and the revision of traffic, there should be an increase in the operating revenue of approximately $33,000 per year, over those prevailing immediately prior to the reorganization of the system."

## INSTITUTE OF SECRETARIES

Professor Sandwell, assistant professor of Economics at McGill University, gave a lecture recently to the Montreal branch of the Chartered Institute of Secretaries on "The Canadian Monetary System." Having explained the significance of money as contrasted with other methods of exchange and barter, he traced the rise and progress of the system from the early days of the Dominion up till the present time.

J. W. Benson, secretary of the branch, spoke briefly on the aims of the Institute, arousing considerable interest in the forthcoming qualifying examinations at McGill University for the degrees of Associate and Fellow.

## S. W. STRAUS AND CO.

Incorporation has been granted at Ottawa to S. W. Straus and Co. Ltd., with capitalization of $100,000. The company's business will be that of underwriting and selling bonds and other securities.

S. W. Straus & Co. are among the largest firms in the United States in the business of creating and selling real estate mortgage bond issues, and it has been understood for some time that they would invade the Canadian field. Head office is given as Montreal.

## LANDED BANKING AND LOAN

Landed Banking and Loan Co., Hamilton, has declared a dividend at the rate of 8 per cent. per annum, together with a bonus of ½ per cent. on the paid up capital stock of the company for the half year ending December 31, 1922. This bonus of ½ per cent. brings the total distribution for the year to 8½ per cent.

## BOND HOUSE ABSORBED

The Montreal financial house of Versailles-Vidricaire-Boulais, Limited, announces the absorption of the Credit National Limited .One of the directors of Credit National, Hector Bender, becomes vice-president of Versailles-Vidricaire-Boulais.

J. F. Boulais will be the president of the new firm, Hector Bender, vice-president, Oscar Hamel, manager of the Quebec branch, becomes director; Oliver Asselin will be secretary and manager of publicity department, and J. H. Marcotte remains on the board.

## MONTREAL AND QUEBEC BANKS

A decline of six hundred thousand dollars in deposits is shown in the October statement of the Montreal City and District Savings Bank, in comparison with the previous month. On the other hand, deposits in La Caisse D'Economie de Quebec are practically the same as during September.

Cash holdings of La Caisse D'Economie are up by one hundred and thirty-five thousand, in comparison with a sixty thousand decrease during the previous month. Cash holdings of the Montreal City Bank are slightly lower than September, but are higher that the total prevailing during the first part of the year.

There are several other fractional changes in the banks' assets, but they do not in any way affect the position as maintained by the banks. The following is a statement for the months of September and October.

## REVIEW OF COAL INDUSTRY

### Gives Employment to Thirty Thousand Men—Pays Wage Bill of Over Forty Million

The Dominion Bureau of Statistics has just issued a comprehensive review of the coal industry in Canada, covering a three-year period, 1919-21. The solution of Canada's coal problem depends in no small measure on the availability of reliable information on the subject and the report just published contains 115 pages of tabular matter, showing in detail the output by collieries, the imports of coal by ports of entry and the exports of Canadian coal will do much to meet this need. Several tables are given descriptive of the organization and progress of the coal mining industry, with particular regard to the capital investment, plant, equipment, men employed, time worked and tonnage lost. The report contains a chapter in which the Dominion situation is reviewed, and there are also separate chapters dealing with the industry of each of the coal-producing provinces.

### Consumption

It is pointed out that the apparent consumption of coal in Canada varies between 30,000,000 and 35,000,000 tons annually, of which approximately one-half is imported from the United States. Canada exports between 2,000,000 and 2,500,000 tons of coal each year. According to the report, there were 396 coal mines in active operation in Canada in 1921, working over an area of 713,000 acres.

### Capital

The total capital invested in the industry at the close of the year was $176,991,495, of which $77,000,000 was invested in Nova Scotia, $53,000,000 in the mines of Alberta, $41,000,000 in British Columbia, more than $3,000,000 in Saskatchewan, and over $1,000,000 in New Brunswick.

### Employment

The coal mining industry in Canada gives employment to approximately 3,000 men, and the wage bill for 1921 amounted to $42,758,471. In addition to this amount, $3,717,238 was paid to salaried officials numbering about 1,600 in all.

---

## OPERATIONS EXTENDED

The Whalen Pulp and Paper Company has resumed work at the Swanson Bay plant, and 250 men have been employed. Not only will the company open the pulp plant capable of turning out 50 tons a day of sulphite pulp, but both sawmill and shingle mill will be producing shortly. The sawmill cuts 125,000 feet of lumber per day, and there is a strong demand for high-grade spruce such as it produces from the logs prior to using the balance of the stick for pulp wood. In the shingle mill there are 10 machines capable of cutting 250,000 shingles per day.

In all the Whalen Company will be able to put 250 tons of pulp on the market every month with the three plants operating. The pulp mill at Port Alice turns out 100 tons, Swanson Bay 50 tons and Wood Fibre 100 tons.

---

## WILL TURN OVER ASSETS

At a meeting of the stockholders of the Birmingham Motors Company, of Peterborough, Ont., now bankrupt, to decide what could be done to protect their interests, a proposition was brought forward that the entire assets of the company be turned over to a new automobile company, which is being organized in Montreal. The shareholders present decided to accept the proposition.

EDMONTON - - ALTA.

# *Government and Municipal Bonds*

The outstanding feature of the Canadian bond market during the past week was the sale of the five million Ontario issue at a cost basis of approximately 5.54 per cent. This is the first issue that the province has floated in Canada for over a year and in view of the apparent stagnation of the market at the present time, in comparison with former years, there appears to be every prospect of an active market within the next few weeks, although in the opinion of several prominent bond dealers there will be "nothing doing" until after the turn of the year.

The price paid for the Ontario issue is considered to be very good in view of the present condition of the market. That the province is satisfied with the price may be gathered from a remark by Hon. P. Smith when, after the opening of the bids, stated that the price was a point higher than was anticipated.

During the week there was a noticeable strengthening in the entire list of the Victories. Although this improvement was not reflected to any great extent in the provincial and municipal issues. There is a feeling, however, that should the Victories continue to advance the other issues will also fall in line with the advancement.

The outlook for future offerings is not so bright at the present time, this week's offerings being the lowest for some time. In view of the forthcoming municipal elections it is not expected that there will be any improvement in this connection until such time as the new municipal councils are firmly established in their respective positions.

### Tenders Invited

The following is a list of debentures offered for sale, particulars of which are given in this or previous issues:

| Borrower | Amount | Tender close |
|---|---|---|
| Wellington, Ont. | $120,000 | Dec. 15 |
| St. Tite, Que. | 90,000 | Dec. 16 |
| Shawinigan Falls, Que. | 28,300 | Dec. 19 |
| Montreal South Que. | 20,000 | Jan. 18 |
| Lindsay, Ont. | 64,500 | ...... |

**Montreal South, Que.**—Tenders will be received up to noon January 18, 1923 for the purchase of $20,000. 5½ per cent. debentures maturing May 1, 1932. Bonds are payable semi-annually at the Bank of Hochelaga, Montreal. M. M. Condon, town clerk.

**Lindsay, Ont.**—The town treasurer, G. C. Aldred, is offering approximately $64,500, 5½ per cent. debentures maturing from 1923 to 1952. No date has been set for receiving tenders.

### Coming Issues

**Galt, Ont.**—At a meeting of the council on November 7 they gave a by-law for the issuing of $360,000 of debentures first and second readings. The money will be used for school purposes.

**Guelph, Ont.**—Fire, light and water committee of city council recommended that by-law providing $555,000 for new fire hall, fire alarm system and triple combination engine be submitted to ratepayers.

**Ottawa, Ont.**—The city council has passed a by-law authorizing the isuing of $200,000 debentures for school purposes.

**Port Credit, Ont.**—At a meeting of the council on November 3 they authorized the sale of $35,000 debentures for waterworks purposes.

**Oshawa, Ont.**—The council on November 9 passed a by-law repealing a former by-law which authorized a debenture issue of $771,894, this amount being Oshawa's share towards the construction of the Toronto and Eastern Railway.

**Simcoe, Ont.**—The contemplated work on the main thoroughfares of the town which has been declared by the Public Highways Department to constitute an extension of the county highways system, will cost about $60,000, and is to be raised by town debentures issued on the instalment plan and extending over a period of fifteen years, with interest at five and half per cent.

**North Vancouver, B.C.**—On November 18 the ratepayers defeated the $8,000 by-law for alterations to the city hall. They also defeated two other by-laws, one for $9,300 for remodelling a building for city hall purposes, and the other for $3,000 for school purposes.

**New Toronto, Ont.**—At a meting of the council on November 7 they authorized the submission of a by-law for 13,000 for completion of the waterworks.

**St. Thomas, Ont.**—A by-law authorizing the issuing of $32,000 of debentures will be submitted to the electors at the municipal elections in January.

**Owen Sound, Ont.**—At the municipal elections in January, the ratepayers will vote on several debenture by-laws, one for $18,000, for the erection of building for agricultural fair, and the other for $40,000 for extensions to the gas system.

**Preston, Ont.**—Town council passed by-laws which will be submitted to ratepayers for improvements to Riverside Park at cost of $15,000.

**Midland, Ont.**—By-law providing for extension of high school at cost of $50,000 will be submitted to ratepayers.

**St. Catharines, Ont.**—By-law will be submitted providing for raising of $30,000 for establishment of parks system.

**Port Dover, Ont.**—By-law will be submitted to ratepayers providing $12,000 towards cost of paving Main St., total cost of which will be $20,000.

**Newmarket, Ont.**—By-law will be submitted to ratepayers to provide $30,000 for erection of memorial hall.

**Quebec, Que.**—The city has a bill before the provincial government, asking for permission to borrow the sum of $580,000 for various local improvements.

**Midland, Ont.**—The town council passed a by-law authorizing the issuing of $8,000, 5½ per cent. 15-year debentures for park purposes. They also authorized the passing of a by-law authorizing the issuing of $73,000, 5½ per cent. 30-year debentures for sewers.

**Regina, Sask.**—The proposed by-law to authorize the issue of $150,000 debentures for a new collegiate institute has not been turned down by the Local Government Board and no formal application has yet been made by the board of trustees, it was stated on November 27, as the result of inquiries at the Local Government Board offices.

**Stamford Township, Ont.**—At the municipal elections on January 1, the ratepayers will be asked to vote on two by-laws, one for the issuing of $40,000, 5½ per cent., 5-annual instalment debentures for the purchase of stone, and the other for the issuing of $20,000, 5½ per cent., 20-instalment debentures for Hydro-electric purposes.

**Burnaby, B.C.**—The council are planning an expenditure of approximately $70,000 for local improvements.

**Ford City, Ont.**—The council has passed a by-law authorizing the borrowing of $48,958 for water mains.

**British Columbia.**—On November 30, Hon. John Hart, minister of finance, introduced in the legislature a bill to borrow $3,500,000 to be spent on the construction of public buildings by the land settlement board on Soldiers' Land act scheme and irrigation.

**Peterborough, Ont.**—In accordance with a request from the Utilities Commission the city council on December 4, decided to apply to the Hydro Commission for the approval of the expenditure of $10,000 on the reconstruction of the electric distributing system in the southern part of the city.

**Quebec, Que.**—The ratepayers will shortly be asked to vote on a by-law authorizing the borrowing of $200,000 for the construction of an industrial palace on the exhibition grounds.

**Scarborough Township, Ont.**—On January 1, the ratepayers will vote on two by-laws, one for $40,000 for bridges, and the other for the issuing of $25,000 debentures for fire equipment.

### Bond Sales

**Saskatchewan,**—The following is a list of debentures reported sold by the Local Government Board from November 18 to December 2, 1922:—

School Districts: Niagara, $4,000, 8 per cent. 15-years. to C. C. Cross & Co.; Newpark, $3,800, 7½ per cent., 15-years, to Waterman-Waterbury Co.

Rural Telephones: Camberley, $1,200, 8 per cent., 15-years to C. C. Cross & Co.; Fartown, $1,900, 8 per cent., 15-years to C. C. Cross & Co.; Baljennie, $250, 7 per cent., 10-years locally.

Town of Indian Head, $4,787, 7 per cent., 15-years, locally.

**St. Flore East Que.**—An issue of $15,000, 6 per cent., 30-year aqueduct and drainage debentures has been purchased by Le Credit Industriel at a price of 98.55, the money costing the municipality about 6.10 per cent. Tenders were as follows: Le Credit Industriel, 98.55; Provincial Securities Ltd., 97.65; and La Banque Nationale, 96.30.

**Scarborough Township, Ont.**—Macneill, Graham & Co., were awarded $80,995, 6 and 6½ per cent., debentures maturing from 1923 to 1941 at a price of 103.83. Tenders were as follows:

| | |
|---|---|
| Macneill, Graham & Co. | 103.83 |
| Gairdner, Clarke & Co. | 103.52 |
| Housser, Wood & Co. | 103.26 |
| C. H. Burgess & Co. | 103.22 |
| McLeod, Young, Weir & Co. | 102.97 |
| Harris, Forbes & Co. | 102.89 |
| R. C. Matthews & Co. | 102.484 |
| Wood, Gundy & Co. | 102.19 |
| Bell, Gouinlock & Co. | 102.14 |
| Canada Bond Corp. | 101.973 |
| A. E. Ames & Co. | 100.89 |

**Calgary, Alta.**—The Roman Catholic school board have sold $20,000, 6 per cent., 10-year debentures to Niblock & Tull, Ltd., at a price of 97.25, the money costing the board about 6.37 per cent.

**Trenton, Ont.**—An issue of $60,000, 6 per cent., 30-year debentures has been purchased by Municipal Bankers Corporation.

**Rimouski, Que.**—An issue of $55,600, 5½ per cent., debentures due serially from 1923 to 1950 has been sold to Credit Canadien Inc., at a price of 96.45, the money costing the village approximately 5.85 per cent. Tenders were as follows: Credit Canadien Inc., 96.45; Municipal Debentures Corp., 95.91; L. G. Beaubien & Co., 95.11; McLeod, Young, Weir & Co., 94.77; Comptoir Financier Canadien Inc., 94.77; Versailles, Vidricaire & Boulais, Ltd., 94.01; and Provincial Securities Ltd., 93.10.

**Colborne, Ont.**—Mackay-Mackay & Co., have purchased $40,000, 6 per cent., 20-instalment debentures at a price of 100.125, the money costing the town approximately 5.98 per cent. Tenders were as follows:

| | |
|---|---|
| Mackay-Mackay | 100.125 |
| Macneill, Graham & Co. | 99.71 |
| Canada Bond Corp. | 99.51 |
| Harris, Forbes & Co. | 99.43 |
| Bell, Gouinlock & Co. | 99.35 |
| Wood, Gundy & Co. | 98.83 |
| R. C. Matthews & Co. | 98.70 |
| C. H. Burgess & Co. | 98.42 |
| A. E. Ames & Co. | 98.09 |

**Winslow, Que.**—McLeod, Young, Weir & Co., have purchased $8,000, 6 per cent., 10-instalment debentures at a price of 97.81, the money costing the municipality about 6.5 per cent.

**Bassano, Alta.**—W. Ross Alger Corp., have purchased $10,000, 7 per cent., 5-year debentures at a price of 98.15, the money costing the town approximately 7.45 per cent.

**Giffard, Que.**—The Provincial Bank of Canada has purchased $85,000, 5½ per cent., 20-year debentures at a price of 98.75, which means an approximate cost to the municipality of 5.60 per cent.

**Ontario,**—A syndicate composed of A. Jarvis & Co., Wood, Gundy & Co., and A. E. Ames & Co., were the successful bidders for the $5,000,000, 5½ per cent., 20-year debentures, paying a price of 99.59, the money costing the province approximately 5.54 per cent. Tenders were as follows:

| | |
|---|---|
| Aemilius Jarvis and Co., A. E. Ames and Co., Wood, Gundy and Co. | 99.59 |
| R. A. Daly and Co., McLeod, Young, Weir and Co., R. C. Matthews and Co., Gairdner, Clark and Co., W. A. Mackenzie and Co. | 99.41 |
| C. H. Burgess and Co., Dominion Bank, Canadian Debentures Co., Dyment, Anderson and Co., Aird, McLeod and Co., Municipal Bankers Corp., Macneill, Graham and Co., Canada Bond Corp., Murray and Co. | 99.26 |
| National City Co., Harris, Forbes and Co., Hanson Bros., United Financial Corp. | 98.63 |

### OUTLOOK IS BRIGHTER

Conditions in Kingston, Ont., are much better than a year ago, according to W. A. Stroud, Ontario employment agent in that city. Mr. Stroud states that there are about two hundred men without work, but the outlook is fairly good. The new woollen mill will soon be employing a number of hands, while construction work at Queen's University takes quite a number. During the winter the board of works will probably construct a trunk sewer.

### CONTRACTS ON HAND

According to T. O. Lyall, vice-president and treasurer of the P. Lyall & Sons Construction Co., the company is in a favorable position so far as work is concerned. The volume of work on the contracts on hand will keep the firm busy for four years. Mr. Lyall referred chiefly to two tasks, the largest by far being that of the Welland Canal, which covers three miles, and will aggregate about $17,000,000. Then there is the graving dock at Esquimalt, B.C., which it was feared at one time would be cancelled, but it has been decided by the Government to continue. The volume of this will be close to $4,000,000, and will not be concluded for a couple of years. In addition new work to supplement this is expected for next year. The company is still negotiating for the payment of a commission on more than $3,000,000 of work on the Parliament Buildings at Ottawa in addition to the $5,000,000 on which they were paid.

### CHINA OFFERS TRADE OPPORTUNITIES

"Opportunities for trade between Canada and China are simply staggering," asserts F. C. T. O'Hara, Deputy Minister of Trade and Commerce, who recently returned from the Pan-Pacific Commercial Conference in Honolulu.

Mr. O'Hara met there the representatives of all the Pacific countries and was especially impressed with the trade opportunities offered with China. "They are prepared to buy everything we are prepared to sell," he stated, "and they have a population of four hundred millions. The United States finds a market in China for nearly everything it produces, and the Chinese students who go back home after attending American universities prove to be links between American and Chinese commerce.

"There is no reason why a large trade should not be built up between us and that country, even allowing for the fact that most Canadian factories are in the East, whereas the shipments have to be made from the Pacific coast."

### RECORD HONEY CROP

British Columbia's honey crop breaks all records this year, according to official estimates given out by W. J. Shepherd, provincial aspiarist. This year the yield was 711,356 pounds, against 309,074 pounds last year. The crop is valued at $177,839, against $89,631 last year.

### THE PETRIE MFG. Co.

The Petrie Manufacuring Company, Hamilton, manufacturers of cream separators has assigned. It has been in business 25 years. In connection with the winding up of the estate of the late A. B. Petrie, the Bank of Hamilton issued a writ against the company for a large amount and the company's assignment followed.

**5.55% to 6.05% Interest from "Odd Amount" Bonds**

# *Stock Markets*

The buoyancy which was in evidence throughout the previous week was continued during the past week on the Canadian security markets. The week opened at the prevailing levels of the previous week and although there were several days of somewhat irregular trading during the middle part of the week the trend was always on the upgrade. The latter part of the week was featured by a sudden spurt in the volume of trading largely due to heavy buying on several individual securities.

One of the previous week's favorites, Barcelone, was the leading factor in the market so far as the Toronto exchange was concerned, sales in this security amounting to over half of the weeks' total. Several of the other utility securities were also active, including Brazilian, Mackay, etc., the greater majority of which closed at higher levels than for the previous week.

The paper group, which are generally regarded as affording a substantial basis for price movements on the exchange, gave a better showing of themselves than for many weeks. Abitibi was the feature of this group with Brompton, Provincial Paper preferred, Spanish River, etc., also exhibiting considerable activity. There were several slight declines in the paper group, but the majority of them were only fractional.

The general industrial list gave a satisfactory account of itself and although there were several reversals there was a noticeable upward trend.

### Mining Stock

A. E. Osler & Co., of Toronto are offering 300,000 shares of Night Hawk Peninsular Mines Ltd., at a price of par $1 per share. The capitalization of the company is an authorized issue of 5,000,000 shares par value $1 each, of which $4,600,000, including the above issue, has been issued. With the sale of this issue, together with the cash on hand the company will have approximately $600,000. James R. Dodworth, chairman of the board of directors states that he considers the $600,000 ample for the erection of a mill and for the general financial program of the Company.

The company owns 1,234 acres in the township of Cody and Macklem, which is practically in one block about ten miles south of Connaught station, on the T. & N. O., Railway. Considerable development work has been done on the property, and the company has a complete mining plant (with the exception of a mill, the foundation of which is now constructed), consisting of camp buildings, boiler and power house, and other necessary units, with a steam plant sufficient to carry the workings to the 1,000 foot level.

Mr. Dodworth states that the ore reserves, which are placed at $1,688,130. have been estimated above the 300-foot level, and are confined principally to the main vein Eight faces of ore have been uncovered, and it is expected that the company will develop and place in sight approximately $500,000 worth of ore per month, or at the rate of $6,000,000 the coming year.

### Dupuis Freres.

Offering is being made by Versailles, Vidricaire and Boulais, Ltd., Montreal, of $1,142,000 8 per cent., cumulative preferred shares of Dupuis Freres, Ltd., Montreal department store. Capital is $2,000,000 common and $1,600,000 preferred. only $458,000 of the latter being outstanding to date. The offering price is par. Assets on October 31 1922, totalled $4,242,208, of which $1,658,292 was liquid (cash, merchandise, bills receivable, etc.) and $1,710,929 was real estate, etc. Net earnings for ten years have varied from 5 to 9 per cent.

### Offering Unissued Shares.

The Clifton Porcupine Mines announces that shareholders will be given the right to subscribe to the unissued stock of the company at 40c per share. In explanation of the proposal the directors have sent a circular letter to shareholders. pointing out that the development of the mine at depth will be greatly expedited by securing further working capital at once. A considerable volume of high pay ore has been developed down to the 235-foot level, and it is assumed that in common with the other paying mines in the camp Clifton will show better values between 235 feet and the 1,000-foot level.

## SUGAR COMPANY BONDS

Offering is being made in Canada and the United States by the National City Company, of $10,000,000 first mortgage sinking fund, 7 per cent gold bonds of the Vertientes Sugar Company, at 97½ and interest, yielding about 7.25 per cent. They are dated December 1, 1922, and are due December 1, 1942, principal and interest being payable in New York and Montreal.

The Company owns two mills in the province of Camaguey, Cuba, and owns or controls cane-growing lands aggregating 345,000 acres, of which 124,000 are owned. The mills have a present capacity of 600,000 bags a season, and the company's development program calls for a capacity of 1,000,000 bags for the 1924-25 season. A recent appraisal gives a value of over $17,000,000 for the lands, buildings, machinery, railroads, rolling stock, dock and other equipment of the company now owned.

# *Unlisted Securities*

In their comment on the unlisted market of last week, A. J. Pattison Jr. & Co., say that price changes were somewhat erratic, the market not following any definite trend. Sentiment shows considerable sign of improvement, and in odd instances the market moved upwards rapidly on small-lot buying. During the past three weeks there has been almost a total lack of public interest, and any selling pressure would have forced the market to lower levels, but contrary to what might be expected, while the buying element was absent there was also a total lack of offers to be dealt with. As a general thing, higher prices may be looked for on dividend paying stocks of record, and during the first six months of next year there is no doubt that some of the issues which were forced to drop their dividend, will again resume it.

The demand for British American and Western Assurance still continues at 6, with no stock coming into the market at this figure. The oil stocks were again slightly easier—Imperial losing 1½ points to 112-114, and International losing ½ point to 20¼-21¼. British American oil remains unchanged at 34¼-35¼, being moderately active between these figures. Sterling Bank was in demand at 102-104, only odd shares being offered at the latter figure. King Edward 7's were slightly firmer at 83-85. Nova Scotia Steel 6% Debentures were considerably easier at 85½-88½. Dominion Power & Transmission Common was in demand at 26-8, a net gain of one point for the week. Durant Motors were in some demand, being bid up to 10¼ at the close, some transactions taking place at this figure.

## WORLD'S MONETARY SYSTEMS ........

"Money and Foreign Exchange after 1914," is the title of a book by Gustave Cassel, just published. (The MacMillan Co. of Canada, Toronto, 287 pages with index, $2.50). Mr. Cassel treats the present all important monetary condition with a view to the past history and the influence it should create on the future status of money. The book, based on the two memoranda of the world's monetary problem which the author presented to the League of Nations, is designed for the general reader .

## W.A. MacKENZIE AND CO.

The investment banking house of W. A. MacKenzie & Company, Limited, have opened a trading department in their Montreal office, under the direction of W. L. Downes, late of tthe bond department of the Canadian Bank of Commerce, to deal in government, municipal and corporation securities. The establishment of these additional facilities on the part of Toronto houses indicates the interest which they are taking in all departments of the Montreal security market.

## COBALT ORE SHIPMENTS.

The only shipment of ore from Cobalt Station for the week ended December 8th was Coniagas Mines, 88,000. The total since January 1st is 17,675,932 pounds or 8,837.9 tons.

## DELIVERY BY MISTAKE TO INSOLVENT.

### Goods Held in Trust for Claimants Did Not Belong to Debtor Company and Did Not Pass to Trustee.

The trustee in bankruptcy of the estate of Specialty Bags Limited disallowed the claim of Wayagalnak Pulp and Paper Co., to recover certain paper goods in the possession of the debtor company at the time of the authorized assignment and on appeal the claim was allowed by Justice Fisher.

His Lordship in a written judgment said that on the 10th May, 1922, the debtor company gave a signed order for paper goods to the claimants' Toronto agents. On the 13th May, this order was confirmed and a duplicate sent to the purchaser company, the terms being "cash against documents." The paper was consigned to the Toronto agents on the 6th July 1922. A copy of the invoice was sent to the debtor company. The goods arrived in Toronto on the 13th July. Before this, other paper goods had been in storage at the Grand Trunk Railway sheds in Toronto, consigned by the claimants to the debtor-company, subject to delivery to that company upon payment of the amount due therefor. One Daley, a carter in the employment of the Toronto agents, was, on the 13th July, 1922, instructed to deliver "the paper at the Grand Trunk sheds" to the debtor-company, which had paid for the same, but by mistake he delivered the paper ordered on the 10th May. The Toronto agents did not know at this time that the paper ordered on the 10th May had arrived in Toronto. Upon the mistake being pointed out to the debtor-company, that company admitted that the goods should not have been delivered, and it was agreed with the Toronto agents that the debtor-company should store the paper upon its premises, but use none of it except by permission of the Toronto agents. Part of this paper was used by the Debtor-company before the Toronto agents discovered the mistake, and $400 was paid therefor.

### Assignment Made

The authorised assignment was made on the 20th September, 1922. After the assignment, the Toronto agents notified the trustee that they claimed what remained of the paper stored on the debtor-company's premises. The claimants then asked for delivery. The trustee, on the 5th October, notified them that their claim was disallowed and that they were unsecured creditors only.

The Royal Bank of Canada claimed an interest in the goods under a pledge given by the debtor-company pursuant to sec. 88 of the Bank Act.

### Judgment of Court

The Judge was of opinion that the manager of the debtor-company was acting for and on behalf of that company, in the ordinary course of its business, when he agreed to store the goods for the claimants, and that this undertaking was binding upon the company. The goods were from that date onward held in trust by the debtor-company for the claimants. The trustee occupied no higher position that the debtor. The goods, being held in trust, did not pass to and become vested in the trustee: see secs. 10 and 25 (1) of the Bankruptcy Act. There was no delivery of the goods by the claimants to the debtor company, within the meaning of section 3 (3) of the Conditional Sales Act and that Act did not apply. Delivery had been made but was subsequently rectified between the agents of the claimants and the debtor company. The effect of this arrangement was that the goods were held in trust for the claimants, did not belong to the debtor company and did not pass to the trustee.

The bank's security document was not produced. Assuming that it was the usual pledge under section 88 of the Bank Act, given before the goods reached the debtor company's premises, the debtor company would have no right to pledge these goods to the bank.

## BOND FIRM LOSES ACTION

In the Nova Scotia Supreme Court on Dec. 7, Judge Rogers gave judgment in the case of the Eastern Securities Company vs. The City of Sydney, dismissing the action with costs. It was an action brought to recover damages for an alleged breach of contract made to sell plaintiffs $60,000 of debentures which it proposed to issue.

MRS. A. H. WILLETT, Cochrane
Women's Institute

THE indomitable folk of Northern Ontario deserve your practical sympathy. Remember, eighteen hundred families have been burned out—and must start all over again. These wonderfully rich farms, mines and aggressive young towns will re-build and come back to their own—but it takes time. And in the meanwhile they must live, they must have temporary shelter and there's nobody to give it to them if we don't.

### Suggestions for Contributions from Clubs, Factories, Organizations, etc.

1. $500.00 will provide a Shelter Shack for a Family and Rough Stable for Cattle.
2. $350.00 will provide a Shelter Shack for Family.
3. $200.00 will provide Food and Supplies for a Family to May 1st, 1923.
4. $100.00 will provide a Wagon for Settler.
5. $75.00 will provide a Set of Harness (double).
6. $50.00 will provide a Set of Bobs or Sleigh for a Farmer.
7. $25.00 will provide a Sewing Machine for a Home.
8. $20.00 will provide Kitchen Furniture for a Family.
9. $15.00 will provide Cooking Utensils for a Family.
10. $9.00 will feed a Family for a week.
11. $5.00 will provide Needles, Thread, Buttons, Scissors or Yarn and Knitting Needles, etc., to help outfit a Home and Family.
12. $1.00 will feed and supply a child for a week.

### Make Christmas Come Back Again

Picture a Christmas in a nearly bare shack in a burned out town in a Northern winter. Hundreds of children up there, remember. Make a money contribution now and show your northern fellow citizens that the Christmas spirit lives and has a real meaning in Ontario. All they ask is bare necessities — they deserve at least that much.

Now it is up to you—every public spirited citizen and charitable organization. Spare one dollar, five dollars, one hundred dollars or whatever you can. Spare something from your Christmas cheer. Make Christmas up there a little less than a grim tragedy. Remember, not comforts, but bare necessities in the grip of a northern winter, is all that they ask. Send today? Make cheques payable to—

FISCAL AGENTS ........ A. E. Osler & Co., Toronto, Ont.
BANKERS ... Canadian Bank of Commerce, Toronto, Ont.
TRANSFER AGENTS .. Trusts & Guarantee Co., Limited, Toronto, Ont.

The following information is summarized from a letter of J. R. Dodworth, Chairman of the Board of Directors, and from a report of Mr. A. R. Globe, the Company's Engineer.

PROPERTIES—The Company owns and controls under Crown Lease and under working option and under optional agreements of purchase 1,231 acres in Townships of Cody and Macklem, being approximately in one block in an easterly-westerly direction in length about three miles on a peninsula of Night Hawk Lake in the Porcupine district, being about ten miles south by water from Connaught Station on the T. & N. O., Railway and about six miles by Winter road from Hoyle Station.

OPERATING FACILITIES—Transportation presents no difficulty whatever. Labor is efficient and abundant. Hydro Electric Power is available, the present Steam Plant being operated by wood cut in the vicinity, will be replaced in the Spring by Electric Power. The new Plant installed November 1st has a capacity of 15 Drills, replacing the 3-Drill Compressor, and with the new hoist will carry development to the 1,000-ft. level. Mill foundations are completed ready for erection of Mill in the Spring.

DEVELOPMENT AND ORE RESERVES—Exploration by shafts, pits, diamond drilling, trenching and outcrops has demonstrated a continuous ore fissure for a distance of 10,000 ft., the ore bodies and conditions at both ends and the middle being similar. Intensive development to date has been restricted to the western end of the fissure, where over $1,600,000 of ore of an average grade, top, bottom and sides, of $12.00 per ton has been definitely blocked out, in an area of less than a quarter of an acre, or 3% of the length of the main fissure and to a depth of 300 ft. The history of Porcupine today shows that ore has been developed to a depth of 2,000 ft., in a similar formation. It will therefore readily be seen that along this vein of 10,000 ft., to a depth of 2,000 ft., only one part in 231 has been developed. With eight faces of ore, development is placing in sight in excess of $500,000 additional ore reserves per month, or at the rate of $6,000,000 per year, and, as new levels are opened up, this rate of increase will be accelerated.

MANAGEMENT—The management of the Night Hawk Peninsular Mines, Limited, is in the hands of Mr. A. R. Globe, who was for several years Assistant General Manager of Hollinger Consolidated Mines, Limited, and who has surrounded himself with a staff of young Engineers trained and experienced for the past ten years mostly in the Northern Ontario Mines.

FINANCIAL—With the proceeds of this issue, the Company will have approximately $600,000 cash in its Treasury, as well as 400,000 unissued shares. This fund is ample for the present development program, which includes the erection of an up-to-date mill, and carrying on intensive development until such time as the mill is in operation.

Before acting as Fiscal Agents of the Company and recommending to our clients the purchase of this Stock, we had a report on the property made for us by Mr. J. B. Tyrell, M.E., F.R.G.S., who confirmed the report of the Company's engineer.

# Corporation Finance

**Barcelona Traction, L. & P. Co.**—Net earnings for the month of October showed the largest increase of any month in over a year, being 670,646 pesetas. Total net results were 2,628,952 pesetas, which also was the best showing of the past twelve months. Gross results were 4,081,364 pesetas, while operating expenses, which totalled 1,452,412 pesetas, increased only 224,788 pesetas.

Results of the ten months of the year to date show gross earnings of 37,715,045 pesetas, an increase of 7,496,213 pesetas, while net earnings aggregated 22,892,829 pesetas, or an increase of 3,924,768 pesetas.

**K. & S. Tire & Rubber Goods, Ltd.**—In a report of the company's operating during the first nine months of this year, J. O'Mara, managing director, states that the number of tires sold exceeded the number sold for the same period in 1921 by 165 per cent., while the sale of tubes during the same period showed an increase of more than 100 per cent. For the first nine months of the year the net profit available for bond interest was about six times the bond interest requirements for the period. "Our plans," he said, "call for installation of additional machinery which will almost double our tire capacity. The cost of this installation will not exceed 4 per cent. of the money already invested in buildings, plant and machinery. Your plant has been working to capacity 24 hours a day during the tire season."

**Sherwin-Williams Co.**—That the company enjoyed a decidedly prosperous period is shown in the annual statement for the year ended August 31 last, when the balance carried forward was augmented by $208,173, as compared with $2,189 for the previous year, and $733,909 in 1920, which was the best year the company enjoyed, although there were no dividends paid on the common stock in that year. Dividends on the common stock, amounting to $240,000 were paid during 1921.

Before providing for depreciation, bond interest and income tax, earning for the past year amounted to $952,634, as compared with $631,211 in the previous year, which latter amount includes $376,190 from sale of the capital stock of the old Berger companies, thus earnings for 1921 were really only $255,021. After providing for depreciation of $79,016, bond interest $126,938, provision for income tax $58,756, and preferred dividends $239,750, there remains $448,173, which is equal to 11.2 per cent on the common stock.

The surplus of the company now stands at $3,628,323, equal to over 90 per cent. of the common stock. Current liabilities, including balance due to associated companies, amount to $1,375,239. There are no bills payable for bank or other loans this year, while last year this item amounted to $750,000.

**Twin City Rapid Transit Co.**—The following is a statement of earnings for the month of October with comparisons:

| | 1922 | 1921 |
|---|---|---|
| Oper. earnings ...... | $1,152,895 | $1,144,351 |
| Op. exp. and taxes .. | 912,352 | 1,022,853 |
| Op. Income ......... | $240,542 | $121,498 |
| Other income ...... | 2,683 | 2,126 |
| Total income ..... | $243,225 | $123,624 |
| Interest, etc. ........ | 93,301 | 92,237 |
| Net Income ....... | 149,924 | $31,387 |

**Porto Rico Railways Co.**—Both gross and net earnings for the month of October show an increase over the same month last year. The following is a comparison of earnings:

| | 1921 | 1922 |
|---|---|---|
| For October | | |
| Gross ................ | $107,819 | $111,425 |
| Net ................. | 41,890 | 44,943 |
| For Ten Months | | |
| Gross ............... | $1,110,421 | $1,099,659 |
| Net ................. | 414,582 | 439,487 |

**Pacific Burt Co.**—The directors at a meeting held on December 5, decided the usual quarterly dividend of 1¾ per cent., on the preference shares, and a half-yearly dividend of 3 per cent., on the common shares. Both dividends are payable on January 2, to shareholders of record December 15.

In declaring a 3 per cent. dividend on the common shares for the current half-year, the directors have placed the stock on a 6 per cent. dividend basis. It is proposed hereafter to make quarterly disbursements of 1½ per cent. on the common stock. The dividends on preference stock have always been paid quarterly.

**Dominion Textile Co.**—Application to re-incorporate the company under the laws of 1917 was approved at a special meeting of shareholders on December 6.

The company is at present constituted under the laws of 1902. The motion received the support by proxy and in person of shareholders representing 50,601 shares, with no dissenting votes cast.

**Dome Mines Co.**—At a meeting of the board of directors on December 7, it was decided to set aside the sum of $1,000,000 to be added to from time to time until the fund amounts to at least one whole year's dividends at the rate of $4 per annum on a share. A dividend of 50 cents per share was also declared. This dividend is payable January 20 to shareholders of record December 30.

J. S. Bache president, issued the following statement: "The directors, having in mind the legitimate expectations of the shareholders, of an extra dividend or payment in return of capital at the end of the current fiscal year of the company, desire to state that their expectation is—that beginning with the dividend to be paid in July next, a regular dividend at the rate of $4 per share per annum on the present capitalization will be inaugurated, and in assurance of the continuation of same, the sum of $1,000,000 has been set aside to be added to from time to time until the fund amounts to at least one whole year's dividends at said rate.

"It is believed that, prior to said July dividend, the necessary arrangements will have been completed, whereby the capitalization of the company will consist of shares of no par value, and whereby each holder of the present shares will be entitled to exchange same at the rate of one share of the present stock for four shares of the new stock, and on which new shares said dividend will amount to $1 per share per annum.

"The present cash position of the company shows that, in addition to supplies on hand, of $277,500, the company has on hand cash—$1,464,385, or total current assets of $2,981,885 out of which this above sum of $1,000,000 has been set aside for the purpose as above stated."

**Northern Canada Power Co.**—Net earnings for the month of September, at $59,752, show an increase of $10,878 over the corresponding month of 1921, which stood at $48,874. Gross earnings also show a big increase at $66,232, compared with $54,868. Operating expenses, however, show a slight increase, being up from $5,993 to $6,480, for September last.

For the first nine months of the year gross earnings stand at $538,959, as against $370,453; net earnings, $479,900, against $312,679, an increase of approximately 53.5 per cent., and operating expenses are shown at $59,058, compared with $57,774.

**City Dairy Co.**—At a meeting of the directors on December 7 several changes were made in the directorate. C. B. McNaught tendered his resignation as president in order that he might be free to devote his whole time to his many other interests. The resignation was accepted and W. J. Northgrave, the general manager of the company, was appointed president. S. J. Moore retains the position of vice-president and will become chairman of the board.

**Canadian Car & Foundry Co.**—Although the profits for the year ended September 30 last, are the lowest in the history of the company, with the exception of 1915, it is noteworthy that the liquid position has been brought practically unimpaired through a year of almost unprecedented business stagnation, so far as the company was concerned.

Profits for the period were only $209,266, as compared with $1,188,853 the previous year and $1,515,712 in 1920. This did not include interest earned from investments, as has been the case in previous years. Interest earned, in the report under review, is shown at $113,074, and is applied to the total interest charge of $523,172, leaving a net deduction for interest of $410,098. This leaves a debit balance of $200,832, as ,compared with a credit balance of $473,404 the previous year and $1,056,197 in 1920.

Provision for depreciation during the year is greater than that for the previous year, being shown at $385,000, as compared with $365,800 the previous year and $516,800 for the very prosperous year of 1920. This allowance leaves a net loss for the year of $586,632, as compared with a net profit of $107,603 the previous year and $539,397 in 1920. This, deducted from the previous profit and loss surplus of $3,251,207, leaves the profit and loss balance of $2,644,574. It will be recalled that it was a part of the house-cleaning policy of the administration at the end of the year 1920-21 to place $800,000 at credit of inventory reserve and $200,000 at credit of tax and miscellaneous reserves. During the fiscal year 1920-21, 5½ per cent. was paid on the same issue to the extent of 22¾ per cent., or $1,706,250, were distributed in scrip.

---

## MONTREAL FINANCIAL DISTRICT

Some changes being contemplated in the Montreal financial district are reported by the Montreal "Star." It is understood that ground floor banking premises of the former Bank of British North America, St. James st., opposite the Royal Bank, and now owned by the Bank of Montreal, are being divided, one half to be occupied by the Standard Bank of Canada branch, their present offices in the Yorkshire Building being too small. The other half will be occupied by Wood, Gundy & Co., the investment banking house.

The standard Bank was at one time negotiating for the corner now occupied by McCuaig Bros. & Co., members of the Montreal Stock Exchange, at the corner of St. Francois Xavier and Notre Dame streets, with a view to constructing a new building but the plan was dropped and the old building will be reduced in stature by two stories and renovated, McCuaig Bros. & Co., remaining in their present quarters which will undergo considerable change in the next few months.

---

## PARKER MOTOR CAR CO.

At the recent annual meeting of the Parker Motor Car Co., Montreal, a new "working" board of five members was appointed in place of the former board of eleven directors. The most pronounced change was the election of L. J. Gauthier ex-M.P., to succeed General Sir Alexander Bertram. W. H. Parker, the engineer for whom the car is named, remains as vice-president and the other members of the board consist of L. L. McCanse, secretary-treasurer; H. P. Doran, the superintendent, and George A. May, of Toronto. Another important change in connection with the organization of the company was the taking over of the Montreal Vehicle Motor Co., of which Mr. Gauthier was the head, and this in future, maintaining its salesrooms on Victoria Street, will be the sales headquarters for the Parker car.

Mr. Parker declared that the company was ready for production for 1923 delivery, and all the engineering plans had been completed. A number of the new cars have been running for a year on the road and this, it was felt, was a sufficiently strong test to enable the company to guarantee them to the public. Contracts are now being let for next year for the various units, body, motors, etc., and large quantities of the frames, in securing which there has been considerable delay, have been received. Several of the cars are finished, and a number of others going through the plant. Mr. Parker stated that the company expected to build and deliver 2,000 cars for the season of 1923.

---

## FARMERS REDUCE DEBTS

Farmers in one district on the Weyburn-Lethbridge branch of the C.P.R. have reduced their obligations to one of the two town banks from $625,000 to $155,000. This statement was given recently to a government official in Regina.

The bank manager pointed out that the collection of nearly half a million dollars this fall had been accomplished amost without foreclosure or legal process. By economy, coupled with the bumper crop of this fall, the farmers had been able to enormously reduce their liabilities.

BUILDING YOUR BUSINESS

In building a life agency business it is a most valuable asset for the underwriter to associate himself with a Company whose name is his "open-sesame" to the life insurance business in his district.

The North American Life is high in the esteem of the insuring public. Why?

Popular policies, liberal dividends and the great enthusiasm of all our agents is the answer.

Some good agency openings are available.

Correspond with
E. J. HARVEY, Supervisor of Agencies.

# North West Crops Can, and Ought To Be, Larger

By ANDREW T. DRUMMOND

It is not pleasant to have to strike a discordant note, but the jubilation over the large wheat crop now being harvested in the north-west provinces, is somewhat marred by the reflection that with good farming everywhere throughout these provinces, this crop could and ought to have been vastly larger. It is unfair to lay the blame entirely on climatic conditions. At the root are more serious reasons, readily surmountable. The claim has been made in advance by a leading western daily that 371,900,000 bushels will be the probable wheat crop, which, based on an area of 21,471,000 acres cultivated to this grain, gives about 17 1/3 bushels to the acre. This result, if obtained, will be a trifle better than in some recent years, but, all along, there has been something seriously wrong, when, for instance, Scotland for ten years, gave an average production of 38 bushels, and those who can recall the pioneer days of Minnesota and Manitoba, know that a farmer there was then somewhat sensitive over having to admit that he had threshed less than forty bushels of No. One Hard wheat to the acre. At that time, the soil was a rich black loam, cultivated for the first time on the virgin prairie, and, in production at its best. The farmers and their organizations in the north-west provinces should deeply consider whether they should not leave politics alone, at any rate until they have set their own houses in order by getting production per acre back towards its former high plane, and thus showing that they have the ability to manage their own personal affairs, before aspiring to lead in the government of the country.

### Both Production and Quality have Deteriorated.

Whilst some allowance must be made for variations in the rainfall over the vast area of the three provinces and in places for possible wind storms and even frosts, the facts remain that not only has production, in the course of years, grown less and less, but the quality of the grain has so deteriorated that No. One Hard is becoming excessively scarce, and No. One Northern, the next grade, barely embraces two thirds of the inspected crop. If the average production of wheat this year had been thirty bushels to the acre, the three provinces should have yielded, in wheat alone, 614,000,000 bushels, instead of the expected 371,900,000. Try to picture what a difference this would have made not only to the farmers, but to the railways there, and to the very many hundreds of merchants in the small towns upon these railways; and add to this production a further increase of over 150,000,000 bushels of barley, rye and flax from the 14,700,000 devoted to these grains this year. In the pioneer days out there. with thirty to forty and more bushels to the acre, dollar wheat was considered a good return, but now, with only about fifteen bushels to the acre, the same price, or less, raises forcibly the question whether farming pays at all. And yet, without making the necessary efforts to change these conditions—and changes are quite practicable—we are inaugurating great immigration schemes to settle British and other agriculturalists on our vacant lands. What then are the remedies which should be promptly applied?

### Difficulties to be Overcome

Some years before the war, the wheat farmer of the western United States had been termed the laziest of farmers, because with his large but somewhat careless farming system, the wheat production had fallen to an average of only thirteen bushels to the acre. Conditions on the Canadian prairies have not been very much better, for the average wheat product has gone as low as fifteen bushels. Can anything be said in mitigation of this, if it is true that forty per cent. of the acreage under cultivation on these prairies is merely stubble land into which in the spring the grain has been simply harrowed or drilled? There is no getting over the facts that the land must be properly cultivated to give good returns, and that, in addition, whatever is taken out of the soil by successive crops must be returned to it, or the crops will deteriorate. The intensive farming in France, and, to perhaps a less degree, in England and Scotland, results in large crops per acre, but this is not possible in our Canadian North West under present conditions of cultivation. The difficulties are—(1) the large size of the farms, and the want of money and help, in the case of most settlers, to cultivate even one half of their land; (2) the lack of concentration of the population; (3) the eagerness of the settler to take the shortest cut to obtain a crop, irrespective of results; and (4) the want of the application of fertilizers, and their extreme cost.

### Vast Idle Land, through Too Large Farms

The remedies are chiefly in the hands of the Dominion Government, the various towns along the railways, co-operating with such an organization as the Western Canada Colonization Association, and the farmers themselves. The free grants should be reduced from 160 acres to 80 acres as being more than what the average settler can undertake. By careful cultivation and the proper application of fertilizers, he could obtain more out of thirty acres than he presently gets out of nearly twice that acreage, and the quality would be higher. Just now, the larger part of his 160 acres is idle land, because he has not the time nor help in the spring to cultivate it; and some other settler is thus prevented from bringing it under crop. It is estimated that this idle land amounts to over 30,000,000 acres, which are thus withheld from settlement, although so much lies close to the railways and towns, and would benefit them immensely if brought under cultivation. It has been urged that the farmer there should have land lying fallow, but there is no need for this if the proper manures are applied. If the fertility is kept up, land is the better for being annually worked and if occasional rotation of crops is practised. Whether cultivated or lying fallow, the nitrogen and even the electricity of the atmosphere descend with the rain and the snow all the same.

### Idle Lands in Possession of United States Farmers.

The United States is understood to have practically exhausted its free grant agricultural lands, but recent farm statistics there indicate that there are, in the possession of farmers, the enormous total of 448,000,000 acres not yet improved, or even in grass. On the average, on each 160 acres, there are cultivated, or in grass, 82 acres, and not yet improved 78 acres. In some states of the Union, this surplusage may include timbered land, but whilst most of the valuable timber has long since been cut down, the presence of this timber, especially in the central and western states implies a soil ideal for crop cultivation.

### What the Canadian Government Should Do

If the Dominion Government would restrict the free grants to 80 acres, and enable new settlers so desiring, to purchase a similar acreage in the even numbered sections, and would cooperate with the towns and such an organization as the Colonization Association already referred to, in so arranging with the older settlers that the idle land should be offered to new settlers, it would be quite possible to double the population around most of the towns throughout the prairies. At the same time, it would tend to double the production, and greatly brighten the prospects of the railways and of these towns, as well as the business of their merchants, which is presently too limited to be called very prosperous. It may be properly said that there are many men now on these prairies who have farms on a considerable scale, and utilize them fully for cattle, horses, sheep and dairying, but the average farmer there is not of that type. The new settler who has the money and the help to enable him to cultivate more than eighty acres, can buy additional land, but the ordinary tenant farmer or agricultural laborer, whom we are seeking to attract from England and Scotland is not accustomed, as a rule, to deal with as much land, and will welcome a grant of that acreage.

### Concentration of Population

It cannot be sufficiently repeated that the present 160 acre free grant system also means that each settler is placed from one half mile to one and a half miles from the nearest settler, and that these long distances from each other, and from the towns, result, with most of them, in great waste of time in reaching markets, and in obtaining supplies, and in serious restrictions in their educational and postal facilities and their social advantages. A system of concentration should be adopted under which new districts would not be opened up for settlement until the older districts were well taken up. The present hap-hazard plan of permitting new settlers to go wherever they willed, often scores of miles from a railway, and then to clamor for railway facilities in sections where the population and business are such that a railway there could not possible pay, must be avoided. Concentration of population is, clearly, a great advantage for the settlers, for the merchants in the towns, and for the railways.

### Cultivation and Fertility must be Maintained

No one desires to be pessimistic over the financial circumstances of the farming community in the north-west provinces. They have a country of great opportunities, and it is for them to utilize these opportunities wisely. The land will, on the average of years, give to the farmer more than a living, if he treats it fairly by proper cultivation and by keeping up its fertility. When, however, some of these farmers live in the towns and villages and not on the farms; when so many do not plough their land, but plant on the stubble; and when artificial and natural fertilizers are seldom used, no doubt largely on account of their cost in the one case, and their scarcity in the other, what can be expected but that results per acre must grow less and less and that the quality will also deteriorate. Canadians have a climate which promotes, if it does not compel, activity, and the wheat growers on our prairies should deprecate the possibility of having thrown at them the reproachful epithet applied years ago to the wheat farmers south of the boundary line. The remidies are in part in the hands of the farmers and their organizations and, in part, of the government. With barnyard manure becoming relatively scarce, and freight rates on artificial manures forming such a heavy addition to their large original cost and large percentage of included material of no direct advantage to the land, the different governments must take immediate steps to promote the production of concentrates, on which the freight rates would be small, and which the farmer himself could, under proper instructions, prepare for application on his land. It is not altogether creditable to the farmers' organizations and to their political and other leaders, that matters of relatively small moment to the pockets of the average agriculturist, should be given large importance. and the great question neglected of how to produce from a generous soil the maximum which it is ready, under proper treatment to give.

## ROYAL BANK'S PROFITS LOWER

### Reduction Less Than $100,000, However—Liquid Assets Are 49.37 per cent. of Public Liabilities

Net profits of the Royal Bank for the year ended November 30 were $3,958,469, against $4,037,836 the preceding year. After making appropriations the profit and loss balance was increased $102,470, compared with an increase of $358,016 last year. The difference is accounted for by the increased reserve for taxes. The following is the profit and loss statement:

| | |
|---|---|
| The profits for the year, after deducting charges of management, accrued interest on deposits and making full provision for all bad and doubtful debts, amounted to | $3,958,469 |
| As the amount carried forward from the previous year was | $ 905,041 |
| The total amount available for distribution was | $4,863,514 |
| This was appropriated as follows:— | |
| Dividends and bonuses | $2,856,000 |
| Transferred to officers' pension fund | 100,000 |
| Appropriation for bank premises | 400,000 |
| Reserve for Dominion Government taxes | 500,000 |
| | $3,856,000 |
| Leaving balance to be carried forward into the new year of | $1,007,514 |

### The Balance Sheet

Total assets show a decline of over $21,000,000, partly in current loans and partly in coin and note holdings. Savings deposits show only a slight decrease, but acceptances are down from $12,535,480 to $5,326,228.

The chief items of the balance sheet compare as follows:—

| | 1922 | 1921 |
|---|---|---|
| Liabilities | | |
| Non. Int. dep. | $ 94,408,078 | $ 95,168,911 |
| Int. deposits | 277,595,882 | 280,447,431 |

## FARMER LEADER PREDICTS BETTER THINGS.

### Robert Forke, Progressive Leader Speaks to Winnipeg Business Men.

(Staff Special)

Winnipeg, Dec. 18.—The problem of the agricultural outlook for the west was discussed by Robert Forke, M.P., new leader of the Progressive Party in the Dominion Parliament, before a representative body of Winnipeg business men last week. Mr. Forke is a veteran farmer of Manitoba, having come to the province in the early eighties. He laid special emphasis on the rush to the cities, deprecating the fact that so many young people were leaving the farms. As to future farming, the speaker predicted an era of small farms, and an increase in mixed farming. He also referred to co-operative selling as likely to be adopted as a solution to the Grain marketing problem.

### The Farmers' Position

"Crop failures have been one of the causes of our agricultural depression," Mr. Forke stated. "That is, of course, going to happen almost any year; but there has lately gone hand in hand with that condition the fact that the 'overhead' expenses of farming have been very high. There is no doubt that money has been spent by the farmers the same as with other classes, more freely in the prosperous times than ought to have been the case. 'Easy come, easy go,' is a rule which applies to the farmer the same as it does to anyone else. I do not think we can blame anybody very much when we look over the past few years and review their history calmly. People were perhaps a little too optimistic and spent a little more money than they should have done. But individuals today can be criticized along just the same lines.

"I am not one who believes in picturing 'blue ruin.' But I believe we should face the situation. There can be such a thing as a foolish optimism, the same as there can be a fatal pessimism. We want to try and look things in the face, and find out just where we stand."

Stating that in the west there had got to be a change in the farming of prairie lands, Mr. Forke said:

"You are going to see small farms, more intensive cultivation, and more attention paid to mixed farming. Today you will find the large farmers are at a disadvantage, and that big farms cause everything to suffer—community life and everything else. Then, too, the people who farm are going to have to consider more the character of the soil, location, suitability for wheat-growing, etc."

Observing they heard a great deal said these days about cheap money, he said he thought it would have been better for some of the farmers if money had been just a little more difficult to get sometimes.

From the foregoing it will be noted that Mr. Forke is not a pessimist. While the farming outlook this last year has not been very encouraging, the remarks of a man with the experience of Mr. Forke, are very encouraging.

### No Cause For Despair

From the capital city of Alberta comes the message of premier Greenfield, addressing a municipal convention, in regard to the outlook of that province. He states that there is no cause for pessimism or gloom so far as Alberta is concerned, and that this is the land of the pioneer and not the quitter. Premier Greenfield says that with our western spirit there is no trouble financially or otherwise that cannot be surmounted.

## *Bank Clearings*

The following are bank clearings for the week ended December 14, compared with the corresponding week of 1921:—

### Eastern Bank Clearings

| | W'k ending Dec. 14 | Increase over '21 |
|---|---|---|
| Toronto | $107,902,336 | $ 7,298,576 |
| Montreal | 102,877,248 | x15,793,728 |
| Ottawa | 7,975,839 | 486,803 |
| Hamilton | 5,447,672 | x56,229 |
| Quebec | 4,822,013 | x856,000 |
| Halifax | 3,932,980 | 505,741 |
| Windsor | 3,156,875 | 191,944 |
| St. John | 3,154,870 | 365,030 |
| London | 2,737,397 | x246,717 |
| Moncton | 1,117,954 | 298,169 |
| Kitchener | 1,069,596 | 74,147 |
| Brantford | 1,021,535 | x213,311 |
| Sherbrooke | 803,730 | x100,956 |
| Peterboro | 780,984 | 2,256 |
| Kingston | 667,231 | x105,867 |
| Total | $247,486,260 | x$8,150,142 |

### Western Bank Clearings

| | W'k ending Dec. 14 | Increase over '21 |
|---|---|---|
| Winnipeg | $ 66,162,317 | $5,032,318 |
| Vancouver | 14,101,554 | 1,473,547 |
| Calgary | 6,278,825 | 86,281 |

## *Canadian Failures*

The number of failures in the Dominion, as reported by R. G. Dun & Co. during the week ended December 15, in provinces, as compared with those of the previous week and corresponding week of last year, are as follows:—

| | Dec. 15 | Dec. 8 | Dec. 1 | Nov. 24 |
|---|---|---|---|---|
| Ontario | 12 | 29 | 25 | 20 |
| Quebec | 31 | 39 | 36 | 24 |
| Manitoba | 11 | 10 | 5 | 6 |
| Alberta | 3 | 5 | 5 | 4 |
| Saskatchewan | 6 | 3 | 4 | 5 |
| Brit. Col. | 3 | 5 | 5 | 3 |
| Nova Scotia | 3 | 6 | 3 | 5 |
| New Brunswick | 2 | 1 | 0 | 0 |
| Prince Edw. Is. | 0 | 2 | 1 | 1 |
| Newfoundland | 2 | 0 | 0 | 0 |
| Total | 73 | 100 | 84 | 74 |
| 1921 | 66 | 69 | 68 | 81 |

## *Exchange Quotations*

Closing rates in Toronto, Wednesday, compared with the preceding week, were as follows:—

| | Dec. 13 | Dec. 20 |
|---|---|---|
| London | 446.25 | 466.75 |
| France | 7.17 | 7.47 |
| British W. Indies | .97 | .97¼ |
| Jamaica | 4.68 | 4.68½ |
| Belgium | 6.62 | 6.86 |
| Denmark | 21.01 | 20.83 |
| Germany | .01¼ | .01½ |
| Greece | 1.36 | 1.26 |
| Holland | 40.28 | 40.10 |
| Italy | 5.02 | 5.10½ |
| New York | 9/16d | 13/16d |

## *Railroad Earnings*

The following are the approximate gross earnings of Canada's transcontinental railways for the first two periods in December:—

| | 1922. | 1921. |
|---|---|---|
| Canadian Pacific Railway | | |
| December 7th | $ 4,155,000 | $ 3,403,000 |
| December 14th | 4,113,000 | 3,811,000 |
| Canadian National Railway | | |
| December 7th | 2,706,434 | 2,634,323 |
| December 14th | 2,485,829 | 2,634,323 |
| Grand Trunk Railway | | |
| December 7th | 2,161,921 | 1,816,052 |
| December 14th | 2,075,228 | 1,717,516 |

# Operating Loss on Merchant Marine

### Deficit of One Million Added to Fixed Charges Will Swell Total to about Five Million—Farmers' Position in Parliament at Coming Session Will Be Strong, According to Prospects

(Special to The Monetary Times)

Ottawa, Dec. 19.—Governor General's warrants for $1,000,000 having been passed to meet the operating deficit on the Canadian Government's Mercantile Marine this year, it looks as though its total cost to the country for 1922 would be in the neighborhood of $5,000,000. This is only an estimate, but as the charges at 5½ per cent. on an investment of $72,000,000 would amount to $3,960,000, the added $1,000,000 would bring the total to near the $5,000,000 mark. One million was the estimate given last spring of the operating loss on a basis of 35 ships in commission, so it is quite probable that expectations in this respect have been realized.

Nothing has been heard recently of the determination to sell the smaller vessels. It is one thing to decide to sell, but quite another these days to find purchasers. Some months ago the United States Shipping Board called for tenders for the sale of between two and three hundred wooden vessels, and the best price offered was under $750,000; at that it was nearly $100,000 more than the best previous offer. With so much idle tonnage the world over, there is no chance of our Mercantile Marine being placed on a paying basis. But like the railways, once the Government gets the ships, it can't altogether cut its losses as it would like.

#### Results Disappointing

Though without the least desire to say anything in disparagement of the Mercantile Marine, it must, however, be admitted that even in the matter of promoting export trade, it has not produced anything like the results expected, or even claimed for it. Canada is not getting many new markets, trade being confined pretty much to the United Kingdom, the United States and Europe. Certainly what trade has been got in other quarters is not so much greater than that of pre-war days as to suggest that the Mercantile Marine has been directly responsible for it.

#### French Agreement

Matters relating to the calling of the session await the pleasure of Mr. Fielding, whose return from Europe had been expected early in the month. As he undoubtedly attaches much importance to the commercial treaty negotiated with France, and would like to do business also with Italy and Belgium, he has remained away longer than had been expected in order to clean up these matters.

As France grants to Canada the benefit of her minimum tariff on 128 items and 14 chemical sub-items and the benefit of the minimum tariff and the lowest rates of duty granted to any foreign country on 223 items and 193 sub-items to which the French minimum tariff will not apply, and as Canada in her exports to France is placed on the same plane as the United States, which hitherto has enjoyed an advantage, it is quite evident that the new treaty is advantageous. An additional advantage has been secured through the arrangement whereby Canadian products receive special treatment in St. Pierre and Miquelon, the French West Indies and French Guiana.

It also appears that Mr. Robb expects to do much better with Australia than had been thought, he having denied that the new treaty is of a restricted nature, as had been reported. Of course the final touch has not been given to these negotiations. These treaties, together with the removal of the British embargo on Canadian cattle, will be cited as a fulfilment of the Government's promise that it would get new markets.

#### Grain Situation

If the United States makes a large loan to Germany, or if it grants to that country large credits enabling it to buy large quantities or food supplies and certain raw materials produced on the northern half of this continent. Canada will, indirectly reap the benefit. For example, credits granted for the purchase of grain in the United States would raise prices generally, and the Canadian grain grower would profit quite as much as a similar producer on the American side. Nor is it improbable that the United States Government will attempt to relieve the situation in the western states through an arrangement of this kind.

It has for some time been evident that the Wheat Board, together with the general question of the marketing of farm products, would again be to the fore in the approaching session. That this is a live question in the West is quite evident from the recent address of Premier Dunning on the subject, in which he advocates the creation of a distinctively farm organization for the business. The question will also be kept alive by similar demands in the United States, the activities of the "farm bloc" over there being of such an aggressive nature as to force similar action by the Progressives over here.

The indications are that the western farmers will get quite as much out of the session as they got during the last one, when they walked off with by far the biggest plum in the form of the Crow's Nest Pass rates on grain. The difficulties experienced by loan companies in making collections in the West has brought financial men to a realization of the unprofitable nature of grain-growing under existing conditions and has strengthened the demands of the farmers for more consideration. Aside from the advice it gets from its own followers, the Government is made aware of conditions through the difficulty experienced in collecting the income and profits taxes in certain rural districts.

#### Tax on Receipts

The barrage of protests against the receipt tax put over by the manufacturers and retailers has apparently failed to produce expected results. There was very little possibility of doing anything as long as Mr. Fielding was away, and once having placed a new tax on the statute book, it would take much persuading to induce him not to put it into effect. Remembering the protest over sugar prices and the effect it had a couple of years ago, it is possible that those who engineered the protest over the receipt tax, thus hoped for success; but the cases are not analagous. The public was behind the sugar protest, whereas only a certain element in business was behind the other.

The report that Sir Lomer Gouin may go to Washington as ambassador is not taken very seriously here. There is an impression that the influences that persuaded him to enter the Government are strong enough to keep him there, even if he desired to go to the United States, and there are no strong indications that he desires to go there. As a class French-Canadian publicists, when they tire of Canada, show a decided preference for Europe, the United States having apparently few attractions for them. It looks as though Sir Lomer would finish his work where he is.

---

## TARIFF'S EFFECTS NOT APPARENT

### Canadian Wheat and Cattle Going to United States in Large Quantities

(Special to The Monetary Times)

New York, December 20.—The new tariff has been law for two months. American government investigators sent to Canada by the Department of Agriculture are reporting that the new tariff has had little or no effect on business in Canada. They are understood to be investigating one by one the industries most likely to be affected by the Fordney McCumber Tariff. So far their reports have covered the dairying industry and graingrowing.

Supplementing these reports comes another from Minnesota that since June last in spite of the cent and a half per pound duty on cattle on the hoof, imports of Canadian cattle have been steadily increasing. In June for instance some 2,300 head of Canadian cattle arrived at South St. Paul against some 155 head in June 1921. From September 21 to November 20, the two months the Fordney McCumber Tariff has been in operation, some 38,000 head of Canadian cattle have been imported from Canada. This is about the same number as were imported in the whole of 1921.

#### Imports of Cattle

Naturally there is much complaint in the cattle raising districts over the resurrection of the import trade in Canadian cattle. During the year 1921 it was thought to have died once and for all. Local politicians when confronted by the fact that the Emergency Tariff had failed to stop the importation of Canadian wheat grew accustomed to "pointing with pride" to the fact that the same tariff had apparently given the import trade in "feeders" the coup de grace. But now even that defense is being taken from them.

Influential farm organs are seeking to persuade the Western cattle raisers that the renewed competition from Canada is only temporary. The removal of the British embargo on Canadian cattle they claim to believe will give the Canadian cattlemen a more profitable market than they can now find in the United States. Just as soon as the Canadians begin to exploit this new market their shipments to the American market will cease.

#### Canadian Loan Not Definite

While vague rumours have been floating about on the "Street" for some time past that the Dominion of Canada planned to float a loan in New York at an early date, verification of this report cannot be obtained. Canadian bankers seem to have heard nothing of any negotiations and seem inclined to doubt that anything will be done before Mr. Fielding returns. In any case the market is hardly favorable at the present time. Better terms, as the Province of Ontario found last week, can be obtained, at present in Canada than in the United States.

Canadian bankers are following with a great deal of interest the progress of the discussion being conducted in the American and European press of the possibility of the United States making some definite move to help Europe to its financial feet. They, almost without exception, recognize, that the improvement of the situation in Europe is of much if not more importance to Canada than it is to the United States.

Should the United States offer effective aid to Europe, the results will be as beneficial to Canada as they will be to the American exporter interested in European business.

---

## WOULD HAVE DOMINION PAY

### British Columbia Legislature Favors State Insurance But "Passes the Buck" to Dominion

(Special to The Monetary Times)

Vancouver, Dec, 9,—The British Columbia Legislature has passed a resolution urging the federal government to enact legislation covering state insurance against unemployment, dependence in old age, and other disabilities. Labor members of the B.C. House moved that the provincial government take action itself along these lines but it was decided that these forms of insurance properly came within the jurisdiction of the Dominion government.

The Point Grey fire department has been charged with incompetency in a statement made to the municipal council by R. Robinson, owner of the Granville Block at Marpole, B.C. The building was partly destroyed by fire on November 30. It was not insured. Robinson stated that he was told by persons who witnessed the fire that upon arrival the fire department could not locate the water hydrants and then some of the hydrants were out of order. The Marpole Improvement Association also criticized the way in which the fire department acted.

The Vanvouver Fire Insurance Agents' Association is planning to conduct a co-operative newspaper advertising campaign for fire insurance.

B.C. Stephenson, manager for the past five years of the insurance department of the Franco-Canadian Co. Ltd., at Vancouver, has now opened his own office in the Bower Bldg., where he will conduct a general insurance agency business. Mr. Stephenson is favorably known to a large circle of insurance men in Vancouver and the best wishes of the fraternity are being extended to him.

Mr. Charles Hendry, of London, a joint manager of the London & Lancashire fleet of companies, has been a visitor to British Columbia on a tour of branch offices.

# Further Increase In Canada's Trade for November

### November Total is $57,000,000 Higher Than Last Year, and $38,000,000 Over October, 1922—Agricultural Exports Boost Total—Imports Are Slightly Higher

Another substantial and decided improvement in Canada's trade is shown in the November statement, the total trade being fifty-seven million above that of November last year, and thirty-eight million above October of this year.

The outstanding feature of the report was the twenty-seven million increase in agricultural and vegetable products in comparison with the previous month. This item is also higher than last year, being up by thirty-four million dollars. The increase is, of course, due to the crop movement. Total exports for the eight months ending November are considerably higher than 1921, the total being $621,705,316 as compared with $502,152,675.

There was a slight increase in imports during November, the total being higher by ten million over the previous month. The total during the month under review is also higher than last year the increase amounting to twelve million. Imports for the eight months ending November are slightly above those for the same period last year.

Due to the large increase in exports Canada's trade for the eight month period is considerably higher than last year, there being an increase of approximately $125,000,000.

Details of the November statement with comparisons are given herewith:—

## LIFE INSURANCE AND PRICES

Two or three years ago any life insurance agent would point out to his prospect that life insurance was the only "commodity" the price of which had not advanced. Today he will not point out that it is about the only thing the price of which has not declined. The argument was of course fallacious, but if it had no more effect than to sell a few more life insurance policies there was no harm done.

A life insurance policy is a purely financial contract. Money is paid and money is returned. The value of money did not change in terms of money but only in relation to other goods and services. Premium rates are based on mortality, and change when the rate of mortality changes, or when some other outstanding factor, such as taxation, the expense of doing business or the return on invested funds, changes. It is usually only over a considerable period of years that conditions change sufficiently to warrant a revision in premium rates.

With fire and casualty insurance it is different. Here losses do not follow precise laws, and in the casualty branches a body of experience sufficient to determine accurate rates has not yet been built up. Fire and casualty underwriters have to revise their rates frequently, and war time conditions were such as to require more increases than reductions.

The general insurance agent, therefore, could not say what the life agent said, and he was spared from committing himself to such a weak argument. But right under his eyes he had in some cases a real argument which he failed to use. There were times when he could truthfully say that the insured got more than he paid for, losses being in excess of premiums. This was of course only a temporary condition but successive revisions of fire and casualty insurance rates have not as yet brought them to a level, on the whole, that can be said to be satisfactory to the underwriter. Life insurance, on the other hand, has been conducted profitably, except during the influenza epidemic of 1919.

In insurance as with other lines of business, therefore, we cannot escape from the predominating influence of prices, for they have affected life insurance and have been behind much of the uncertainty in the fire and casualty branches.

## INSURANCE PROBLEMS

Because of the difference in selling methods the increased efforts being put forth in the field are not so apparent in the fire and casualty branches as in Life insurance. There do not appear to have been as many changes, moreover, though the growth of casualty insurance has greatly enlarged the possibilities for the field man.

While business written is the outstanding development in life insurance and remarkable increases are also found in fire and casualty lines, the outstanding problems of the day in the latter seem to be those connected with losses and premium rates. Until quite recently there was quite a flurry of discussion regarding fire prevention. The method tried was education and considerable sums were spent for which the companies and the public were taxed. No beneficial results are found in fire loss records nor does one find the public mind to any degree impressed. It seems, therefore, that we must go back to the principle of self-interest rather than that of public interest and show to each man through the process of rating just how his property ranks in the eyes of the fire underwriter and through civil and criminal law how it is essential to prevent one property or course of action from being a danger to others.

The question has been raised is fire insurance immoral. As it is a business which has developed to meet public demands the answer must be "no." It would be just as appropriate to ask the same question regarding life insurance for the term of life depends to some degree upon the manner of use. Insurance indemnifies the careless and the foolish at the expense of the cautious and the wise and since it is an accepted maxim of the day that they that have shall assist those that have not, insurance must be regarded as strictly in accord with moral principles. If the State taxes the general public to sustain those who are incapable of looking after themselves surely the insurance companies cannot be criticized for doing the same thing. And the individual who provides for his dependents by his own action is more to be commended than the one who does not.

## A COMMISSION OR A COMMITTEE?

The Canadian Council of Agriculture wants a commission to investigate the Canadian banking system. Their view is that the scope of the special committee of parliament to inquire into the Canadian Bank Act will be too limited to permit of consideration of the question of short term credit as a whole. It is also thought that a wider range of evidence could be secured if such a commission were to travel through the country.

In taking up the Bank Act, however, the banks and their operations will have to be considered along with the operations of the other organizations now active in the supplying of short term credit; these include the provincial savings banks, rural credit societies, discount or credit companies (financing automobile sales chiefly), and to some degree the mortgage lending institutions, for short term credit must fit in with the latter. Currency is also an integral part of the present banking law and must be taken up as well.

A royal commission travelling through the country would waste much of its time hearing ill-considered views of individual theorists. What is wanted are views which have already been subjected to some criticism. Accredited representatives of bankers, farmers and business men will be able to give a fair idea of what the country requires and to what extent the present law meets the requirements. In this connection the report of the recent inquiry into banking conducted by the Alberta government would be of value; this has not as yet been published.

## NATIONAL RAILWAY PURCHASES

The Canadian National Railway cannot be run as a private corporation unless it is willing to pay the price. The Railway, however, has, it appears, been urging the government to exempt its purchases of supplies from the sales tax. Such exemption the government has granted. The order is made retroactive and has effect from May 24 last. Only certain lines of the system will have advantage of this order. It will not apply to any of the lines or branches taken over by the government from the old Canadian Northern railway system.

For several months past the Canadian National railways have been claiming exemption from payment of the sales tax on all goods purchased for use on the system, on the ground that it is a government owned concern. During this period the company has been refusing to pay the tax and manufacturers throughout the country have been pressing for a ruling by the department.

The lines which have benefit of the exemption are principally located in eastern Canada and the Maritime provinces but the ruling also applies to the National Transcontinental railway, the eastern section of which extends from Winnipeg to Moncton, N.B. It is also extended to the Lake Superior branch, which has been leased to the government on long lease, and to the Superior junction on the National Transcontinental railway, which runs to Fort William.

## AN INCONSISTENT ATTITUDE

Just after the Canadian Council of Agriculture, at its recent annual meeting in Winnipeg, had passed a resolution in support of a compulsory, monopolistic wheat board, it passed another condemning monopoly in banking. The following is the first clause of the latter:—

"Whereas the centralization of control of the banking power of Canada, as evidenced in the decrease in the number of banks in the Dominion—which has declined from 37 in 1902 to 17 in 1922—is not in the best interests of the country since it places the credit and finances necessary for the successful development of the country in the hands of the comparatively few men who form the directorships of these banks, giving them, thereby, a power which, however carefully used, may not, as a principle, be safely entrusted to them."

The resolution advocated investigation with a view to improvements "that will protect the public against the dangers of centralization and the power that will inherently develop through the operation of the special privileges enjoyed by the banks."

All the principles involved in the Wheat Board proposal are absolutely inconsistent with the principles that the farmers maintain in connection with every other business than their own. The Weekly Market News, Winnipeg, suggests that the Wheat Board resolution passed by the Canadian Council of Agriculture should, in accordance with the banking resolution, have read as follows:

"Whereas the centralization of the control of grain trading in Canada, as evidenced in the proposed decrease in the number of traders in the Dominion from some hundreds of independent operators to one monopolistic Wheat Board, is not in the best interests of the country, since it places the credit, finance and business enterprise necessary for the succssful development of the country's grain production in the hands of the comparatively few men who would form the directorate of this Wheat Board, giving them thereby a power, which, however, carefully used, may not, as a principle, be safely entrusted to them."

The resolution should then have declared for the protection of the public "against dangers of centralization and the power that will inherently develop through the operation of the special privileges enjoyed by a Wheat Board."

### CHRISTMAS GIFTS

On Christmas day Canada will present to British and foreign investors half a million dollars. This is not the repayment of a loan nor even a heavy interest payment. It is merely the average amount of interest which accumulates to their credit daily. And every year our Christmas gift increases, for we borrow freely—more freely than they are willing to lend—and when we cannot borrow in Great Britain we go to the United States.

But what we give is nothing to what we receive—the gifts of the farm, the forest and the mine, which we do not create but only discover. It is to discover them that we have borrowed freely, and more through the lavishness of nature than through our own acumen we have stumbled upon sufficient to justify the faith of our creditors. The economic life of this country rests on this generosity of nature, and the financial system to which it has given rise.

### SAVED $16,000 IN DIMES

The story recently was told of a man who started over 16 years ago to save every dime that came into his possession. He made no effort to get an extra number of dimes, but took what came to him in the way of change. How much do you suppose he has saved in the 16 years? You'll be surprised to learn that the savings amounted to $16,000. If you don't feel rich enough to start in saving dimes, why not start in saving nickels or if five cents at a time is too much why not try pennies. If you make an ironclad rule not to spend your pennies, your nickels, your dimes or your quarters, you'll have a large savings account before you realize it.

### FIRE WASTE

A subscriber sends the following:—

The tremendous, stupendous, stupid, too, fire waste of this continent is a matter of psychology and of English grammar. The people of this continent say: "If my neighbor is not careful he and I are going to suffer a loss."

When a proper rendering of the sentence becomes a part of our mental being we will think: "If I am not most careful I and my neighbor will suffer a loss."

### RAIN INSURANCE

Rain insurance providing against loss of Christmas trade due to bad weather conditions, is being offered and becoming quite popular with Halifax merchants for the season, according to the Halifax "Chronicle." The basis of cost is by the hour, and the basis of the contract will be according to the official record of precipitation. For instance one merchant was considering taking two hours of rain insurance during a Friday and Saturday afternoon, those two hours to be the time he expects the heaviest trade, and which in event of rain would be the heaviest loss to him. The insurance is not issued later than five days ahead.

## *Personal*

**R. E. HALDENY**, who has lately been associated with the New York office of Dominion Securities Corporation, has joined the staff of the Montreal branch of the company and will take charge of the extension of the firm's trading business in that city.

**A. H. MORSE**, managing director and general manager of the Marconi Wireless Telegraph Co. of Canada, Ltd., has resigned and will be succeeded on January 10 by H. M. Short, for eight years United States representative of the Marconi International Marine Communication Company.

**HENRY TATNALL**, vice-president of the Pennsylvania Railroad Company, Philadelphia, has joined the home office board of The Guarantee Company of North America, Montreal, in succession to the late Thomas DeWitt Cuyler. Mr. Tatnall is chairman of the advisory board of the Philadephia branch of The Guarantee Company, of which board the late Mr. Cuyler was also a director, and through which branch the company carries the fidelity schedule of the entire Pennsylvania Railroad System.

**F. P. TINKER**, Freight Agent at Ottawa for the Canadian Pacific Railway, has been transferred to Detroit, Mich., as district agent.

**P. M. WICKHAM**, who has been manager for Canada of the Yorkshire Insurance Company, Ltd., during the sixteen years it has been transacting business in Canada, is retiring from that position at the close of the present year, and will become a member of the Canadian Board of the company. He is to be succeeded by P. L. Monkman, who has been many years with the company both at head office and abroad. He relinquishes the management of the company in Japan to become manager for Canada.

## *Obituary*

**C. W. BLACKSTOCK** of the Imperial Candian Trust Company, accidentally shot and killed himself at Saskatoon on December 13th.

**ALEXANDER BUNTIN**, senior partner of the firm of Buntin-Reid, Toronto died at home in Toronto on December 11th.

**CASIMIR STANISLAUS GZOWSKI**, one of the charter members of the Toronto Stock Exchange, died on December 16th at his home in Toronto. The late Mr. Gzowski was born in Toronto on December 2, 1847, and was educated at Leamington School, England, and Glasgow University. Mr. Gzowski was president of the London and Canadian Loan and Agency Co. until its absorption last year by the Canada Permanent Mortgage Corporation. He was also a director of the Toronto Mortgage Co: and of the Chicago and St. Lawrence Navigation Company until its absorption three years ago into the Canada Steamship Lines.

### RIGHT OF GUARDIAN TO RECEIVE INSURANCE

In the case of Downs v. the Manufacturers Life Insurance Co. which has recently been decided by the Alberta Courts, section 14 of the Life Insurance Beneficiaries Act which is similar to ss. 1 and 2 of section 175 of the Ontario Insurance Act was interpreted.

The section is as follows:—"If no trustee of the insurance money is named or appointed, shares of infants may be paid to a trust company appointed as trustee by the Supreme Court or a Judge thereof under provision of the Trust Companies Ordinance upon the application of the infants or their parents or guardian and such payment shall be a discharge to the insurer."

The Court held that under the provisions of this section, letter of guardianship issued by a Surrogate Court do not entitle the guardian to receive payments of the insurance moneys to which the infants are entitled, the object of the section being to commit such moneys to the supervision of the Supreme Court as a Court of Equity. The proper procedure where there is no competent person to receive such moneys is to make an application to a Judge of the Supreme Court under section 15 of the Act for an order for payment of such moneys into Court.

### PUBLIC INDIFFERENCE AND TAXES

Montreal Gazette, Dec. 16: The general indifference of the public to parliamentary proceedings is really remarkable. Measures introduced by Ministers relating to trade and taxation frequently are passed on to enactment by a listless House of Commons, and without comment, criticism or censure on the part of the persons directly affected. In such circumstance the Government reasonably assumes that its measures meet with approval, and not a little perplexity is occasioned when months after the enactment vigorous protests are uttered. Such was the experience last year in respect of The Marking Act, and such is the experience now in respect of the stamp tax on receipts. It ought to have been known generally six months ago that a stamp tax on receipts was provided by the legislation of last session, the proposal having been both printed and discussed in the press. Yet now, at the last moment before the law comes into effect, boards of trade and other commercial bodies are passing resolutions requesting the Government to suspend the levy. At a recent meeting of the Montreal Metal and Hardware Association, for instance, the opinion was voiced that the multiplication of these regulations and stamp demands was an irritating hindrance to ordinary business, and the hope was expressed that eventually all these comparatively small applications of tax charges might be concentrated into one general tax, which would give the requisite revenue without impeding business as at present.

There is undoubted force in the view that we are coming in Canada to have a too great multiplicity of taxes, but a protest made six months ago when the tax on receipts was under consideration by Parliament would have been the more appropriate, and we imagine the more effective time at which to lodge a protest. There is, indeed, precedent for disregarding statutory direction until the subject has received fuller consideration. That course was taken by the late Government in the case of The Marking Act, but it is not a customary nor a desirable method, and in the present instance will probably not be followed. On January 1st next, the law imposing a stamp tax on receipts comes into operation. What may fairly bt complained of is that regulations or explanations concerning the tax have not ere now been issued by the Government. There is room for difference of opinion as to the scope of the law, and difference of opinion exists. It is not enough that at the last moment the officials charged with the administration of the law be instructed in their duties. Far more imperative and important is it to inform the public of the precise meaning of the enactment, defining clearly exactly the kind of receipt that is subject to the stamp tax. The Gazette has ventured the opinion that the levy will not prove a very heavy burden, nor yield much revenue, for the reason that all formal voucher cheques, and ordinary cheques, which by endorsement serve as receipts, are exempt from the tax. The statute specifically provides that no receipt is amenable for the tax, if the same is otherwise taxable; and cheques are otherwise taxable. If this is not conclusive enough, the following clause setting forth exemptions should be:—

"A receipt endorsed or otherwise written upon or contained in any instrument liable to stamp duty, and duly stamped, acknowledging the receipt of the consideration money therein expressed."

Cheques which serve as receipts not being liable for the receipt stamp tax, and all receipts arising out of transactions with the Federal and Provincial Governments being also exempted, there remain only receipts for actual cash paid as subject to the new stamp tax, when such receipts are for $10 and upwards. The intent of the law, apparently, is to reach transactions not covered by cheque, and these form an infinitely small percentage of the business of the country. This particular form of taxation may well be reconsidered next session, for the reasons that it will produce little revenue, is somewhat irritating, and is susceptible of easy evasion. Meanwhile the public should have from the Government an explanation of its law.

### AUSTRALIAN LIFE COMPANY

An actuary of the Australian Mutual Provident Society was through Canada recently, making investigations. The only Australian company here so far, is the Mutual Life & Citizens.

New Year
New Investments

The January 1923 "Investment Guide" which is now on the press, contains as desirable a group of investments as could well be brought together.

Government and Municipal Bonds are quoted as well as a few high grade Corporation Bonds which may be bought to yield as high as 7%.

We should like to send you a copy. Write for it.

The Final Choice

When your mind is made up to the necessity for carrying Life Insurance or increasing the protection you already have provided—which Company will you finally choose and why?

The Great-West Life enjoys an ever increasing popularity based on the soundest reasons. It charges exceptionally low rates and pays exceptional profits to policyholders. This is chiefly due to the high rate of interest on its investments, a favorable mortality and low expense rates.

Write for our booklet "Common Questions Briefly Answered" compiled for the information of those wishing to secure the best available in Life Insurance. It will help you in your final choice.

**The Great West Life Assurance Co.**

# The Canadian Banking System

BY JOHN W. WARD

(Continued from last week)

The average amount of current loans in Canada during 1921 was $1,246,018,265, and if the interest charged on these loans averaged 7% it means that the borrowers paid the banks $87,221,278 in interest in 1921. In addition, call and short loans by the banks in Canada averaged $109,542,625, and allowing an interest rate of 6% this business would yield the banks $6,572,557. Loans to municipalities averaged $77,140,465 for the year, which at 6% would yield $4,628,427, while the Provincial government borrowings averaged $12,806,347, which at 6% would bring the banks $768,580. These figures total $99,190,642. In round figures it may be estimated that the people of Canada paid to the banks in interest charges in the year 1921 approximately $100,000,000.

What did the banks pay for the money on which they earned this large amount of interest?

The average of the monthly figures for savings deposits for 1921 was $1,289,347,063. On these deposits the banks paid interest at 3%. This interest, however, is only paid on the minimum monthly balance of each depositor, which means that if money is deposited after the beginning of one month and withdrawn before the end of the next month no interest is allowed. This appreciably reduces the interest paid by the banks, and if the actual rate on the average deposits is calculated at 2¾% this means that the banks in 1921 paid their depositors $35,457,044 for the use of the money which they loaned to the borrowers for approximately $100,000,000. Out of the margin of over sixty-four million dollars, plus their revenue from other sources, such as their foreign business, exchange, interest on securities, etc., the banks, of course, had to meet their operating expenses and provide for any losses they may have sustained. The net profits of the banks, as shown by their respective annual statements, for the 12 months' period nearest to the calendar year 1921, exclusive of the Merchants Bank, amounted to $22,244,022.86. From this the banks paid in dividends to their shareholders $15,297,185.39, leaving $6,946,837.47 to be otherwise disposed of. Details follow:—

**Canadian Bank Profits 1921**

| Bank | Paid-up Capital | Reserves | Profits |
|---|---|---|---|
| Can. Bank of Commerce | $ 15,000,000.00 | $ 15,000,000.00 | $ 3,116,136.72 |
| Dominion Bank | 6,000,000.00 | 7,000,000.00 | 1,125,181.64 |
| Bk. of Hamilton | 5,000,000.00 | 4,850,000.00 | 850,672.12 |
| Bk. of Hochelaga | 4,000,000.00 | 4,000,000.00 | 630,902.39 |
| Home Bank | 1,959,939.20 | 550,000.00 | 275,113.33 |
| Imperial Bank | 7,000,000.00 | 7,500,000.00 | 1,265,838.64 |
| Molsons Bank | 4,000,000.00 | 5,000,000.00 | 752,389.89 |
| Bank of Montreal | 22,000,00.00 | 22,000,000.00 | 3,949,796.58 |

| Total | | $15,297,185.39 |

---

*Reduced to 6 last quarter.

Average rate of dividend on capital, 12.87; on capital and reserve, 6.31.

The balance of the profits was disposed of as follows:—

| | |
|---|---|
| Added to Reserve Funds | $1,319,495.90 |
| Contingencies and Depreciation | 1,183,781.89 |
| Written Off Premises Account | 2,270,000.00 |
| Dominion and Provincial Government Taxes | 1,581,475.01 |
| Officers' Pension Funds | 569,905.33 |
| Officers' Guarantee Funds | 52,500.00 |
| Grants to Universities | 15,000.00 |
| War Memorial | 10,000.00 |
| | $7,002,158.13 |
| Less Reduction in Amount Carried Forward to Profit and Loss | 55,320.66 |
| | $6,946,837.47 |

Note—The figures of the Bank of Montreal are for the year ending October 30, 1921, which was prior to the absorption of the Merchants Bank. In taking over the Merchants Bank the Bank of Montreal increased its paid-up capital to $27,250,000, and its reserve fund to the same figure.

### Loans Create Deposits

An interesting point in connection with banking arises when it is observed that both the deposits and the loans of the banks far exceed the amount of actual money in existence. Taking the figures of June 30, 1922 as, an example, the total amount of bank notes in circulation was $166,085,839, and of Dominion notes $232,748,410, making a total of $398,834,249. On the same date the banks had $60,203,250 of gold, silver and other coin in their possession and in addition there was $9,502,533 of gold coin in the Central Gold Reserve. There is practically no gold money in circulation in Canada at the present time and the silver and copper money in circulation is a relatively small amount. On that date, however, the banks had deposits in Canada amounting to $1,687,162,044, while the loans, including current and call loans in Canada and loans to Provincial governments and municipalities, totalled $1,308,267,220. How, it may be asked, can banks have on deposit and lend to their customers three or four times the amount of money in existence? The explanation is that the banks do not deal so much in money as in credit, and the figures to a large extent represent credits and debits in the books of the banks. Take, for example, a customer who wishes to borrow $1,000. If the banker is willing to give him the accommodation the customer will give his note promising to pay $1,000 three months after date, which the banker will discount at say 8% per annum, placing $980 to the credit of the customer in his books. The bank's deposits are, by this transaction, increased by $980 and its loans by $1,000 without actual money having been used at all. The same thing may be repeated a thousand times and then we have a bank with $980,000 of deposits and $1,000,000 of loans. People will not, of course, borrow money and pay interest upon it in order to leave it lying in the bank, but as long as they use the credit placed at their disposal only by writing cheques, which are deposited by those to whom they are payable, the deposits will not be reduced, although they will be transferred to different accounts and perhaps to different banks.

Taking another case where money is actually used, suppose an employer of labor borrows $1,000 from the bank, which he takes away in cash for the purpose of paying wages. The workmen to whom it is paid will not carry this money in their pockets for many days. Most of it they will spend before the next pay day, paying it to their grocer, butcher and landlord. These, within a very short time, will deposit the money in the bank. What the workman saves he himself will probably deposit, keeping in his pocket and in his house sufficient only to meet his needs until next pay day. Thus the money loaned to the employer quickly returns to the bank to be loaned again. In both of these ways, loans cause deposits and the two items of loans and deposits in the bankers' statements naturally rise and fall together. Free lending by the banks produces large deposits, while the restriction of loans automatically brings about a reduction in deposits. The more the banks lend the more their deposits grow. There is, however, a limit to the extent to which the banks can safely go in expanding their credits and one of the checks is the necessity of keeping their cash reserves and other quick assets up to a certain percentage of their deposits so that they made be always ready to meet any demand that is likely to be made for the withdrawal of funds by depositors.

### No Limit on Interest Rate

Contrary to a somewhat popular impression, there is nothing in the Bank Act which limits the rate of interest which a bank may charge to borrowers. It is true there is a section in the Act which appears to do this, but as a matter of fact it does not and was not intended to do so by Parliament. Section 97 of the Bank Act says:—

"The bank may stipulate for, take, reserve, or exact any rate of interest not exceeding seven per cent. per annum and may receive and take in advance any such rate, but no higher rate of interest shall be recoverable by the bank."

It will be observed that this section, while it authorizes the banks to take discount or interest at a rate not exceeding 7%, does not forbid the taking of a higher rate, but only provides that no higher rate shall be recoverable. As a matter of fact the banks frequently do charge more than 7% and it has been held by the Privy Council, in the case of McHugh vs. Union Bank, that if a borrower pays more than 7% he has no right to recover the excess. The banks, in order to be on the safe side and also because it is more profitable to them, frequently collect interest in advance, that is, they discount the borrower's note, and the borrower then has no redress no matter what rate of interest he may have paid. In justice to the banks it should be said that this section as above quoted was enacted by parliament in 1913 with a full knowledge of its effect, the case above referred to having been decided previously to the last revision of the Bank Act. A discussion took place at that time, both in parliament and in the banking committee, as to the advisability of limiting the rate of interest which a bank might charge to 7%, but the contention was made that to do this would be to prevent many persons, including a large portion of Western farmers, from obtaining credit, and parliament accordingly re-enacted the existing section, well knowing that so far as limiting the rate of interest charged by the banks was concerned it was not worth the paper it was written on.

### Foreign Business

Some of the Canadian banks have branches abroad and the extent of their business is indicated by the following figures:—

| | June 30, 1920 | 1921 | 1922 |
|---|---|---|---|
| Deposits | $360,358,386 | $282,158,779 | $365,770,651 |
| Current Loans and Discounts | 184,328,464 | 150,763,865 | 148,225,105 |
| Call and Short Loans | 193,888,245 | 157,757,835 | 174,613,572 |

Deposits in the branches of the Canadian banks are always larger than the current loans, but when call loans are included loans outside of Canada usually exceed deposits. Call loans abroad consist almost entirely of loans to traders on the New York stock exchange and are made on the security of stocks and bonds, which can be sold if repayment is not made when demanded. The use of Canadian deposits for this purpose is justified by the banks on the ground that being returnable at call the money so invested is practically equivalent to cash in hand.

### The Canadian Bankers' Association

An important factor in the Canadian banking system is the Canadian Bankers' Association. All the chartered banks are members of this body and the council of the association consists of the general managers of all the banks. Through the Bankers' Association the banks are enabled to take concerted action for their mutual interest and to express the viewpoint of the banks upon legislation and other matters affecting banking. The association also has certain duties placed upon it by the Bank Act, these including the appointment of a curator to take charge of the affairs of banks which fail or are suspended, the supervision of the issue of bank notes and the appointment of three of the four trustees of the Central Gold Reserves. The Association also manages the clearing houses established in the principal cities of the Dominion at which the different banks make daily settlements of their accounts with each other. It is through the clearing houses that cheques and other instruments for the tranfer of money drawn upon one bank and cashed by or deposited in another bank reach their proper destination. The banks also receive back their own notes through the clearing house and the balances remaining after the exchange of notes and paper are settled in Dominion notes.

A general revision of the Bank Act takes place every 10 years and when the Dominion Parliament meets early in 1923 this will be one of the chief items of business before our legislators. The present, therefore, is an opportune time for the discussion of the banking question by the public generally, and this booklet has been written with the object of bringing within the reach of all interested a concise statement as to the existing banking system of Canada. It is not the purpose here to express any opinion

# Exclusively Canadian

We take pride in the fact that this is an exclusively Canadian Bank, with every effort concentrated on the development of domestic interests. For forty-five years our organization and capacities have been gradually broadening to cope with the increasing demands of industrious Canada.

Consult our local manager regarding your plans for development.

## Foreign Banking Service at "the Pulse of the West"

The Union Bank of Canada established a branch of its Foreign Department at Head Office, Winnipeg, because of this city's position as the great commercial centre for East and West.

This location and private wire connections between branches in New York, Montreal, Toronto, Winnipeg, and connections with Vancouver, enable us to keep closely in touch with conditions in Canada and abroad.

Through continual operations in the exchange markets of Canada, the United States, Great Britain, and world centres, we are able at all times to handle international exchange at closest possible rates.

THE
**STANDARD BANK**
OF CANADA

for the amendment of the Bank Act. It may fairly be said, however, that in many respects the Canadian banking system compares very favorably with the systems of other countries. In recent years Canada has been comparatively free from bank failures and the Canadian banks deservedly enjoy the confidence of the public as a safe depository for their savings. The financing of commercial and manufacturing enterprises also seems to be satisfactorily accomplished, but it is generally agreed that the present system does not adequately meet the credit needs of the agricultural industry. This is indeed admitted by many bankers, who point out that since the funds which they loan belong to depositors and are practically withdrawable on demand, it is necessary for them to confine their loans to short periods. How the present system can be adapted to meet the requirements of agriculture, or what supplementary institutions must be created, is a problem that awaits solution.

### URGE FUNDING OF DEBTS

#### Canadian Council of Agricutlure Also Asks for Commission to Enquire Into Banking System

The Canadian Council of Agriculture at its annual meeting which closed in Winnipeg on December 6th, passed several resolutions bearing on finance. One of these, relating to the funding of farmers' debts, is as follows:

"Whereas the deflation in Canada following the war affected the price of farm products to a much greater degree than other commodities. which, with the financial collapse in Europe and the considerable measure of crop failure in parts of the western provinces for several years past, has placed many farmers in those provinces under a burden of debt, which it is generally conceded they have no prospect of liquidating in the near future, with the result that the discouragements thus brought upon them are inducing many to abandon their farms and leave the country, and, it is feared, will induce many more to do likewise:

"And whereas it is of the utmost importance that every practical farmer be retained upon his farm, this fact being recognized by the financial and business interests of Canada, as well as by our governments who are giving financial aid and co-operation to various agencies for the purpose of bringing immigrants to this country;

"And whereas the farmers already here, experienced in the agricultural methods of the country, who are rearing their families as citizens of Canada constitute a greater asset to the nation than immigrants who may be brought in from other countries;

"And whereas this council is of opinion that if the principle of funding these obligations over a period of years at a low rate of interest can be applied, it will be the means of retaining the vast majority of these people on their farms.

"Therefore be it resolved that the Council of Agriculture appoint a committee to inquire into this question, bring it to the attention of provincial governments and the chief creditors interested, with a view of securing favorable consideration and action."

#### Banking Inquiry

Favoring the appointment of a royal commission to enquire into the Canadian banking system the following resolution was passed with unanimity:

"(1) Whereas the centralization of control of the banking power of Canada, as evidenced in the decrease in the number of banks in the Dominion—which has declined from 37 in 1902 to 17 in 1922—is not in the best interests of the country, since it places the credit and finances necessary for the successful development of the country in the hands of the comparatively few men who form the directorships of these banks, giving them thereby a power which however carefully used, may not, as a principle, be safely entrusted to them:

"(2) And whereas, the present Bank act confers upon the existing banks the sole right to circulate currency and the right to issue bank notes, which right in some other Anglo-Saxon countries, has been wholly or partially withdrawn.

"3. And whereas it is in the public interest that the greatest possible safeguards should be embodied in legislation looking to the protection of shareholders and depositors and supplying the needs of the public generally in the conduct of banking business;

"4. And whereas banking reform in other countries has frequently been preceded by an impartial and thorough investigation of the whole question;

Therefore, be it resolved that the Canadian Council of Agriculture go on record as favoring the appointment of a royal commission to enquire generally into the whole question of the Canadian banking system in the light of the experience of other Anglo-Saxon countries, with a view to improvements that will protect the public against the dangers of centralization and the power that will inherently develop through the operation of the special privileges enjoyed by the banks; and more particularly that such a commission should enquire into and report upon;

"(a) The advisability of creating one or more banks in Canada, combining the best features of the Commonwealth Bank of Australia and the Federal Reserve banks or the United States.

"(b) Taking out of the hands of the chartered banks the power of issue and confining that power solely to the national banks or to a department of government itself, this to be done in a manner that will give a fair opportunity to existing banks to adjust themselves to new conditions.

"(c) Enquire into the advisability of amending our existing legislation to permit the establishment of small banks with local capital serving local needs.

"(d) To report on the best methods of federal supervision and inspection. That such a commission should be appointed at as early a date a possible and should be composed of three impartial men, one an economist of standing and repute in Canada one a man of banking experience, but without present banking affiliations and one of standing in the commercial life of the country, but not a bank director."

#### Income Tax

Another resolution, receiving unanimous support, asked that "the Dominion Government be requested to amend the Income Tax act to provide for the introduction of an averaging system so that a taxpayer whose income fluctuates from year to year will pay the same amount of income tax in a given number of years as another taxpayer with a fixed annual income totalling the same amount in the same period."

### WANT FARM LOANS SYSTEM

Proposals that New Brunswick adopt a system of provincial loans to farmers arising out of discussions at meetings in the potato growing section of the province which has been more or less severely hit by the depression in the market were urged upon the Provincial Government on December 5 by a delegation headed by Thomas W. Caldwell, M.P., for Carleton-Victoria, and including A. Chas. Fawcett, M.L.A., leader of the Agrarian group in the Provincial Legislature, and most of the United Farmers, members of the house ,and others.

## *Bank Branch Notes*

The Bank of Hamilton has opened its new branch at the Delta, at the junction of King and Main Streets, Hamilton.

The Banque Nationale has opened a branch in the Grande Alle Apartments, Quebec, Que.

The Bank of Hochelaga has purchased the Merchants Bank building on Wellington Street, Sherbrooke, Que. The price is said to be $33,000.

The Bank of Montreal announces the appointments of J. H. Gillard, as chief inspector, with headquarters at Montreal; J. W. Spears, as superintendent of subsidiary branch, Montreal; and of James Anderson, as assistant superintendent of Ontario branches with headquarters at Toronto.

J. C. Anderson has been appointed manager of the Bank of Montreal at Oshawa, replacing H. S. Langford, who has been transferred to Montreal.

### COBALT ORE SHIPMENTS

The following are the shipments of ore from Cobalt Station for the week ended December 15th:—McKinley Darragh Savage, 87,760; O'Brien Mine, 65,760; total, 153,520. The total since January 1st is 17,829,452 pounds or 8,914.7 tons.

### BANQUE D'HOCHELAGA REPORT

#### Profits Slightly Reduced—Deposits Lower Than 1921 But Above 1919

The annual report of the Banque d'Hochelaga for the year ended November 30 shows profits for the period of $604,830, as compared with $630,902 for the previous year and $611,105 in 1919. This represents 115.12 per cent. on the outstanding capital stock of the institution and 7.38 per cent. on the combined capital, reserve and undivided profits.

The balance sheets indicate a decrease of $1,680,667 in total deposits compared with the figures for 1921, but an increase of $3,000,000 over 1919. Cash on hand amounts to $5,933,527 and cash items to $13,895,620, representing 23.45 per cent. of total liabilities to the public. Liquid assets amount to $25,558,895, to which should be added $2,259,121 in short-term loans to municipalities and schools corporations. These liquid assets represent 47 per cent. of the total liabilities to the public.

Current loans in Canada, amounting to $35,137,753 are lower by $4,516,749 than the figures for the 1921 period. Total assets amount to $67,513,053, as compared with $31,800,000 for 1913 and $33,300,000 for 1914. As might be expected after the past year of liquidation total assets are lower than in 1921, the reduction being upwards of $8,000,000.

### HAMILTON BANKERS' INSTITUTE

#### Sir Edmund Walker Emphasizes Need for Education at Inaugural Meeting

Bankers in Hamilton are starting a local institute, an organization meeting having been held on December 14. Officers were chosen as follows: J. P. Bell, president; John Stephen, vice-president; A. R. Lancefield, Royal Bank, treasurer; W. H. Tinsley, Bank of Hamilton, secretary; J. F. Hagarty, Standard Bank; H. I. Polson, Dominion Bank; J. A. McPhail, Bank of Commerce; J. D. Tarlton, Bank of Nova Scotia; H. Babrick, Home Bank; C. H. Ham, Molsons Bank; C. H. Seamens, Imperial Bank; W. D. McMillan, Bank of Montreal, and H. C. Wright, Dominion Bank, councillors.

#### Educational Needs

Sir Edmund Walker, the principal speaker of the evening, said; in reference to education:—

"It is a necessity ,and education will make you better fitted for your positions. Such an organization is in itself a university. Knowledge is an intensely interesting thing, a supreme thing. A noble curiosity about all right and proper things is the greatest asset a man can have. It is the desire of everyone to succeed in life, and every young man has an idea of what he wishes to be. There are comparatively few leaders in the world and the rest of the people are led; everyone has to be one or the other."

"The banking business offers better opportunities for success than in any other walk of life. The number of positions offered is greater, and there is the opportunity for travel and the chance to know men and things and to gain a fine position in society. Banking, however, requires from the men who expect to be leaders a greater amount of general knowledge than any other profession. The country official has to be the advisor of the whole community. A banker is expected to have judgment beyond what is fair to expect of him, and he must realize that no item of knowledge comes amiss.

#### Judged by Success

"By his sucecss under these circumstances is the man judged by the home office. Of all people, it is interesting to note, that 14 or 15 per cent. of all people are sub-normal; 65 per cent. are normal; 25 per cent. have brains which could be of use if they knew how to use them, and there are only two or three per cent. capable of reading both sides of an important issue. I should like to think that the great bulk of the people in the banking business are included in the last 25 per cent.

"The burdens of responsibilities resulting from the war will fall upon all Canadians and most of all upon bankers. This means that if things are to turn out right you must develop courage and leadership. If the institute can turn out two or three better bankers it will have served its purpose. The institute should make life more beautiful and enjoyable, and make the future bankers able to bear the tremendous burden in righting what the war has brought about."

# The Royal Bank of Canada

### AUDITORS' CERTIFICATE

We Report to the Shareholders of The Royal Bank of Canada:

That in our opinion the transactions of the Bank which have come under our notice have been within the powers of the Bank.

That we have checked the cash and verified the securities of the Bank at the Chief Office at 30th November, 1922, as well as at another time, as required by Section 56 of the Bank Act and that we found that they agreed with the entries in the books in regard thereto. We also during the year checked the cash and verified the securities at the principal branches.

That the above Balance Sheet has been compared by us with the books at the Chief Office and with the certified returns from the Branches, and in our opinion is properly drawn up so as to exhibit a true and correct view of the state of the Bank's affairs acccording to the best of our information and the explanations given to us and as shown by the books of the Bank.

That we have obtained all the information and explanations required by us.

S. ROGER MITCHELL, C.A.,
W. GARTH THOMSON, C.A.,
of Marwick, Mitchell and Co.,
JAMES G. ROSS, C.A., of P. S. Ross & Sons.

# Automobile Insurance

By W. T. PERRY

(Retiring President's address at the annual meeting of the Canadian Automobile Underwriters' Association, Ottawa, Nov. 28-29)

The most important matter affecting automobile insurance during the past year was the adoption by the Ontario legislature of statutory conditions, which come into operation as from January 1st, 1923.

Although this form of insurance has been undertaken here for many years, this is the first Act to provide conditions which shall govern the conduct of automobile insurance, and the almost complete absence of friction which has hitherto existed between the insured and the insurer is in itself a compliment to the automobile owners as a class and the companies who have insured the many risks associated with automobiles.

It should be recorded that before the draft of these statutory conditions was presented to the special committee of the legislature, your association took the opportunity of inviting a conference with the Ontario Motor League for the purpose of discussing the various clauses in detail with the result that the representatives of both insurer and the insured were able to report to the committee that the draft, subject to certain provisions mutually agreed upon, had been approved by both parties to the contract.

### Main Provisions

The Act contains only two provisions which need be referred to here. Condition 198d provides that no automobile policy shall be issued until an application has been duly completed and signed by the applicant or his duly authorized agent. This provision is one which every good underwriter will welcome if only for the reason that the declaration called for will enable him to ascertain the past record of the automobile owner whom he is called upon to insure, and thereby avoid a certain percentage of undesirable risks to the ultimate benefit of the careful and desirable policyholder.

So that our members may the better appreciate the views of the automobile owner in regard to this important principle, the association has printed the speech made before the legislative committee by Mr. Thomas Phelan, K.C., and this pamphlet is now in the process of distribution to our members.

Your special attention should also be called to the clause in this Act which reads: "The contract may provide for the exclusion from the risks insured against of losses arising from any hazard or class of hazard expressly stated in the policy," thereby providing freedom of contract between the insured and the insurer as to the extent of the risks to be insured, and we may hope that the principle maintained by this association that policy coverage shall not be controlled or limited by any statutory conditions may not again be challenged.

With the object of assisting the many agents interested in this form of insurance, the association has issued to each agent a copy of the Act, together with a covering memorandum drawing attention to the special provisions of the Act.

### Standard Policy

It may be accepted as a truism that an association of this character is not complete without a standard policy and a draft form will be submitted at this meeting for your consideration. This policy has already been adopted and printed by very many of our members and should be of practical assistance to all concerned.

### Relative Costs

References occur from time to time in the press to the relative cost of various essentials in Canada and the U.S.A. Comparisons made as between prices charged in Toronto and Buffalo are not often to the advantage of the Toronto buyer, and inasmuch as the cost of automobile insurance in Toronto is so very substantially lower than in Buffalo, the following facts are of interest.

The present day total purchase price of five of the most popular makes of cars is $4,268 in Buffalo as compared with $6,763 in Toronto. The total cost of the essential insurance in respect of these five cars, which includes all five classes of coverage, viz., public liability, property damage, collision ($50 deductible), fire and theft, is $895.48 in Buffalo as compared with $514.99 in Toronto. In other words while the Toronto owners pay 58.5 % more than the Buffalo owners as the purchase price of these five cars, the Toronto owners pay 42.5% less for their insurance. It must furthermore be remembered that while the Toronto car owner pays substantially lower premiums than the car owner in Buffalo, the Toronto car owner is insured in respect of fire and theft and collision for amounts which are 58.5% higher than the sums insured in Buffalo. When this phase of the situation is analyzed it is found that the percentage of premiums paid in relation to the purchase price of the car is 7.6% in Toronto as compared with 20.9% in Buffalo.

This very considerable Canadian preference can only be maintained if automobile owners will continue to co-operate with the companies to reduce the number and extent of the claims to the minimum.

### Much Carelessness

There are still far too many total losses by fire on the road, and too many cars left unlocked and unprotected by the roadside. Our association has taken steps to trace out and record, as far as possible, the unduly careless and undesirable owners, so that the careful and desirable policyholder may not suffer on his account.

Realizing that low premiums produce more insurances, no insurance company wishes to charge more than is necessary to provide a safe indemnity with reasonable reserves for contingencies, and with the complete co-operation of the insured along the lines indicated, and the continued valuable assistance of the various police departments, we should be able not only to maintain the existing preference to Canadian automobile owners, but, furthermore, look forward with hope to the possibility, at some future time, of reducing the charges now made.

Our fourth year has been one of consolidation and the improvement of many details. The practice of co-operation and mutual support between the members was never better than during this period, and with the continuance of this excellent spirit the Canadian Automobile Underwriters' Association should be of ever increasing service alike to the companies and the insuring public.

## NORTHERN ASSURANCE

George E. Moberly has retired from the Canadian management of the Northern Assurance and Royal Scottish Insurance Companies, after thirty-two years in connection with the former. He has been granted six months leave, during which time Alexander Hurry will be acting manager. Mr. Hurry commenced his business career with the Northern 25 years ago and rose to the position of claims manager of its casualty department at head office having on the way up acted as inspector of fire as well as casualty departments. He came to Canada three years ago as manager of the Northern's casualty department.

## GREATER CANADA SECURITY CORP.

The initial statement of the Greater Canada Security Corp., Ltd., forwarded to shareholders on December 8, covers the operations of the company from May 1, 1921, to November 30 last, and shows gross revenue of $41,923. After payment of organization and general expenses, there remain net profits of $23,299. From this sum has been deducted $10,452 as a special investment reserve, leaving surplus profits of $12,847. The balance sheet shows surplus assets of $23,345 and total assets of $214,492. Liabilities include subscribed capital, $181,370, advance payment on stock, $9,436, and current accounts $300.

## WINNIPEG LIFE UNDERWRITERS

A meeting of the Winnipeg Life Underwriters' Association was held on December 4. J. T. Hanna, president of the local association, and A. E. Lawson, president of the Dominion association, both addressed the gathering on the necessity of co-operation of all men engaged in the life insurance business in securing an in-

## CANADIAN HAIL UNDERWRITERS

### Rates in Manitoba Will not Be Increased, In Spite of Heavy Losses

The annual convention of the Canadian Hail Underwriters' Association was held in Winnipeg, closing December 5. H. H. Campkin, of Regina, re-elected secretary, announced that hail insurance next year will be written upon the same conditions as it was this year, but that as to rates. "Manitoba hail insurance rates will be the same as this year, regardless of the bad experience of the past two seasons, which have shown a loss of 100 per cent. on the premiums paid.

"The rates in Saskatchewan will be the same as for this year, except in townships 6 and 10 in ranges 1 to 10,W.2, in the southeast part of the province, where there will be a reduction from 8 to 6 per cent. Rates will be reduced in the major part of the province of Alberta from 7 and 8 per cent. to 6 per cent.; and for the remaining parts of the province carrying rates of 8 and 9 per cent., the rates will vary from 7 to 10 per cent.

"In Alberta and Saskatchewan," explained Mr. Campkin, "the hail during this past year was not as severe as in previous seasons; but the underwriting experiences of the year were not sufficient to counteract the unusually severe losses incurred last year."

The association elected the following officers: Chairman, J. O. Miller, Calgary; vice-chairman, A. K. Olive, Regina; secretary, H. H. Campkin, and executive, T. B. Redding, Calgary; H. Andre, Regina; N. C. Byers, Saskatoon, and F. J. L. Harrison and W J. Willcox, of Winnipeg.

### Losses by Provinces

Hail losses paid out in Saskatchewan this year by private companies totalled $973,410, the total premium income being $3,235,250. This gives a loss ratio for the 44 companies, members of the Canadian Hail Underwriters' Association, operating in this province, of 30 per cent. for 1922.

The losses in Manitoba were proportionately much greater, the companies having to pay out $390,608 out of a premium income of $391,176, or 99.85 per cent.

In Alberta the member companies got off even more lightly than in Saskatchewan. In the western province the losses, out of a premium income of $834,045, were only $192,700, or 23.21 per cent.

For the three western prairie provinces an excellent financial showing was made by these companies. The total losses amounted to $1,556,718, while the premium income reached $4,460,471, giving a loss ratio of 34.9 per cent.

## INSURANCE PAYMENT

In the Supreme Court of Ontario presided over by Justice Latchford, an application brought by F. D. Hogg for the payment of $896 to Mrs. George Taylor, wife of the late Senator Taylor, of Gananoque, was granted. The court was informed that Mrs. Taylor was the holder of two mortgages on the land and building of George A. Birtch, of Billings Bridge, which were destroyed in a fire which occurred in September last. As security for the mortgages, Mrs. Taylor held a claim against the fire insurance.

The London Mutual Insurance Company, with headquarters at Toronto, which issued the policies had previously paid their values into court as there were other claims besides that of Mrs. Taylor. Judge Latchford ordered that Mrs. Taylor be allowed to take the amount of her claim out of the money deposited with the court, and that the other parties to satisfy their claims would have to appear separately and prove their claims for the other various amounts alleged to be owing to them.

## CALGARY LIFE UNDERWRITERS

At the Calgary life underwriters' meeting and luncheon held on Dec. 4, Judge W. Roland Winter, of the district court gave an address on "Life Insurance as a Protection and Investment." He said he would endeavor to approach the subject from a layman's point of view and not from that of an insurance expert. He laid special emphasis on the advantage of persons leaving their insurance in the form of an annuity or income, as the large investing departments of the insurance companies were better able to invest their money to advantage than

**Springhill, N.S.** Dec. 16th. Saffron block. Loss $40,000, partly covered by insurance.

**Sudbury, Ont.** Dec. 14th. Home of Walter Covura, Eva street. Loss $4,000.

**Sussex, N.B.** Dec. 14th. Store of Walter S. Fairweather. Main street. Loss $30,000.

**Walsingham, Ont** Dec. 13th. Barn of John Zimmer. Loss $3,000, partly covered by insurance.

## Additional Information Concerning Fires

**Montreal.**—By the fire which broke out on Nov. 30th in the Dentistry and the Veterinary School building of the University of Montreal, 380 St. Hubert St. The following companies are interested: American Equitable $9,750; Canada $19,500; Continental $52,000; Franklin $26,000; Guardian $32,500; Liv. and Lon. and Globe $19,500; Mount Royal $26,000; New Hampshire $13,000; La Nationale $19,500; Queen $9,750; Queensland $19,500; Rochester Und. $26,000; Royal $26,000; Yorkshire $26,000. Total $325,000. Loss about $150,000.

**Mount Dennis, Ont.**—On November 13th. the building belonging to the Electroplax Company Limited was destroyed by fire. The fire, which was caused by electricity, caused damage amounting to $77,000 with insurance of $54,300 in the Pacific Coast, Century, Globe & Rutgers, Employers Liability, Canada Accident & Fire, Patriotic, Palatine, American Equitable, Merchants Fire, Sun Insurance office, Saint Paul, Delaware Underwriters, Queensland, Queen City, British General, Phoenix, Caledonian and Union Insurance Society.

**Oka, Que.**—On the 5th instant a fire broke out in the furnace room of the Rest House or Presbytery of the gentlemen of St. Sulpice and completely destroyed the building; the Church of the Annunciation of the Blessed Virgin adjoining was damaged to the extent of four or five thousand dollars. Insurance as follows: on Presbytery, Phoenix of London $25,000; loss total on Church, Phoenix of London $25,000; Mount Royal $17,500; London Guarantee $10,000; Royal Exchange $10,000; Northern $7,500; Continental $5,000. Total $75,000. Loss about $4,000.

**Terrebonne, Que.**—On the 1st instant a disastrous fire swept the business section, starting in the drying room of Joseph Limoges, wood and lumber merchant. Some seventy buildings are reliably reported to be destroyed, including the Town Hall, about thirty stores, and many dwellings. The insurance involved amounts to a total of about $200,000 of which amount about $120,000 was placed with the following companies: Quebec, London & Lan., Atlas, Continental, Guardian, Mount Royal, British Colonial, Liv. & Lon. & Globe, Nationale, Union of Paris, Phoenix of London and North Brit. and Mer. The remaining $80,000 is stated to be carried by various Mutual Companies. The property loss is reported to be about $350,000. The Town Hall, a solid brick building, valued at $40,000 is stated to be insured for ouly $10,000.

**Vaudreuil, Que.**—On the 6th instant a fire destroyed the large barns on the model farm of Peter A. Wood. Insurance placed by the Bankers Trust Co. as follows: Northern $15,000; Guardian $14,000; Union of Canton $15,000; British Crown $15,000; General of Paris $7,500; Brit. Dominion $7,500; Yangtze $5,000; New Jersey $3,500; Beaver $2,500. Total $85,000. Loss about $45,000; Union of Paris, on contents $5,000.

### HAMILTON LIFE UNDERWRITERS

At the meeting of the Hamilton Life Underwriters' Association on December 13, members went on record as being in favor of the legislation now being enacted in British Columbia to eliminate part-time agents in towns with a population of over 10,000. An attempt will be made to have similar legislation passed in Ontario.

Life Underwriters—Their Duty and Opportunity to Promote Good Citizenship, was the subject of an address delivered by Rev. Dr. Sedgewick, the speaker of the evening.

Committees were appointed to arrange for the big convention of life insurance men of central Ontario, which will be held in Hamilton on January 16 and 17. Prominent speakers from Canada and the United States will address the convention.

### FIRE UNDERWRITERS' MEETING

The Canadian Fire Underwriters' Association held its semi-annual meeting in Montreal, December 12th to 14th.

## Insurance Licenses and Agency Notes

William Cowan has been appointed special agent of the Scottish Union & National Insurance Company for Manitoba, Saskatchewan and Alberta, with an office at 364 Main street, Winnipeg.

Thomas Maston, branch manager of the Imperial Life Assurance Company for Southern Saskatchewan, at Regina, has been transferred to the Toronto office to do special work, and will be succeeded by W. C. Gordon, branch manager of the Northern Saskatchewan branch at Saskatoon.

The Prudential are forming another district in Toronto, District Number 4.Walter A. Hammond, from Winnipeg, is the superintendent appointed to be in charge. The office for District Number 4 is in the Northern Life Building, 615-617 Yonge Street.

The Toronto office of the Provident Assurance Company has been moved from the C.P.R. Building to the Toronto General Trust Building, Bay Street.

### TORONTO LIFE UNDERWRITERS

The Toronto Life Underwriters' Association held its annual meeting on December 15. The election of officers for the ensuing year resulted as follows: Honorary President, William May, Jun.; President, J. J. McSweeney; Vice-Presidents, J. J. Walsh, H. W. Manning, T. W. F. Norton and E. Robinson; Secretary-Treasurer, W. S. Naylor; Executive, S. C. Vinen, Walter F. Smith, T. G. Baker, J. V. Gordon, B. C. Higgins, G. A. German, W. A. Carson, J. F. Perchard, A. Splatt, W. Triggs, W. W. King, H. G. Binet, G. H. Hindman, A. E. Rundle, J. R. Boynton, Chas. Nunemaker, W. V. Parker and Charles Collard.

J. G. Taylor, educational secretary of the national association, announced life congresses to be held at Hamilton, Ottawa, Quebec, St. John, Halifax and London, followed by several in the spring and the national convention in Montreal during the summer.

John A. Tory, manager of the Sun Life Company in Toronto, spoke of the legislation obtained in the interests of insurance men, and said that insofar as Ontario was concerned they were trying to get rid of the part-time men whom he described as parasites feeding on the full-time men. There must also be some guarantee that men who asked for licenses were fit to hold them, while managers should also be put on their honor when they made any recommendations. Mr. Tory pleaded for uniformity in laws. There should be no east or west, no Ontario or British Columbia—in short, sectionalism must be abolished.

The retiring president, Wm. May, Jr., reviewed the work of the association for the year and thanked the retiring officers for the help given him. He said there were unlimited opportunities for the future, and he hoped they would all work together to make the organization even more worth while.

J. J. McSweeney, the new president, expressed gratitude for his election. He made a strong plea for increased membership and a better attendance at the monthly meetings.

### REDUCE INSURANCE RATE

Rating Prince Edward and Victoria Avenue Schools in Windsor, Ont., as best equipped and constructed in Ontario, the Canadian Fire Underwriters Association on December 15 announced that a 10 cent per $100 cut in fire insurance rates for these schools would be made.

### FIRE SUFFERERS' RELIEF

The City Council of Kingston, Ont., on Dec. 5, passed the following resolution:

"That in regard to the relief of the Northern Ontario Fire Sufferers, it is the opinion of this committee that the proposition presented to this city by the Ontario Government will not bring satisfactory results, because if left in the manner it is at present, some municipalities will contribute and others will not, and it is thought advisable that the Ontario Legislature should ascertain the assessment of the Province and strike a rate which will give the one million dollars required. Then pass an act making it compulsory for the municipalities to pay this levy."

## COMMERCIAL FINANCE CORP.

The operations of the Commercial Finance Corporation, Ltd., which has been incorporated in Manitoba with an authorized capital of $200,000 will be conducted from the office of W. M. Hurley, chartered accountant, Winnipeg. "This compauy has been organized for a specific purpose, and the stock has been absorbed privately," Mr. Hurley advises The Monetary Times.

## GRAIN SHIPMENTS INCREASE

November saw a new record established in the movement of Western Canadian grain through the port of Vancouver. Approximately 3,700,000 bushels or considerably more than half of last year's total shipments passed through the Vancouver elevator during the month. December, it is stated, will be another big month for grain shipments, about 4,000,000 bushels being due to move from Vancouver for the United Kingdom and the Orient. Total grain booked and grain shipped of the 1922 crop for the United Kingdom and the Orient now amounts to about 10,000,000 bushels.

## TAKE ON MORE MEN

The Massey-Harris Company of Brantford, Ont., have added between 300 and 350 men to their staff, bringing their present staff up to between 800 and 900 employees. It is reported that the plant has sufficient orders on hand to keep them busy all winter.

## COMPLETE PLANT

It is reported that the Spanish River Pulp and Paper Co., now has 14 machines in operation, five at Sault Ste. Marie, six at Espanola and three at Sturgeon Falls. The company has recently completed the building of an electric generating plant near the Sturgeon Falls mill.

### NEW TRADE OFFICE

L. D. Wilgress, lately attached to the London office, has proceeded to Germany for the purpose of opening a Canadian Trade Commissioner's office at Hamburg. The territory to be assigned at present to this office will include Germany, Russia, and the countries on the eastern shore of the Baltic, Poland and Czecho-Slovakia. The address of the Hamburg Office will be duly published in the Commercial Intelligence Journal as soon as Mr. Wilgress has made the necessary arrangements.

### WORK ON RAIL ORDER

Work on the order of 25,000 tons of 100 pound rails for the Grand Trunk Railway was commenced on December 4 at the British Empire Steel plant at Sydney.

### MANITOBA ACCOUNTANTS

The Chartered Accountants' Students' society of Manitoba held its second annual dinner in Winnipeg on Nov. 23. Brief addresses were delivered by David Young, C. A., president of the institute of Chartered Accountants of Manitoba, and W. A. Henderson, C.A., one of the oldest members of the profession in the west.

### WOOD, GUNDY & CO.

Wood, Gundy and Co. will move their Montreal offices to the ground floor of the large banking premises formerly occupied by the Bank of British North America. These premises are located on St. James Street, in the heart of the financial district, opposite the head office of the Royal Bank of Canada.

# Twelve Months' Trade Figures

## Decline of Approximately $230,000,000 From Last Year—Imports from United States Decline, But Increase from Great Britain—Forty Million Increase in Exports to United Kingdom

There was a further decline in Canada's trade for the twelve months ended October 31, 1922, in comparison with former years, the decline amounting to approximately two hundred and thirty million.

SUMMARY OF THE TRADE OF CANADA

1.—Imports and Exports of Canada by Main Groups

| Main Groups | Twelve Months Ended October 1920 $ | 1921 $ | 1922 $ |
|---|---|---|---|
| IMPORTS FOR CONSUMPTION— | | | |
| Agricultural and Vegetable Products | 286,709,003 | 200,002,502 | 160,351,869 |
| Animal Products | 87,403,685 | 44,256,714 | 46,231,383 |
| Fibres and Textiles | 316,969,012 | 133,309,747 | 154,916,317 |
| Wood and Paper | 55,423,320 | 42,640,042 | 35,100,185 |
| Iron and its Products | 244,460,666 | 151,474,003 | 120,901,813 |
| Non-Ferrous Metals | 61,505,293 | 35,592,555 | 33,619,163 |
| Non-Metallic Minerals | 172,025,954 | 170,044,891 | 116,654,048 |
| Chemical Products | 40,947,421 | 25,509,926 | 25,920,081 |
| Miscellaneous | 74,195,120 | 55,979,772 | 46,533,912 |
| Total Imports | 1,339,639,451 | 859,710,152 | 740,261,771 |
| Dutiable Goods | 887,486,088 | 592,042,272 | 497,716,089 |
| Free Goods | 452,153,366 | 267,667,880 | 242,545,682 |
| Duty Collected | 210,236,382 | 127,481,946 | 130,018,927 |
| EXPORTS (CANADIAN)— | | | |
| Agricultural and Vegetable Products | 405,225,182 | 430,144,252 | 346,063,636 |
| Animal Products | 252,506,597 | 156,568,646 | 135,981,015 |
| Fibres and Textiles | 29,231,556 | 10,072,703 | 6,531,929 |
| Wood and Paper | 282,703,958 | 199,231,463 | 206,709,391 |
| Iron and Its Products | 82,825,354 | 42,737,133 | 38,082,096 |
| Non-Ferrous Metals | 56,283,909 | 31,606,361 | 34,747,516 |
| Non-Metallic Minerals | 41,979,140 | 28,027,979 | 23,058,672 |
| Chemical Products | 22,787,267 | 11,718,778 | 11,467,456 |
| Miscellaneous | 55,277,618 | 16,546,807 | 12,888,799 |
| Total Exports (Canadian) | 1,228,820,581 | 926,654,122 | 815,530,510 |
| Foreign Exports | 34,963,952 | 14,912,313 | 13,609,069 |

2.—Imports from and Exports to United Kingdom and United States

Twelve Months ended October, 1922

| Main Groups | Imports for Consumption. From U.K. | From U.S. | Exports (Canadian) To U.K. | To U.S. |
|---|---|---|---|---|
| Agr. & Veg. Products | 27,420,734 | 75,532,733 | 223,391,164 | 40,545,269 |
| Animal Products | 3,282,574 | 34,804,127 | 64,765,011 | 55,066,835 |
| Fibres & Textiles | 63,248,816 | 68,796,198 | 1,199,110 | 3,218,399 |

### PLAN TO SECURE WIDER MARKETS

An agreement has been drawn up between the Alberta coal operators, in line with their definite campaign to secure wider markets for Alberta coal, and a committee has been appointed to investigate ways and means of developing the coal trade and to present recommendations.

The agreement as drawn up is as follows:

1.—Each commercial coal shall have a registered name.

2.—Each bill of lading shall have inserted in it the name of the district from which it is produced and the name of the grade.

3.—All dealers, whether wholesale or retail, shall show on delivery ticket the trade name of the coal, the name of the district from which it was produced, and the name of the grade, and shall keep a record in his office of the amount of coal purchased and sold of each registered grade name, and of the grade, and to whom it was sold.

4.—All coal advertised for sale shall be advertised under its registered name

## FORDNEY TARIFF TO AID CANADA

### Dominion Forging to Front as Foreign Business Country

That the Fordney-McCumber tariff, recently enacted and put in force by the United States, will, in the long run redound to the advantage of Canada, was the statement made by H. M. Cameron, superintendent of the foreign department of the Royal Bank of Canada, at a meeting of the Border Chamber of Commerce in Windsor recently.

Mr. Cameron took for his subject the export business, and declared that Canada was forging to the front as an exporter of all kinds of commodities, manufactured and raw. He painted a picture of the future of the business of exporting, but cautioned his hearers that other commercial nations, notably the United States and Great Britain, were keen competitors of Canada in the foreign markets of the world, and that the exporters of this country must be on the qui vive if they expected to get their share of this business.

As regards the Fordney-McCumber tariff, Mr. Cameron said that it was entirely too early to judgo as to its results on Canada's foreign trade. It had, however, already hurt business in sime lines, notably cattle and cement, which had been forced to find new markets.

### Will Hurt United States

"But there is no doubt that it will hurt the export trade of the United States in the end," the speaker declared. "Anything that restricts the imports of a country is bound in the end to have a similar effect on its exports. Therefore, I can state it as my belief that the Fordney-McCumber tariff will be a good thing for Canada in the end."

Mr. Cameron pointed out the advantages Canada was enjoying in the British West Indies through the tariff preferential in effect between these countries and Canada. In what might be termed the American West Indies, Haiti, Cuba and Porto Rico, Mr. Cameron said that Canada was obtaining a distinct advantage, and that this trade was growing.

The speaker pointed out that the markets which had been the best in the pre-war period had been declining, due mostly to the fact that foreign currencies had depreciated, but that other markets were opening out and taking the places of those in Europe.

### Japan Good Customer

Japan, Mr. Cameron said, was Canada's fourth largest customer last year. Australia and New Zealand this year, he said, would not be able to buy as much, on account of poor crops the present season. The market in India was somewhat demoralized by the political turmoil there, Mr. Cameron said.

In conclusion, Mr. Cameron warned his hearers that those who wished to go into the export business must be very careful as to packing and the preparation of the proper documents to go with the shipment, particularly when dealing with the South American countries. The banks of Canada, he said, which had begun laying the foundations of a foreign business twenty years ago, when the first foreign branches were established, would be glad to help their customers by furnishing such information.

## NEW PAPER MILL WILL COST TWO MILLION

According to Angus McLean, president of the Bathurst Company, Ltd., Bathurst, N.B., the company's new paper mill will cost $2,000,000

The construction work is beng carried on, Mr. McLean said, by the Bathurst Company, thus permitting of the employment of residents of the town of Bathurst as far as possible. With the completion of their new mill, which Mr. McLean pointed out would give Bathurst the first paper mill in the Maritime Provinces, the Bathurst Company will have an investment representing $10,000,000, including $2,000,000 which has been expended in development of the Nepisiquit Falls water power.

Estimating the employment which will be provided by the Bathurst Company with their expanded plant in operation, Mr. McLean said that, including the pulp and paper and long lumber mills as well as logging operations in both New Brunswick and Quebec, it would be safe to put the figures at 2,500 to 3,000 men for a maximum when at full capacity.

While he said it would be difficult to accurately estimate the quantity of logs to be cut ths fall and winter, because of changing conditions and the fact that the company were carrying over sufficient logs to run them through all 1923 and into the next year, Mr. McLean declared that about fifty million feet of logs and pulpwood would be the minmum annual requirements.

## SALE OF TIMBER LIMITS

The largest sale of timber limits ever held in the Province of Quebec at one time is now being arranged for January by the provincial department of lands and forests. The government has decided to dispose of the Manicouagan River timber limits, situated on that river on the North Shore.

The area of the limits to be sold reaches 2,000 square miles and surrounds limits at present exploited by the Ontario Pulp and Paper Company. The importance of the sale is evidenced by the fact that a deposit of $150,000 will be sought from the successful bidder at the auction sale which will be presided over by Hon. Honore Mercier, Minister of Lands and Forests.

## *Municipal Finance*

**Welland, Ont.**—On December 12 the local Hydro manager made public an audit of the hydro affairs, which was made last July. The audit showed that the local branch, under a previous manager, could not show what had become of over $7,000 worth of electrical appliances such as stoves, heaters, vacuum cleaners and other stock carried by the Hydro.

In addition there were outstanding accounts to the value of $4,635 of which $3,079 had been outstanding for over a year.

**Stamford Township, Ont.** — A report of the work done in the township last year, has just been published by an investigating committee and it is shown that there have been excessive payments to contractors running into high figures. It is claimed that the tender prices were nearly always exceeded when payments were made. The accounts, it is claimed, were all paid on the authority of the engineer. Debentures were sold, it is alleged, for 1,500 more feet of water mains than were actually constructed.

**Lethbridge, Alta.**—Tax collections for the eleven months of this year have totalled $421,478 as against $423,162 for the same period last year.

**Courtenay, B.C.**—At a meeting of the council on November 24, the financial statement was presented. The receipts and expenditures to October 31, covering the operating accounts, not including schools, show a surplus of $7,181.

**Hamilton, Ont.**—Tax collections for the period ended December 12, totalled $4,667,158. Water rates collected totalled $598,127.

**Winnipeg, Man.**—The city has collected more than 90 per cent. of its total tax levy for 1922, R. W. Brown, city tax collector, announced on December 7. At this time last year $8,869,203 had been paid into the city treasury, showing a lead of $181,188 for this year.

**Victoria, B.C.**—At a meeting of the city council on December 11 the city auditors presented recommendations for the reorganization of the various civic departments. The statement was as follows:

"As regards the waterworks department it will be seen that we are recommending a complete set of books to be kept by that department. It is an entire business of itself, and we are strongly of the opinion that this is the system to adopt. At present the department only keeps the consumers' accounts, certain other books being kept in the treasury department. Records of total expenditures and cash turned in to the treasury will, of course, be continued, to be kept by the comptroller.

"A proper balance sheet and revenue account of the waterworks will then be produced from these books at the end of the year. This change should take effect on the first of January.

"Regarding the land department, the recommendations, if approved, would probably require the transfer of one man from the treasury department to the land department.

"We also beg to submit certain other recommendations prepared in the form of instructions to departments concerned, which, if approved, would become effective at the first of January, 1923. These principally concern the expenditures of the city, changing the system from the present method of charging expenditure when paid to one of charging such expenditures when incurred, the principal objects of the proposed changes being as follows:

"(a) The comptroller before approving requisitions ascertains that they are within the estimates.

"(b) The general ledger shows at a glance how each department's expenditures compares with its appropiation.

"(c) A closer check is obtained on accounts before they are paid, and payment is only made once a month, unless discount can be made by an earlier payment.

"(d) An accounts payable ledger is kept, showing at any time the current liabilities of the city to persons with whom they are dealing.

"(e) They would be run on a revenue basis, thus facilitating the preparation of annual accounts.

"In our opinion," the auditors add, "it would be most advantageous for the office of the purchasing agent to be in close proximity to that of the comptroller."

# Canada's Net Debt Shows Large Increase

### November Statement Shows Twenty-one Million Increase in Net Debt—Interest Payments on Public Debt Responsible for Increase — Revenue Shows Slight Increase Over October and Also Over Last Year

The outstanding feature of the November statement of the finances of the Dominion of Canada is the large increase in the net debt amounting to over twenty-one million dollars, in comparison with the previous month. The November increase in the net debt is, however, eighteen million lower than the increase during the same month last year. The increase in the net debt is due to heavy interest payments on the public debt.

The total amount of revenue collected during the month shows a slight increase of approximately one million dollars, in comparison with the previous month, This year's total is also higher than last year, being up by four million. The largest increase in revenue producers in comparison with last year is that of inland revenue which shows an increase of four million over 1921. The other large increase is that of customs, which is up by two million. Only three items show a decrease from 1921, these being business profits tax, income tax, and other war tax revenue.

Expenditures during November have increased by about thirty-six million over October, due to the payments on the public debt. This included Victory Loan interest, etc. In comparison with last year expenditures are slightly lower, being down by eight million.

The November statement with comparisons is given herewith:—

STATEMENT

OF THE PUBLIC DEBT AND THE REVENUE AND EXPENDITURE of the Dominion of Canada, as by Returns furnished to the Finance Department to the night of the 30th November, 1921 and 1922.

## RECORD SALMON PACK

### Has Been Exceeded Only On Four Occasions Since Past Twenty-Six Years

Valued at $11,500,000 the 1922 British Columbia salmon pack aggregates 1,290,326 cases. It has been exceeded on only four occasions, since statistics have been compiled, during the past 26 years and the most recent was in 1919, when the total was 1,339,156 cases.

The sockeye contributed 299,614 cases, larger than the previous year, and of this 48,744 cases were packed by Fraser River canneries. This is the largest sockeye pack on the Fraser during five years, and is nearly three times that of 1918. It is explained that the famous salmon stream has now reached a stage where it is becoming unprofitable for American packers with expensive traps and costly plants on Puget Sound to operate, although British Columbia canners can carry on and make a profit.

### Need Big Runs.

The large Washington plants, it is stated, are profitable where there are big runs; but, as has been happening in recent years, when the salmon return in small numbers, only the small canners are able to make money. The result is that a larger proportion than formerly of the sockeye are caught by the Fraser River fishermen.

River Inlet and the Skeena River add 60,700 and 100,667 cases to the sockeye total, and a comparison would indicate 1922 was an ordinary and not an exceptional year for those waters.

The large figures, however, came from the less expensive varieties of salmon. The chums contributed 258,204 cases, the pinks 581,979, of which 301,655 came from the Skeena River; and the cohoes 102,845. More than three times the quantity of chums and pinks were packed this year than in 1921.

### Skeena River Record

As far as the Skeena River is concerned, 1922 is a record, and its total of 482,305 cases, comprising all varieties, has never been exceeded during the past twenty-six years.

The Fraser River's total of 137,482 cases is a long way from the records of 1905 and 1897, when 877,136 and 860,459 cases of salmon, mostly sockeye, were packed.

### Japanese Opposition

Other than about 20,000 cases of chums and a quantity of pinks, the bulk of this year's pack of cheaper grades has been sold. Approximately 60 per cent of the sockeye pack has been sold, and the percentage would have been higher had it not been for the keen competition encountered by the British Columbia canners in the English market from Japanese packers selling Siberian salmon.

France has absorbed much of the chums and pinks, and British Columbia salmon has been sold to purchasers in Australia, Africa and Mediterranean countries; in fact, the market has been world-wide. The demand from China and Japan did not affect the market to any extent, as the inhabitants of these countries prefer a more oily fish.

### Approximate Values

Approximate valuation for the various species is as follows: Sockeye, $5,100,000; springs, $397,000; blue backs, $98,000; steelheads, $12,000; cohoes, $850,000; pinks, $3,500,000; chums, $1,400,000.

# *Government and Municipal Bonds*

There was a further improvement in the tone of the bond market during the past week, practically the entire list showing a noticeable advance in price. This upward movement of the market was, of course, due to the recent Ontario loan, the one "tonic" which was required to lift the market out of the rut which it had been following for some time.

That the market is in a receptive mood may be taken from the announcement that in addition to the original five million loan the province of Ontario has sold an additional ten million to the syndicate which purchased the original flotation, and it is rumored that a total in the neighborhood of twenty million may be sold before the end of this week. The bonds are being offered at 101 and accrued interest to yield the investor approximately 5.42 per cent.

With the impetus given to the market the outlook appears to ve very favorable as many municipalities have held back their offerings until such time as the market showed a decided improvement. It is not anticipated that these offerings will be made until after the new year.

### Dominion Financing

Just what are the intentions of Hon. W. S. Fielding regarding the floating of a Dominion loan are not known at the present time although in a report from Ottawa it is stated that indications are against a popular domestic loan or other fiancing by way of loan, at least until well after the new year. In his budget speech last spring, Hon. W. S. Fielding foreshadowed a loan of this character and intimated that if conditions appeared propitious it would be of a domestic character subscribed as were the Victory loans. The revenues meanwhile have been considerably higher than was estimated and if they are maintained at the present rate no additional financing will be called for immediately. The lessened demands of the Canadian National Railway System is one of the favorable factors.

Further controversy on this subject is shown in a dispatch credited to Ottawa appearing in the Wall Street Journal which states, that the Dominion Government will float a loan of not less than $150,000,000 in New York to meet the deficits of the National railways. The proposed domestic loan of $100,000,000 will not be carried through. The dispatch says that negotiations for the railway loan will be started on the return from Europe of Mr. Fielding.

### Tenders Invited

The following is a list of debentures offered for sale, particulars of which are given in this or previous issues:—

| Borrower | Amount | Tenders close |
|---|---|---|
| Montreal South, Que. | $20,000 | Jan. 18 |
| Chateauguay-Basin-Que. | 5,000 | Jan. 2 |

**Chateauguay-Basin, Que.**—Tenders will be received up to January 2, 1923 for the purchase of $5,000, 6 per cent., school debentures redeemable December 1, 1942. Principal payable semi-annually at Chateauguay-Basin. J. G. Wright, secretary-treasurer.

### Coming Issues

**Middlesex County, Ont.**—Two by-laws authorizing the borrowing of $119,000 were pasesd by the council on December 5.

**Owen Sound, Ont.**—On January 1 the ratepayers will vote on a by-law authorizing the issuing of $16,000, 5½ per cent., 15-instalment debentures for the purchase of fire equipment.

**Kitchener, Ont.**—At a meeting of the council on December 4, they gave two readings to the $70,000 by-law for the purchase of he Waterloo-Wellington railway.

**Quebec, Que.**—The city council decided to issue $50,000 debentures for widening St. John street.

**Riverside, Ont.**— On January 1, the ratepayers will vote on the following by-laws: $8,000; 6 per cent., 10-instalment debentures for installing fire hydrants; $21,420 debentures in connection with the joint filtration plant; $695 debentures for the purchase of a site for a general hospital; $33,000, 6 per cent., 30-instalment debentures for the purchase of the water plant formerly owned by the Eu Clair Water Works Co.

**Peterborough, Ont.**—On December 30, the ratepayers will vote on a by-law authorizing the issuing of $3,000, 5½ per cent., 30-year debentures for the purchase of land for a public park.

**Guelph, Ont.**—The by-law for the issuance of $25,000 debentures for a new grand stand at the exhibition grounds was passed by the ratepayers.

**Sandwich, Ont.**—On January 1, the ratepayers will vote on the following by-laws; $61,200 debentures in connection with the joint filtration plant; and $1,800 debentures for the purchase of a site for a general hospital.

**Saskatchewan,**—The following is a list of authorizations granted by the Local Government Board from November 18 to December 2, 1922:—

School Districts: Ifield, $1,500, not exceeding 8 per cent., 10-years annuity; Kensington Lake, $600, not exceeding 8 per cent., 5-years.

Rural Telephones: Not exceeding 8 per cent., 15-years annuity: Willow Heights, $1,200; Ituna, $750; Mervin, $1,900; Unity, $13,000; Sheil River, $9,600.

**Ford City, Ont.**—On January 1, the ratepayers will vote on a by-law authorizing the issuing of $71,140 debentures in connection with the joint filtration plant.

**Etobicoke Township, Ont.**—The humber Bay school board have requested the township council to issue $116,000 debentures to cover the cost of erecting a new school.

**Paris, Ont.**—A by-law will be voted upon by the property owners at the January elections for $75,000 to erect a new high school.

**Montreal, Que.**—The parish of Sacre-Coeur de Jesus, Montreal is asking the provincial legislature for permission to borrow $200,000 for the reconstruction of that church.

**Sandwich W. Township, Ont.**—On January 1, the ratepayers will vote on the following bylaws: $204 debentures for the purchase of a site for a general hospital; and $55,850 debenture in connection with the joint filtration plant.

**Hamilton, Ont**—At the municipal election the ratepayers will be asked to vote on three debentures by-laws, as follows: $300,000, 5½ per cent., 20-instalment debentures for additions to the city hall; $125,000, 5½ per cent., 20-instalment debentures for extensions to th ecity hospital; and $90,000, 5½ per cent., 10-instalment debentures for improvements to the market.

**Point Edward, Ont.**—On January 1, the ratepayers will vote on a by-law authorizing the issuing of $7,000, 6 per cent., 20-annual instalment debentures for the installation of water meters.

**Verdun, Que.**—The Protestant School trustees have requested the provincial legislature to grant permission to them to float a loan of approximately $200.000.

**London, Ont.**—On December 4, the ratepayers passed the $25,000 debenture by-law for a new grand stand, and the $55,000 debenture by-law for fire purposes was defeated.

**Cornwall, Ont.**—At a meeting of the council on December 4, they gave first an dsecond readings to a by-law for the raising of $100,000 for school extensions.

**Chatham, Ont.**—The board of education has decided to request the city council to issue debentures for approximately $97,000 for the purchase of property.

**Montreal, Que.**—At a meeting of the private bills committee of the provincial legislature on December 6, the committee reconsidered the clause killed on December 5, regarding the floating of a loan for four millions for working capital, the money to be spent in construcing sidewalks, streets, sewers, etc., and repaid by proprietors over a period of years. It was explained that this would not increase the debt of the city, but would save money in interest. The committee decided to revoke its decision and passed the clause.

**Brantford, Ont.**—Three by-laws will be submitted to the ratepayers in January next, the city council adding one recently to the two previously decided upon. The by-laws are all for issuance of debentures. One is for $124,000 for additional funds to build a new Lorne bridge, to cost $325,000 in all; one for $85,000 for an extension to the collegiate institute to do away with use of two parish halls in different parts of the city, and $45,000 for a new public school in West Brantford.

**Frontenac County, Ont.**—The county council recently passed a by-law authorizing the issuing of $98,699 debentures for road construction.

### Bond Sales

**Mimico, Ont.**—Murray & Co., were the successful bidder for the $67,500, 5½ per cent., 10-annual instalment, and $41,000, 5½ per cent., 30-annual instalment debentures, paying a price of 96.09, which means an approximate cost to the town of 6.07 per cent. Tenders were as follows: Murray & Co. 96.09; C. H. Burgess & Co., 95.81; Gairdner, Clarke & Co., 95.61; Bell, Gouinlock & Co., 95.51; McLeod, Young, Weir & Co., 93.92, and Canada Bond Corp., 92.14.

**Aurora, Ont.**—A Jarvis & Co., have purchased $19,900, 5½ per cent., 20-instalment local improvement debentures at a price of 98.61, the money costing the town approximately 5.66 per cent. Tenders were as follows:

| | |
|---|---|
| A. Jarvis & Co. | 98.61 |
| Dyment, Anderson & Co. | 98.17 |
| Gairdner, Clarke & Co. | 97.53 |
| Nesbitt, Thompson & Co. | 97.37 |
| Harris, Forbes & Co. | 97.19 |
| C. H. Burgess & Co. | 97.09 |
| Macneill, Graham & Co. | 97.07 |
| Housser, Wood & Co. | 97.07 |
| Dominion Securities Corp. | 96.47 |
| R. C. Matthews & Co. | 96.35 |
| Canada Bond Corp. | 96.26 |
| Municipal Bankers Corp. | 96.21 |
| Canadian Debentures Corp. | 96.17 |
| A. E Ames & Co. | 96.03 |
| Wood, Gundy & Co. | 95.52 |

**Nelson, B.C.**—An issue of $15,000, 5½ per cent., 20-year electric light debentures has been sold locally at par.

**Brantford, Ont**—Macneill, Graham & Co. were the successful bidder for the $97,500, 5½ per cent., debentures maturing in 15 annual instalments of $6,500 each from December 15, 1933 to December 15, 1947, paying a price of 99.53, which means an approximate cost to the city of 5.55 per cent. Tenders were as follows:

| | |
|---|---|
| Macneill, Graham & Co. | 99.53 |
| McLeod, Young, Weir & Co. | 99.51 |
| R. C. Matthews & Co. | 99.445 |
| Gairdner, Clarke & Co. | 99.37 |
| Wood, Gundy & Co. | 99.34 |
| National City Co. | 99.31 |
| Dyment, Anderson & Co. | 99.148 |
| C. H. Burgess & Co. | 99.04 |
| Dom. Securities Corp. | 99.03 |
| Nesbitt, Thompson & Co. | 98.72 |
| R. A. Daly & Co. | 98.66 |
| Harris, Forbes & Co. | 98.59 |
| Canada Bond Corp. | 98.29 |
| A. Jarvis & Co. | 98.17 |
| Housser, Wood & Co. | 98.12 |
| W. A. Mackenzie & Co. | 98.07 |
| A. E. Ames & Co. | 97.89 |
| Municipal Bankers Corp. | 96.65 |

**Ontario.**—In addition to the $5,000,000, 5½ per cent., 20-year debentures purchased last week by a syndicate composed of Wood, Gundy & Co., A. Jarvis & Co., and A. E. Ames & Co., the syndicate have purchased an additional $10,000,000 of the bonds. It is stated that all these have been disposed of.

**South Vancouver, B. C.**—W. G. Riley, city clerk, advises that the municipality has sold to the Canada Bond Corporation a serial issue of $776,000 20 to 24 year 5 per cent. debentures and a serial issue of $670,000 20 to 24 year 5 per cent. debentures, both sales subject to an agreement and by-laws to be voted on on January 13th and passed by three-fifths of the rate payers.

The price, it is reported, is 86.05 and interest for the first and 87.328 and interest for the second issue.

## INSURANCE COMPANY REGULATIONS

Arthur Browning, Board of Trade Building, Montreal, has prepared a new table showing "Annual Requirements to be Complied With by Fire Insurance Companies in Canada, Operating Under Dominion Licenses." The regulations of the Dominion and provincial governments are set forth in tabulated form on a card, sold at 50 cents per copy.

## GENERAL ACCOUNTANTS' ASSOCIATION

Following the first three of its series of lectures, which included talks on Company Accounts and the Law of Contract, the General Accountants' Association Toronto, was addressed on November 23 by P. McIntosh, of Shaw's Correspondence School, on Bills of Exchange, on December 7 by I. A. Rumble, also of Shaw's Schools and on December 21 by W. S. Ferguson, C. A.

## WEIL, ROTH & CO.

Weil, Roth & Co. announce that on and after January 1st, 1923, the name of the firm will be changed to Weil, Roth & Irving Co. They will also move to new quarters on the second floor of the Dixie Terminal Building, Cincinnati, Ohio.

WE shall be pleased to quote you for the purchase or sale of Government and Municipal Bonds and high grade Corporation Securities.

## SEVERAL NEW ELEVATORS

### Construction Will Start This Year on Additions

The N. Bawlf Grain Co., Ltd., of Winnipeg, is to build a 2,000,000 bushel capacity elevator on the bay front, Port Arthur. The first unit, consisting of the workhouse and bins with a capacity of 1,000,000 bushels, is to be ready for next year's crop, and the second unit is to be ready in 1924.

The Bole Company, who at present are operating largely from Winnipeg headquarters, have completed the purchase of a site from N. M. Paterson interests and will build an elevator in the west end of Fort William, the capacity of which has not been announced.

Exclusive of the Bole elevator, prospective construction it is expected, will increase storage capacity 5,000,000 bushels, with an additional 10,000,000 certain for 1924.

The W. D. Staples elevator is to have sufficient bin space for 1,000,000 bushels; the Stewart elevator 2,000,000 and the Parrish & Heimbecker annex 1,000,000 bushels.

## MANITOBA TELEPHONES.

"If Manitoba should be favored with another good crop in 1923, and the price of grain improves, I foresee an even better year ahead of the telephone system than we enjoyed in 1922," declared Commissioner John E. Lowry on December 1, in commenting on the past year's operations, which would net the system a surplus of more than $30,000. "Rehabilitation of the Manitoba government telephone system is one year ahead of the 19-21 schedule," Mr. Lowry said.

## RELINING FURNACES

On November 29 the Algoma Steel Co. of Sault Ste. Marie engaged men to reline the blast furnaces, and from these indications it is anticipated that there will be an early resumption of activities at the steel plant, which was closed some months ago. Coal, which was short at that time owing to the strike, has since arrived, and there is now plenty of it.

The date of re-opening the mills was supposed to be about February first, but recent developments are taken to indicate an almost immediate resumption.

## MIDDLESEX INVESTMENT CO.

The Middlesex Investment Company, Ltd., incorporated recently under an Ontario charter with authorized capital of $5,000, was organized for private interests, and will be operated as a holding company, states Lawrence Macfarland, K.C., of Montreal, who is one of the provisional directors.

## LISTOWEL FACTORIES BUSY

Every factory in Listowel, Ont., on November 30 was again in full swing. The piano factory has been sold recently and several prominent citizens are taking over the chair factory. These factories have been idle for some time. The Malcolm furniture factory, which has been running practically without a break since before the war is employing a large number of hands and employees are working overtime at present. It is hardly likely there will be any unemployed in the town this spring, and, indeed, with the piano and chair factories again in operation, the problem may be how to get enough hands for the work.

# Stock Markets

Although the Canadian stock markets moved forward under strong leadership during the previous week and also during the first part of the past week, there was a falling off in the volume of business and a weaker tone marked the trading in the latter part of the week under review. The market is beginning to slide back to its former place, that of inactivity, which was so pronounced during the summer and fall months, but in view of the Christmas holidays approaching it is only natural that there should be a slowing up in the trading.

The utility group were the market leaders from the point of activity, Toronto Railway, Barcelona, Mackay, Winnipeg Railway pfd., Brazilian, etc., being the heaviest traded in and enjoying a further advance in price. Practically all these securities are being purchased by investors in the hope of increased dividends.

### Abitibi Active

Activity in the paper group and more particularly Abitibi was one of the bright spots of the week, Abitibi making a new high of 69 during the latter part of the week. Trading in Abitibi had been carried on by the feeling that a bonus or an increase in the dividend rate was about to be declared by the board of directors. Hopes of the increased dividend were however dashed to earth when at a meeting of the board of directors on December 18 they declared the regular quarterly dividend of one per cent., on the common stock, payable January 20 to shareholders of record January 10. This announcement did not reach the Street until after the closing of the market, but in the following day Abitibi developed a weak turn and closed at 66½ a decline of 2½ points from its former high.

For the first time since March 4, 1920 trading in Canadian Rubber took place on the Montreal exchange on December 14, when 30 shares changed hands at 135, an increase of 35 points over previous sales.

### Stock Offering

An offering of $250,000 7 per cent., cumulative preferred stock of The Auditorium Limited, Ottawa, is being made by the company. The preferred stock is being sold at par, $100, and with each three shares of preferred stock there is a bonus of one share of fully paid-up common stock.

The capitalization of the company is $500,000, divided into $300,000, 7 per cent., preferred stock, and $200,000 of common stock.

The company is incorporated for the purpose of building and operating a large fireproof auditorium in Ottawa with 5,600 reserved seats, 2,500 general admission seats and ample standing room accommodation for 1,500. Provision is also being made so that galleries can be added later to seat 3,000 more.

The directors of the company are as follows: Frank Ahearn, president, Wallace Realty Co.; Major Fred Burpee, manager, Ottawa Electric Railway and Wm. H. McIntyre, general manager of the Ottawa Car Manufacturing Co.

### Camaguey Electric Co.

J. C. Mackintosh & Co., of Halifax are offering $1,500,000, 6½ per cent., first mortgage sinking fund gold bonds, series "A", of the Camaguey Electric Co., at a price of $100 and accrued interest to yield 6.5 per cent.

The bonds are dated October 1, 1922 and are due October 1, 1952. They are callable at the option of the company on three months' notice, at 107.5 and accrued interest till 1932; at 105 and accrued interest thereafter till 1942; and at 102.5 and accrued interest thereafter until maturity. The bonds are payable semi-annually at Montreal, New York, Havana, Cuba, or at London, England.

The capitalization of the company is $2,000,000 common shares, all of which have been issued; $1,500,000, 7 per cent., cumulative preferred shares, all of which have been issued; and $1,500,000; 6½ per cent., first mortgage bonds, the above issue.

The Camaguey Electric Co. is being incorporated under the laws of Cuba to acquire the property and undertakings of the Camaguey Electric Co. Ltd., and the Camaguey Tramway Co. Ltd., which were organized in 1906 and have been in successful operation for the past sixteen years in the city of Camaguey, Cuba.

### Arctic Ice Co.

An offering of part of $40,000, 7 per cent., cumulative preferred shares of the Arctic Ice Co., Ltd., Winnipeg, is being made by Strang & Snowden of Winnipeg at a price of $90 and accrued interest to yield 7.8 per cent. The price includes a special bonus of 10 per cent., of ordinary shares. The par value of the preferred stock is $100.

The company owns and operates seven plants in Winnipeg and suburbs for the manufacture, sale and distribution of ice, both natural and artificial.

### Capital Decreased.

Authority has been granted to the Dominion Fire Brick & Clay Products, Ltd., to reduce the capital stock from $500,000 to $409,400 by the cancellation of 906 issued shares at a value of $100 each.

The Atlantic Steamship Co. Ltd., has been granted authority to decrease the capital stock from 2,000 shares without nominal or par value to 1,000 shares without nominal or par value.

## H. L. COOMBS CO. ASSIGNS

The H. L. Coombs Company, Limited, which has been doing a general brokerage business in Montreal, for some years, has made a voluntary assignment to Alex. Burnett, authorized trustee. The liabilities are understood to be comparatively small. This company was financially associated with the flotation of a radio instrument which is understood to have been unsuccessful.

## BROMPTON RECOMMENDED.

In a recent letter regarding Brompton Pulp and Paper, O'Brien and Williams, members Montreal Stock Exchange, say:

"We are inclined to think that if our clients buy Brompton, and put it away for a few months, they will make money.

"Most of the paper companies are now paying dividends and, to some extent, the cream is off, as dividend increases are rather remote and there is, therefore, not much to look forward to.

"Brompton got itself in rather a top-heavy financial condition two years ago and ran into a very extreme period of dullness for all its products, except newsprint. For the last few months there has been a marked improvement in the Company's business and there seems every reason to think that this improvement will continue. The recent earnings have been the highest in over a year and a half.

"It will take some time for the company to get to the point where dividends can be considered, and we are inclined to think that it is a good idea to purchase the stock before it has immediate dividend possibilities. Much of the money made in the stock market is made by buying stocks which are not especially popular, but which have possibilities for dividends and a greatly improved position. In other words, in the case of Brompton, there is something to look forward to.

"Some time ago, R. O. Sweezy, C.E., who is one of the best known authorities in Canada on paper concerns, made an exhaustive report upon the Brompton Company, and gave the Company's plant and properties a valuation which figured out over $200 a share on the common stock."

## SECURITY PRICES

The following table compiled by Professor H. Michell of McMaster University, Toronto, shows the average market prices ruling at the middle of December of 20 bonds and 43 stocks, arranged according to the usual investment classification and fields of industry. In the second and third columns of the table are shown the percentage increases or decreases on December 15, as compared with November 15 of this year, and with the same month of 1921. By this method both long and short fluctuations can be measured.

Bonds

| | Aver. | P.C. + or — as compared with | |
|---|---|---|---|
| | Dec. 15 1922 | Nov. 15 1922 | Dec. 15 1921 |
| 6 Victory ....... | 101.8 | +0.4 | +2.3 |
| 9 Industrials .... | 96.5 | .. | +5.4 |
| 5 Public util's ... | 87.4 | —2.9 | +5.5 |
| Stocks. | | | |
| 20 Industrials .... | 91.9 | +1.7 | +18.5 |
| 9 Public util's ... | 95.4 | +2.0 | +10.3 |

| 8 Banks ........ | 186.8 | +0.8 | — 1.9 |

# Unlisted Securities

In their report issued on the unlisted market, A. J. Pattison Jr. & Co. say that prices resumed their upward course in a market practically lacking in public interest. In the list of more active unlisted securities, there was not a single case of a reduced quotation—every change being higher. This is very unusual, considering the fact that there was little or no demand, but the small amount there was came into a market practically bare of offerings. The market appears to be in a most healthy condition, and will, from all appearances move to considerably higher levels after the new year.

The Oil Stocks were dull at practically unchanged figures—Imperial holding at 112½-114½, and International Petroleum at 20¼-21¼. Western Assurance was slightly stronger at ⅞, stock changing hands between these figures. King Edward Hotel Bonds gained ¾ of a point to 83¾-84¾. The demand for Dominion Power Common continues at slightly improved figures, the market moving to 26¾-8, on few transactions. Famous Players Preferred is in much demand at 63, but holders do not appear to be inclined to accept this figure. Offerings of Algoma Steel 5's remain as low as 40, without creating interest. Nova Scotia Steel 6% Debentures were slightly firmer in a narrower market, being offered at 88½ with the best bid at 86½. Durant Motors were most active, gaining one point to 10½-11½, with many inquiries in the market between these figures, which were unfilled at the close. Sterling Bank gained ¾ of a point to 102¾-4, without changing hands. Manufacturers Life gained slightly to 45½ bid, but no stock was forthcoming even at this new high figure.

## ORDERS FROM BROKERS' CUSTOMERS

### C.P.R. Stock Sold on Margin.—B.C. Supreme Court Deals With Question of Legality.

In the trial of the action by Mrs. Elizabeth Aikman against Burdick Bros., Limited and J. A. Aikman, before Justice Morrison in the B.C. Supreme Court on October 26th, evidence of an interesting sort was given which dealt with the custom of stock brokers in handling accounts in the name of one person although opened by another.

The plaintiff sued for the return of moneys which she alleged she entrusted to Mr. Aikman, her former husband, for investment through Burdick Brothers in Canadian Pacific Railway stock. Mrs. Aikman testified that she gave Mr. Aikman $1,000 of her own money, and that he invested it in C.P.R. stock on margin. Some months later, when she had become separated from her husband, she gave the stock broker orders to sell; and then found that the stock had been sold some time before on the order of Mr. Aikman.

### "Illegal" Said Defence

An unusual turn was given to the trial when W. J. Taylor, K.C., acting for Mr. Aikman, moved for dismissal, at the close of the case for the plaintiff, on the grounds that, by the plaintiff's own evidence, the transaction was a speculation in the rise and fall of stocks on margin, and as such was illegal under the Criminal Code of Canada.

Oscar C. Bass, appearing for the plaintiff, had intimated in his opening that on the part of Mr. Aikman the defence would be that the money was his, being the proceeds of a sale of his furniture by the plaintiff.

Ernest Miller, who appeared for Messrs. Burdick Brothers, based his defence on the theory that Mr. Aikman was acting as the accredited agent of the plaintiff, the parties to the action being at that time on good terms.

Mr. Rowe, manager of the stock department of the defendant company, said that Mr. Aikman was the only person dealt with in the transaction involved. It was the custom of the brokerage houses, said witness, to look to the person who brought in an order to protect the stock purchased on margin. While the order had been first of all entered in the name of Mrs. Aikman, the defendants had always regarded Mr. Aikman as her agent; and had consequently honored his order to sell the stock.

The plaintiff laid claim for the difference in value of fifty shares of C.P.R. stock on the date of actual sale and on that when she gave the belated order to sell, which difference she alleged amounts to $5,000.

## THE FREIGHT CAR SUPPLY

### Railway Association Requests Shippers to Utilize Cars More Fully and Promptly.

The Railway Association of Canada has issued a circular respecting the present shortage of cars. It reads in part as follows:—

"The attention of Executives in all Canadian concerns interested in shipping or receiving shipments of goods without undue delay, is drawn to the reasons for the increasing car shortage, the effect on this situation of the recent coal and railway strikes in the United States and the growing necessity for public co-operation to offset the difficulty.

"In the first place, the improvement in business conditions has increased the demand for cars.

"Secondly, the railway strike has so hampered rail operations in the United States that Canadian cars entering that country are only with difficulty being recovered. At the present time there are approximately 24,000 more Canadian box cars in the United States than United States cars of a similar class in Canada.

"And third, in addition to this factor of impaired railway service, the recent termination of the coal strike throws on the American railways a suddenly increased demand for cars and motive-power to move accumulated orders for coal. This makes it even more difficult for the Canadian roads to keep down the number of their cars on foreign rails.

### Cars Across the Line

"To meet the situation, the Railway Association of Canada has made special direct representations to Washington and obtained assurances that the United States railways will do their best to hurry the return of our cars; and the Canadian roads, through this Association, will maintain constant pressure to see that this is done. Furthermore, the dwindling supply of cars will be offset as far as possible by the usual effort of our roads to move cars faster and farther and thereby make each car carry more in a day.

"In spite of the railways' best efforts, however, the shortage is becoming daily more acute.

"One great factor in car economy lies out of the railways' control —and in your hands, or the hands of your Shipping and Receiving Departments. If on your instructions they will take pains to load more goods in each car and release cars promptly, you will help protect your plant and your neighbors' plants against the further danger of car shortage.

"Even if it takes your staff a little more time to load outgoing cars to utmost capacity—and Even though you may already be releasing cars well within the free time limit— It will pay to increase this shipping efficiency still further and co-operate with the roads.

"United States traffic is from 5% to 17% heavier this Fall than last Fall, quite aside from strike accumulations of shipments. Canada appears to be following suit. To share in returning prosperity it is essential to help protect your own car supply."

## FACTORY EXTENSION

The Zimmerman-Reliance Knitting Co., of Hamilton, are planning a 100 foot extension to their plant at an estimated cost of $40,000. The factory has been running overtime for some months, and the need of a larger plant is being felt by the concern.

# DIVIDEND NOTICES

## PENMANS LIMITED

### Dividend Notice

Notice is hereby given that the following Dividends have been declared this day for the quarter ending 31st January, 1923:

C. E. NEILL,
General Manager.
Montreal, Que., December 1, 1922.
101

---

## CANADIAN BRITISH CORP.

The Canadian British Corporation has been organized in England with Canadian offices in the Royal Bank Building, Toronto. The company will seek industrial opportunites in Canada and will look after the interests of those in the Old Country who take stock in these concerns. For the time being exchange is a deterrent factor but Alfred Allen Watts, Canadian director, points out that investors are enthusiastic for Canadian propositions and that when conditions warrant there should be plenty of capital available. In the meantime particular attractive propositions can be handled. In brief the objects of the company are:

(a) Establishing branches of British industries in Canada.

(b) British companies taking over and extending Canadian companies.

(c) Extending existing Canadian industries with British capital.

(d) Fostering the organization and establishment of new Canadian manufacturing and other commercial enterprises by the help of British capital.

## NEW PULP MILL

According to J. E. Lepage, Quebec district transportation agent of the Canadian National Railways who recently returned from an inspection tour of the Lake St. John districts, a new pulp mill is about to be established by the Metabetchouan Sulphite and Power Co., and it is expected that the mills will be running at full capacity within a short time. The company manufactures pulp sulphite at Desbiens, Que.

## SHOE CONVENTION

Arrangements are being made for a big shoe trade convention to be held in Montreal on January 15, 16 and 17, 1923. Instead of independent annual gatherings as in the past, the associations of shoe manufacturers, retailers, wholesalers and travellers are participating this year in a joint convention, which is expected to attract shoe men from all parts of the Dominion.

# Stock Exchange Record

## SUMMARY OF SALES

The following is a summary of sales on the Montreal and Toronto exchanges for the weeks ended December 13 and 20:—

| Stocks | Week ended Dec. 13 | Week ended Dec. 20 |
|---|---|---|
| Montreal | 74,047 | 69,632 |
| Toronto | 53,569 | 26,295 |
| Total | 127,616 | 95,927 |
| Bonds | | |
| Montreal | $1,375,450 | $1,631,750 |
| Toronto | 838,550 | 343,850 |
| Total | $2,214,000 | $1,975,600 |

Montreal

| | Stocks | Bonds |
|---|---|---|
| Thursday | 24,174 | $119,550 |
| Friday | 18,767 | 135,950 |
| Saturday | 5,261 | 938,000 |
| Monday | 7,085 | 149,450 |
| Tuesday | 6,856 | 151,250 |
| Wednesday | 7,489 | 137,550 |
| -Total | 69,632 | $1,631,750 |

Toronto

| | Stocks | Bonds |
|---|---|---|
| Thursday | 7,279 | $127,250 |
| Friday | 6,193 | 91,550 |
| Saturday | 1,584 | 49,800 |
| Monday | 5,147 | 5,350 |
| Tuesday | 3,649 | 28,500 |
| Wednesday | 2,443 | 41,400 |
| Total | 26,295 | $343,850 |

AUDITORS' CERTIFICATE

We beg to report to the Shareholders of the Banque d'Hochelaga that in accordance with Section "56" of the Bank Act, we have checked the cash and vereified the securities of the Bank at th Chief Office as at November 30th, 1922, as well as at another time during the year, and found they agreed with the entries in the books in regard thereto.

We have also examined the accounts and verified the cash and securities at some of the principal branches durin the year.

We have examined the books and accounts at the Head Office and have compared the above Balance Sheet with these books and with the certified returns from the branches. n our opinion, the Balance Sheet is properly drawn up so as to exhibit a true and correct view of the Bank's affairs, according to the best of our information and the explanations given up, and as shown by the books of the Bank.

We have obtained all the information and explanations required by us and, in our opinion, the transactions of the Bank which have come under our notice, have been within the powers of the Bank.

Montreal, 14th December, 1922.

S. ROGER MITCHELL, C. A.
of Marwick, Mitchell & Company,
GEO. GONTHIER, L.I.A., C.A.,
of Gonthier & Midgley.

Auditors.

## LUMBER OUTLOOK IS BRIGHT

### Conditions This Year Better Than in Previous Years

Wholesale activity, far in excess of that during the corresponding seasons of the last six years, with the exception of 1921, was witnessed in the British Columbia lumber industry during the months of October and November. These months are usually the dull months of the year in this industry, and with such conditions prevailing this year British Columbia lumbermen are of the opinion that the industry will experience an almost unprecedented prosperity during 1923.

The Atlantic seaboard, formerly a purchaser in this market of only the upper grades of lumber in comparatively small volume, is the biggest single factor in the situation, and a fairly continuous flow of shipments have been moving from British Columbia to that territory. The lower grades are now being shipped as well as uppers, and the vastness of the market is such as to promise a much more permanent demand than other markets, such as California, are able to offer.

#### Prairie Market

The Prairie market is in a slump, with little prospect of improvement until about February, when Spring buying will commence. The Prairies take No. 1 common mainly, while the United States buy the highest grades as well as the lowest, Chicago buying largely for crating and similar material.

The Japanese demand has been negligible lately, and Australia has been the one bright spot on the offshore horizon.

#### Refuse Quotations

British Columbia lumber mills are almost daily refusing to quote on lumber deliveries and cuttings for January on the theory that the greatest shortage of lumber in the history of Canadian sawmills will develop in 1923.

Substantiating this theory is the recent report of the rail sawmills of the United States. Practically every small mill, as well as the large plants, from the Pacific Coast to the Atlantic, is booking orders well into Spring of next year for car material. Up to November 5, nearly 50,000,000 feet of car material had been placed by the various railroads with these mills, and nearly a similar amount is being tabulated for requirements.

Not only the optimists but even the usually despondent manufacturers of lumber, are admitting that 1923 lumber trade for the Atlantic seaboard shows signs of nearly doubling that done in the present year.

#### Large Orders

Over 800,000,000 feet of lumber has been ordered and the major portion shipped this year via the Panama Canal to the Eastern States. The deduction then is that the mills of the Pacific Coast must prepare for 1,600,000,000 feet of lumber to move that way in 1921.

---

## CONTRACT LET FOR PLANT

According to a report by P. W. Grandjean, secretary of the Ford Motor Co. of Canada, Wells & Grey, contractors of Windsor, have been awarded the general contract for the large new Ford Motor building at Ford City.

Mr. Grandjean stated that the contract for the steel work on the building has been let to the Walkerville Bridge Company, separately, and several other contracts for work on the structure have also been let separately from the general contract.

The Ford officials would not give out the amount of the contract, and stated that as the time for completion of the building is being worked out, that information is not yet available.

---

## TAXI BUSINESS

Burke Allen, of Toronto, acting for the estate of the late Dr. Norman Allen, has sold the Black and White Taxi C., Provincial Motors and the Grey line of charabancs to the Canadian Transfer Company of Montreal, headed by Col McRobie. The deal included all buildings and privileges and between forty and fifty machines. It is understood that the Montreal concern, in addition to operating the present motor and livery machines is about to put thirty new cars on the road in competition with the low rate services now in operation in Toronto.

---

## CONSERVATION OF FOREST RESERVES

### Premier King Issues Call to Assist in Preventing Devastation

A call to Canadian citizens to assist in preventing the devastation of Canada's remaining timber supply has been issued by Premier King in a letter to the Canadian Forestry Association.

"The Canadian people have before them many onerous and perplexing problems demanding, for a wise solution, the utmost in unselfish citizenship," writes the Prime Minister. "One of the finest tests of loyalty to the State is to be found in individual support to the cause of forest conservation. Its keynote and inspiration lie in the forethought for Canada's future. Present gain should be made subordinate to the profit, comfort and safety of generations to come. The people of Canada own more than 85 per cent. of the forest lands. The State, with its uninterrupted tenure, is peculiarly endowed to act as conservator to a timber crop which may take a century to mature. We must look upon our forest resources as a source of wealth held in trust for this and future generations.

"This is emphatically the business of citizens. We cannot relegate it to any control that does not focus its eyes on the legitimate rights of the people of a century hence."

# Corporation Finance

**Canadian Car & Foundry Co.**—The annual meeting will be held at noon on January 25 at the head office.

**Southern Canada Power Co.**—Steady progress throughout the entire year is shown in the annual report for the year ended September 30 last, the gross earnings amounting to $843,565, as compared with $753,959 in the previous year, an increase of $90,000, or 12 per cent. After deductions for operation, etc., the net earnings were $457,902, as compared with $379,050 last year, an increase of $78,000, or 21 per cent. After the payment of interest and allowing for bad debts, the surplus for the year amounted to $150,069, against $90,735, a gain of $60,000, or 65 per cent. The surplus, added to the amount brought forward from the previous year, brought the total amount available for distribution up to $488,422, as against $356,633. Out of the total available for distribution preferred dividends were paid, amounting to $19,911, and a special depreciation reserve was created of $410,000, leaving surplus to be carried forward of $58,511.

The general statement of assets and liabilities shows that the company is in a strong liquid position. Notes payable have been reduced to $77,802, down from $527,120, while accounts payable have been reduced to $170,138, as against $199,818.

The company reports that the total number of customers connected amounted to 13,249 the past twelve months, as against 12,240 during the previous year and 10,577 in 1920.

Continuing its previous policy the company succeeded in attracting new industries to the field served by it. The company announce that the Franco-Canadian Dyers, Limited, have established a plant at St. Johns; the Premier Silk Mills, Limited, a large plant at Cowansville, and the Canadian U. S. Knitting Company. Limited, its Canadian undertaking at St. Hyacinthe. During the year the Dominion Silk Dyeing & Finishing Company also completed their plants at Drummondville. These are all branches of important American industries. Several other negotiations are still in progress it is stated.

**Consolidated Mining & Smelting Co.**—After a meeting of the directors on December 11 the following official statement regarding the failure to declare a dividend was made by the president, J. J. Warren.

"While the year's operations and profits are quite satisfactory, the directors have decided it would be more in the interest of shareholders to conserve and improve the cash position of the company, than to make a dividend disbursement for the last half of the current year.

"Very heavy expenditures of capital have been made in recent years, with most successful results. These have, however, impaired the working capital which the directors think should be restored.

"The company will then be able not only to resume dividends, but also to embark on further extensions which conditions in the mines abundntly justify, and take advantage of offers of any promising properties in the market.

"The satisfactory placing of the bonds authorized by the special shareholders' meeting does not affect the situation, as the proceeds of these bonds are being used for the special objects mentioned in the circular to shareholders.

"The lead, zinc and silver departments are working to full capacity. There is a steady demand for the company's products at fair prices."

**Dominion Textile Co.**—After a meeting of directors of the Dominion Textile Company on December 11, Sir Charles Gordon, the president. announced that a special general meeting of the shareholders was being called for Friday, Dec. 22, at noon, "for the purpose of considering and, if deemed advisable, accepting an offer for the purchase of the company as a going concern."

In a circular to the shareholders, the president explains that the meeting is "for the purpose of considering and, if deemed advisable, passing a resolution to authorize the acceptance of an offer from Dominion Textile Company, Limited (a new company recently incorporated), to purchase the undertaking of your company as a going concern.

"The new company offers to pay for your company's undertaking by the issue and allotment of 19,400 cumulative 7 per cent. preferred shares of the par value of $100 each, and 225,000 common shares of no nominal or par value.

"The aforesaid shares would be distributed amongst the shareholders of your company on the basis of one non-cumulative 7 per cent. preferred share, and three common shares of no par value for each one common share of the par value of $100.

"The acceptance of the above offer is recommended by the directors of your company."

The capital of the present company is now in process of being increased from $5,000,000 to $7,500,000, the additional capital which is being issued at par to shareholders being for the purpose of extending the scope of its cotton buying undertaking in the Southern States, the centre of these operations being in Oklahoma.

**Dominion Glass Co.**—The annual financial statement for the year ended September 30 shows that the net profit for the year amounted to $716,540 as compared with $699,599 in the preceding fiscal year. After charges and dividends the balance added to surplus account amounts to $111,540, compared with $92,599 last year. The profit and loss account is thereby increased to $929,684, up from $818,144 a year ago.

The balance sheet shows the company to be in a strong position, the depreciation, general and sinking fund reserves having been increased to $2,500,000 approximately. These stood at $2,189,287 in the preceding statement.

**Kaministiquia Power Co.**—Gross earnings for the year ended October 31 last are shown at $493,418 in the annual report just published. This compares with gross revenue of $455,627 for the previous year, an increase of $37,791. Operation and maintenance charges total $111,783, against $117,162; depreciation and renewal reserve is shown at $44,000, as compared with $34,000 last year. Net revenue amounts to $37,635, compared with $304,465, an increase of $33,170. After deduction of fixed charges and interest amounting to $103,987, the net income is $233,647, against $209,207 the previous year, a gain of $24,440 over 1921. A surplus of $33,887 remains after the payment of the usual dividends.

The company has improved its liquid position as will be seen by the following comparison:

| | 1922 | 1921 |
|---|---|---|
| Current assets .... .... .............. | $652,618 | $629,443 |
| Liabilities .... .... .......................... | 251,293 | 261,499 |
| Working capital .... .... .............. | 401,325 | 367,944 |

In his remarks to the shareholders Sir H. S. Holt, president, says: "Gross and net revenues and net income, as a result of additional business, show gratifying increases in comparison with previous year.

"There has been distributed to shareholders during the year $199,760 in dividends, representing 8 per cent. on the paid-up capital stock of the company.

"In accordance with terms of deed of trust, $19,000 of the company's first mortgage bonds were redeemed and cancelled, bringing the total redemption to date to $117,000.

"As intimated, your company has increased its business in the way of additional customers as well as added service to existing customers; its service has been excellent and its rates reasonable. It is the object of your directors to maintain a high-class service at all times at reasonable rates.

"The Fort William Paper Company, Limited, to which your company is supplying a large amount of power, and in which it has substantial financial interest, is presently installing paper machines for the production of newsprint at the rate of 150 tons per day, and will shortly be producing paper for which there is a ready and profitable market."

**Dominion Steel Corporation, Ltd.**—In a report to the New York Stock Exchange it is shown in the consolidated account of the company and constituent companies that net profits, after charges, but before depreciation, amounted to $1,216,625.

Consolidated income account of the company and constituent companies for nine months ended September 30, 1922, follows.—Combined profits, $1,300,084; receipts from settlement of contracts with Dominion Government, $1,500,000; total income $2,800,084; sinking fund, depreciation, etc., $846,638; interest on bonds and debentures, $736,821; net profits, $1,216,625; preferred dividends on Dominion Steel Corporation Limited, $315,000; preferred dividends on Dominion Iron and Steel Company, Limited, $262,500; preferred dividends on Dominion Coal Company, Limited, $157,500; surplus, $481,625.

**Nipissing Mines, Ltd.**—At a meeting of the directors on December 11 the regular dividend of 3 per cent. plus an extra dividend of 3 per cent. was declared, both payable January 20th to shareholders of record December 30th. An extra dividend of like amount was paid three months ago.

## OUTSTANDING ASSETS OF DEFUNCT COMPANY

A company incorporated in England in 1871 to carry on business in British Columbia in the exercise of its powers as given it in that regard had acquired property in British Columbia of which the sum of $7215, proceeds thereof remained in the hands of one Rithet some time after the dissolution of said company and later death of its liquidator without any special provision in the law for the disposition of the said balance.

Proceedings were taken in the Exchequer Court of Canada by the Dominion authorities as against Rithet and the Attorney General of British Columbia. The case was tried before Sir Walter Cassels J., of that court who rendered judgment awarding the said money, less costs of Mr. Rithet to the respondent on behalf of the Dominion.

The Attorney General for B.C. appealed from that decision, claiming that such bona vacantia belong to the Crown on behalf of that Province.

The Supreme Court of Canada held that the rights of the bona vacantia in regard. to the assets of a defunct English corporation which previously had carried on business in B.C. is vested in the Province under sections 102 and 109 of the British North America Act, being comprised of the word "royalties" which at the time of the Union were assigned to the province.

Chief Justice Davies dissented from this decision for the following reason: "Cassels J. of the Exchequer Court held that 'the meaning of sec. 109 was to pass to the provinces royalties arising from lands, mines and minerals and royalties limited to escheats, or something arising out of lands as referred to in sec. 1 of 15-16 Vict., and he did not think it was ever in contemplation that, under that term 'royalties' all royalties of every kind, including bona vacanta, were left to the Provinces under the provisions of this statute.'

"After carefully reading several judgments of the Judicial Committee which deal with the construction of the two sections and having given the question before us my best consideration. I have reached the same conclusion."

## VOLUNTARY LIQUIDATION OF COMPANY

On a motion for an order for the winding up of Waltham Motors Corporation of Canada, Ltd., by the liquidator appointed at a meeting of shareholders at which it was resolved to wind up the company voluntarily under the Ontario Companies Act, Mowat J. in a written judgment said that the reason for asking for the order was that it would afford greater facility for collecting the unpaid balances on shares, of which there were many, than if the liquidator had to sue each subscriber individually. Unquestionably the procedure provided by the Dominion Winding Up Act for bringing contributories before the Court, and there determining liability was preferable to actions at law both for the company and for the contributories and the Dominion practice was made available by sec. 201 of the Provincial Act. The order for winding up should be made and the voluntary liquidator should be appointed liquidator. There was nothing in the papers proving that this was not a case of insolvency; if it was the Provincial Act would not apply. The order should not issue until an affidavit negativing insolvency had been filed.

## GUARANTEE MORTGAGEE

Five warrants have been issued for the arrest of John Brocklehurst, head of the Guarantee Mortgage Corporation, Ltd., Vancouver, charging wrongful conversion. Apparently it is another case of the failure of a concern dealing with women and men of small means.

BANKING · INVESTMENT INSURANCE INDUSTRY

# British Columbia Legislature Closed

### Provincial and Local Finances Were Again Prominent—Several Loans Authorized—Insurance Measure Caused Keen Debate—Agreement for Development of Iron Ore Deposits—State Health Insurance Discussed

The British Columbia legislature closed its session on December 16, after seven weeks' sitting. About one hundred new laws were passed. Among the prominent subjects before the house were the Pacific Great Eastern Railway, insurance regulations, land settlement, mothers' pensions, and provincial and local finance. Regarding the latter, the executive of the Union of British Columbia Municipalities presented resolutions passed at their recent meeting at Kamloops.

An amendment to the law regarding British Columbia University stipulates:

"The Board shall not incur any liability or make any expenditure beyond the amount unexpended of the grant made to the University by the Legislature and the estimated revenue of the University from other sources for the current year, unless an estimate thereof has been first submitted to and approved by the Lieutenant-Governor in Council."

#### Iron Ore Deposits

Another act ratifes an agreement between the Dominion and British Columbia regarding iron ore deposits in the province. Hon. Wm. Sloan, minister of mines, explained it on December 7 as follows:—

"The bill gives the Minister of Mines the right to enter upon any mining property without the consent of the owner for the purpose of carrying on such trenching, drilling and other work as is advisable. The Dominion Government undertakes to advise the Province regarding the artificial exposure of ore and rock, and the Dominion will make all necessary assays and other laboratory investigation of ore exposed. The Geological Survey will bear the cost of this work. The Province undertakes to do the actual exposing of the ore.

"Section 2 gives the Minister the power to charge against the properties affected such portion of the cost of the work as he deems advisable.

"I have kept this section before the House to see what representations would be made, as this is a large power to invest with the Minister. The only representations that have come had been highly favorable as the iron ore resources of the Province have hitherto been held for speculative purposes largely, and very little work has been done. It is apparently agreed, therefore, that this power should be given the Minister.

"The Dominion Government has appointed Dr. Young its iron expert in charge of the Dominion part of the work. He has done this kind of work with valuable results in New Brunswick, Ungava and Ontario, and comes well qualified and recommended for the work. He has already been in the Province, and spent four months this year examining iron deposits on the coast. He is now in Ottawa preparing his report, and will return to British Columbia in January.

"This agreement was the result of work done two years ago under Major Dawson, of our department, examining a district from which favorable reports had been received. The Geological Survey also realized the value of this district, and sent a party under Mr. Mackenzie to make a report. There was thus a certain amount of overlapping, but there was very little difference in the reports, and this agreement is designed to overcome any further such overlapping."

#### Provincial Finances

The most important item relating to the finances of the province is the British Columbia Loan Act, 1922, authorizing the government to borrow $3,500,000, by the issue of debentures. treasury bills, notes, or by the sale of provincial stock. The rate of interest may not exceed 6 per cent., and the government may establish a sinking fund to redeem the principal. The purposes of the issue are as follows:—For public buldings, $2,000,000; for the Land Settlement Board, $1,000,000; for the Soldiers' Land Act, $400,000; and for the Water Act, 1914, $100,000.

#### Creditors' Relief

An amendment to the Creditors' Relief Act provides the following new clause:—

"(3) Any creditor, whether a judgment creditor or not, who attaches a debt shall be deemed to do so for the benefit of himself and all creditors entitled under this Act. Payment of the attached debt shall be made to the Sheriff who, in making distribution, shall apportion to the garnishor a share in the whole amount to be distributed under the provisions of this Act, pro rata with the other creditors, according to the amount owing upon his judgment or claim; but the share so distributed to him shall not exceed the amount recovered by the garnishee proceedings unless he has placed a writ of execution in the Sheriff's hands."

#### Municipal Finances

Borrowing powers are given to the Greater Victoria Water District, a new municipal corporation which has been created.

The municipal legislation also includes an act authorizing Nanaimo to borrow $36,211 by the issue of debentures to meet the cost of repairing the waterworks system. The city's sinking fund has a surplus which will be invested in these bonds. South Vancouver is authorized to cancel an issue of debentures on the sinking fund plan and issue in their place $776,000 serial bonds, and also to issue $670,000 serial debentures to meet payments to the Canadian Bank of Commerce and other obligations. To enable it to do so the legislature had to extend its borrowing powers beyond the usual limits.

#### Insurance

A bill to license insurance agents was keenly criticized by H. G. Perry and M. B. Jackson. Mr. Perry asserted he was not satisfied that the bill was necessary at this stage, either for the protection of the public or of the agents themselves. It merely meant another close corporation, Mr. Perry declared, and he asserted it was aimed chiefly at getting rid of the "part time" agent. He could not see why it was necessary for the House to spend its time prohibiting young men in getting a better livelihood. It might be necessary in the large centres, but not in the outlying sections, he claimed.

Mr. Farris claimed the insurance organizations have at heart the best interests of the public. He referred to how the fire insurance concerns had voluntarily come to the Government and consented to be taxed that more adequate fire protection methods might be introduced. The idea was not to have a close corporation, but rather one in which a member would have a dignified position and an offending member be disciplined. He referred to section 25 of the bill—the important one, he said—and explained it meant that any agent guilty of dishonest action could be investigated and disciplined. The bill would enable the Province to secure some revenue. In the interest of the freedom of business and honesty the bill should be enacted, declared Mr. Farris.

#### Eight Hour Day

A bill to introduce the eight hour day, sponsored by Major R. J. Burde, was defeated. Labor members urged that the house consider state health insurance but the government took the view that this was a federal matter. Accordingly it was decided to request the Dominion to consider legislation to establish "an adequate system of insurance against unemployment, sickness, dependence in old age and other disabilities." Hon. Mr. Sloan quoted Hon. Senator Robertson, former federal minister of labor, in a letter addressed to J. W. de B. Farris, then attorney-general, in which the Ottawa member admitted that mothers' pensions and minimum wage legislation belonged to the provincial government, but that health insurance, unemployment insurance and old age pensions fell within the jurisdiction of the federal authorities.

#### Pacific Great Eastern

The affairs of the Pacific Great Eastern came up for some discussion on November 29, when two motions were successively presented, the first by way of amendment to one moved by the premier to the effect that the member for Rossland "made an allegation to the effect that the Northern Construction Company had been allowed to sublet construction work on the P.G.E Railway, and that the said Northern Construction Company had pocketed the difference between the price paid to the sub-contractors and the unit prices used in connection with the work; that the accounts of the P.G.E. have been referred to the Public Accounts Committee and that, therefore, the aforesaid allegation be referred to the Public Accounts Committee to immediately inquire into the truth, or otherwise, of such allegation and reports its finding to the House at an early date."

Mr. Esling had promptly come back by moving an amendment to the Premier's motion to the effect that to the Premier's motion be added the words "and that all the books of the Northern Construction Company be produced before the committee at the same time."

This was voted down, as was also the resolution presented later by Mr. Hanna calling for "all books of the Northern Construction Company relating to the contract between the Northern Construction Company and the P.G.E. Railway and the Government."

#### Forest Protection

With regard to forest protection, new legislation provides: Where the safety of life and property in any section of tho Province is threatened through the occurrence or spread of bush fires, the Lieutenant-Governor-in-Council may, by proclamation, declare that section a closed district in which all operations in, or within half a mile of any forest, shall cease forthwith until such danger is, in the opinion of the Lieutenant-Governor-in-Council, abated. It also provides an obligation on every resident of the Province who is aware that a fire has started or exists in any forest or woodland to immediately notify the department.

An amendment to the act also prohibits smoking in the woods during the close season, and makes it an obligation upon the person in charge of any lumbering operation to maintain notices throughout the operation calling the attention of their employees to the requirements of the act and designating a place where their employees may smoke.

The provision covering the sharing of costs of fire fighting is being amended so that where a fire originates in a person's operation he will be responsible for the controlling of it, and will not be entitled to receive fifty per cent. of his expenditure from the Forest Protection Fund.

Another amendment provides that the forest protection officer or any opeartor, private timber holder or municipality, who has been approved by the Minister, will have the same authority as an officer of the department in regard to calling out men to assist in controlling bush fires.

## BANK OF COMMERCE PROFITS LOWER

### Slight Reductions in Current Loans and Deposits While Quick Assets Ratio is Higher

Current loans of The Canadian Bank of Commerce as at November 30, 1922, amount to $193,697,729, according to the general statement of that institution just published. This is equivalent to a contraction of 6¼ per cent. from the figures of last year, which is in keeping with the general movement towards business liquidation in Canada that has been under way for some months past. The bank has succeeded in maintaining its deposits at a high figure, the total amounting to $329,106,924, of which $248,601,526 are interest-bearing. The latter have declined by a little over 2 per cent.

The gold holdings of the bank have increased by $4,800,000 and the amount deposited in the Central Gold Reserve consists of $10,000,000 in gold, as against $5,500,000 a year ago. This improvement in the specie position of the bank reflects the general increase in the amount of gold behind Canadian currency. The amount of so-called quick assets, consisting of cash, bank balances, securities and call loans, is $175,550,002, or over 47 per cent. of liabilities to the public, which amount to $373,406,213, a percentage which is slightly over that of last year.

Notes in circulation stand at $22,725,633 and Dominion notes on hand at $31.548,857, both showing a certain amount of shrinkage. Call and short loans in Canada have increased by some $487,000 and amount to $16,997,098. Similar loans abroad have contracted by about $1,000,000. Acceptances under Letters of Credit have increased from $4,790,063 to $5,676,139 as a result of improved foreign trade.

Net profits last year were $3,116,136, those for the year just ended being $3,002,435, a reduction of about 4 per cent. Appropriations are practically the same, except that $400,000 is written off bank premises, instead of $500,000 the previous year. The balance forward is increased from $1,946,745 to $2,097,502.

## UNION BANK STATEMENT

### Substantial Reduction In Net Profits But High Ratio of Quick Assets Shown

Another bank to show a decrease in net profits but a high ratio of liquid assets is the Union, which has just issued its statement for the year ended November 30, 1922. Quick assets are 53.49 per cent. about the same as last year. Net profits are $1,131,060, or 14.14 per cent., against $1,342,399, or 16.79 per cent on capital in 1921.

Total deposits are $108,249,876, which is a decrease of $8,473,879, compared with the 1921 figure, and is attributable to the continued deflation in general business, the decline taking place largely in non-interest-bearing deposits. Interest-bearing deposits showed a nominal decrease of 2.5 per cent. from last year. Current loans in Canada total $54,756,231, as compared with $62,010,007 a year ago, while demand loans in Canada secured by grain stand at $7,632,876 against $7,295,483 a year ago.

Total assets are reported at $143,218,484, compared with $152,625,386 at the end of 1921. The balance carried forward to profit and loss amounted to $483,175, after allowing for the usual dividends of 10 per cent., which have been paid; contribution to the officers' pension fund of $10,000; the sum of $300,000 reserved for contingencies, and war tax on bank circulation to November 30 of $79,570.

## TIME LOSS BY STRIKES

The time loss due to industrial disputes was less during November than during either October, 1922, or November, 1921. There were in existence at some time or other during the month 14 strikes involving about 2,190 work people, with an estimated time loss of 52.046 working days, as compared with 17 strikes, involving 3,229 work people and resulting in a time loss of 54,502 working days in October, 1922, and 18 strikes, 3,254 working people and 73,149 working days in November, 1921.

## *Business Conditions*

Although the usual end-of-the-year quietness prevails generally in wholesale departments, many road salesmen being home for the holidays and most houses being busy with stocktaking and preparations for their annual statements, Canadian business is satisfactory in volume for this period, according to dispatches to Dun's Review from branch offices of R. G. Dun & Co. in the principal cities. Frigid weather has stimulated retail demand for heavy dry goods, clothing, footwear, and other winter merchandise, and, with Christmas buying in most instances exceeding expectations, sentiment as to the future is decidedly optimistic. Leading industries continue busy, collections show signs of improvement, and there is a widespread expectation of a sharp revival in activity soon after the turn of the year.

Montreal reports a large volume of orders in small amounts still being received by wholesalers, although most houses are devoting their attention to taking their annual inventories, while Christmas trade is active and recent cold weather has greatly stimulated retail demand for winter merchandise. Collections are rather slow.

The weather has been more favorable of late for the movement of seasonable merchandise at Quebec, and Christmas trade has been well up to the average. Collections still drag.

While whoesale trade at Toronto feels the effect of inventory taking and the return from the road of numerous salesmen, orders in small amounts continue numerous, and sentiment generally is very cheerful. Cold weather has stimulated the movement of heavy dry goods, clothing, boots and shoes, and other seasonable commodities, and Christmas buying is very active. Manufacturers continue well employed, and collections show an improving tendency.

Advices from Winnipeg, Saskatoon, Regina, Calgary, and other cities in the Far West and Northwest say that weather conditions have been more favorable for business of late, and seasonable merchandise has been in better retail demand, aided by Christmas buying, which has been fairly satisfactory. Wholesalers, however, report that, while they are receiving a fair number of orders in small amounts for immediate delivery, the general situation is quiet and is expected to remain so until after annual inventories are completed, when, it is predicted in some quarters, business will begin to show improvement. Collections remain slow.

## *Bank Clearings*

Bank clearings for the week ended December 21, compared with the corresponding week of 1921, were as follows:—

**Eastern Bank Clearings**

| | Wk. ending Dec. 21 | Increase over 1921 |
|---|---|---|
| Toronto | $114,758,980 | $ 6,478,666 |
| Montreal | 109,573,056 | *553,883 |
| Ottawa | 8,203,090 | 416,052 |
| Hamilton | 5,773,527 | *201,417 |

| Medicine Hat | 375,672 | *127,308 |
| Total | $ 94,395,613 | $ 9,650,496 |
| Eastern total | $254,958,663 | 3,139,007 |
| Grand total | $349,354,276 | $12,789,503 |

*Decrease.

## *Canadian Failures*

The number of failures in the Dominion, as reported by R. G. Dun & Co. during the week ended Dec. 22 in provinces, as compared with those of previous weeks, and corresponding week of last year, are as follows:—

| | Dec. 22. | Dec. 15. | Dec.8. | Dec. 1 |
|---|---|---|---|---|
| Ontario | 13 | 12 | 29 | 25 |
| Quebec | 30 | 31 | 39 | 36 |
| Manitoba | 5 | 11 | 10 | 5 |
| Alberta | 2 | 3 | 5 | 5 |
| Saskatchewan | 10 | 6 | 3 | 4 |
| British Columbia | 3 | 3 | 5 | 5 |
| Nova Scotia | 5 | 3 | 6 | 3 |
| New Brunswick | 0 | 2 | 1 | 0 |
| Prince Edward Is. | 0 | 0 | 2 | 1 |
| Newfoundland | 8 | 2 | 0 | 0 |
| Total | 76 | 73 | 100 | 84 |
| 1921. | 94 | 66 | 69 | 68 |

## *Exchange Quotations*

Closing rates in Toronto, Wednesday, compared with the preceding week, were as follows:—

| | Dec. 20 | Dec. 27 |
|---|---|---|
| London | 466.75 | 469.50 |
| France | 7.47 | 7.27 |
| British W. Indies | .97¼ | .97¾ |
| Jamaica | 4.68½ | 4.71¼ |
| Belgium | 6.86 | 6.66 |
| Denmark | 20.83 | 20.97 |
| Germany | .01½ | .01¼ |
| Greece | 1.26 | 1.21 |
| Holland | 40.10 | 40.22 |
| Italy | 5.10½ | 5.13 |
| New York | 13/16d | 15/16d |

## OTTAWA FIRE AGENTS.

The Ottawa Fire Insurance Agents Association held their annual meeting on December 19, about 30 being present. The president, A. H. Fitzsimmons, was in the chair.

Officers for the coming year were as follows: president, A. H. Fitzsimmons, re-elected; 1st vice-president, W. R. Rowatt; 2nd vice-president, H. S. Binks; auditor, J. D. Cunningham; executive committee, R. R. Sparks, H. S. Chambers, J. E. Fraas, A. D. Stewart, O. B. Villeneuve and Otis Whelen. The permanent secretary is A. A. Crawley.

# Power Development a Centre of Interest

## Administration Now Divided Between Department of Interior and Department of Trade and Commerce — Great Increase in Developments During Past Two Years—National Railways an Important Factor

(Special to The Monetary Times)

Ottawa, Dec. 26.—The recent remarks of Sir Henry Thornton on the importance of hydro-electric development to Ontario and that the Canadian National management would devote much attention to the study of this problem have attracted some attention here. It is considered as an evidence that Sir Henry is quickly sensing the factors that count in the Canadian industrial situation, but there is an impression that Ontario for some time will be the instructor of the Canadian National rather than be instructed by it in such matters.

Sir Henry would render a great service to the country if he could bring the Dominion Government to a due realization of the importance that hydro-electric power is bound to play in the industrial life of Canada and of North America generally. There is a large department devoted to the development of trade and matters relating to it; but the business of looking after the great subject of water powers in so far as the Dominion Government is concerned, is looked after by two small branches.

### Division of Control

In the reorganization of departments that must come, if anything like maximum efficiency is to be secured, provision should be made for a minister of power. At present the Department of Trade and Commerce looks after the export of power, while the Water Powers Branch of the Department of the Interior looks after questions relating to development and kindred matters. Why these two branches should be separated passes knowledge.

There will have to be a great awakening on the part of the Dominion Government to hydro-electric development, for events in this line are moving so rapidly that action will be forced. The whole continent has suddenly awakened to the seriousness of the coal situation both for lighting, heating and power purposes, and is forcing the development of water powers in order that the situation may be relieved. As Ontario and Quebec, the two great industrial provinces of Canada, do not possess coal of demonstrated importance, and as dependence on supplies from the United States is attended with risk, they must proceed with rapid development of hydro-electric power whether they like it or not.

The realization on the part of industry in the United States that it must secure an assured supply of power is causing industrial leaders over there to turn to Canada. This is made evident by the huge development arranged for on Lake St. John in which John B. Duke of New York is heavily interested. Then there is the proposed Robert development at Carillon, for which millions of American capital is expected.

### Power Development

In this connection it is of interest to know that as a result of the past season's construction work in water power development new figures have been compiled by the Dominion Water Power Branch which well illustrate the position of water power in economic importance and in value to manufacturing industries.

Total development. As at November 1, 1922, this stands at practically 3,000,000 horsepower, representing over $620,000,000 of invested capital and an annual revenue of over $81,000,000.

Basic Industries. In a tablulation of these, i.e., farm values, live stock, minerals, water power, forest products, fisheries and furs, developed water power stands fourth in capital invested, being higher than that for forest products.

Central Station Industry. The 1920 census returns just completed show that 92% of the installed horse power and 97% of the actual output of energy is furnished by water power. The central station industry includes only 73% of the total devoloped water power, there being a further 27% developed in private industrial plants.

Manufacturing industries. Taking the table of "Forty Leading Industries" issued by the Bureau of Statistics and arranging in order of capital invested, the Central Section Industry not only heads the list but exceeds the next highest, pulp and paper, by over 100%. Total water power, including both central station (less fuel power) and private industrial plants, shows a still higher lead.

### Two Year Growth

In 1920 the respective figures were: Central Stations, $448,274,000, Water Power, $530,000,000.

As at November 1, 1922, the capital invested in developed water power is $620,000,000, corresponding to an estimated annual revenue of $81,600,000.

Equivalent Coal Consumption. At 9 tons per annum per installed horsepower this now amounts to 26,727,000 tons, equal, at $10 per ton for imported coal, to $267,270,000, and this represents the sum that would have to be sent abroad annually if this water power had not been developed.

Furthermore, the power, if developed from fuel, would cost the user from two to three times as much and would form a heavy, if not fatal, handicap on manufacturing industry.

Increase in developed H.P. In the 10 years from 1912 to 1922 this has been 105%.

Uses of water power. The main divisions are at present as follows:

| | | P.C. |
|---|---|---|
| H.P. in central stations | 2,164,870 | 73.0 |
| H.P. in pulp and paper mills | 484,228 | 16.2 |
| H.P. in other industries | 320,561 | 10.8 |
| | 2,969,659 | 100.0 |

The export of hydro-electric power will go hand in hand with its development in this country. There are some who think that it should be kept at home, but, for one thing, it would be impossible to find a market for it all; while in the second place Canada's borrowings are so heavy that exports generally must increase. If she is to meet the interest on this borrowed money. From present indications the day is not far distant when the amount received from the export of power will balance that paid to the United States for coal.

## LONDON MARKET LOOKS PROMISING

### Regarded As A Competitior With New York for Future Canadian Borrowing.

(Special to The Monetary Times)

New York, Dec. 27.—The report is again heard that the Dominion of Canada contemplates making a new loan early in the year. Little is heard, however, of any detailed character and Canadian bankers resident in New York are inclined to believe that little has been done as yet toward opening negotiations with American investment bankers. Also, it is believed here that further improvement in the status of the pound sterling in Canada and the United States will make London a formidable contender for the next big Canadian loan. The recent improvement in the British markets for investment has not gone unnoticed here and American investment bankers have been speculating not a little lately as to the possible effect this change for the better may have on foreign borrowing in New York.

### French Trade Treaty.

The signing of the new French-Canadian trade treaty has caused not a little fluttering in the official dovecotes. It is being pointed out in Washington that the new treaty by granting Canadian products entering France preferential tariff treatment, renders both France and Canada liable to the penalties imposed by the Fordney-McCumber Tariff on the products of countries discriminating against the United States.

But while this undoubtedly is the letter of the law, no one seems to believe that the retaliatory clauses of the Fordney-McCumber Tariff Act will be invoked against Canada as a result of the new French treaty. Any retailatory measures of this kind would naturally precipitate a tariff war with the Dominion and that is something the Administration does not want to start.

### Newsprint Situation.

American newsprint manufacturers do not attach much importance to the statement made during the past week by Col. Greeley, chief of the United States Forestry Service, that Canada might be expected shortly to impose an embargo upon all exports of pulpwood. Col. Greeley, local authorities believe, has been deceived by propaganda emanating from certain Canadian quarters into believing that the opinions of the propagandists' represent Canadian opinion as a whole. In any case the better informed American importers of Canadian pulpwood contend that the placing of an embargo on Canadian "freehold wood" would be a matter for the Dominion Government, not those of the various provinces concerned. An embargo such as Col. Greeley mentions would involve a question of international trade; international trade and trade matters generally it is held here are under the guidance of the Dominion Government only and are not subject to supervision by the provinces. Thus it is believed that while the provinces have been able to impose an embargo on the exportation of pulpwood cut on Crown lands, lands which are the property of the provinces, they cannot impose a similar embargo on wood cut on private lands.

## MUNICIPALITY LIABLE FOR FIRE

### Judgment Against Coquitlam, South Vancouver's Fire Protection Criticized.

(Special to The Monetary Times)

Vancouver, December 23.—The Supreme Court of Canada has placed liability upon the Municipality of Coquitlam, B.C., for the fire of August 5, 1920, which destroyed a large part of the business section of the city. The judgment confirms the original finding of Fire Marshall J. A. Thomas who decided the conflagration began in the municipal fire hall through a defective flue. The result of this decision will determine the claims of several property owners, totalling nearly $70,000. Two trials and two appeals have marked the protracted litigation which followed the fire.

Owing to alleged insufficient fire protection in the municipality, the B.C. Fire Underwriters' Association has notified South Vancouver municipal council that unless increased fire fighting facilities are afforded, insurance rates will be increased. The matter will be discussed at a forthcoming meeting of the council and the Underwriters. The South Vanouver Board of Trade has passed a resolution calling upon the Board of Underwriters to reduce rates rather than raise them. The Underwriters state that the municipality, with an area of fourteen square miles and a population of 30,000 people, has only one fire hall in operation, as against five some years ago and that many of the roads are bad and water pressure poor.

### Theft of Bonds from Vault.

Of interest to casualty and surety companies is the decision of the B. C. Supreme Court by which the Royal Bank has been held liable for loss of bonds stolen from its safety deposit vault in the Ladner, B.C., branch on March 27, 1922. Suit was brought for recovery of the value of bonds deposited by Mr. and Mrs. E. R. Bell. Unless the decision given in this test case is reversed on appeal, the bank may be faced with liability for the loss of bonds totalling $126,000 which were stolen at the time and never recovered. Plaintiffs alleged that the vault was not properly constructed, being of brick with no reinforcement. The bank's liability was covered by a well-known surety company.

The Dominion government has included all insurance policies which acknowledge receipt of money, as taxable under the new receipt tax which requires stamps to be affixed to all receipts over $10.

## FRANCO-CANADIAN CORPORATION

B. C. Stevenson, insurance manager of the Franco-Canadian Corporation, Vancouver, has resigned to commence an insurance business under his own name with offices at 503-5 Bower Building, Vancouver. F. Hann of Calgary, has been appointed insurance agent of the Franco-Canadian Corporation to succeed Mr. Stevenson. Mr. Hann has been in the Alberta field as special agent for the Phoenix of Paris, the General of Paris and the British General.

# Assisted Immigration Under the Empire Settlement Act, 1922

By. V. KENNETH JOHNSTON

"The essentials in national policy" according to Mr. E. W. Beatty in a speech made in July 1921, are (1) confidence in the Canadian attitude towards investments in order to attract the volume of British and other capital which is needed to ensure the development of natural resources; and (2) the concomitant in immigration to afford the labor to assist capital and share with it the legitimate exploitation of Canadian resources. Previous to that, in December 1920, the British Prime Minister had begged that the population problem be faced by the peoples of the Empire in the same spirit of comradeship as that which carried them together through the war. On the one hand, Dominions like Canada, had abundant undeveloped resources and must have increased population, whereas, on the other hand, many thousands of British men and women of a type, whose efforts and character did so much to overthrow German militarism, are out of employment in Great Britain. The problem is to evolve a new pathway from difficulty and distress in England to the abundant opportunity overseas.

We have thus a statement regarding a Canadian and an Empire problem of first importance not only from an eminent Canadian but also from the British Prime Minister. In both statements, the population problem is stressed —in that of Mr. Beatty the immigration problem properly is more stressed than that regarding capital for before capital can be constructively used, labor must be plentiful and labor implies population of which Canada admittedly has a scarcity. Once the population is obtained capital can be used to the greatest advantage for larger numbers of people naturally create a greater volume of wants—which put in terms of economics and business is: when the demand is present the supply follows and with increased demand and the resulting consumption of supply, capital pours in to develope natural resources. Consequently, Mr. Beatty might have stated that the major problem in Canada was population—that is immigration—since natural increase can not hope, for many years, to provide that volume of population which is admittedly so necessary to relieve us of the many pressing problems confronting us—problems of the federal, provincial and municipal arena largely financial in their nature.

### Action Recently Taken

The problem was stated concisely by those outstanding men in 1920 and 1921. What steps have been taken, one on each side of the Atlantic—in Canada the Western Canada Colonization Association has been formed, with Sir John Willison as President, to settle the vacant areas of wheat land in Western Canada close to railway facilities and now lying unused; in England, the British Parliament has passed an Act entitled the Empire Settlement Act 1922, whose purpose is to provide a fund, to be administered by the Secretary of State, to facilitate "settlement in or migration to any part of His Majesty's Overseas Dominions by assistance with passage, initial allowances, training or otherwise"—and, also authorizing the Secretary of State to join with government or private organizations in the Domions to afford joint assistance "to suitable persons in the United Kingdom who intend to settle in any part of His Majesty's Overseas Dominions".

As to the Western Canada Colonization Association little need be said. Its aims and objects —its method of procedure—its hopes and aspirations have been fully covered in the daily newspapers during the past few months. Its activities according to press reports will not be confined solely to the United Kingdom—as explained by Sir John Willison at a dinner in Toronto on October 18th and reported in the Edmonton Bulletin for October 19th, "Canada needs today as she never needed before a large army of agricultural workers; European countries are in a position to supply the need and it only remains for an organized force to bring these workers to the Dominion to ensure a bright era of prosperity." "After explaining how 20,000,000 acres of land in all parts of Canada and situated within five to twelve miles of a railroad were owned but unoccupied, Sir John asserted that it was the settlement of this amount the association had in view. To do this the lands would be listed by the Association, the immigrant would be directed to a suitable location and within ten years or less if circumstances permitted, the vendor would receive a fair and reasonable price for his property. Under this plan the purchasers, he was sure, would be satisfied with the transaction, while above everything else the pressing problem of restoring prosperity and lightening taxation would be in course of solution." The Western Canada Colonization Association, as explained in the above report, intends to train the immigrants in Canadian farming conditions and to settle them not as the settler chooses but as the Association directs. If that policy is followed, small criticism can be made of the Canadian end of this possible immigration policy—possible in the sense that the above Association may sometime in the near future cooperate with the British Government in its scheme for emigration to the Dominions under the Empire Settlement Act.

### Working of the Act.

That Act provides that the Secretary of State may cooperate with government or other organizations in the Dominions in carrying out agreed schemes to afford joint assistance to suitable British emigrants to the Dominions. In the word of the Act, an agreed scheme may be "(a) a development or a land settlement scheme; (b) a scheme for facilitating settlement in or migration to any part of His Majesty's Overseas Dominions by assistance with passages, initial allowances, training or otherwise, and shall make provision with respect to the contributions to be made either by way or grant or by way of loan or otherwise by the parties to the agreed scheme towards the expenses of the scheme." The contribution of the Secretary of State in any agreed scheme is not to exceed half the expenses of the scheme and the liability is not to extend beyond a period of fifteen years from the date of the Act—31st May 1922—provided that the aggregate amount expended by the Secretary of State, under any scheme or schemes under this Act, shall not exceed one million five hundred thousand pounds in the financial year current at the date of the passing of this Act or three million pounds in any subsequent financial year, exclusive of the amount of any sums received by way of interest on or repayment of advances previously made."

But although the financial provisions of the above Act are generous in the extreme, yet it must be remembered that the Act applies only to "His Majesty's Dominions"—which on the face of the matter and from the general intent of the Act would be read as "self governing Dominions." There being some five self governing Dominions, the possible share of which advantage may be taken to help emigration to Canada, is correspondingly reduced—on the other hand the Dominion organization must provide half before the British Government will provide its half. Consequently the amount available in total is six million pounds each year from 1923 on, which divided by five gives £1,200,000 or about $6,000,000 each year for each Dominion. A considerable sum and a sum which will ensure—if advantage is taken of it —a corresponding number of immigrants into Canada—and will ensure further that the said immigrants are of the absorptive type—that is already Anglicized if not Canadianized.

### Our Immigration Act.

So much for the Empire Settlement Act as such. The question next arises whether it will conflict with the provisions of our Immigration Act, which require all immigrants to have a certain minimum of money in their own right and also requires that they will pay their own passage money (see sec 3H). Section 37 provides further: "Regulations made by the Governor General in Council under this Act may provide as a condition to permission to enter or land in Canada that immigrants—shall possess in their own right money to a prescribed minimum amount which amount may vary according to the nationality, race, occupation or destination of such persons and otherwise according to circumstances." By Order in Council No. 2668, 26th July 1921, it is provided that each immigrant shall possess "in his own right" $250 and ticket or sufficient money to purchase transportation to destination in Canada"—but the order after further details gives exemption in these words "Provided further. that the Immigration Officer in Charge may, notwithstanding anything hereinbefore contained, exempt any immigrant from the operation of the foregoing regulation, if it is shown to his satisfaction that: (a) the immigrant, if a male, is going to assured employment at farm work, and has the means of reaching the place of such employment; or (b) the immigrant, if a female, is going to assured employment at domestic service, and has the means of reaching the place of such employment."

Consequently, it may be stated that at present our Immigration Act does not conflict with the Empire Settlement Act—providing consent to assistance is given by the Immigration Department, which consent may be taken as granted—and that it further appears that the Western Canada Colonization Association or the C.P.R. or the Canadian Government may cooperate with the British Government to assist British subjects from the United Kingdom to emigrate to Canada by means of loans or other material assistance in addition to easily acquired farms, under the Empire Settlement Act.

### Britain's Policy.

Under the circumstances outlined, assisted immigration of persons from the United Kingdom into Canada is quite possible and on the surface seems a necessary step, although the advisability thereof, like so many other matters, is debatable. The experience of Australia in connection with a policy of assisted immigration is worthy of note. The Australian Year Book for 1920 states, "In the early days of settlement in Australia assisted immigration played an important part. Such assistance ceased for the time being in Victoria in 1873, in South Australia in 1886 and in Tasmania in 1891. In New South Wales general state aided immigration was discontinued in 1887 but those who arrived under that system and were still residing in New South Wales might send for their wives and families." From 1900 to 1905 no assistance of any kind was given but from 1906 onwards assistance has again been afforded." Thus prior to 1886 state aided immigration was in effect in Australia, but was in process of discontinuance up to 1906 when it was resumed. The following statistics show the value of state aided immigration where population must be increased.

Total Immigrants

| | | | |
|---|---|---|---|
| from | 1861 to 1865— | 86,146. | |
| " | 1866 to 1870— | 80,419. | |
| " | 1871 to 1875— | 61,662 | Vic. stops ald. |
| " | 1876 to 1880— | 130,142 | Aided immigra. |
| " | 1881 to 1885— | 224,040 | Aided immigra. |
| " | 1886 to 1890— | 158,701 | S Aus. stops aid |
| " | 1891 to 1895— | 22,392 | No aided imgra. |
| " | 1896 to 1900— | 2,487 | No aided imgra. |
| " | 1901 to 1905— | 16,793 | No aided imgra. |
| " | 1906 to 1910— | 57,278 | Aided immagra. |
| " | 1911 to 1915— | 137,459 | Aided immigra. |

From the above statistics it seems a valid presumption that state aided immigration is a most beneficient policy where numbers are the chief consideration. And in Canada's case, if the Anglo-Saxon immigrant is distinguished from those alien in speech and customs—numbers are the chief consideration, and any plan which would tend to increase the proportion of British residents should have the whole hearted endorsation of any government or private organization which can carry its share of the expense—which under the Empire Settlement Act is one half. Since the Dominion concerned, which accepts the offer, is the one benefitted, rather than the United Kingdom which benefits only indirectly, the offer made by the Empire Settlement Act should, in the absence of a better plan, be taken up. The Canadian Governmen on the face of the matter is, in Canada, the party of the second part—in default of the government, the Western Canada Colonization Association becomes that party of the second part—but whether either will realize the opportunity is another debatable question—"There is a tide in the affairs of men"—and we presume in the affairs of colonies and Dominions.

The offer has been made—it is Canada's place now to accept and thus take the step on this side of the Atlantic which will aid vitally in the solution of on Empire problem and in large part solve an outstanding and pressing Canadian problem.

# The Monetary Times

Trade Review and Insurance Chronicle

OF CANADA

The Monetary Times was established in 1867, the year of Confederation. It absorbed in 1869 The Intercolonial Journal of Commerce, of Montreal; in 1870 The Trade Review, of Montreal; and the Toronto Journal of Commerce.

## A COSTLY EXPERIMENT

There was probably no more interesting item at the British Columbia legislative session than the information secured by the public accounts committee regarding the loans made by the department of Industries, when D. B. Martyn, deputy minister of industries, appeared before it. Loans have been made it appears to sixty-one companies, to the amount of $1,109,262, and to date only $109,668 has been repaid. Out of one list of twenty-two companies, eighteen were found to be in arrears $52,503 for principal and $25,880 for interest. Mr. Martyn maintained that bad conditions had prevented payments, and that the investments would ultimately turn out all right. "I have every hope that all these loans will be repaid," he said.

It is such a state of affairs that ruins banks and other credit institutions. The province of British Columbia will not be ruined by an investment of a million, no matter how small a part is repaid. But the loss is one it can ill afford. When industrial loans were projected in 1919 some of the weaknesses were pointed out in these columns, and the results to date certainly show that the province would have been better to have left such financial operations to the usual agencies.

## EVIDENCES OF STABILITY

A year ago some businesses had reached a fairly solid footing. Now they have nearly all passed the low water mark, and some are making strides towards activity. While foreign markets have helped some, improvement during 1922 has been primarily the result of domestic demand. Stocks of raw materials and of finished goods, in process of reduction throughout 1921, disappeared so rapidly that during 1922 demand had to be met from current production. Despite some labor troubles the country has passed rapidly from a condition of curtailed output and widespread unemployment. A moderate construction program has been carried out with consequent activity in industries producing building materials and accessories. Crops have been good, they have moved fairly rapidly despite car shortage and prices for some agricultural products have been improved materially. Wholesale and retail trade are satisfactory.

The situation as to money and credit is not far different from that as to goods. Some foreign gold has come into Canada and slow liquidation of frozen credits has continued. So efficiently has the banking system functioned, however, that the credit needs of expanding business have been fully cared for. The money market has probably been more stable during the last twelve months than in any year of the last decade.

During 1922 Canada made great progress toward a condition of industrial, mercantile and credit stability. The course of business in 1923 depends on two factors: domestic demand and the situation in other countries. Maintenance of domestic demand is conditional upon presenting the increase of labor costs to the point which will force prices out of reach of a large class of the buying public. If conditions abroad improve during 1923, business in this country should show substantial gains. At the worst it ought not to fall materially below the levels of the latter part of the year just closed.

## NEW LIFE BUSINESS

The thing that stands out prominently in life insurance is the fact that new business has been exceptionally buoyant in the face of adverse conditions. No satisfactory explanation has as yet been given for the record volume of life business that was written in 1919 and 1920 and the immense business written during the past two years. During this time there has been a relatively small increase in population. Here, however, are some of the commonly proffered reasons:—The casualties of the war, bringing home to every family in some way the economic position of the dependents; the publicity given to soldiers' insurance during the war in the United States, and after the war in Canada; the advances in wages and salaries with increased surplus available for life insurance; and the influenza epidemic.

Little need be said regarding these alleged causes, because they have already come to the attention of everyone interested in life insurance as a business. The first two and the fourth are, to say the least, doubtful, while the third is worthless, for with most individuals there was an actual decrease in purchasing power.

It may well be that in this search for economic reasons the efforts of the life insurance companies themselves are overlooked. The past few years have brought many changes in the office and in the field. Never have there been more life agents in the field, even in proportion to population, nor have such efforts been made by agency managers and head office staffs to make the agent efficient and his work effective. This has taken the form of preliminary training, bringing home to the new man the fact that he is a representative, not a supernumerary; advertising, of an improved character and on an enlarged scale, and day to day assistance in the field. Through the Life Underwriters' Association of Canada many adverse practices have been discouraged and constructive work accomplished. The Life Officers' Association has also made a contribution by way of publicity and head office co-operation.

This internal improvement has been of such a steady and consistent character that it has not received its due credit for the expansion of life insurance.

Coupled with this it is also necessary to regard the increasing complexity of society. In this complexity there are more elements of risk than there were in former days. This is probably illustrated better in the casualty field. Explosions, automobile accidents, plate glass damage and forgery are all hazards peculiar to modern days and the devices which they have brought.

## THE PROCESS OF DEFLATION

The process of deflation which is steadily going on in Canada, is reflected in the figures of the current loans and discounts and deposits compared with similar figures of a year ago. At the end of October, the latest figures available at the time of writing, the current loans and assessments in Canada amounted to $1,122,000,000, a reduction of $121,000.000 from the figures of October, 1921, and $52,000,000 from the figures of December, 1921. This would indicate a reduction in the volume of merchandise held for sale, and possibly too a speeding up of the processes of manufacture which permits the turning of raw material into finished product in a short time and requires therefore less credit for the operation. This would be brought about by the steady pressure of the banks, who, in their turn, were forced to reduce the amount of loans, through the falling off in deposits.

In October the government bank statement showed deposits in Canada payable after notice $1,156,000,000 a reduction of $95,000,000 since October, 1921 and a reduction of $84,000,000 since December. Demand deposits, $231,000,000 are also lower by $34,000,000 than those of the previous October. The fund from which our banks make these loans was therefore lower in October by $129,000,000 than in the previous year which in itself is sufficient reason for curtailing accommodation.

The results of this are seen in the increased volume of foreign trade chiefly in exports which for the eight months ending November last were $120,000,000 over those of the same period in 1921.

## THE MOVEMENT OF PRICES

When business is recovering after a period of depression, the general level of commodity prices rises, and when business is declining after a period of prosperity, commodity prices fall. This statement may be truly made the other way around so as to express the general rule that when prices rise business improves, and when prices fall business slows down. The fundamental fact is that if we combine the market prices of a number of standard commodities such as wheat, corn, cotton, wool, iron, coal, etc., into a single figure that economists and statisticians term an index number of wholesale prices, and recompute it for a number of successive weeks and months, we find that it is always changing. Such a number rises and falls, but it never remains long at any given level.

Careful studies of the movements of such index numbers over many years show that they rise and fall in long, irregular waves which correspond with the changes in general business activity. The high tides of business prosperity coincide with the crests of the price waves, and the low points of depression come at the troughs of the waves. One of the index numbers of wholesale prices which most accurately reflect these swings of general business is the Harvard index. This number shows that over a 25 year period there have been seven well defined upward and downward swings, and another vigorous upturn is now under way.

The extent of the present movement is of special interest at this time. During the first 11 months of 1922 the number has risen from 160 to 219, or a total of 59 points. This is a greater increase, in actual amount, than any recorded in the periods of business recovery before the war. It was exceeded by the great increase of 75 points from January to December in 1916, and by the rise of 73 points in the first eight months of 1917. It was also exceeded by the upward movement of 112 points from April of 1919 to March of 1920, but the per cent of increase in this latter case was only slightly greater than that which has been recorded in 1922.

While prices continue to advance at any such rate as they have shown during the present year it may confidently be expected that business activity will increase. It seems doubtful, however, if any such rate of advance can be long continued in peace times.

## SHAREHOLDERS' LIABILITIES

Canadian courts will find a good example and Canadian shareholders a pointed lesson in the case of the City Equitable of London, Eng. The City Equitable was a life insurance company which went out of business recently and considerable inquiry has been made into its affairs and the conduct of its manager. Four shillings in the pound had been paid up on the company's shares, and a call has been issued for the remaining sixteen shillings. As recently as 1920 the company's shares sold up to 12 pounds, or sixty times their value on the basis of paid up capital.

The holder of partly paid up shares should carefully watch his investment because of the liability for the balance. His position is similar to that of the holder of fully paid bank shares, where there is a double liability. In buying he should have regard for the amount for which he is subscribing rather than for the amount of the first call, and be in a position to meet the balance on short notice. From his point of view a long delay in calling for the balance is not satisfactory, as the element of uncertainty is continually with him. A company may make provision for future expansion by securing at the beginning an authorized capital well above the amount to be subscribed and paid up at the time.

From the viewpoint of the company's creditors the unpaid capital is an asset of considerable, but not ascertainable, value. If such a company fails and a call for the balance is made there are bound to be some shareholders unable to meet their obligations.

## JOINT BANK ACCOUNT

Before the Ontario Supreme Court recently an application was made asking the Court to rule that Mrs. V. McCarey was not entitled to withdraw certain moneys she had deposited in the Bank of Montreal. The Court granted the order.

Vincent McCarey was the husband of Kathleen McCarey. An action had been taken at Kingston for the purpose of recovering the money, and the action had been adjourned for the purpose of allowing a commission to take the evidence of Vincent McCarey at Los Angeles.

In May last the husband had left Kingston and had gone to Los Angeles, leaving with his wife a power of attorney to sell a certain parcel of property, situation in the city of Toronto. Under the power of attorney $1,500 accrued from the sale and was to have been deposited to the credit of a joint account between husband and wife.

It was claimed that the money from the sale of the Toronto property instead of being deposited to a joint account, was put to the credit of Mrs. McCarey, in the Bank of Montreal. The court was also told that Mrs. McCarey, after leaving Ontario, went to Los Angeles, where, it was stated, she stayed with her husband for a short time, and then ran away with "another man."

The court ruled that any withdrawals from the account in the Bank of Montreal should be made to the order of Mr. McCarey.

## INSURANCE COMPANIES TAXES

### Vancouver and Victoria Fail to Get Power to Collect—Agents Licensing Act

(Special to The Monetary Times)

Vancouver, B.C. Dec. 21.—Insurance companies doing business in British Columbia will not have to pay taxes or license fees to cities or municipalities of the province. This is the effect of amendments to the insurance acts, put through the provincial legislature during the closing hours of the session. As a result the City of Vancouver will have to forego an anticipated revenue from this source, of $15,000 annually, while Victoria, which sought the same privilege as temporarily enjoyed by Vancouver during the past year, is similarly disappointed. The companies put up a strong fight for the abolition of Vancouver's right, basing their objection on the ground that the government, in assessing them two per cent of their premium income, had promised immunity from additional civic taxation. The new legislation extricates the companies from a position which was serious for them and which might have resulted in increases in insurance rates, as other municipalities were planning to take advantage of the precedent established for Vancouver. Fire insurance agents in Vancouver will still be subject to an annual civic license fee of $25. An amendment has also passed the legislature providing that municipalities shall not have the right to tax trust companies.

### Licensing Act Passed.

After a series of contentious discussions in the legislature, the Insurance Agents, Licensing Act has passed the B.C. house. It provides for the licensing of all insurance agents in the province. "Part Time" life agents will not be barred. The clause prohibiting such agents in cities of more than 10,000 population was struck out. Under the new act the insurance superintendent has power to refuse licenses to persons without sufficient knowledge of insurance to qualify as agents. Both companies and agents expect that the act, if properly administered, will raise the status of the business and result in better service to policy-holders.

### Workmen's Compensation.

Amendments to the Workmen's Compensation Act have been passed, providing for an increase in compensation to disabled workmen from the present 55 per cent of their wages to 62½ per cent. The burial allowance has been increased from $75 to $100. By a vote of nearly two to one another amendment to the Workmen's Compensation Act, providing that the members of the compensation board hold their positions permanently, subject to conduct, was defeated in the Legislature. Another amendment provides that farmers may come under the operation of the act, upon making such a request.

The Vancouver City bylaw to raise $65,000 for installing mains and hydrants for protection of Stanley Park from forest fires has been defeated. The famous park, one of Vancouver's greatest assets, was threatened with destruction by fire on fifteen different occasions last summer.

The Dominion Gresham Guarantee & Casualty Co. of Montreal, has been admitted to membership in the B.C. Fire Underwriters' Association.

### Monarch Life Case.

The Monarch Life Assurance Co. has lost a suit in County Court brought against C. F. Martin, Vancouver official of the Canadian National Railway, to obtain $411 on a promissory note given by Mr. Martin in part payment of premium on a life policy for $10,000. The defense contended the policy supplied by the company was different from the one applied for. Mr. Martin alleged he had been "rated up" at a premium applicable to age 43, whereas his age was 35. He pointed out there was nothing in the policy to indicate he had been "rated up" or that he was suffering from any physical disability. Subsequent to the delivery of the policy he had obtained insurance from another company at the rate applicable to his age.

M. F. Daniels of Portland, Ore., of the Improved Risk Department of The Home Insurance Co. has been a visitor to Vancouver in connection with this service of the "Home." He expects to make periodical visits to British Columbia.

## New Year
## New Investments

The January 1923 "Investment Guide" which is now on the press, contains as desirable a group of investments as could well be brought together.

Government and Municipal Bonds are quoted as well as a few high grade Corporation Bonds which may be bought to yield as high as 7%.

We should like to send you a copy. Write for it.

## The New Year

New Year's Day is a milestone in the journey of life—a record of the travelled years and a pointer to the journey's end. The life behind us can be reckoned in years, but life ahead is a matter of days and full of hazard. Anything that we have omitted to do in the old year can only be made sure of accomplishment in the New by instant action.

Free your wife and children from anxiety and possible regrets in the New Year by giving them the utmost possible protection through Great-West Life Insurance. Take out a policy to-day. To-morrow it may be unobtainable.

Consult any of our Agents or write direct to Head Office for rates at age and various policy plans.

# Debenture Debt and Municipal Credit

### Comparison of Per Capita Gross and Net Debt on Standard Assessment—Methods of Ascertaining Reasonable Limit of Debenture Debt—How Debt Affects Municipalities Credit

"The relation of Municipal Debenture Debt to the Bases of Municipal Credit" is the title of a pamphlet just issued by the Citizens' Research Institute, Toronto. It includes a table showing the per centage of per capita debenture debt on per capita standard assessment. The following are some extracts:—

The burden of debt on an individual can not be measured by the number of dollars he owes. The relation of what he owes to what he owns is much more important. A man who owes nothing and owns nothing may be, in a sense, a happy man but financially he is not in so good a position as the man who has salable assets of $5,000 and liabilities of $1,000.

So the burden of debt on a municipality can not be measured by its gross funded debt alone, or even by its per capita gross funded debt. The burden depends on the amount of the tangible assets which form the basis of credit. A municipality's debts consists, for the most part, of two main elements:—(1) the general debenture debt incurred for the purpose of providing regular civic services, the current costs of which are defrayed out of general taxation; (2) the public utility debenture debt incurred for the purpose of providing certain widely-used public services, such as water, power, light and transportation, the current costs of which are or should be provided out of direct charges for services rendered.

**Secured by Property.**

The real security behind the general debenture debt is the property of the citizens on which taxes are levied, and general debt here should be taken to mean gross general debt, less sinking funds, if any. Otherwise, cities who have sinking fund bonds outstanding would suffer in comparison with those whose whole debenture debt consists of instalment bonds.

While the debenture debt (less sinking funds) on publicly-owned utilities is, in the last analysis, a possible burden on the property of citizens, the first security is provided by the public utility properties themselves. These might theoretically be sold to private interests and the debt cancelled. If, however, these utilities do not pay and can not be made to pay their own way, to the extent to which they do not or can not, they are a burden on the private property of citizens, and, if sold, might have to be sold at a price insufficient to retire the debt.

Now it is a well-known fact that assessment values of real property vary between cities in their relation to rent values, that the custom as to the assessment of improvements varies between provinces, that one province includes income and business assessments in the general assessment which forms the basis of the general tax-rate, and that municipalities in some provinces have access to special sources of revenue not available to municipalities in other provinces. Per capita assessment can not, therefore, be used for comparative purposes, in estimating the seriousness of the municipal debt burden.

The Institute, for the purpose of this study, has adopted a method which has been used for some years by the Bond Dealers' Association. After considerable enquiry it was decided that an estimate of $1,000 per person would be a fair one for an equalized assessment in cities of 10,000 and over, as representing fairly the stake, direct or indirect, of the average person, adult and non-adult. The table below gives the percentages of the per capita gross debenture debt, the per capita total debenture debt, less sinking fund, on a standard assessment of $1,000 per capita for 52 Canadian cities as of the fiscal year 1921.

**Safe Limit of Debt.**

It has been generally held that, except in the case of extremely wealthy communulties, the debenture debt should not exceed 20% of a standard assessment. This, however, needs qualification. If a city's gross debenture debt exceeds 20% of a standard assessment, this indicates that one should look further and allow for sinking funds and for publicly-owned utilities paying their own way. If after making such allowances the percentage is still too high, one should consider local conditions, such as average wealth of the citizens. If after such consideration a satisfactory explanation of the excess is not discoverable, the probability is that the debt burden is too large.

The following table is based on official information, from published reports, or special statements, or both. Owing to lack of uniformity, in use of terms, there may be minor inequalities, but the table goes to show that Canadian municipalities of 10,000 or over are essentially sound. Owing to lack of complete information ten Canadian cities of this rank had to be omitted.

**Many are Too High.**

An analysis of this table shows that out of the 52 municipalities, 21 had gross debenture debts exceeding 20% of the standard assessment; 18 had net debenture debts (gross, less s.f.) exceeding this standard; but that only 11 had net general debenture debts (general debenture debt, less s.f.) exceeding this standard. It shows also that in 8 municipalities on the list, the gross debt was less than 10% of the standard assessment; in 14, the net debt was less than 10% of this assessment; and, in 30, the net general debt was less than 10% of this assessment. It shows further that most cities with large percentages are comparatively young and of rapid growth and have had to concentrate in a short period a capital programme that, in larger and slower growing cities, has been spread over a comparatively long term of years.

*The fiscal year of some few cities carries over into the early months of 1922.

### PERCENTAGE OF PER CAPITA DEBENTURE DEBT ON PER CAPITA STANDARD ASSESSMENT.

1st column—Gross debenture debt on standard assessment.
2nd column—Total debenture debt less sinking fund on standard assessment.
3rd column—General debenture debt less sinking fund on standard assessment.

## FURTHER INCREASE IN CIRCULATION

### November Statement Shows Eleven Million Increase—Gold Held for Redemption Shows Further Increase

With the Canadian crop movement reaching its zenith at this period of the year it is natural that there should be an increase in the note circulation of the Dominion Government. This year was not an exception to this rule, there being an increase of approximately eleven million in the government circulation during the month of November in comparison with October.

There was also a further increase in the amount of gold held for redemption of Dominion notes, the total during November being higher by over two million over the previous month. The ratio of redemption gold to total circulation showed a decline during November, the ratio being 38.06 per cent., as compared with 3.89 per cent., during October.

The position as at November 30 was as follows:

| | |
|---|---|
| Provincial | $ 27,710 |
| Fractional | 1,248,173 |
| $1 | 16,674,215 |
| $2 | 12,202,029 |
| $4 | 86,083 |
| $5 | 2,718,785 |
| $50 | 4,650 |
| $500 | 3,023,000 |
| $1,000 | 6,121,000 |
| Legal Tender for Banks | |
| $500 | 2,000 |
| $1,000 | 871,000 |
| $5,000 | 133,095,000 |
| $50,000 | 75,350,000 |
| | $251,372,746 |
| Gold held 30th November, 1922 by the Minister of Finance | $ 98,850,140 |
| Gold reserve to be held on Savings Banks deposits— | |
| 10 p.c. on $31,701,050.47 under The Savings Banks Act | $ 3,170,105 |
| Gold held for redemption of Dominion Notes | $ 95,680,035 |
| Dominion Notes outstanding against deposits of approved securities. under Finance Act, 1914, and Chapter 4, Acts 1915 | $120,669,432 |

## GRAND TRUNK RAILWAY

The net operating income of the Grand Trunk Railway for the first ten months of the present year was $10,236,638 compared to $5,084,093 for the same period a year previous. The deficit was thereby reduced from $6,855,177 in 1921 to $2,450,000 in 1922. The increase in net income came wholly from a saving of $5,217,669 in operating expenses. Gross operating income declined to $63,496,665 from $64,818,554. Following is a condensed statement of income for the ten months period and for October:

| | —October— | |
|---|---|---|
| | 1922 | 1921 |
| Gross revenue | $ 7,557,284 | $ 7,132,231 |
| Operating expenses | 6,770,676 | 6,210,918 |
| Net op. in. | $ 991,959 | $ 837,387 |
| Non. op. inc. | 339,387 | 705,356 |
| Gross inc. | $ 1,331,347 | $ 1,542,744 |
| Deductions | 1,688,526 | 1,639,414 |
| Deficit | $ 357,178 | $ 96.670 |
| | Ten Months | |
| | 1922 | 1921 |
| Gross revenue | $63,496,665 | $64,818,554 |
| Operating expenses | 54,946,791 | 60,164,460 |
| Net op. inc. | $10,236,638 | $ 5,084,093 |
| Non-op. inc. | 3,842,588 | 4,593,476 |
| Gross inc. | $14,079,226 | $ 9,677,569 |
| Deductions | 16,529,833 | 16,532,747 |
| Deficit | $ 2,450,606 | $ 6,855,177 |

The operating ratio for October was 89.59 per cent., an increase of 2.51 points over a year ago. The ten months, however, show considerable improvement, the ratio being 86.53 per cent., compared with 92.82 per cent. Deficit after charges last year was $14,064,442, and in 1920, $4,599,104.

## Your Business Abroad

With a fully equipped British and Foreign Department, transacting every type of foreign banking business, and with close foreign affiliations, this Bank can render you valuable service in conducting financial affairs abroad. You are invited to write to this department for any information or advice desired about foreign markets and conditions.

## Why a Lawyer Should Draw Your Will

There is nothing very formidable about drawing a will. But it needs experience, knowledge of the legal requirements, and exact use of language. Many people who attempt to draw their own wills fail in one or more of these respects. The wills they make written throughout by themselves or with the doubtful aid of a printed form, are subject to dispute or delay in interpretation and in danger of being disallowed by the Court as not being wills at all. So these suffer to whom the will-maker intended the estate to pass.

Everyone should make a will. Make yours, but have your lawyer draw it up.

A will implies an executor. We act as executor.

### NEW TRUST BUSINESS IN NOVEMBER

**Three Corporation Issued During Month, But Individual Estates Show Decline**

The National Trust Company was appointed trustee for the $2,500,000 bond issue of the Wm. Davies Co. Inc.

The Montreal Trust Company was appointed trustee for the $850,000 bond issue of the Great Northern Power Company, Ltd.

For the $800,000 bond issue of the Ogilvy Realty Corporation, Ltd., the Montreal Trust Company was appointed trustee.

**Individual Estates**

The Canadian Guaranty Trust Company has been granted administration of the estate of Thomas Beare, Oakland Mun., Man., who left an estate of $34,000.

Administration of the estate of Richard Kempton, Wawanesa, Man., has been granted to the Canadian Guaranty Trust Co.

The Chartered Trust and Executor Company has been granted administration of the estate of John M. Ferguson, Toronto, who left an estate valued at $71,331.

The Trusts and Guarantee Company have been granted probate of the will of John O'Hara, Fairbank, Ont., who left an estate of $56,667.

The Toronto General Trusts Corporation have been granted probate of the will of Mrs. H. Milligan, Toronto, who died leaving an estate of $16,911.

Under the terms of the will of James Polkinghorne, Toronto, the Union Trust Company has been granted probate of the estate, which is valued at $33,564.

The Royal Trust Company has been granted probate of the will of Percy W. Charleson, Vancouver, who left an estate valued at $492,177.

The Royal Trust Company has been granted probate of the will of Hugh Baird, St. John's, Newfoundland, who died leaving an estate of $611,710.

### NOVEMBER BANK STATEMENT

The November bank statement, details of which will be published in a later issue of The Monetary Times, shows that demand deposits are up by $12,955,292, as compared with the October return of $544,446,720. Notice deposits are higher by $11,166,612. Total deposits show an increase of $24,121,904, and stand at $1,712,055,785. The November total, however, was less by $96,073,321 than the return for November, 1921. Deposits outside of Canada have been reduced by more than $8,000,000.

Current loans in Canada are somewhat lower at $1,105,630,178, a reduction of $17,210,281 from October and $104,471,456 from November, 1921. Reserve fund amounts to $130,440,964. Note circulation was lower at $169,626,264. Current coin is higher by $7,851,881 and stands at $100,156,086. Deposits in the central gold reserve now stand at $59,452,533. Call loans in Canada are down to $98,984,090, while call loans outside of Canada show on increase of more than $8,000,000, according to the improved export trade of Canada. Both liabilities and assets are higher.

### OTTAWA BANKERS' INSTITUTE

"The business man of the future must also be a student. Study makes more rapid your progress through the school of experience, which in itself is too expensive," was the advice given at a gathering of bank officials by Professor W. C. Clark, of the Department of Political Science at Queen's University, speaking at the inaugural meeting of the Ottawa Institute of Bankers on December 21.

Professor Clark started this new institution in Ottawa with some sound advice on the value of a high conception of the business in which those present were engaged, and the best means for securing a solid foundation in the knowledge necessary to become a modern banker. Although the Ottawa institute of bankers was not actually formed at the meeting, it was decided to name a committee in each bank to form the central body of the new association.

### NATIONAL TRUST COMPANY

The National Trust Company is closing its Regina branch.

## *Bank Branch Notes*

Gilbert G. Wainwright has been appointed manager of the Bank of Nova Scotia at Quebec city. At the time of the amalgamation of the Bank of Ottawa with the Bank of Nova Scotia he was manager of the Winnipeg branch of the former bank. During the last two years he has been at the head office of the Bank of Nova Scotia in Toronto.

D. B. Emeno, who has been manager of the Calgary branch of the Bank of Montreal for the last eight months, has been promoted to the position of assistant superintendent for Alberta district.

W. D. S. Fraser, manager of the Welland branch of the Dominion Bank has been appointed manager of the Yonge and Eglinton branch, Toronto.

The Bank of Toronto will open a branch in the Mount Royal Hotel, Montreal, Que.

## *Insurance Licenses and Agency Notes*

The Globe Indemnity Company of Canada has been licensed to transact in Canada the business of Plate Glass insurance, in addition to the classes for which it is already licensed.

The Acadia Fire Insurance Company has been licensed to transact in Canada the business of Explosion insurance, in addition to the classes for which it is already licensed.

A license has been granted to the Insurance Company of North America authorizing it to transact in Canada the business of Tornado insurance, in addition to the classes for which it is already licensed.

The National Union Fire Insurance Company of Pittsburgh, Pa., has been authorized to transact in Canada the busines of Insurance against damage to property of any kind caused by the Explosion of natural or other gas, in addition to the classes for which it is already licensed.

The Insurance Company of the State of Pennsylvania has been granted a license authorizing it to transact in Canada the busines of Burglary and Inland Transportation insurance, in addition to the classes for which it is already licensed.

The Imperial Assurance Company has been licensed to transact in Canada the business of Fire insurance, Explosion insurance and Automobile insurance, excluding insurance against loss by reason of bodily injury to the person.

A license has been issued to the Grain Dealers' National Mutual Fire Insurance Company, authorizing it to transact in Canada the business of Fire insurance.

The Agricultural Insurance Company has been licensed to transact in Canada the business of Explosion insurance, in addition to the class for which it is already licensed.

W. C. Gordon, branch manager of the Imperial Life Assurance Company for Northern Saskatchewan at Saskatoon, has been promoted to the Southern Saskatchewan branch office at Regina. The place Mr. Gordon is vacating is being filled by R. M. Currie, a Saskatoon business man, who has done insurance work in the city. Thomas Marston, who is vacating the Regina office, is being transferred to Toronto to do special work for the Imperial Life Insurance Company there.

The appointment is announced by the New Hampshire Fire Insurance Company as of January 1st, of Gavin Browne, Jr., as inspector for the Province of Ontario. Mr. Browne, who will make his headquarters at 53 Yonge Street, Toronto, has acted for the British Colonial in a similar capacity for the past ten years, previous to which he was connected with Evans & Gooch, representatives of the North British & Mercantile at Toronto.

### R. S. DAY AND SON

Robert S. Day and Son, Ltd., Victoria, have opened a branch office at 1003-4 Rogers Building, Vancouver, in charge of William S. Day. F. B. J. Stevenson is in charge of the Victoria office. The firm are general agents for the Guardian Assurance Co., Ltd., of London.

### NEW LIFE BUSINESS SHOWS INCREASE

**November Total is Almost Two Million Higher Than Last Year—Death Claims Also Higher**

New Life business issued by representative Canadian companies during the month of November shows an increase of about one million eight hundred thousand dollars over the same month last year, according to reports received by "The Monetary Times."

| | New Business | |
|---|---|---|
| | Nov.1921 | Nov. 1922 |
| Company A .... .... .... .... | $ 5,238,472 | $ 6,035,377 |
| Company B .... .... .... .... | 4,366,905 | 4,840,320 |
| Company C .... .... .... .... | 2,446,845 | 3,075,580 |
| Company D .... .... .... .... | 1,687,000 | 1,222,812 |
| Company E .... .... .... .... | 584,163 | 830,340 |
| Company F .... .... .... .... | 728,126 | 818,565 |
| | $15,051,511 | $16,822,994 |

Death claims paid during the month are up by about one hundred and sixty thousand dollars over last year, every company reporting higher claims. Details of the November statement are given herewith:—

| | Death Claims Paid | |
|---|---|---|
| | Nov. 1921 | Nov. 1922 |
| Company A .... .... .... .... .... | $221,085 | $342,558 |
| Company B .... .... .... .... .... | 107,624 | 109,136 |
| Company C .... .... .... .... .... | 36,104 | 45,158 |
| Company D .... .... .... .... .... | 49,764 | 70,067 |
| Company E .... .... .... .... .... | 8,193 | 10,054 |
| Company F .... .... .... .... .... | 22,359 | 34,113 |
| | $445,129 | $611,086 |

### AMERICAN BANK NOTE CO.

Announcement has been made in Ottawa that on January 1st, 1923, the Canadian business of the American Bank Note Company will be taken over by a new company organized under a Dominion charter with a paid-up capital of $2,500,000, to be known as Canadian Bank Note Company, Limited. The Canadian plant of the American Bank Note Company was established in Ottawa over twenty-five years ago. From comparatively modest beginnings, the business has greatly extended until at the present time it probably manufactures more steel engraved bank notes than any other engraving house in the British Empire. Upwards of 600 skilled people are employed in Ottawa. All the employees are Canadians and many of them have been trained abroad.

It is stated that the new company will take over all the property and assets of the American Bank Note Company in Canada, also contracts with the Dominion government and with the chartered banks for the printing of Dominion notes, postage and revenue stamps, bank notes, etc.

A working connection will, however, be maintained with the American Bank Note Company's main plant in New York, whereby the services of skilled artists, engravers, etc., may be obtained by the Canadian Bank Note Company, Limited, when required. Under this arrangement the Canadian company will also enjoy the benefit of improvements in machinery and new processes, etc., which may be developed from time to time.

The executive officers of the Canadian Bank Note Company, Limited, will be the same as at present. Jos. A. Machado will assume the presidency of the new company, and Charles G. Cowan will be vice-president and general manager. The sales department wil be in charge of Philip B. Toller, and branch offices will be maintained in Toronto under the managership of Charles J. Mills, and in Montreal under Fred E. Lavis.

### MANITOBA RURAL CREDITS

Organization of the Federated Rural Credits' Societies of Manitoba Federation, has been effected in Winnipeg, and the following officers elected: President, John Arnott, Roblin; vice-president, H. B. Nicholson, Dauphin; secretary, David Woods, Winnipeg. The council represents all the rural credits' societies in the province. A resolution expressing the keenest interest in the investigation being instituted into rural credits by Hon. F. M. Black, and demanding the right to add a third person to the committee of two named by the government, was passed.

### SETTLE INSURANCE CLAIM

Judgment, on consent, was given in Hamilton on Dec. 18 by Justice Lennox in the supreme court action brought by Augustine Addarid against The General Fire Insurance company, limited. The plaintiff sued to recover $1,500 alleged to be due on an insurance policy with the defendant company.

The defendants claimed that the plaintiff set too high a value upon the goods destroyed in the fires and refused to pay the claim. After hearing several witnesses for the plaintiff Justice Lennox suggested to counsel for the parties that an adjustment would work out to the benefit of both parties. J. A. McIntosh, K.C., for the defendant, suggested $500. He was told by the judge that this was too little and Wm. Morrison, for the plaintiff, was likewise informed that $1,500 was too great a sum. After five minutes counsel agreed upon the sum of $700 and judgment was entered for this sum with costs on the supreme court basis.

### UNIVERSAL SECURITIES CORP.

The Universal Securities Corporation, Limited, with headquarters at Outlook, Sask., and a branch at Glenside, has closed its doors and suspended payments. The corporation did a general banking, loan, mortgage, insurance and automobile business and had deposits according to information given out from the offices approximating $100,000.

### FEDERAL FIRE INSURANCE CO.

Notice was recently given that the statutory general meeting for the election of directors, etc., of the Federal Fire Insurance Company would be held in Toronto on December 28. It is also announced that the company has secured agencies in over 150 towns and villages of the province, in less than one hundred days.

The Directors have outlined in a general way their policy of management. They will operate south of a line drawn from Orillia to Ottawa, and will not under any circumstances insure property north of that line. They are planning to specialise in dwelling business. They will not write farm property, which has a continued record for many years as an exceptionally unprofitable class. They will operate their office on the daily system, that is, the policy will be mailed to the agent the day on which the application is received. Losses will be promptly adjusted and paid.

### EDMONTON ACCOUNTANTS

At a dinner of Edmonton chartered accountants held December 12, a Chartered Accountants club of Edmonton was formed with a membership limited to chartered accountants resident in Edmonton, and their immediate staffs. They will hold monthly meetings for the purpose of discussing matters of mutual interest and promoting the best interests of the profession. The following officers were elected to hold office until September 1, 1923: President, Harry O. Patriquin; vice-president, Harold Gorse; secretary-treasurer, Jas. A. Henderson; advisory committee, Hugh H. Nash and Chas. M. Lang.

### DISABILITY BENEFITS

The Prudential Insurance Company announces the following:

"Ordinary and intermediate policies (including group and wholesale policies) containing provisions for the payment of disability benefits now provide for a waiting period of three months from the receipt of due proof of disability before the first instalment will be made.

"Such policies issued on and after January 2, 1923, will provide for the payment of the first disability instalment immediately upon receipt of due proof of total and permanent disability.

"Ten and fifteen year term policies issued on and after January 2, 1923, will contain provisions for the waiver of premiums and the payment of the amount of insurance in instalments during ten years in event of total and permanent disability, prior to age 60.

"On account of the improvement to above, a slight increase has been made in the premiums for policies containing Disability Income provisions (except Intermediate policies) and for Term policies.

"All other premium rates remain unchanged."

# *Recent Fires*

Fire losses in Canada during the week ended December 27th, are estimated by The Monetary Times at $1,966,900 compared with $828,000 the previous week. The details are as follows:

# Some Features

*of the*

# 1923 Monetary Times Annual

A message from each Provincial Prime Minister reviewing the salient features of the year's progress.

A thorough survey of the more important industries and analyses of the Grain Trade, the Mercantile Marine, the Power, Pulp & Paper, Iron and Steel, Automobile and Textile industries.

Summaries of conditions in the Public Utility, Mining and Industrial fields.

An analysis of the mortgage loan situation in the West.

The Investment field reviewed from many angles.

A comprehensive review of Canadian Banking in 1922.

Summaries of Dominion and Provincial Legislation in 1922.

Articles on Dominion, Provincial and Municipal finance, dealing with the more important tendencies of the year.

A summary of the trade of Canada.

An article on the broadening field for fiduciary service by trust companies.

A summary of trust companies'new business for 1922.

Records of transactions on the Stock Exchanges.

The most complete record compiled by any Canadian publication of new issues of stocks and bonds.

Exhaustive reviews of Life, Fire & Casualty insurance. The progress of Public Workmen's compensation. Monetary Times' Fire Loss Record.

## 180 Pages of Information of Vital Interest to Every Canadian Investor and Business Executive

# Send the Monetary Times Annual to Your Best Business Friends

The "Annual" is known and appreciated the world over. Statesmen, Educationists, Journalists, and leaders in the financial, industrial and commercial fields praise it as a compilation of information of great interest and usefulness.

Your business friends would read it with interest and would refer to it frequently—just as thousands of others do. Let it build good will for you. Send your order on the attached form and we will stamp "With the compliments of Mr......." on the cover, free of charge. Each time the book is referred to your name will be brought to mind.

Your list of names should be in our hands not later than January 5th to enable us to check it with our subscription lists. Those found on our lists will be deleted from yours unless you ask us to send them extra copies.

All orders received after January 5th will be accepted, subject to an extra charge for postage.

**Leaders of Finance and Industry throughout the Dominion and elsewhere refer to the 'Monetary Times Annual' as "the Authoritative Year-Book on Canadian affairs."**

## The Authoritative Year-Book on Canadian Affairs

*Sir Edmund Walker.*

The Monetary Times Annual is the most handsome publication of its kind I have seen in Canada. A document exhibiting great enterprise and industry, the statistics being unusually complete. I am sure that as a means of properly exploiting Canada, it is very valuable.

*Sir Edmund Osler.*

It contains much valuable information and should be of great use to investors and those interested in the progress of Canada. I consider the volume of very great advantage to business men.

*Montreal Herald.*

This elaborate issue deserves perusal by every business man.

*C. R. Hosmer.*

The Annual of The Monetary Times will, I am sure, be very much appreciated by business men and investors, as it affords a handy book of reference, dealing as it does with every important interest throughout every section of Canada.

*Commercial and Financial Chronicle, New York.*

It contains an immense amount of valuable statistical matter, besides numerous interesting articles by well-known authorities.

*E. M. Saunders, treasurer, Canada Life Assurance Co.*

It has already been my privilege to look over The Monetary Times Annual, and I must compliment you on the compilation of the same. I have a binder in my library where I keep your annual issue for reference during the year.

*G. T. Somers.*

Allow me to congratulate you upon the splendid issue of The Monetary Times Annual. It is an exceptionally interesting publication, full of valuable information, and one which will no doubt be retained by business and financial men in their libraries for reference purposes.

*Senator Nathaniel Curry.*

Am very much pleased with the contents. I hope that this issue is having a wide circulation all over Canada.

*Cape Argus, Capetown, South Africa.*

It is a large volume and contains a mass of useful and interesting information concerning Canada, particularly in connection with its material progress and prospects. The volume is neatly printed, and should be found in the libraries of all who are interested in the Dominion.

*Toronto Star.*

The Monetary Times Annual is a work of great value to business men. It is a veritable encyclopaedia of financial, commercial and industrial information.

**The Monetary Times**
62 Church Street
Toronto.

# Slight Increase In Prices

### Downward Trend in Wholesale Prices Checked During November —Index Number Increases By Two Points—Only Three Items Show Decrease Including Fuel, Which is Lower by Twelve Points

The downward trend in the index number of commodities, as compiled by the Department of Labor, was checked during the month of November when there was an increase of approximately two points in the index number as compared with October. The November index number stands at 221.7 in comparison with 219.8 during October. This year's index number is, however, lower than November, 1921, when the number stood at 227.3.

With the exception of three, all groups show an increase over the previous month. The largest increase during the month was that of "other foods," which are up by nineteen points. The second largest increase was dairy products which show an increase of seventeen points. The other large increase was that of grain and fodder which has increased by ten points. The other increases during the month were only for a point or two.

The decreases during November totalling only three were fairly large, the largest decline being that of fuel and lighting which is down by twelve points. Another decrease occurred in animals and meats, the index number being down from 235.8 to 224.5. There was a decline of approximately two points in the fish group.

Details of the November statement with comparisons are given herewith:—

Index number of wholesale prices by groups of commodities for November 1922, Oct. 1922, Nov. 1921, 1920, 1919 1918, 1917, 1916, 1915, 1914, 1913. (Average prices 1890-1899=100)

## GRAIN CARRIERS

Increased facilities for grain carriage by the St. Lawrence route are to be provided by the Eastern Steamship Company, which has just secured incorporation at Ottawa. American grain shipping interests are behind the incorporation.

Orders have been placed in Great Britain for ten grain carriers of the canal size, which will be delivered in Montreal in May. The boats will run between Buffalo, Port Colborne and Montreal. Each will have a capacity of about 80,000 bushels.

# Estimate of Crop Production

### Average Wheat Output for Three Prairie Provinces Calculated at 18.1 Bushels per Acre By Northwest Grain Dealers' Association—Oats Average 36 Bushels and Barley 27.4

Under date of December 11, the Northwest Grain Dealers' Association has issued an estimate of crop production for 1922. The figures are given below, and are explained as follows:—

"In issuing this estimate of the crop we have taken the acreage as estimated by the Dominion Government Bureau of Statistics under date of November 28th, 1922. The Bureau of Statistics have deducted 40% of the sown area to oats in Alberta as not producing grain. This explains the difference between the oat acreage in Alberta as below, and our September report."

**Manitoba**

| | | | | | |
|---|---|---|---|---|---|
| Wheat | 3,125,556 | acres @ | 21.2 | bus. per acre | 66,261,000 |

| Flax " " " " | 1,472,000 | |

## COAL OUTPUT LOWER

### Imports During August Exceedingly Small

With the exception of Nova Scotia, the coal producing provinces reported increased production in August last over the preceding month, but for the whole of Canada the output was 8 per cent. less than in July, and amounted in all to 789,000 tons as compared with 858,000 tons in the preceding month. The cumulative production for the first eight months of the present calendar year was 7,745,000 tons as compared with a three-year average for the same months of 9,319,000 tons. The output this year to the end of August was, therefore, 17 per cent. below the three-year average for the period, while at the end of July the cumulative production was within 14 per cent. of the three-year average.

### Imports

Imports of coal during August were 12 per cent. below the shipments received in the preceding month, and amounted to only 18 per cent. of the three-year average imports for August. The shortage in imported coal was further emphasized by the fact that the imports from January 1, 1922, to the end of August totalled only 5,953,000 tons, of but 51 per cent. of the average quantity imported during the same period in the three preceding years.

### Exports

Exports of Canadian coal were practically unchanged from the preceding month, the returns showing that 236,000 tons passed out through customs ports for foreign trade. This amount was 3 per cent. below the three-year average for the month. For the eight months ending August exports were slightly more than 1,000,000 tons, or 25 per cent. below the three-year average of 1,450,000 tons.

The amount of coal made available for consumption in Canada during the month of August was 945,000 tons as compared with 1,062,000 tons in the preceding month and a three-year average of 3,222,000 tons. The cumulative figures for the coal made available for consumption during the present calendar year showed a total of 12,615,000 tons, or 35 per cent. below the three-year average of 19,452,000 tons.

### BETTER SALMON DEMAND

**Stocks Are Expected to be Cleaned Up Within a few Months**

According to the Canadian Bank of Commerce Commercial Letter the salmon packers in Br. Columbia are experiencing a better demand for canned salmon from the U. S., where prices are rising to a parity with those in Canada. Except in the cases of sockeyes, the situation in the salmon industry is regarded as satisfactory, it being expected that stocks will be cleaned up completely in the course of a few months. Figures received from salmon-canning plants in British Columbia indicate an increase of 50 per cent. over the pack of 1921. The total pack of salmon for 1921 was 603,548 cases. while this year it is 1,257,639 cases, of which 299,423 are sockeyes. The output of chums has been much lower than expected.

#### Atlantic Coast

At the present time the fishing industry on the Atlantic coast is experiencing conditions almost as trying as those which prevailed during 1921. The marketing of fish and fish products is beset with difficulties and the fact that prices are not encouraging to the fishermen tends to decrease the catch. Last year the value of fish marketed was $34,931,935, the lowest total since 1914 and no material improvement is anticipated during the current year.

#### Attempt to Hold Markets

Up to the end of the first week in November about 600,000 quintals of this season's catch of codfish have been exported from Newfoundland, and by the turn of the year it is estimated that 700,000 quintals will have been shipped, leaving 560,000 quintals to supply the market from January 1 until next season. So far as can be judged the catch of codfish this year is about 270,000 quintals less than that of last year. Special efforts are being made by exporters to retain the markets secured for the first time in 1920, and the prospects of better prices in the foreign markets have recently become more hopeful. Some delay is taking place in shipments to Spain, pending a decision as to whether Newfoundland desires to be included in the recent Anglo-Spanish treaty. That Dominion may come into the agreement, provided it will reciprocate by taking Spanish wines. Failure to agree to this means, in the case of Newfoundland, a reduction of 75 cents per quintal in the price of fish in Spain, this amount representing an additional import tax. It is understood that Newfoundland's chief competitor, Norway, had a catch of 47,900,000 fish this year, as compared with 39,000,000 fish in 1921, and has agreed to take a specified quantity of Spanish wine yearly, thus obtaining some advantage in marketing its codfish.

## NEW ACCOUNTING COMPANY

John Hyde, chartered accountant, Montreal, announces that after Jan. 1, William J. Hyde, chartered accountant, will be associated with him in the conduct of his business, which will be carried on under the name of John Hyde Audit Corporation, Limited.

## SPANISH RIVER'S OUTPUT

Special advices from Spanish River Pulp & Paper Company's headquarters state that during November the company's three newsprint plants broke all previous records by reaching an average daily production of 670 tons. The mill at Sault Ste Marie is stated to have broken its tenth record for increased output.

## ANOTHER LARGE POWER DEVELOPMENT

James B. Woodyatt, general manager of the Southern Canada Power Company, was in Sherbrooke, on December 8, and reported that the company will begin next year another large power development on the St. Francis River which will produce some 30,000 horsepower. At the present time they are without surplus power, and are purchasing from other companies to meet the needs of customers.

Great Northern Power Company Limited
*7% First Mortgage Bonds*
DUE 1937
Annual net earnings from the first unit of 2150 H.P. which is expected to be in operation early in 1923, are estimated at $100,000 against bond interest of $59,500.

Annual net earnings of first plant of 6500 H.P. estimated at $275,000 or over four and a half times the bond interest, showing about 12% earned on Common Stock.

A steady market is assured in the rich mining district north of the Cobalt area. Contracts with responsible mines have already been signed for 1500 H.P.

Wheat Trophy Again Awarded to A Saskatchewan Farmer

At the International Grain and Hay Show, held in Chicago, December 4th, the Board of Trade Cup for the best wheat grown in North America was won by R. O. Wyler, of Luseland, Saskatchewan, with an exhibit of hard red spring wheat. Two years ago Saskatchewan won the same trophy.

These Western Canadian successes at Chicago, where, in competition with farmers from all over the continent, Canadian farmers carried off 19 out of 25 awards, merely complete the story of the abundant crop in Saskatchewan.

Sales effort in Saskatchewan this winter will meet with unusual response, especially when supported by aggressive advertising in the—

# Municipal Finance

**Wise Creek, Sask.**—In the eleven months' statement it is shown that all the outstanding liabilities with the exception of $2,800 of debenture and $14,000 of relief have been wiped out. There is approximately $10,000 cash in the bank at the present time.

**Eastview, Ont.**—At the meeting of the council on December 15, the financial statement was presented which showed that the total income of the municipality for 1922 had amounted to $493,009, and the expenditures to $491,678, leaving a credit balance of over one thousand dollars.

**Regina, Sask.**—Tax collections during the month of November totalled $173,221.

**Barton Township, Ont.**—At a meeting of the council on December 15 the financial statement was presented which showed receipts of $368,496 and disbursements of $303,660. A surplus of $65,135 stands to the credit of the township.

**Oshawa, Ont.**—The total assessment for 1923 is $8,709,525. This is an increase of $758,945 over last year. These figures do not include the newly-annexed district of Cedar Dale.

**Montreal, Que.**—The per capita debt of the city, according to figures compiled from the budget for 1923 by Comptroller J Pelletier, is now $186.78, taking the population of Montreal at 700,000. The total debt has now reached $130,751,691, of which $77,840,122 is provided for by a sinking fund.

The latter sum is made up of the consolidated debt, amounting to $40,461,399, a special debt, representing $18,545,000 for municipal improvements; and the Maisonneuve debt, of $18,837,723.

The special debt comprises loans effected for public works from 1899 to 1907, $1,960,000; improvements on aqueduct and filtration plant from 1908 to 1922, $10,101,000; purchase and improvement of St. Helen's Island, 1908 to 1910, $250,000; subterranean conduits, 1914 to 1922, $1,330,000; loans to make up revenue deficits in 1906 and 1917, $3,400,000; reconstruction and furnishing of city hall, 1922, $1,500,000.

The sinking fund provided to take care of the Maisonneuve debt amounts to $207,797, while the general debt is being looked after by an annual provision of $834,777.

**Hamilton, Ont.**—For the period ending November 30 total expenditures of all civic departments amounted to $2,274,592 out of a total appropriation of $2,614,501 for the year.

**Springfield, Ont.**—At a meeting of the council it was stated that tax collections totalled $8,365 of which $513 was unpaid. The debenture debt of the village is one year on roads, $877, and three years on hydro, $2,042.

**St. Boniface, Man.**—At a meeting of the council on December 18 they adopted the special report of J. D. Reid & Co., auditors, on the sinking fund of the city, together with a number of recommendations as to procedure in handling the business of the fund for the future. In the report was shown a total of $30,064 of amounts improperly paid out of the sinking fund account, and in the total are included some figures now appearing in the trial of the former treasurer, J. C. Dussault.

Among the recommendations is one that the sinking fund discontinue handling property by investing money in mortgages and foreclosures; also that a liability account shold be opened in which to keep funds collected for purposes of debentures before the debentures are sold, that the time between the last levy and the retirement of the debentures may be protected, as it was shown that nearly a year elapses in some instances. The danger of paying coupons twice under the present system is pointed out and the system is to be changed to make all coupons payable only through the bank.

**Galt, Ont.**—A review of the year's operations of the public utilities commission was submitted on December 18 by Manager W. H. Fairchild. The city now has a total capital expenditure in hydro plant of $700,583 and in waterworks of $552,859, a total investment of a million and a quarter dollars with the annual turnover over a million. There are over 7,000 services in the two departments.

The increased cost of power, assessed for the full year, with increased revenue for only a few months, was responsible for an even break financially in the hydro department, while the waterworks department showed a surplus of $10,454.

**Montreal, Que.**—The city's budget, authorizing an expendture of about $25,000,000 was passed by the council at its regular meeting on December 18.

**Toronto, Ont.**—Finance Commissioner Ross reported to the city council that of total appropriations of $29,359,678 for the year 1922, the city during the first eleven months spent $25,253,067. The appropriation under the head of city council is overdrawn $10,536, due to a grant of $25,000 to the Northern Ontario Fire Relief Committee.

**Greenfield Park, Que.**—At a meeting of the ratepayers on December 19 they decided to authorize an expenditure of $130,450 for various local improvements, which will entail an additional tax of $1.20 per $100 to defray the costs. This brings the town's tax against real estate to $2.50 per $100.

**Brampton, Ont.**—According to the town treasurer's statement for the past year presented to the council on December 18 the municipality's assets are $565,696 and its liabilities $383,860. The local improvement liabilities amount to $264,989, and the total debenture liabilities to $648,849. Included in the town's assets are the following amounts: Unpaid taxes, $5,401; mortgages, $44,419; hydro-electric plant, $50,962; water commission plant, $114,777; fire system, $12,495; land and public buildings, $26,600; indirect assets, $264,989. For the year closing the total receipts were $286,672, including taxes amounting to $156,931 and a revenue from the Hydro power, and water, of $11,111. The expenditures total $258,429, showing a favorable balance of $28,242. Expenditures on roads and bridges amounted to $17,270, on schools $32,000, and on fire, water and lighting, $4,559. County rates totalled $18,586, and debentures were reduced to $26,899.

**Saskatoon, Sask.**—According to an estimate by City Commissioner A. Leslie the public utilities show a net profit of between $55,000 and $60,000 for the year closing December 31. All utilities save the street railway department show a surplus. It is hoped that the end of the year will show the bank loan reduced by $237,000. Of this $118,750 was done by the sale of debentures and the rest represents the city's stride toward placing its financial affairs on a cash basis.

**Regina, Sask.**—The city has decided to exempt the 1922 tax sale certificates from the 10 per cent. penalty for a short time as an inducement to investors, it was announced on December 19 by John E. Snowball, city treasurer.

Under the provisions of the act immediately after the tax sale the city may add a 10 per cent. penalty to the arrears on properties which have been offered for sale under confiscation proceedings, but the city has decided to waive this added penalty in the case of tax certificates covering the properties offered at the recent sale. The exemption will probably be good for a month, Mr. Snowball said.

**Burnaby, B.C.**—A reduction of $82,419 in the bonded debt was made at the meeting of the council on December 18. The above amount of debentures was cancelled by resolution.

**Bangor, Sask.**—By a verdict of the Saskatchewan Assessment Commission the assessment of the village has been increased 25 per cent. all round, following the blanket appeal lodged by the secretary-treasurer of the municipality.

**Calgary, Alta.**—At the end of eleven months' operation during the year 1922, the four big public utilities show the following results:

Hospitals, actual deficit, $219,559.

Street railway, actual deficit, $4,322.

Electric light and power, surplus, $16,683.

**Windsor, Ont.**—Figures compiled by the assessment department and finally revised show some interesting contrasts. Rateable property is set forth as $54,733,200, an increase of $3,829,575 over the previous year.

The land is valued at $23,387,650. Buildings are valued at $25,073,225. Business assessments amount to $4,600,425. Assessable income aggregates $1,671,900. The income assessment shows a decrease of $44,975. This is accounted for by amendments to the Assessment Act, and unemployment.

The property exempted by statute is valued at $10,489,150, including city and government owned property.

The value of the property liable for public school rates is $44,250,975, and the amount liable for the Roman Catholic separate schools is $10,482,225. The amount liable for collegiate Institute aggregates $54,733,200, being the sum of the whole rateable property.

**Edmonton, Alta.**—Operation of the city utilities for the eleven months to the end of November shows a very good record.

The net surplus from all the utilities for the period is $311,963, which is a substantial increase over the amount for the corresponding period of last year when the total stood at $203,283.

**Regina, Sask.**—In one month the surplus of the city's combined utilities has jumped from $87,489 to $109,817, or an increase of $22,328 during November, according to the financial report for that month of the city auditors.

## LIABILITY OF PARTNERS IN BANKRUPTCY

A recent action, Craig v. Kennedy, before the Quebec Superior Court in Bankruptcy involved a petition by one of the two partners to annul an assignment under the Bankruptcy Act made by one of the partners on two grounds, first that the assignment was signed by only one of the partners and second, that the property which he brought into the parternship was unseizable. The petition was dismissed by Justice Panneton, as to the first ground because evidence showed petitioner was present at the signing of and had knowledge of the assignment and as by sec 85 of the Bankruptcy Act, a firm may act by any of its members, petitioner is bound.

As to the second ground—petitioner derived title to said property under two wills, each of which contained the disposition that the bequest is made for the support and maintenance of petitioner, that the property given is unseizable with right, howver, to use, enjoy and dispose of said property.

As the result of the article of partnership, the property of each partner, by becoming the joint and common property of the two partners lost its individuality as the particular property of one of them, neither one nor the other can give alone a clear title to the property he brought into partnership when the property will be sold.

"The unseizable character of one of the properties cannot be identified as each property is merged into another, every inch of the ground of the property formerly of the petitioner alone, is now as much the property of his partner as his own. As the deed says, he has divested himself of his property. It was argued that when petitioner agreed to assignment he did not know the legal effect of it. No such reason as error is alleged either in the pleading or in the protest it cannot be urged now.

"Considering that the petitioner has failed to prove the essential allegations of his petition, the Court dismisses said petition with costs."

## DECEASED PARTNERS ESTATE HELD LIABLE

In an action demanding a judicial abandonment of property before the Quebec Court of King's Bench, the facts and decision of the Court, were, briefly, as follows: "Where on the death of one of the members of a partnership, no notice of dissolution is given in conformity with article 1900 of the Quebec Civil Code, the capital of the deceased partner remaining in the business and being treated in the same way as that of the surviving partners and the state continuing to share in the profits, such capital is liable with that of the surviving partners and a creditor contracting with the surviving partners subsequently to the death of such partner, is entitled to demand an abandonment of property of the firm and is entitled to have the capital of the deceased partner included in such abandonment."

## BANK ROBBERY

Safety deposit boxes in the Royal Bank, Mount Forest, Ont., were looted by robbers during the early hours of December 15. The thieves broke in a rear window of the bank, after smashing several bars which were on the outside, and on gaining entrance they proceeded to blow up two safes which contained the bank's funds. They were not successful in getting at the cash in these safes, but they did get into the safety deposit boxes, which were situated in another part of the room. These they appear to have cleared out of all that was of any value, including bonds of all descriptions. Just how much booty they succeeded in getting away with is not known.

## FURTHER INCREASE IN EMPLOYMENT

### Situation in Canada Has Grown Better Since Last April

According to returns received by the Employment Statistics Branch of the Dominion Bureau of Statistics, the volume of employment afforded by some 6,600 firms at the beginning of November showed an increase, thus maintaining the steadily upward movement indicated by employers since April.

The working payrolls of these concerns aggregated 785,451 persons, or 6,810 more than in their last report, and the index number of employment stood at 95.8, as compared with 94.6 at the beginning of October and with 90.2 on November 1, 1921. Activity in the manufacturing industries as a whole, and in the logging, mining, transportation and trade divisions increased considerably, the gains in some cases indicating the resumption of seasonal operations. The only pronounced declines recorded were those in sawmills and in the construction industries, both of which were entirely seasonal in character.

### All Provinces Busy

All provinces except British Columbia shared in the favorable movement. The advances in Ontario and the three prairie provinces, in each case providing work for approximately 2,300 workers, were the most extensive. The gains in the former district occurred very largely in automobile factories (representing recovery from previous shut-downs), in logging camps and in textiles. In the prairie district considerable improvement was reported in the coal fields and in railway transportation. The declines in British Columbia were mainly attributable to contractions in water transportation, fishing and canning.

### Textile Industry Busy

As mentioned above, the trend of employment in the manufacturing industries was favorable, in spite of the pronounced seasonal declines in sawmilling operations, textile factories were considerably busier. In the iron and steel industries, in addition to the revival of activity in automobile plants, there were additions to staffs in shipyards, foundries, heating appliance and machine shops. The production of crude, rolled and forged products, however, declined. Boot and shoe factories and tanneries were decidedly busier, the period under review being characterized by the most marked improvement recorded in the leather group in any one month of the present year. Logging camps reported considerable extension of operations. The increases in personnel registered exceeded those indicated during any month of 1921. Coal mining in both eastern and western fields was much more active, although other branches of the mining industries were slacker. Railway transportation afforded increased employment, particularly in the prairie district. Seasonal improvement was evidenced in the payrolls of wholesale and retail establishments, especially in the latter.

The volume of employment afforded in construction declined largely, over 7,000 men having been let out by employers in these industries. The majority of the workers were released from employment on highways, mainly in Ontario.

# Government and Municipal Bonds

In spite of the holiday season the government and municipal bond market held up remarkably well and although trading fell off to a certain degree in conjunction with the holidays, the price trend was still on the upgrade.

For the past month the bond market has shown a continuous improvement and there is every indication that the crop money is slowly but surely finding its way into investment channels and with the offerings which are expected after the turn of the year a most active market is looked for. There are several large provincial and municipal issues expected during the next month and if they are issued during that month they should have the desired effect of starting the ball rolling.

Bond sales during the week were not very heavy the only large one being the city of Halifax for $126,750. This issue attracted wide attention no less than twenty-two bids being received with very little variation in the offers. There were several small issues but these were disposed of within a short time.

### Tenders Invited

The following is a list of debentures offered for sale, particulars of which are given in this or previous issues:

| Borrower | Amount | Tenders close |
|---|---|---|
| Lachine, Que. | $225,000 | Jan. 15 |
| Montreal South, Que. | 20,000 | Jan. 18 |
| London Twp. Ont. | 6,000 | Dec. 30 |
| Chateauguay-Basin, Que. | 5,000 | Jan. 2 |

**London Township, Ont.**—Tenders will be received up to 10 a. m. December 30, 1922 for the purchase of $6,000, 6 per cent., 20-annual instalment hydro-electric debentures. Miss Mary Grant, clerk, 110 Dundas street, London, Ont.

**Lachine, Que.**—Tenders will be received up to 4 p. m. January 15, 1923 for the purchase of $225,000, 5½ per cent., 10-year Protestant School Board bonds. Bonds dated December 1, 1922, and are payable at Montreal or Lachine. S. G. Grimston, secretary-treasurer.

### Coming Issues

**Fort Erie, Ont.**—At the municipal elections the ratepayers will vote on a by-law authorizing the raising of $45,000 for sewage disposal works.

**Stamford Township, Ont**—On January 1, the ratepayers will vote on a by-law authorizing the issuing of $20,000, 5½ per cent., 10-instalment debentures for fire protection.

**Quebec, Que.**—On December 13, the city was authorized by the private bills committee of the provincial legislature to borrow a total of $780,000.

**Georgetown, Ont.**—Ratepayers will shortly vote on $6,000 by-law for erection of war memorial.

Meaford, Ont.—By-law to provide $100,000 for new public school will be submitted to ratepayers.

**Fort Erie, Ont.**—Ratepayers will vote on by-law providing $10,000 for extensions to electric lighting system.

**Welland, Ont.**—By-law will be submitted to ratepayers to raise $15,000 for erection of market building.

**Ellice Tp., Ont.**—Township council provisionally adopted by-law for improvement of Whirl Creek at cost of $19,688.

**Quebec,**—A bill authorizing the expenditure of $2,000,000 for colonization purposes is now before provincial legislature.

**Pembroke, Ont.**—At a meeting of the council on December 4, the council gave second and third readings to a by-law for the issuing of $90,000 debentures for school purposes.

**Ottawa, Ont.**—On January 1, the ratepayers will vote on two debenture by-laws, one for $50,000 debenture for playgrounds, and the other for $75,000, 5½ per cent., 20-instalment debentures for public abbatoir.

**North York Township, Ont.**—On January 1, a by-law will be submitted to the ratepayers authorizing the expenditure of $125,000 .for the installation of a waterworks system.

**Blenheim, Ont.**—On December 15, the council granted the request of the school board for the expenditure of $25,000 for a new school.

**Montreal, Que.**—In order to raise $1,000,000 for civic improvements, mostly to be used to build three incinerating plants, the city will be obliged to hold a referendum and obtain the consent of the ratepayers. This is due to the failure on the part of the Legislature to ratify the proposition that the city should be authorized to raise this sum without the citizens' vote.

It is altogether likely that the poll will be taken sometime in February.

**Sioux Lookout, Ont.**—On January 1, the ratepayers will be asked to vote on a by-law authorizing the issuing of $5,000, 6 per cent., 20-annual instalment debentures for the construction of a hospital.

**Tecumseh, Ont.**—The council recently passed two by-laws for the issuing of debentures, one for $3,300 for fire apparatus, and the other for $4,900 for installing a filtering system in the water works.

**Stratford, Ont.**—The council passed a by-law authorizing the issuing of $29,800 debentures for highways.

**Terrebonne, Que.**—The bill authorizing the town to borrow $300,000 for the reconstruction of that section recently destroyed by fire, the repayment of which is over a period of forty years and guaranteed by the provincial government, is now before the Legislative Assembly.

It provides that the money shall be borrowed in one or more loans at an interest not exceeding 5½ per cent and the government's guarantee is given on condition that the bylaw authorizing the loan is approved of by the majority in number and value of the proprietors who vote on them.

**St. Catharines, Ont.**—On January 1 the ratepayers will vote on a by-law authorizing the issuing of $30,000 5½ per cent., 20-annual instalment debentures for park purposes.

**Alberta**—A new debenture issue of probably $3,000,000 will be put on the market by the provincial government about the middle of January. It will be on the basis of twenty years, five per cent., in both Canadian and American funds. The sale will be made, it is now intended, by public tender.

The issue will take up the balance still remaining from the amount authorized in 1922, and the proceeds will be applied to public works and other purposes.

**Brantford, Ont.**—Three by-laws will be submitted to the ratepayers in January next, the city council adding one recently to the two previously decided upon. The by-laws are all for issuance of debentures. One is for $124,000 for additional funds to build a new Lorne bridge, to cost $325,000 in all; one for $85,000 for an extension to the collegiate institute to do away with use of two parish halls in different parts of the city, and $45,000 for a new public school in West Brantford.

### Bond Sales

**Dryden, Ont.**—C. H. Burgess & Co., have purchased $5,000, 6 per cent., 20-annual instalment debetnures at a price of 95.20, the money costing the town approximately 6.62 per cent.

**Calgary, Alta.**—In connection with the sale of $20,000, 6 per cent., 20-year Calgary Separate School Board bonds to Niblock & Tull, Ltd., at a price of 97.25, reported in these columns on December 15, J. F. Kinahan, superintendent, informs "The Monetary Times" that the issue was for 20-years and not for 10-years as reported. This makes the cost to the board approximately 6.25 per cent.

**Point Grey, B.C.**—Gairdner, Clarke & Co., in joint account with British American Bond Corp. have purchased $30,000, 6 per cent., 3-year debentures at a price of 99, which means an approximate cost to the municipality of 6.37 per cent. Tenders were as follows:

| | |
|---|---|
| Gairdner, Clarke & Co., and British American Bond Corp. | 99.00 |
| Wood, Gundy & Co. | 98.55 |
| A. E. Ames & Co., and Royal Financial Corp. | 96.50 |

**Timmins, Ont.**—Mackay-Mackay have purchased $79,000, 6 per cent., 20-instalment debentures guaranteed by the Province of Ontario, at a price of 102.60, the money costing the town approximately 5.69 per cent. Tenders were as follows:

| | |
|---|---|
| Mackay-Mackay | ·102.60 |
| R. C. Matthews & Co. | 102.59 |
| C. H. Burgess & Co. | 102.19 |
| Gairdner, Clarke & Co. | 101.81 |
| A. E. Ames & Co. | 101.59 |
| McLeod, Young, Weir & Co. | 101.57 |
| Wood, Gundy & Co. | 101.11 |
| Dyment, Anderson & Co. | 101.03 |
| Macneill, Graham & Co. | 100.27 |

**Point Grey, B.C.**—All tenders for the $50,000, 5½ per cent., 20-year and $70,000, 5 per cent., 31-year debentures were rejected by the council. Tenders were as follows:

| | 5½% | 5% |
|---|---|---|
| Wood, Gundy & Co. | 95.62 | 88.39 |
| A. E. Ames & Co. and Royal Financial Corp. | 95.32 | 87.71 |
| Gairdner, Clarke & Co., and British American Bond Corp. | 94.47 | 86.41 |
| Waghorn, Gwynn & Co., and D. Sullivan & Co. | 93.25 | 85.27 |

**Prescott, Ont.**—An issue of $30,000, 5½ per cent., 20-year debentures has been purchased by C. H. Burgess & Co., at a price of 98.87, the money costing the town about 5.60 per cent. Tenders were as follows:—

| | |
|---|---|
| C. H. Burgess & Co. | 98.87 |
| R. C. Matthews & Co. | 98.05 |
| Canada Bond Corp. | 98.00 |
| Municipal Bankers Corp. | 97.22 |
| Gairdner, Clarke & Co. | 96.69 |

**Halifax, N.S.**—A syndicate composed of Johnston & Ward and Royal Securities Corp., were the successful bidders for the $126,750, 5 per cent., 30-year bonds, paying a price of 94.26, which means an approximate cost to the city of 5.39 per cent. Bidding for this issue was keen, there being a spread of about three and a half points between the highest and lowest tender. The following is a list of tenders:—

| | |
|---|---|
| Johnston & Ward, and Royal Securities Corporation | 94.26 |
| Harris Forbes & Co. | 93.07 |
| A. Jarvis & Co. | 93.07 |
| Macneill, Graham & Co. | 92.79 |
| W. F. Mahon & Co. | 92.799 |
| Aird, McLeod & Co. | 92.78 |
| Canadian Bank of Commerce | 92.75 |
| J. C. MacKintosh & Co. | 92.71 |
| R. A. Daly & Co. | 92.59 |
| Wood, Gundy & Co. | 92.44 |
| McLeod, Young, Weir & Co. | 92.38 |
| Eastern Securities Co. | 92.36 |
| Bell, Gouinlock & Co. | 92.30 |
| Gairdner, Clarke & Co. | 92.31 |
| National City Co. | 92.27 |
| R. C. Matthews & Co. | 92.18 |
| Kerr, Flemming & Co. | 92.11 |
| Dominion Securities Corp. | 92.09 |
| Murray & Co. | 92.09 |
| Dyment, Anderson & Co. | 91.94 |
| C. H. Burgess & Co. | 91.30 |
| Housser, Wood & Co. | 90.79 |

**St. Tite, Que.**—An issue of $90,000, 6 per cent., 10-year debentures has been sold to Louis Normand at a price of 99.25, the money costing the municipality about 6.10 per cent. Tenders were as follows. Louis Normand, 99.25; L. O. Beaubien, 99.15; Le Pret Municipal, 98.75; Provincial Securities Ltd., 98.66; Provincial Bank of Canada, 98.52; Municipal Debentures Corp., 98.375; Credit Canadian Ltd., 98.25; and Rene T. Leclerc, Inc., 97.17.

## TELEPHONE CHANGES

The present maximum charge of $2.50 for a person-to-person call and of $1.50 for a station-to-station call will be cut—to $1.40 and $1.00 respectively by the Manitoba Teléphone Commission, it was stated on December 15.

## INCREASE NON-MEDICAL LIMIT

The Excelsior Life Insurance Company has increased the limit of risk on male lives, ages 15 to 45, which may be accepted without examination to $2,000. Unmarried women, or widows will be accepted up to $1,000 only.

## STREETSVILLE LUMBER CO.

The initial dividend on the preferred stock of the Stretsville Lumber Company, Limited, at the rate of 8 per cent. per annum will be paid on January 2 for the period ending January 1 next. It will be recalled that early in October a $50,000 issue of preferred stock of this company was offered to the public by Oscar S. Moxley & Company, and operations were commenced a short time later. The Pannill Door Company of Toronto, which has entered an agreement with the company to purchase its entire output, has agreed to guarantee the dividend on preferred for a period of 10 years. At the present time the Streetsville Company has 30 men in its employ, and is said to be operating at a profit.

## PULP AND PAPER INDUSTRY

### One Hundred Mills in Operation During 1921

The Dominion Bureau of Statistics has just issued a preliminary report on the pulp and paper industry of Canada in 1921 which shows the importance of that industry in the Dominion. The following summary of this report, issued by the Canadian Pulp and Paper Association, gives the principal items of interest.

Total number of mills 100, comprising 40 pulp mills, 27 pulp and paper mills, 33 paper mills. The distribution of these mills among the various provinces was as follows: British Columbia, 4 pulp mills, 2 pulp and paper mills, total 6; Ontario, 8 pulp mills, 13 pulp and paper mills, 18 paper mills, total 39; Quebec, 17 pulp mills, 12 pulp and paper mills, 15 paper mills, total 44; New Brunswick, 5 pulp mills; Nova Scotia, 6 pulp mills.

### Capital Invested

Total capital $378,812,751, distributed as follows: Quebec, $171,477,753; Ontario, $139,666,276; British Columbia, $39,152,823; New Brunswick, $23,394,271; Nova Scotia, $6,121,630. The total capital invested in 1920, according to the Census Report was $347,553,333, so that 1921 shows an increase of $31,259,418.

The total number of employees including executives, technical experts, clerical help and mill employees was 24,611, of whom 21,480 were employed in the provinces of Quebec and Ontario. The total salaries and wages paid was $34,199,090, distributed among the various provinces as follows: Quebec, $16,726,716; Ontario, $12,952,889; British Columbia, $3,205,429; New Brunswick, $1,151,229; Nova Scotia, $162,827.

In all mills making groundwood pulp there were 74 grinders with a 24 hour capacity of 4,808 tons, or a yearly capacity of 1,320,344 tons dry weight and using 343,544 H.P.

In all chemical pulp mills were 159 digesters with a yearly capacity of 1,039,866 tons.

In all mills making paper there were 110 Fourdrinier machines with a 24 hour capacity of 3,945 tons or a yearly capacity of 1,398,766 tons.

### Consumption of Wood

Total consumption of wood was 2,180,578 cords valued at $38,283,262, giving an average cost of $17.55 per cord. This amount consisted of spruce, 1,499,478 cords; balsam, 511,791 cords; hemlock, 122,997 cords; pine, 40,406 cords; poplar, 3,557 cords and other kinds 2,349 cords. Distribution by provinces was as follows:

| | | | |
|---|---|---|---|
| Que. .. .. | 1,111,277 | $19,657,326 | $17.68 |
| Ont. .. .. | 700,589 | 13,378,019 | 19.09 |
| B.C. .. .... | 225,240 | 3,482,007 | 15.45 |
| N.B. .. .. | 121,110 | 1,518,784 | 12.54 |
| N.S. .. .. | 32,362 | 247,126 | 11.05 |
| Total .. | 2,180,578 | $38,283,262 | $17.55 |

In addition to the quantity consumed at the mills, 1,092,533 cords valued at $14,617,610 were exported.

### Production

Total production, 1,549,082 tons of which mechanical 931,560 tons, sulphite 481,984 tons, sulphate 131,337 tons, soda 4,201 tons; of this quantity 97,339 tons of wood pulp valued at $6,407,028 was produced for sale in Canada and 581,200 tons valued at $35,919,185 was for export, leaving 870,543 tons valued at $36,012,065 produced for the use of the mills.

To Invest
**January Funds**

If you are receiving bond interest, dividends or other "end of the year" payments, you will do well to arrange at once for their investment. Government, Municipal and well secured Corporation Bonds are excellent securities in which to entrust such funds. At present prices these Government and Municipal Bonds yield from 5.40% to 6.05%, and Corporation Bonds from 6% to 7.25%.

# *Stock Markets*

Usually at this period of the year when the holidays tend to break the week up, the security markets show a disposition to remain quiet until the turning of the year.

This year, however, there was a reversal of these events and during the past week the Canadian stock markets gave a further and stronger show of strength as compared with previous weeks. Of course there was some irregularity shown in some of the trading, but on the whole there was a considerable strengthening in the general undertone.

With the market closing the year with such a good showing there is every indication that with the turning of the new year there will be a further strengthening and broadening out of the market, which in turn will be reflected by higher price values. All that the market requires is for some security to assume the leadership of the market not only from the trading point of view but also from the price value point of view. During the past month or so there have been several market leaders but their reign was short lived, partially because public opinion was not in a mood at that time to back the leaders. Now, however, the buying public is becoming more and more aggressive on the market and with such support there is no reason why the market should not give a good account of itself during 1923.

Activity on the Canadian security markets during the past week centered more or less around the paper group with Abitibi the central figure in the point of activity. Brompton was also active with the other paper stocks also scoring advances.

Traction securities continued to hold their own during the week with Barcelona the outstanding feature of this group. This security made further advances during the past week closing at a new high for the year. The other traction issue gave a good account of themselves, although one or two of the issues closed slightly lower at the end of the week.

The general industrial list gave a further demonstration of strength practically the entire list moving up to higher levels.

### Bonds Listed.

The Dominion Iron and Steel Co., Ltd., $4,645,000 interim consolidated mortgage 30 year, 5 per cent., sinking fund coupon bonds, currency series, due September 1, 1939, have been admitted to list on the New York Stock Exchange.

### Stock Distribution.

Shareholders and proxies representing 55,780 shares authorized on December 23, the substitution of 19,406 cumulative 7 per cent., preferred shares at $100 par and 225,000 common shares of no par value for the present issues of the Dominion Textile Company. The Royal Trust Company was appointed transfer agents for the re-distribution. The authorization was made without comment at a meeting of shareholders presided over by Sir Charles Gordon, president of the company. In answer to a question he stated that present dividends will be paid on the new issues.

The new shares will be distributed on the basis of one cumulative share for every present non-cumulative share and three common no par shares for every present $100 par share. The capital of the company is being increased from $5,000,000 to $7,500,000 in order to extend cotton buying operations in the southern United States.

### Redeem Bonds.

Notices have been mailed to the bondholders of first and general mortgage bonds of the Imperial Steel Corporation, Limited, that the company is anticipating payment of the coupons due January 1st, and asking them to send their coupons in to the Imperial Trusts Company of Canada after December 21st, and they will be cashed.

## EASTERN SECURITIES BRANCH

The Eastern Securities Co. has opened a branch at Charlottetown, P.E.I., with W. H. V. Dunbar, formerly of the Bank of Nova Scotia staff, in charge.

## MONARCH MORTGAGE DIVIDEND.

At a meeting of directors of the Monarch Mortgage and Investments, Limited, held in Toronto, a dividend at the rate of 8 per cent., per annum was declared on the preference shares for the period ending December 31st, 1922, payable January 15th, 1923, to shareholders of record 31st December, 1922. Earnings for the current year were reported to be well in excess of dividend requirements.

## GREENSHIELDS AND COMPANY

The Montreal Stock Exchange firm of Greenshields & Co., are opening offices in the new Mount Royal Hotel. Two factors that led to Greenshields opening their new offices were—first, that they have a very large out-of-town clientele who would find such an office very handy when visiting Montreal, and—secondly, the large office buildings, such as the Canada Cement, Sun Life, Drummond, and now the new one that is going up at the corner of Peel and St. Catherine Sts., have greatly altered the tone of the uptown district and have brought many very prominent men into that locality.

## BANKING DECISION

In the case of Jones versus Canadian Bank of Commerce Chief Justice Harris of the Supreme Court of Nova Scotia has filed judgment for the defendant with costs. The case was tried before his lordship with a jury at the last term of the court and the Chief Justice submitted questions to the jury, as to whether or not the plaintiff had notice of certain assignments to the bank. These questions were answered in the affirmative by the jury.The jury also found that the bank had notice at the time of the assignments that the McKenzie Company was insolvent. Although the Chief Justice put this later question to the jury, he stated that he thought it of no importance, because in his opinion the assignments were good as before between the parties and against the defendant. He later heard counsel at length and written briefs were received after fully considering the questions raised he gave judgment for the defendant. .

## SAGUENAY PULP AS SECURITY

Becker and Co., Ltd., London, Eng., offer for sale of £300,000 Seven per Cent. 5 Year Secured Notes at 99, redeemable at 105 by five annual payments, beginning January 1, 1924.

The company manufactures, imports and sells wood pulp and other raw materials used in the manufacture of paper, and controls subsidiary companies in France, Italy, Norway, Sweden, Canada and United States. The issued capital consists of £500,000 in ordinary shares and £98,000 in six per cent. tax free Debenture stock. The notes now offered are secured as a first specific mortgage on $1,473,600 (at $4.44 to the £=£331,891), part of $3,200,000 Seven per cent. collateral trust bonds of Saguenay Pulp and Power Co. (Canada), which are, in turn, secured upon assets and contracts, which appear to show an ample margin for interest and redemption. The deed also includes a floating charge on assets of Becker & Company, Limited, amounting to £1,912,000. The notes wil' be redeemed by annual serial blocks of £60,000, from January 1 1924, to January 1, 1928. For investors who favour short term industrial securities, the issue appears comparatively well secured, and was quickly over-subscribed.

## CANADIAN GOLD MINES

An application to list the stock of the Canadian Gold Mines Corporation on the London Stock Exchange has been made. This company was incorporated this year with an authorized capital of $5,000,000 in $1 shares. The whole of the latter were issued, credited fully paid to Mr. Theodore Gross, of New York, in Exchange for the capital stock of three other undertakings owning property in the Porcupine district. The properties consist of claims covering 2,100 acres in the Porcupine area, also the Rochester mine of 182 acres.

## INCREASE IN CROP VALUES

### Due to Higher Yield—Average Prices About the Same as for 1921

The Dominion Bureau of Statistics issued on Dec. 19 a preliminary estimate by provinces of the value of this year's field crops, as compared with the final estimates of the two previous years, 1920 and 1921. The values per unit assigned to each crop represent the averages received locally by farmers. They are subject to revision after the compilation of final returns from crop correspondents in Janary, 1923.

For the whole of Canada, the total value of the principal field crops of 1922, as now preliminarily estimated amounts to $984,139,500, as compared with 931,863,670 in 1921, $1,455,244,050 in 1920 and $1,537,170,100, the highest aggregate for Canada on record. The total for 1922 comprises $333,966,000 for wheat, as compared with $242,936,000 in 1921 and $427,357.300 in 1920; $197,783,000 for oats as against $146,395,300 in 1921 and $280,115,400 in 1920; $33,782,000 for barley, as against $28,254,150 in 1921 and $52,821,400 in 1920; $21,235,000 for rye, as against $15,399,300 in 1921 and $15,085,650 in 1920; $59,872,900 for other grains, as against $48,036,920 in 1921 and $86,296,700 in 1920; $54,253,000 for potatoes, as against $82,147,600 in 1921 and $129,803,300 in 1920; $205,075,000 for hay, clover and alfalfa, as against $280,975,200 in 1921 and $362.053,900 in 1920; and $78,172,600 for other root and fodder crops, as against $87,719,200 in 1921 and $101.710,400 in 1920.

### Average Prices

With few exceptions, the average prices per unit do not differ greatly from those of last year, the prices being as a rule somewhat more. For wheat, the price for 1922 is 85 cents per bushel, as against 81 cents last year. Oats are 39 cents against 34 cents, barley is 46 cents against 47, rye 59 cents against 72 cents, peas $1.81 against $1.96, beans $2.86 against $2.90, buckwheat 80 cents against 89 cents, flax $1.77 against $1.44, potatoes 54 cents against 77 cents, turnips, etc., 27 cents against 34 cents. The abundance of the hay crop, as compared with last year's scarcity is reflected in the price, which is for 1922 $13.45 per ton, as against $23.56 per ton last year. Similarly, alfalfa is $12.84 per ton as against $19.95. By provinces, the total value of the field crops is as follows, the finally estimated totals for 1921 and 1920 being given within brackets: Prince Edward Island $10,388,800 ($14,202,970 in 1921 and $18,530,400 in 1920); Nova Scotia $24 236,000 ($29,553,400 and $47,846,550); New Brunswick $31,657,100 ($38,325,400 and $45,357,300); Quebec $167,599,000 ($219,154,000 and $330,251,000); Ontario $233,556,000 ($239,627,400 and $375,746,900); Manitoba $104,830,000 ($72,135.500 and $133,989,900); Saskatchewan $299,158,000 ($215,635,000 and $271,213,000); Alberta $94,369,600 ($82,780,000 and $204,291,500); British Columbia $18,345,000 ($20,447,000 and $27,017,500.)

PRELIMINARY ESTIMATE OF THE VALUE OF FIELD CROPS IN CANADA, BY PROVINCES, FOR 1922, AS COMPARED WITH THE FINAL ESTIMATES FOR 1920 AND 1921.

## BENEFICIARIES OF "MISSING" MEN

### Ontario Supreme Court Decides Two Cases on Life Insurance Policies

"I know of no authority this court has to declare a missing man dead so that his estate may be distributed, unless there is proof of death," said Justice Orde, who presided over the weekly court session of the Supreme Court of Ontario on Oct. 30th, when the life or death status of two men came up for determination. In one case the court declared a missing man dead, but only for the purpose of paying a two thousand dollar life insurance policy to his mother, and in the other refused to consider an escaped inmate of Brockville Asylum as a dead man, and appoint another person to administer his estate.

### Life Insurance To Be Paid

An application was made on behalf of Mrs. Margaret Connolly, of Lynwood, to have the court declare that her son, James Connolly, missing since 1915, was dead, for the purpose of collecting the proceeds of a $2,000 life insurance policy. The application was brought under the Insurance Act, which provides that a life insurance company must have proof of death before paying the amount of the policy, and which also provides that seven years must elapse in the case of an individual disappearing, before the man can be legally considered dead. This act, however, does not provide for the distribution or the administration of his estate, other than life insurance.

It was represented to the court, that in April, 1915, James Connolly, the insured, had left his home at Lynwood to take up a farm in the west. He accompanied a shipment of household and homesteader's effects. On his wey west he got off a train at Cavers, Ont., a short distance from Fort William, and has not been seen or heard of since, despite efforts which have been put forward by the provincial and C.P.R. police to find him.

The application, which was unopposed, was granted.

### Administration But Not Distribution

A motion to have William Frederick Gault appointed administrator of the estate of Charles Henry Elliott, formerly of North Gower, who escaped from the Brockville Asylum in 1912, was presented by George Kidd. Wills of relatives or kin, which appointed Gault as administrator of estates, which might or might not have an intertwining interest with estate of Charles Henry Elliott, were gone into by Mr. Kidd.

Finally it developed that when Charles Henry Elliott was placed in the asylum, he was a beneficiary under the will of his father, the late William Elliott, who died May 22nd, 1878.

The object of the application was to have the court issue an order appointing Gault as administrator of the estate of the missing man, on behalf of John Richard Elliott, the only surviving kin and a brother of the missing man.

Justice Orde, after hearing Mr. Kidd, said that he knew of no authority the court had to declare a man dead, and distribute his estate, unless there was proof of death. He told Mr. Kidd that the "Absentee Act," might or might not provide for what was sought.

A copy of the Absentee Act was produced and read. but it availed Mr. Kidd nothing in his application, as it provided for the administration of the estate of missing persons, but did not provide for the distribution of their estates. Justice Orde later found out that Gault had been collecting the rental from some five acres of land which practically comprised the estate of Charles Henry Elliott.

His Lordship decided that Gault had no business to do so, and that if any person was entitled to the revenue of the estate or the estate itself, that it should be the brother John Richard Elliott. He dismissed the application, and waived costs.

## WATSON, WALLACE & CO.

Announcement is made of the formation of the new investment house of Watson, Wallace Company, Limited. J. Graeme Watson was formerly secretary-treasurer of the Bankers Bond Corp., Toronto, and H. E. Wallace was also associated with this house. It is the intention of this firm to specialize in government, municipal and high grade corporation securities. Offices have been opened in the Trust and Guarantee Building, 120 Bay street, Toronto.

# Corporation Finance

**Dryden Paper Co.**—At the annual meeting held on December 20 the balance sheet was presented and showed a reduction in the deficit for the year ended September 30 of $96,704. The loss for the period was $225,016 as compared with $321,720 for the previous year. This is the second bad year in succession which the company has had, largely through adverse conditions imposed by the present high United States tariff on finished papers and the entrance into the market of large stocks of European concerns which had been accumulated during the war and which under the pressure of the banks had to be liquidated. The addition to the board of F. A. Sabbaton, a director of the Laurentide Company, was announced.

W. A. Black, president, who acted as chairman, said that largely through the installation of new machinery which will provide a more varied output of kraft paper the company has hopes of making a better showing in the coming year. By keeping the mills running, the deficit had been kept to a lower figure than would have been the case if they had been closed.

Mr. Sabbaton, who recently made an inspection of the company's plant, described the timber limits and water power facilities of the company, which he said should prove profitable properties once an adequate market was established. Losses of timber by fire had been light.

It was moved and passed that in future the annual statement be issued ten days before the annual meeting in order to permit shareholders to study the figures and be in a position to discuss them when the meeting took place.

Following is the balance sheet, which shows an adequate working capital:—

| Assets | 1922 | 1921 |
|---|---|---|
| Cash | $ 90,576 | $ 41,444 |
| Spec. depos. | 240,350 | 416,609 |

*Less reserves.

†Officers and employees.

**British Columbia Electric Ry. C.**—Gross earnings for the month of October at $861,812, compared with $815,973 for October, 1921. Working expenses, maintenance, etc., were down to $604,573, as compared with $631,458, and net income therefore shows a marked improvement standing at $257,239, as compared with $214,515.

Aggregate gross earnings from July 1st, 1921, to October 31st last, totalled $3,375,461, as against $3,375,467 for the corresponding period preceding, and aggregate net earnings for the same period at $948,336 compared with $844,401.

**Dominion Glass Co.**—The board of directors were re-elected and the annual statement adopted at the annual meeting on December 20. Sir Charles Gordon presided.

**Port Hope Sanitary Mfg. C.**—An initial dividend of 6 per cent. on common was announced by directors. The declaration of a dividend is a reflection of improved business, but does not indicate the institution of a permanent policy in this regard. President L. M. Wood pointed out that the business of the company had been fairly good during the last two or three years, during which time no dividends had been paid on the common shares. It was not thought advisable, he added, to place the shares on a permanent dividend basis, because, with the passing of time, the company might require to conserve its cash resources to take care of any needed expansion in building, with its increasing demand for working capital.

**Canadian Western Lumber Co.**—Sales of lumber during the month of October totalled 13,010,400 feet compared with 7,845,783 in October, 1921. Lumber sold totalled 8,246,438 feet, as compared with 6,707,526, and price realized $216,574, as against $157,540.

Aggregate lumber manufactured from January 1 to October 31 totalled 98,591,170 feet, as compared with 79,103,988, and lumber sold 100,857,273 feet, as against 75,941,562. Price realized on sales in this period amounted to $2,404,869, as against $1,990,601.

**Winnipeg Electric Ry. Co.**—Earnings for the month of November show an increase over the previous year and also for the eleven months period. The following is a comparison for the month of November.

| | Nov. 1922 | 1921 |
|---|---|---|
| Gross | $489,662 | $481,818 |
| Op. Ex. and taxes | 353,756 | 366,822 |
| | $135,906 | $114,995 |
| Fixed charges | 55,486 | 57,182 |
| Net divisible income | $ 80,420 | $ 57,813 |
| **11 Months Ending November** | | |
| Gross | $4,960,389 | $5,032,068 |
| Op. Exp. and taxes | 3,705,657 | 3,732,098 |
| | $1,254,732 | $1,299,970 |
| Fixed charges | 633,906 | 650,550 |
| Net divisible inc. | $ 620.826 | $ 649,410 |

## RECEIPTS TAX REGULATIONS

A Canada Gazette extra issued on December 20, contained the regulations governing the stamp tax on receipts of $10 and upward. This tax becomes effective on and after January 1.

The regulations follow:

"Counter sales slips and cash register tickets are not taxable, provided no words implying or stating acknowledgment of the receipt or the payment of money appear thereon.

"Payrolls, signature of employee thereon being receipt for wages, taxable in respect of each such signature.

"Receipts for payment of taxes are taxable. A receipt for money in a deed or mortgage is taxable.

"Receipts for payment of taxes except those given to or by the Dominion Government or a Provincial Government, are taxable.

"Individual freight bills and periodical statements of same, acknowledging receipt of payment, are taxable.

"Custom House brokers' receipts are taxable.

"Letters forwarded by mail, also postcards, acknowledging the payment of money, are regarded as letters and cards, and are not subject to this tax.

"All insurance policies, whether fire, marine, life or casualty, wherein the payment of money is acknowledged, are taxable.

"All insurance receipts, acknowledging the payment of money, are taxable.

"Receipts drawn out of Canada, but not valid until countersigned in Canada, are taxable.

"Voucher cheques and cheques with receipts endorsed thereon, when drawn upon or addressed to a bank are not taxable as receipts.

"Remitter's counterfoil, being part of a taxable express money order, is not taxable as a receipt."

Persons violating or evading the regulations are liable to a penalty not exceeding $100.

**Alabama Power Co.**—The statement of earnings for the month of November, which follows, shows a very large increase over 1921:—

| | Nov. 1922 | 1921 |
|---|---|---|
| Total gross earnings | $641,490 | $414,161 |
| Operating expenses and taxes | 406.057 | 214,586 |
| Net earnings | $235,433 | $190,575 |
| **Twelve Months ending November 30:** | | |
| Total gross earnings | $5,593,473 | $4,504,954 |
| Op. expenses and taxes | 2,884.113 | 2,146,347 |
| Net earnings | $2,709,360 | $2,358,607 |

## CHINESE BANK

Branches of the Chinese Merchants' Bank, incorporated in Hong Kong will be established in Montreal and Toronto within a few weeks. L. N. Lau, president of the bank in New York, announced in Montreal on Dec. 12.

## REBATE ON INSURANCE TO BROKER.

### When Company Assigns.—Decision of Courts, on Fairweather Case.

On a motion for directions (In re Fairweathers, Ltd.) it was held that an insurance broker having paid insurance premiums and charged the insured in his books, may on cancellation of the policies after assignment of the insured rightly apply rebates of premiums on his account against the assignor.

The claimant was an insurance broker in Montreal through whom the insolvent company had effected their fire insurance. It had been the practice of Alloway to place this insurance with different insurers, he paying the premiums and debiting Fairweathers in his books with the payments. In some cases Fairweathers gave him promissory notes or accepted drafts for the premiums so paid, and in others the item was left in Alloway's books as an open account until paid.

Shortly before the assignment, which was made by Fairweathers on the 3rd August 1921, they were indebted to Alloway upon accepted drafts for premiums paid by him on their behalf in the sum of $1028.35.

### Insurance Cancelled.

Prior to the making of the assignment, either on the 3rd August 1921 or a day or two earlier, Fairweathers arranged with Alloway to cancel the policies upon which he had paid the premiums which were represented by the unpaid drafts, and to have the amounts allowed by way of rebate for the unearned premiums paid by the insurance companies to Alloway. The policies were accordingly cancelled and his rebates amounting in all to $732.98 were paid to Alloway and were applied by him in reduction of Fairweathers' indebtedness to him.

Immediately after making the assignment, the trustee effected new insurance through Alloway, the premiums thereon amounting to $1275 but the trustee refused to pay Alloway more than $542.02 claiming that the $732.98 which Alloway had received from the insurance companies by way of rebate was an asset of the insolvent estate and ought either to be paid over to the trustee or to be applied in part payment of the $1275 payable in respect of the new insurance and that Alloway was not entitled to apply the rebate in part payment or by way of set-off against his claim of $1028.35.

### The Broker's Position.

In his decision Justice Orde says: "In the present case the trustee raises no question as to the good faith of the transaction though it is apparent that an arrangement such as this on the eve of the assignment must have had as one of its objects, at least, the intention of protecting the insurance broker in respect of the premiums which he had paid for the insured. But it would clearly have been a hardship and wholly inequitable that the broker who had 'carried' as the insurance phrase is. the insured by paying the premiums for him, should not be able to recoup himself and the estate from the very premiums themselves when refunded by the insurers. If he cannot do so then the insolvents profit to that extent from the transaction.

"An insurance broker occupies in many cases a somewhat peculiar position. He is frequently the agent of both the insurer and the insured, and this relationship gives rise to particular rights and liabilities on the part of the broker. The practice of 'carrying' the insured in some cases places him in a position analagous to that of the insurer himself. And it would seem to be wholly just and equitable that moneys properly coming back into his hands from the insurers in respect of unearned premiums upon cancelled policies should be retained by him. They have in fact come back into the hands of the only person who made the payments and are in a sense earmarked as his money.

"If as in the present case, all element of fraud is eliminated I see no reason why the agent having lawfully received the rebates from the insurers should not be entitled to set them off against the moneys owing by the insured to him, and I accordingly hold that the claimant is entitled to be paid by the trustee the sum of $732.98 which the trustee has retained in his hands the same to be set off by the claimant and applied upon his claim against the insolvent estate."

## BUILDING YOUR BUSINESS

In building a life agency business it is a most valuable asset for the underwriter to associate himself with a Company whose name is his "open-sesame" to the life insurance business in his district.

The North American Life is high in the esteem of the insuring public. Why?

Popular policies, liberal dividends and the great enthusiasm of all our agents is the answer.

Some good agency openings are available.

Correspond with
E. J. HARVEY, Supervisor of Agencies.

## Value Your Securities

As the majority of investment securities are not listed, it is often difficult for individual investors to obtain reliable information regarding the present status of their holdings.
In these days of changing values it is advisable to secure at least once a year recent particulars and the current market prices of your investments.
It is a pleasure for us to supply this service without charge as often as required; and any information given to us will be treated as strictly confidential.
